

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Bin Yuan Greater China Fund (the "Sub-Fund") is a sub-fund of Hereford Funds (the "Fund")

Class CI USD (the "Class") - ISIN: LU1778254844

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The investment objective of the Sub-Fund is to provide long term capital growth, measured in USD, primarily through investment in equities and equity-linked securities of "Greater China Companies".

The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is MSCI China All Shares Net Total Return Index. It is used for the calculation of the performance fee and for performance comparison purposes. The Investment Manager is not in any way constrained by the benchmark index in its portfolio positioning. This means the Investment Manager is taking investment decisions without reference to a benchmark index. The Sub-Fund can deviate significantly from the index.

Greater China Companies are companies having their registered office in Greater China and companies organised and located in countries other than in Greater China where a predominant part of their economic activity, alone or on a consolidated basis, is derived from either goods produced, sales made or services performed in countries such as the People's Republic of China, Hong Kong, Taiwan and Singapore.

Investment exposure will be achieved through equities and equity-linked securities (such as ADRs and GDRs). This also includes investment in China A-Shares through the Shanghai and Shenzhen - Hong Kong Stock Connect markets.

The Sub-Fund may also invest in debt securities, convertible bonds, equities and equity related securities of companies outside Greater China and money market instruments.

The Compartment will not invest in companies which are included in the list of exclusion of the Norges Bank.

For the avoidance of doubt, the Sub-Fund will not invest more than 10%

of its net assets in other undertakings for collective investment.

In exceptional market circumstances and on a temporary basis, the Sub-Fund may hold up to 100% of its net assets in liquid assets and debt instruments (including money market instruments).

Dealing Frequency

The Net Asset Value is calculated each day that is a bank business day in Luxembourg and on which the Chinese stock exchanges and Hong Kong Exchanges and Clearing Limited are open for trading.

The cut-off time to submit subscriptions orders is 4 p.m. Luxembourg time, two bank business days prior the relevant Valuation Day.

The cut-off time to submit redemptions orders is 4 p.m. Luxembourg time, five bank business days prior the relevant Valuation Day.

Distribution Policy

The Class is cumulative. No dividend will normally be distributed.

Currency

The currency of the Class is USD.

Minimum investment and/or holding requirement

The minimum initial subscription and holding amount for the Class is USD 10'000'000.

This Class is reserved to Institutional investors.

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

- The risk category shown is not guaranteed and may shift over time.

- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.

- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The investment objective of the Sub-Fund is to generate long-term capital growth and income by investing in equities and equity-linked securities of Greater China Companies. Hence, the risk/reward profile of the Sub-Fund should correspond to a high risk category on the risk/reward scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.

- **Stock Connect Market Risk:** Chinese "Stock Connect" trading programs may be subject to additional risks related to the enforcement of ownership rights, clearing rules, settlement, trading quotas and operational issues.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund may invest in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which may result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the management company or by external third parties or may be damaged by external events, such as natural disasters.

Charges

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.03%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

These percentages are maximum figures which might be charged by intermediaries, in some cases you might pay less. The actual entry and exit charges can be found out from adviser or distributor.

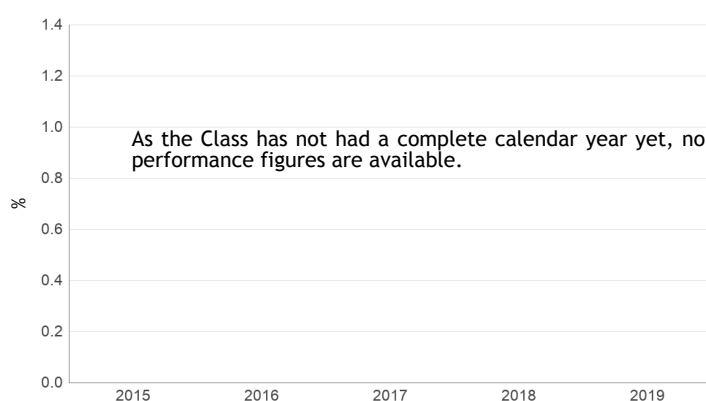

The percentage of ongoing charges is based on an annualized estimation of the fees. This figure may vary from year to year. It excludes:

- Performance fees (if applicable)
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to the Fund's prospectus, section detailing the expenses, which is available online at www.fundsquare.net or at the Fund's registered office.
