The members of the Shariah Committee are

Sh. Nizam Yaquby - resident in Bahrain Dr. Mohammed Elgari - resident in Saudi Arabia

Dr. Aznan Hassan - resident in Malaysia

Directors' Report

The board of directors of the ICAV (each a "Director", together the "Directors" or the "Board") submit their annual report together with the audited financial statements for the financial year ended 31 December 2023 (the "Financial Statements").

ICAV information

HSBC Global Funds ICAV (the "ICAV") was incorporated as an open-ended umbrella type Irish collective asset-management vehicle with limited liability and segregated liability between sub-funds to carry on business under the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") on 28 November 2017 with registration number C173463. The ICAV is registered by the Central Bank of Ireland (the "Central Bank") as an ICAV pursuant to Part 2, Chapter 1 of the ICAV Act and authorised as a UCITS fund pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "2011 UCITS Regulations"), and is also subject to the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations", and together with the 2011 UCITS Regulations, the "UCITS Regulations").

The ICAV is structured as an umbrella fund and may comprise of several portfolios of assets. The share capital of the ICAV may be divided into different classes of shares with one or more classes representing a separate sub-fund comprising a separate pool of assets and which pursues its investment objective through separate investment policies. The assets of each sub-fund will be invested in accordance with the investment objective and policies applicable to such sub-fund as disclosed in the prospectus of the ICAV (the "Prospectus") and the relevant sub-fund's supplement (the "Supplement").

The sole object of the ICAV is the collective investment in either or both of transferable securities or other liquid financial assets referred to in Regulation 68 of the UCITS Regulations, of capital raised from the public which operates on the principle of risk-spreading.

The ICAV currently consists of 14 active sub-funds in operation as at 31 December 2023 (31 December 2022: 11). The ICAV has one inactive sub-fund HSBC Global Funds ICAV – US Government Bond Index Fund which has been inactive since 20 October 2020.

Corporate Governance Statement

The Board is committed to maintaining the highest standards of corporate governance and is accountable to Shareholders for the governance of the ICAV's affairs.

The ICAV's corporate governance practices comply with the following:

- The European Communities (Directive 2006/43/EC) Regulations which requires the inclusion of a corporate governance statement in the Directors' Report;
- ii) The ICAV Act;
- iii) The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV;
- iv) The UCITS Regulations; and
- v) The Irish Funds' Corporate Governance Code for Collective Investment Schemes and Management Companies (December 2011) (the "IF Code").

Compliance with the IF Code

The Directors have adopted the IF Code with effect from 19 December 2017. The Directors have reviewed and assessed the measures included in the IF Code and consider the corporate governance practices and procedures since the adoption of the IF Code as consistent therewith. The Board considers that the ICAV has complied in all material aspects with the IF Code throughout this accounting year and that it complies with the various other corporate governance requirements prescribed by the legislation noted above.

Internal controls and risk management systems

The Directors in conjunction with the Management Company are responsible for establishing and maintaining adequate internal control and risk management systems of the ICAV in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the ICAV's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Directors in conjunction with the Management Company have procedures in place designed to ensure that all relevant accounting records are properly maintained and are readily available, including production of annual and interim Financial Statements. The annual and interim Financial Statements of the ICAV are required to be approved by the Directors and filed with the Central Bank. The annual Financial Statements are required to be audited by an independent auditor who reports annually to the Audit Committee and Board of Directors on their findings. The Directors evaluate and discuss significant accounting and reporting issues as the need arises.

The Management Company has established processes regarding internal control and risk management systems designed to ensure their effective oversight of the financial reporting process. These include appointing the Administrator to maintain adequate accounting records of the ICAV independently of the Investment Managers and the Depositary. The Administrator is authorised and regulated by the Central Bank and complies with the rules imposed by the Central Bank.

The Management Company also periodically reviews the Administrator's financial accounting and reporting routines along with the independent auditor's performance, qualifications and independence. The Administrator has operating responsibility in respect of its internal controls in relation to the financial reporting process and the Administrator's report to the Directors.

The Directors receive regular presentations and review reports from the Management Company, the Depositary, the Investment Managers and the Administrator. The Directors also have an annual process to consider and address any shortcomings identified and measures recommended by the independent auditor.

Dealings with shareholders

The Shareholders invest in sub-funds to gain exposure to the expertise of the Investment Managers and investment strategies. The ICAV has appointed the Distributor who is tasked with actively managing the relationship between the ICAV and Shareholders. The Distributor provides the Board with quarterly updates which form the primary information source for the Directors to understand the views of major Shareholders of the ICAV. A senior representative of the Distributor attends each Board meeting and presents a report providing the Directors with additional information on the ongoing shareholder relationships.

The ICAV also communicates with Shareholders through the annual and interim Financial Statements which aim to provide Shareholders with a full understanding of the ICAV's activities and its results. Additional information is also available on the website at www.assetmanagement.hsbc.com.

The Directors have elected to dispense with the holding of an annual general meeting of Shareholders in accordance with section 89 of the ICAV Act. Notwithstanding this, one or more members of the ICAV holding, or together holding, not less than 10% of the voting rights in the ICAV, or the auditor of the ICAV, may require the ICAV to hold an annual general meeting in a year by giving notice in writing to the ICAV in the previous year or at least one month before the end of that year.

Composition and operation of the board of directors

Unless otherwise determined by the ICAV in general meeting the number of Directors shall not be less than two. Currently the Board of Directors (the "Board") is composed of six Directors, being those listed in General Information. The Directors meet at least quarterly. The Board has also established an Audit Committee comprising of three independent Directors.

The business of the ICAV is managed by the Directors, who exercise all such powers of the ICAV as are, by the Act or by the Instrument of Incorporation of the ICAV, required to be exercised by the ICAV in a general meeting. A Director may, and the ICAV Secretary on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the Chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The principal responsibility of the Directors is oversight of the business affairs of the ICAV and consistent with these oversight responsibilities the Directors have delegated management functions and responsibilities to duly qualified service providers. Such service providers are subject to ongoing oversight by the Directors.

Accounting Records

The Directors believe that they have complied with the ICAV's obligation with regard to accounting records by engaging the services of the Administrator, who employs personnel with appropriate expertise and adequate resources, appropriate systems and procedures to provide the ICAV's finance function. The accounting records are retained at the office of the Administrator at 1 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland.

Directors and secretary

The names of the persons who were Directors at any time during the financial year ended 31 December 2023 are set out on page 1. All the Directors serve in a non-executive capacity. Goodbody Secretarial Limited held the office of secretary (the "ICAV Secretary") throughout the financial year.

Directors' and ICAV Secretary's interests

None of the Directors nor the ICAV Secretary or their respective families held any interest, beneficial or otherwise, in the share capital of the ICAV during or at the end of the financial year.

The Board of Directors are not aware of any contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors had any interest at any time during the year ended 31 December 2023, other than those described in Note 12, 'Related Parties'.

Employees

The governance framework of the ICAV reflects the fact that, as a collective investment scheme, it has no employees and outsources investment management and administration. The Management Company is responsible on a day-to-day basis, under the supervision of the Directors, for providing marketing, investment management and advice services in respect of all sub-funds. The Management Company employs a number of staff across different categories including senior management to oversee their responsibilities.

Review of performance, risks, uncertainties and future developments

The ICAV's overall risk management policy focuses on the agreed risk management mechanisms and techniques that are used by the Investment Managers to measure, manage and report the relevant risks which the sub-funds of the ICAV are or might be exposed to. The main risks arising from investment in the ICAV include, but are not limited to, the risks referred to in Note 4 of these Financial Statements. The value of the assets of the ICAV may be affected by uncertainties such as international political developments or conflicts, changes in government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in applicable laws and regulations.

The ICAV's business activities and performance during the year together with the factors likely to affect its future development, are set out in the Investment Managers' Reports.

The ICAV will continue its investment objective as set out in the relevant sub-fund's Supplement.

Key performance indicators

The key performance indicators monitored for each sub-fund include the performance of the sub-funds and the financial position. The financial position of the ICAV is described in the Financial Statements on pages 41 to 47.

Segregated liability

The ICAV has segregated liability between its sub-funds and accordingly any liability incurred on behalf of or attributable to any sub-fund shall be discharged solely out of the assets of that sub-fund. As of the date of the financial year end the Directors are not aware of any unrecognised existing or contingent liability of any sub-fund of the ICAV.

Significant events during the financial year

- 1. HSBC Global Funds ICAV Global Sukuk UCITS ETF was launched on 18 January 2023. The subfund was listed on London Stock Exchange on 12 September 2023.
- 2. The supplement 1 was updated on 13 February 2023 to reinstate language that was removed in error from the version of the supplement that was noted by the Central Bank of Ireland on 19 October 2022. This related to the wording in the investment policy of HSBC Global Funds ICAV China Government Local Bond UCITS ETF, disclosure that certain share classes for other subfunds are not subject to the stated initial offer price in the supplement, and removal of references to Barclays in the indices for certain sub-funds.
- The supplement 2 was updated on 20 March 2023 to reflect the re-categorisation of the HSBC Global Funds ICAV – Multi-Factor EMU Equity Fund from an Article 6 Sustainable Finance Disclosure Regulation ("SFDR") Fund to an Article 8 SFDR Fund.
- 4. With effect from 6 April 2023 the methodology used to value fixed income securities owned or contracted by HSBC Global Funds ICAV Global Aggregate Bond Index Fund, HSBC Global Funds ICAV Global Corporate Bond UCITS ETF, HSBC Global Funds ICAV Global Emerging Market Government Bond Index Fund, HSBC Global Funds ICAV Global Government Bond UCITS ETF and HSBC Global Funds ICAV China Government Local Bond UCITS ETF was changed to align with that of the methodology of the index tracked by the relevant sub-fund and so is valued using: (i) bid prices only; or (ii) a combination of mid and bid prices.
- The updated prospectus, supplement 1 and instrument of incorporation were issued on 19 April 2023 mainly to include general provisions for ETF share classes and enhancements to dealing cutoffs and settlement for the Global Fixed Income sub-funds.

Significant events during the financial year(continued)

- 6. The updated supplement 1 was issued on 18 May 2023 to reflect name changes for the following sub-funds: HSBC Global Funds ICAV China Government Local Bond UCITS ETF (formerly HSBC Global Funds ICAV China Government Local Bond Index Fund), HSBC Global Funds ICAV Global Corporate Bond UCITS ETF (formerly HSBC Global Funds ICAV Global Government Bond UCITS ETF (formerly HSBC Global Funds ICAV Global Government Bond Index Fund), HSBC Global Funds ICAV Global Sustainable Government Bond UCITS ETF (formerly HSBC Global Funds ICAV Global Sustainable Government Bond Index Fund). The SFDR Annex for HSBC Global Funds ICAV Global Sustainable Government Bond UCITS ETF was also updated to include a disclosure in relation to nuclear energy and fossil gas.
- 7. At the request of the Directors, the authorisation of the following sub-funds was revoked by the Central Bank on 10 July 2023:
 - HSBC Global Funds ICAV Asia (ex Japan) Equity Index Fund;
 - HSBC Global Funds ICAV Asia Equity Index Fund;
 - HSBC Global Funds ICAV Europe ex UK Equity Index Fund;
 - HSBC Global Funds ICAV Eurozone Equity Index Fund;
 - HSBC Global Funds ICAV Global Emerging Markets Equity Index Fund; and
 - HSBC Global Funds ICAV Global Equity ESG Index Fund.
- 8. HSBC Global Funds ICAV Global Sustainable Government Bond UCITS ETF, HSBC Global Funds ICAV China Government Local Bond UCITS ETF and HSBC Global Funds ICAV Global Government Bond UCITS ETF were listed on the London Stock Exchange on 10 July 2023, 14 July 2023 and 24 July 2023 respectively. These sub-funds are listed on Xetra Germany and Borsa Italiana.
- 9. Suzanne Williams was appointed to the Board on 24 July 2023.
- 10. Carmen Gonzalez-Calatayud resigned from the Board on 24 July 2023.
- 11. The supplement 1 was updated on 18 August 2023 to include:
 - name change for HSBC Global Funds ICAV Global Sukuk UCITS ETF (formerly HSBC Global Funds ICAV Global Sukuk Index Fund);
 - the limit on investment in Shariah-compliant collective investment schemes that HSBC Global Funds ICAV – Global Sukuk UCITS ETF can make is reduced from 20% to 10% of its net assets. A prohibition on investing in other sub-funds of the ICAV is also included in the investment policy for this sub-fund: and
 - the minimum initial subscription and minimum holding amount required for future investments in the S5 classes increased to USD 1,000,000,000 or the relevant currency equivalent.
- 12. HSBC Global Funds ICAV Cross Asset Trend Fund was authorised by the Central Bank on 5 September 2023. The updated supplement 2 was issued to reflect the same.
- 13. HSBC Global Funds ICAV Shariah Multi Asset Fund was authorised by the Central Bank on 6 September 2023. The updated supplement 2 was issued to reflect the same.
- 14. The updated supplement 2 was noted by the Central Bank on 18 September 2023 to include updates to the disclosure on money market instruments for the HSBC Global Funds ICAV Cross Asset Trend Fund.
- 15. The updated supplement 1 was noted by the Central Bank on 20 September 2023 mainly to reflect the addition of new share classes in HSBC Global Funds ICAV - Global Corporate Bond UCITS ETF, HSBC Global Funds ICAV - Global Emerging Market Government Bond Index Fund and HSBC Global Funds ICAV - Global Government Bond UCITS ETF.

Significant events during the financial year(continued)

- 16. HSBC Global Funds ICAV Shariah Multi Asset Fund was launched on 02 October 2023.
- 17. HSBC Global Funds ICAV Cross Asset Trend Fund was launched on 05 October 2023.
- 18. HSBC Global Funds ICAV Global Corporate Bond UCITS ETF was listed on London Stock Exchange on 17 October 2023.
- 19. The updated prospectus and supplements were noted by the Central Bank on 17 November 2023. The purpose of this update was to restructure supplement 1 so that details of each of the sub-fund in this supplement would instead be separated into single sub-fund supplements.
- 20. HSBC Global Funds ICAV Multi Factor US Equity Fund was approved by the Central Bank on 14 December 2023.

Significant events since the financial year end

Significant events since the financial year end are disclosed in Note 17.

Connected Persons transactions

The Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 require that any transaction carried out with the ICAV by the Management Company or Depositary to the ICAV and the delegates or sub-delegates of the Management Company or Depositary (excluding any non-group company sub-custodians appointed by the Depositary) and any associated or group companies of the Management Company, Depositary, delegate or sub-delegate ("Connected Persons") must be conducted at arm's length and must be in the best interests of the Shareholders of the ICAV.

The board of directors of the Management Company is satisfied that there are arrangements, evidenced by written procedures, in place to ensure that any transaction carried out with the ICAV by a Connected Person is conducted at arm's length and in the best interests of the Shareholders of the ICAV.

The board of directors of the Management Company is satisfied that all transactions with a Connected Person entered into during the year complied with the requirements that any transaction carried out with the ICAV by a Connected Person is conducted at arm's length and in the best interests of the Shareholders of the ICAV.

Auditor

KPMG Chartered Accountants were appointed as statutory auditor on 19 December 2017 and are willing to continue in office in accordance with section 125 of the ICAV Act.

Audit Committee

The ICAV established an audit committee on 14 December 2021. The Audit Committee currently comprises three independent Non-Executive Directors – Feargal Dempsey as a chair of the Audit Committee, Eve Finn and Peter Blessing.

Results and dividends

The results for the financial year are shown in the Statement of Comprehensive Income. The Board of Directors may declare at its discretion, dividends in respect of each distribution share class of each subfund. Dividend distributions during the financial year are set out in Note 11 of the Financial Statements.

Going concern

Accounting standards require the Board of Directors to make an assessment of the ICAV's ability to continue as a going concern, taking into account all available information about the future, which is at least, but is not limited to, twelve months from the date the accounts are approved. The Board's going concern assessment must be updated to consider all relevant information available up to the date of this assessment.

Having assessed the ICAV's core activities, the financial position, the principal risks and the other matters affecting the future performance of the ICAV included in connection with the Financial Statements, the Directors consider it appropriate to adopt the going concern basis in preparing the Financial Statements. The Directors have arrived at this opinion by considering, among other matters:

- The ICAV's investments comprise readily realisable securities which can be expected to be sold to meet funding requirements if necessary;
- The ICAV's NAV calculations have not been suspended as a result of the difficulties in fair valuing the instruments or for other reasons;
- The ICAV has no material borrowings;
- The ICAV is in a position to meet all current and future expenses. If any of the sub-fund's expenses will exceed the Ongoing Charges Figure in relation to operating the sub-fund, the Investment Manager will cover any shortfall from its own assets; and
- The Investment Manager consolidated its indexing strategy in 2023 as a provider of global, sustainable, thematic and emerging market strategies. The Investment Manager further invested in its indexing infrastructure by delivering an Islamic bond fund and issuing ETF shares to meet different investors' demand.

Diversity report

The Board acknowledges the importance of diversity to enhance its operation. During the selection process for new Directors, the Board is committed to selecting those with diversity of age, gender and educational and professional background and candidates for appointment are selected based on these attributes. The Board's policy is that selection decisions are based on merit and objective criteria, that recruitment is fair and non-discriminatory and within this context promote diversity of gender, social and ethnic backgrounds, cognitive and personal strengths. The Board has not set specific targets in respect of diversity but acknowledges its importance and currently has female representation of 33% and Directors with a wide variety of skills and experience.

The objective of the Board Diversity and Inclusion Policy is to ensure diversity and inclusion is taken into consideration in the succession planning, selection, nomination, operation and evaluation of the Board.

The Board notes the diversity and inclusion policy of HSBC Group (the "Group"), which is focused on building a more diverse and inclusive workforce, regarding diversity and inclusion as a critical component to developing a sustainable and successful business within the Group and is informed by the Group's deep roots in many geographical regions and its international approach. In particular, it is noted that the Group policy is particularly focused on:

- improving the diversity of its workforce;
- fostering open, inclusive and, where appropriate, challenging discussion; and
- · leveraging diversity of thought.

The Board is conscious of its regulatory obligations in relation to Board composition. In considering Board diversity, the Board will also take into account the following non-exhaustive factors:

- 1. the obligation to have two Directors resident in Ireland on the Board;
- 2. the obligation for the Company to comply with the Central Bank's Fitness and Probity Regime;
- 3. the Board's existing arrangements with current Directors;
- 4. the nature, scale and complexity of the Company and its activities;
- 5. the obligation to act in the best interests of investors, including in relation to costs; and
- 6. market sentiment, which may favour the capture of a diverse range of perspectives, insights and challenge on a Board, so as to support good decision-making.

Taking into account the objectives of this ICAV's policy and the factors listed above, new appointments to the Board will be made on merit, taking account of the specific skills and experience, independence and knowledge needed to ensure a rounded Board and the diversity benefits that each candidate can bring to overall Board composition.

Statement of Directors' responsibilities in respect of the Directors' report and the Financial Statements

The Directors are responsible for preparing the Directors' Report and Financial Statements, in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare Financial Statements for each financial year. Under that law they have elected to prepare the Financial Statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

The Financial Statements are required to give a true and fair view of the assets, liabilities and financial position of the ICAV at the end of the financial year and of the increase in net assets attributable to holders of redeemable participating shares in the ICAV for the financial year. In preparing these Financial Statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;

Statement of Directors' responsibilities in respect of the Directors' report and the Financial Statements (continued)

- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the Financial Statements;
- assess the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records, which disclose with reasonable accuracy at any time the assets, liabilities, financial position and increase in net assets attributable to holders of redeemable participating shares in the ICAV and to enable them to ensure that the Financial Statements comply with the ICAV Act and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the ICAV. In this regard they have entrusted the assets of the ICAV to a depositary for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of the Financial Statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the ICAV's website. Legislation in the Republic of Ireland governing the preparation and dissemination of Financial Statements may differ from legislation in other jurisdictions.

The Directors confirm that they have complied with the above requirements in preparing the Financial Statements.

Investment Managers' Report

for the year ended 31 December 2023

Market Commentary

China Bonds

The Chinese bond market rose over the period and yields fell, as inflation remained minimal and the People's Bank of China ("PBoC") eased monetary conditions in order to support the economy, as well as the ailing domestic property market and troubled local governments.

The 10-year government bond yield fell from approximately 2.9% to about 2.6% over the year. Apart from a mild pickup in yields in early January and in the early autumn, the yield remained in a downward trajectory throughout the year. Longer-dated yields followed a similar path, with the 30-year bond yield dropping from just over 3.2% to 2.8%, while the decline in the two-year yield was less marked, as it fell from 2.35% to approximately 2.2%.

The PBoC cut rates mildly and kept liquidity abundant in the money markets to boost economic growth. It lowered the one-year loan prime rate on two occasions, taking it from 3.65% to 3.45%, while it cut its five-year loan prime rate just once, in June, from 4.3% to 4.2%. It also cut the reserve requirement ratio for large banks on two occasions during the year, taking the rate down from 11.0% to 10.5% – the lowest level for 15 years. New bank lending rose to a new all-time high of nearly CNY23 trillion in 2023. The continuing financial risks at major real estate developers and weak balance sheets at the local-government level saw the central bank continuing to pump large amounts of liquidity into the system.

Headline consumer inflation fell, with the annual consumer inflation rate dropping from 2.1% in January to 0% by June, before falling into negative territory in July, where it largely remained for the rest of the year. It hit -0.5% in November – the lowest level for three years. Producer price inflation remained in negative territory throughout the year. It fell by 5.4% in June and marked the steepest decline in the series since late 2015.

Mainland China's economic growth disappointed investors as it appeared to wane following an initial boost after the lifting of its COVID-19-related restrictions in late 2022. The first few months of the year saw several economic indicators strengthen as business activity and consumer spending recovered. However, that burst of activity had begun to wane by the late spring, and economic growth thereafter largely disappointed. Gross domestic product rose at an annual pace of 4.5% in the first quarter, 6.3% in the second quarter, and 4.9% in the third, keeping it largely on track to achieve the government's full-year growth target of 5% – a historically low figure.

Although less directly impacted by the tensions between Russia and Ukraine, Mainland China's relations with the US remained tense owing to the former's support for Russia, and its policy approach towards Taiwan. However, there were some signs of a thawing in US-Sino relations when Presidents Joe Biden and Xi Jinping met in the US in November.

EMU Equities

Continental European equities produced positive returns but underperformed other global markets in aggregate. While Europe benefited from the similar positive trends in inflation and the growing expectation of falling interest rates, economic stagnation and the real prospects of a recession held European equities back in relative terms.

European equities had endured a torrid time in the spring months as a mini-banking crisis, largely concentrated in the US, took hold, which saw Credit Suisse effectively going bankrupt and having to be bailed out by UBS. Equities weakened again alongside other global markets in May as worries grew about whether the US would extend its debt ceiling in time to avoid a technical default, something it did finally manage. They peaked in late July and fell in the late summer and early autumn months owing to rising oil and natural gas prices, growing geopolitical concerns, weak economic data, and largely hawkish signals from the European Central Bank ("ECB"). However, markets enjoyed a substantial rally in the final two months of the year as there were growing indications that interest rates would fall sometime in 2024.

for the year ended 31 December 2023

Market Commentary (continued)

EMU Equities (continued)

Headline inflation continued to ease in the eurozone. It fell from 8.6% in January to 2.4% in November, the lowest level for over two years. Core inflation remained higher at 3.6% in November, still some way above the ECB's mid-term target of 2%.

The ECB raised its key benchmark interest rate six times over the year, taking it from 2.5% to 4.5%, the highest level for 22 years. For much of the year, the ECB President Christine Lagarde warned that the fight against inflation would continue, although she suggested in September that it was possible that rate hikes were completed for now, and no further rate hikes occurred thereafter. By the end of the year, there was widespread speculation that the next move in rates would be downwards.

Economic growth remained sluggish. It barely grew in the first half of the year, rising by just 0.1% quarter on quarter in the first and second quarters of 2023. In the third quarter, gross domestic product fell 0.1%, putting the eurozone at risk of a recession. Household spending across the eurozone was subdued as consumers remained concerned about inflation and the current weak economic prospects. Purchasing managers' indices also worsened over the period, with the composite figure of both manufacturing and services falling into contractionary territory (below 50.0) from June and staying there for the rest of the year. However, the labour market remained relatively robust, with the eurozone unemployment rate falling to an all-time low of 6.4% in June, and again in November.

Emerging Markets Bonds

Emerging market bonds performed strongly over the period, producing double-digit returns in US dollar terms (according to the JPM Global Emerging Market Bond Index), although in sterling terms, the return was lower owing to sterling's strength against the dollar. Returns significantly exceeded those of developed world government bonds, reflecting the higher relative yields on offer and greater risk appetite from investors, as well as strong investor flows into the segment, as the market increasingly discounted a fall in interest rates in 2024. The weaker trend in the US dollar and some improved economic data across emerging markets also supported the sector. Much of the return over the year in emerging market bonds came in the final few months of the year, as bond yields fell significantly.

Headline inflation across the whole of emerging markets slowed, allowing some central banks, for instance, in Brazil and Chile, to cut interest rates. Mainland China also cut interest rates mildly to support its economy and its failing property sector. In India, inflation eased from 6.5% in January to 5.5% in November, having peaked at 7.4% in July, as food and fuel prices eased somewhat. In Mainland China, consumer inflation fell, with the annual consumer inflation rate dropping from 2.1% in January to 0% by June, before falling into negative territory in July, where it largely remained for the rest of the year. It hit -0.5% in November, the lowest level for three years. Producer price inflation remained in negative territory throughout the year. It fell by 5.4% in June and marked the steepest decline in the series since late 2015. In Brazil, consumer inflation fell from 5.8% in January to 4.7% in November. Extreme levels of inflation continued to be seen in some countries. In Argentina, inflation hit 161% in November, and in Turkey, it was at 62% during the same month.

In terms of economic growth, Mainland China's gross domestic product ("GDP") rose at an annual pace of 4.5% in the first quarter, 6.3% in the second quarter, and 4.9% in the third, keeping it largely on track to achieve the government's full-year growth target of 5%, a historically low figure. India's economy was relatively robust, growing by over 7% in the second and third quarters of the year, after growth of 6.1% in the first quarter, as consumer spending picked up and the services side of the economy was strong. Brazil's economic growth was more subdued, with GDP rising by 3.5% and 2.0% in annual terms, in the second and third quarters, respectively, with the agricultural side of the economy recovering well. Mexico's economy achieved over 3% annual growth in the first three quarters of the year, ensuring that the economy has seen 10 consecutive quarters of annual growth.

Market Commentary (continued)

Global Bonds

It was a better year for global bond markets in aggregate in 2023, after a very poor year in 2022.

After a poor 2022, global corporate bond markets recovered, producing strong returns of nearly 10% in US dollar terms, but only just over 3% in sterling terms (according to the Barclays Global Aggregate Corporate Bond Index) owing to sterling's strength against the dollar. Returns exceeded those of government bonds by a large margin, reflecting the higher relative yields on offer and greater risk appetite from investors. Both high-yield and emerging market bond markets performed well, with spreads contracting against government bonds, as the market increasingly discounted a fall in interest rates in 2024. Much of the positive performance over the year in corporate bonds came in the final few months of the year, as bond yields fell significantly.

Government bond markets produced mildly negative returns in aggregate in sterling terms, although these were positive in US dollars owing to sterling's strength over the period. Much of the weakness in government bonds in sterling came in Japanese government bonds. US Treasuries were also marginally weaker, while European and UK bonds produced positive returns. The superior performance from global corporate bond markets reflected the higher relative yields on offer and greater risk appetite from investors. Both high-yield and emerging market bond markets performed well, with spreads contracting against government bonds.

The backdrop to the market was one of steadily falling inflation, a slowing in the pace of rate hikes and, ultimately, a halt to interest-rate hikes by major central banks in the final quarter of the year. Much of the better performance came in the final two months of the year — one of the best short-term periods for government bonds in decades — as bonds rallied strongly on the growing conviction that interest rates would fall in 2024.

Headline inflation rates in most countries continued to drop. In the US, headline inflation fell from 6.4% in January to just 3.1% in November. In the eurozone, it fell from 8.6% in January to 2.4% in November (the lowest level for over two years), while in the UK, it slowed from 10.1% in January to 3.9% in November. However, core inflation (excluding more volatile energy and food prices) remained more persistent in most economies.

During the first part of the year, the major central banks continued to raise rates, but slowed the pace of their hikes. In the final quarter of 2023, though, they left rates completely unchanged, and by the end of the period, many investors were speculating that the major central banks were close to ending their tightening cycle, despite denials. However, while the US Federal Reserve ("Fed") Chairman Jerome Powell and other central bankers warned that rates would probably need to stay high through 2024, this stance was beginning to soften towards year-end, and several policymakers at the Fed and elsewhere began to talk about rate cuts in 2024.

The US 10-year Treasury yield was largely unchanged over the year, opening and ending the year close to 3.8%. However, it hit a 16-year high in the autumn of 5%, before falling significantly in the final months of the year. The US yield curve remained inverted (between long-dated and short-dated maturities) throughout the year – often viewed as a sign of an impending recession – although the inversion had reduced significantly by the end of the year. The 10-year gilt yield also ended the year almost unchanged at 3.5%, having hit a peak of 4.8% in the late summer. The German 10-year bund yield fell from more than 2.5% to 2.0% over the year. The Japanese 10-year bond yield rose from approximately 0.45% to over 0.6% as the BoJ loosened its policy of yield-curve control, allowing 10-year bond yields to fluctuate by a wider margin. The 10-year yield had neared 1.0% at the beginning of November, as the BoJ hinted at tightening monetary policy.

Market Commentary (continued)

Global Equities

Global equities produced strong returns over 2023, driven primarily by falling inflation and the growing conviction that interest rates would fall in 2024. The final two months of the year saw equities soar on this increasing belief that the major central banks: the US Federal Reserve, the European Central Bank and the Bank of England, would implement rate cuts relatively soon. Markets rallied despite rising concerns about events in the Middle East and increasing tensions there, especially in Gaza.

Markets began the year in the ascendancy but were checked in March by a mini-banking crisis in which several sizeable US regional banks had to be rescued, and Credit Suisse bailed out and taken over by UBS. Markets were also unsettled in May by growing fears of a potential US debt default as The United States Congress remained divided about a compromise on government spending plans. However, the debt ceiling was ultimately extended, bringing relief to markets. Markets peaked in early August through September and October as investors became more resigned to the fact that interest rates would likely stay at relatively high levels and as the oil price rallied. However, they ended the year by rallying strongly in the final two months.

Inflation and central banks' response to it continued to be the focus for markets. Headline inflation rates in most countries continued to drop over the period, although core inflation (excluding more volatile energy and food prices) remained more persistent. The major central banks continued to raise rates but slowed the pace of their hikes during the first part of the year. However, they left rates completely unchanged in the final quarter of 2023 and, by the end of the period, many investors were speculating that the major central banks were close to ending their tightening cycle, despite denials by central bankers.

Economic growth was generally sluggish as higher interest rates and the prospect of further rate hikes affected demand. Gross domestic product ("GDP") in the eurozone barely grew, rising by just 0.1% quarter on quarter in the first and second quarters of 2023, before falling by 0.1% in the third. UK GDP growth also fell by 0.1% in the third quarter after zero growth in the second quarter. In the US, annualised GDP growth was relatively robust, and after growth of just over 2% in the first two quarters of the year, GDP grew by 4.9% in the third quarter. Many global institutions such as the International Monetary Fund continued to warn that the global economy was at risk of a further slowdown, with the possibility of recession in some countries.

Japanese Equities

While Japan was a notably strong performer in yen terms over the period, its returns in sterling were significantly lower owing to the strength in sterling against the yen. It produced a positive return but underperformed the MSCI World Index in sterling terms.

Both the TOPIX and Nikkei indices hit their highest levels since 1990 late in the year as investors grew more optimistic that the Japanese economy was close to escaping its decades-long period of deflation. The market also rallied, along with other world markets, on expectations that the pace of global interest-rate hikes might slacken, leading to a revival in the global economy. On the negative side, the deteriorating situation in the Middle East, rising oil prices and some lacklustre economic data negatively affected investor sentiment during the year.

Annual consumer inflation declined over the period, falling from 4.3% in January to 2.8% in November. However, food price inflation remained elevated, hitting 8.8% in July, the highest since 1976. Additionally, Japan's so-called 'core-core' inflation rate (which excludes food and energy costs) rose steadily and hit 4.3% in May (the highest level since the early 1980s), before falling to 3.8% in November.

for the year ended 31 December 2023

Market Commentary (continued)

Japanese Equities (continued)

Despite the inflationary pressures and growing speculation of a policy shift, the Bank of Japan ("BoJ") did not radically alter its ultra-loose monetary stance. While it mildly loosened its yield-curve control policy and allowed 10-year government bond yields to drift higher, the BoJ appeared determined to resist a change to its overall loose policy approach. However, the BoJ Governor Kazuo Ueda did concede in the autumn that growing wage pressures in the economy, if persistent, could force the central bank to alter its stance.

The Japanese economy saw intermittent signs of recovery. Gross domestic product rose by an annualised 5.0% in the first quarter of 2023 and by 3.6% in the second quarter. However, it fell by 2.9% in the third quarter. The BoJ's Tankan survey, a quarterly indicator of economic sentiment across the economy, was buoyant, with the benchmark Large Manufacturers Diffusion Index rising to +10 in the third quarter and falling only mildly to +8 in the fourth quarter.

The yen weakened against the US dollar, depreciating from approximately 131 to 141 over the period. The currency's weakness reflected the divergent policy stances of the Fed and the BoJ. There was talk of intervention to support the yen by the Japanese authorities when the yen fell below 151 in November, but this did not ultimately transpire.

US Equities

US equities were strong over the period and outperformed other global equity markets, driven by hopes that the US Federal Reserve ("Fed") was nearing the completion of its tightening cycle and on the back of largely better-than-expected corporate results.

After a strong January, the market sold off, hitting a low for the year in early March as a mini-banking crisis, which saw three sizeable regional banks fail, unfolded. The market was also dogged by concerns in May that there would be no agreement in the United States Congress about extending the government's permitted debt ceiling, something that was repeated in September. However, these fears were allayed when a deal was hatched between the Republicans and Democrats. The S&P 500 Index hit a more-than-eightmonth high at the end of July, before geopolitical concerns (Ukraine, Gaza and Mainland China's approach to Taiwan) and concerns that interest rates would need to stay higher for longer unsettled market sentiment. However, the market rallied strongly again in November and December as investors discounted falling interest rates in 2024. The Nasdaq Index was a very strong performer throughout the year, as technology stocks soared, led by the so-called "Magnificent Seven", large-cap stocks such as Microsoft and Apple.

Falling headline inflation was a welcome development through the period. Inflation fell from 6.4% in January to just 3.1% in November. Core inflation also fell, from 5.6% in January to 4.0% in November. The Fed raised its funds rate from 4.5% to 5.5% through four hikes of 25 basis points each during the period. However, it did not raise the rate at all from its September policy meeting onwards. While the Fed Chairman Jerome Powell warned that the tightening was not finished and that rates would probably need to stay high through 2024, this stance was beginning to soften towards year-end, and several Fed policymakers began to talk about rate cuts in 2024.

Economic growth remained relatively robust. Annualised gross domestic product grew by 2.2% in the first quarter of 2023 and 2.1% in the second quarter, before climbing by 4.9% in the third. The labour market remained tight for much of the year. Despite a rise in unemployment levels, job creation, notably the non-farm payrolls, generally exceeded forecasts, while initial jobless claims fell to their lowest levels of the year in September and early October. However, job vacancies began to fall in the final months of the year.

Tracking Error

A realised tracking error is an annualised standard deviation of the difference in monthly returns between a sub-fund and its benchmark index. The tracking error shows the consistency of returns relative to the benchmark index over a defined financial period of time.

An anticipated tracking error is based on the expected volatility of differences between the returns of a subfund and the returns of its benchmark index.

For physically replicating sub-funds, the investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities that make up the benchmark index, in similar proportion to the weights presented in the benchmark index.

For non-replicating sub-funds, the investment management approach aims to match the main risk characteristics of the benchmark index by investing in a portfolio that is primarily made up of securities that represent the benchmark index. The aim is to generate a return which is as close as practicable to the total return of the index net of transaction costs and gross of fees and other costs.

The primary drivers represent where the impact makes a material difference to the sub-fund's performance to deviate from the underlying index. The primary drivers impacting tracking difference include withholding tax, accrued capital gains tax, securities lending, transaction costs from rebalancing, holding a proxy future, as a result of HSBC Group policy to exclude banned weapon stocks, sampling techniques and holding American Depositary Receipts and Global Depositary Receipts. These impacts can be either positive or negative depending on the underlying circumstances. The table below and the relevant footnotes indicate the primary drivers impacting tracking difference gross of the total expense ratio and where realised tracking difference is greater than the anticipated tracking error.

^{^*}The gross percentage is calculated on a daily basis by dividing the latest daily NAV against its most recent daily NAV and the resulting answer is then deducted by one. The resulting answer is multiplied by the corresponding daily change in the index to arrive at the daily gross return percentage. The accumulation of all the daily return percentages gives the yearly gross performance percentage. The performance percentages disclosed are not deemed to be directly reconcilable to the Financial Statements. Also it allows the users to understand the relevance and reliability of the amounts quoted.

^{^*}The gross percentage is calculated on a daily basis by dividing the latest daily NAV against its most recent daily NAV and the resulting answer is then deducted by one. The resulting answer is multiplied by the corresponding daily change in the index to arrive at the daily gross return percentage. The accumulation of all the daily return percentages gives the yearly gross performance percentage. The performance percentages disclosed are not deemed to be directly reconcilable to the Financial Statements. Also it allows the users to understand the relevance and reliability of the amounts quoted.

[^] Calculation of tracking error is explained in detail on page 18.

^{*}For hedged share classes, some data will be not applicable as there is no hedged index return for comparison.

^{^*}The gross percentage is calculated on a daily basis by dividing the latest daily NAV against its most recent daily NAV and the resulting answer is then deducted by one. The resulting answer is multiplied by the corresponding daily change in the index to arrive at the daily gross return percentage. The accumulation of all the daily return percentages gives the yearly gross performance percentage. The performance percentages disclosed are not deemed to be directly reconcilable to the Financial Statements. Also it allows the users to understand the relevance and reliability of the amounts quoted.

^{^^*}Calculation of tracking error is explained in detail on page 18.

for the year ended 31 December 2023

HSBC Global ICAV – Multi-Factor EMU Equity fund

The sub-fund underperformed its market cap weighed index in 2023. While our industry exposure contributed to performance, our styles exposure and stock selection weighed on performance.

In 2023, alpha style performance was negative in the economic and monetary union ("EMU") of the European Union's region. The defensive low risk factor finished the year as the best performing factor, especially driven by its strong performance in March 2023 when markets witnessed the instability of the banking sector and the collapse of Credit Suisse. However, it lost some of its gain in the last two months of the year when markets rallied sharply in the hope of upcoming rate cuts for 2024 but finished the year positive. It was closely followed by the defensive quality factor which demonstrated resilience in the turbulent market conditions, especially in the second half of the year, delivering a positive performance at year end. The cyclical value factor was also rewarded at year end but traded sideways in the year and was mostly driven by the third quarter, where signs of higher for longer interest rates and rising bond yields supported valuation measures in both developed and emerging markets. The cyclical size factor was negatively impacted in the year especially in the first trimester when artificial intelligence-related mega-cap rallied, but also in general as smaller cap companies struggled in the high interest rate environment. Finally, the more dynamic industry momentum factor struggled in 2023 and finished the laggard factor as its performance worsen in the last two months of the year.

On a sector basis, our underweight exposures to materials and consumer staples contributed to performance. On a stock level basis, our underweight exposures to L'Oreal and Unicredit coupled with our overweight allocation to Valeo Se were the main detractor of performance.

HSBC Global ICAV – Multi-Factor Worldwide Equity fund

The sub-fund slightly outperformed its market cap weighed index in 2023. Our exposure to styles was the main contributor to performance while our industry allocation and stock selection detracted performance.

In 2023, global alpha style performance was positive. The cyclical value factor finished as the best performing factor, driven especially by the third quarter of the year, where signs of higher for longer interest rates and rising bond yields supported valuation measures in both developed and emerging markets. The defensive low risk factor was also rewarded as it was well protected in some of the risk-off market conditions in 2023. It suffered a bit in the last two months of the year when markets rallied sharply in the hope of upcoming rate cuts for 2024, however, it managed to finish the year positive. The defensive quality factor ranked in the middle amongst factors, demonstrating resilience in the turbulent market conditions witnessed in 2023 delivering a positive performance at year end. The more dynamic industry momentum factor also managed to finish above the line despite a more sideways performance in the year. Meanwhile, the cyclical zize factor was very negatively impacted in the year especially in the first trimester when artificial inteligence-related mega-cap rallied, but also in general as smaller cap companies struggled in the high interest rate environment.

Our underweight allocation to consumer staples benefitted the sub-fund, however, it was offset by an underweight exposure to financials.

At stock level, an overweight allocation to 3i Group Plc, contributed to performance in the year, however, our underweight allocation to Nvidia, which returned over 200% in the year detracted the performance of the sub-fund.

for the year ended 31 December 2023

Compliance with the Sustainable Finance Disclosure Regulation (SFDR) and Taxonomy Regulation

Article 6 SFDR Funds

The sub-funds listed below do not promote environmental and/or social characteristics within the meaning of Article 8 SFDR or do not have a sustainable investment objective within the meaning of Article 9 SFDR. The sub-funds are required to comply with the requirements of Article 6 SFDR and are categorised and referred to as Article 6 SFDR funds (the "Article 6 SFDR Funds"):

```
HSBC Global Funds ICAV – China Government Local Bond UCITS ETF
HSBC Global Funds ICAV – Cross Asset Trend Fund
HSBC Global Funds ICAV – Global Aggregate Bond Index Fund
HSBC Global Funds ICAV – Global Corporate Bond UCITS ETF
HSBC Global Funds ICAV – Global Emerging Market Government Bond Index Fund
HSBC Global Funds ICAV – Global Equity Index Fund
HSBC Global Funds ICAV – Global Government Bond UCITS ETF
HSBC Global Funds ICAV – Global Sukuk UCITS ETF
HSBC Global Funds ICAV – Japan Equity Index Fund
HSBC Global Funds ICAV – Multi-Factor Worldwide Equity Fund
HSBC Global Funds ICAV – Shariah Multi Asset Fund
HSBC Global Funds ICAV – US Equity Index Fund
```

The investments underlying the Article 6 SFDR Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Article 8 SFDR Funds

The sub-funds listed below promote environmental and/or social characteristics within the meaning of Article 8 SFDR (the "Article 8 SFDR Fund"):

```
HSBC Global Funds ICAV – Global Sustainable Government Bond UCITS ETF HSBC Global Funds ICAV – Multi-Factor EMU Equity Fund
```

During the course of the year, regulation around sustainability-related disclosures continued to evolve, through the SFDR and the EU Taxonomy Regulation and their associated regulatory technical standards and available guidance. Additional disclosure requirements under SFDR Level 2 are applicable to all annual reports published on or after 1 January 2023 and such disclosures as they relate to the sub-funds can be found in the Appendix - Sustainability Finance Disclosure Regulation Periodic Reports Disclosures - on page 678 of this report. Such disclosures have in part been prepared using data sourced from third party data providers which was available as at the date of which the disclosures were produced. Similarly, the activities reported in the disclosures may be an output of proprietary analysis, which in turn may utilise data published by underlying investee companies. It has been observed that the availability of data, both from third party data providers and underlying investee companies, continues to be challenging in some respects. Additionally, there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in Appendix - Sustainability Finance Disclosure Regulation Periodic Reports Disclosures - on page 682 of this report should consequently be read and understood in light of these continuing challenges. With the assistance of the Management Company and the Investment Managers, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant third party and investee companies' data in this regard.

Annual Depositary Report to the Shareholders

We, HSBC Continental Europe, appointed Depositary to HSBC Global Funds ICAV (the "ICAV") provide this report solely in favour of the Shareholders of the ICAV for the year ended 31 December 2023 ("the Accounting Period"). This report is provided in accordance with the UCITS Regulations - European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("the Regulations"). We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the ICAV for the Accounting Period and we hereby report thereon to the Shareholders of the Company as follows;

We are of the opinion that the ICAV has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documents and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documents and the Regulations.

On behalf of HSBC Continental Europe

HSBC Continental Europe

1 Grand Canal Square, Grand Canal Harbour, Dublin 2, D02 P820, Ireland Tel: +353-1-635-6000 Website: www.hsbc.ie

HSBC Continental Europe has a registered branch in Ireland (registration number 908966) having its registered office at 1 Grand Canal Square, Grand Canal Harbour, Dublin 2, D02 P820 and is regulated and supervised by the Central Bank of Ireland as a depositary for Irish authorised investment funds and otherwise regulated by the Central Bank of Ireland for conduct of business rules. HSBC Continental Europe is a company incorporated under the laws of France as a société anonyme (registered number 775 670 284 RCS Paris), having its registered office at 38 Avenue Kléber, 75116 Paris, France. HSBC Continental Europe is supervised by the European Central Bank, as part of the Single Supervisory Mechanism, the French Prudential Supervisory and Resolution Authority (l'Autorité de Contrôle Prudentiel et de Résolution) as the French National Competent Authority and the French Financial Markets Authority (l'Autorité des Marchés Financiers) for the activities carried out over financial instruments or in financial markets

Report on the audit of the financial statements

Opinion

We have audited the Financial Statements of HSBC Global Funds ICAV ('the ICAV') for the year ended 31 December 2023 set out on pages 41 to 628, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and related notes, including the material accounting policies set out in note 2.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union. In our opinion:

- the Financial Statements give a true and fair view of the assets, liabilities and financial position of the ICAV as at 31 December 2023 and of its increase in net assets attributable to holders of redeemable participating shares for the year then ended;
- the Financial Statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the Financial Statements have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the Audit Committee.

We were first appointed as auditor by the Directors on 17 January 2019 prior to the ICAV becoming a public interest entity. The period of total uninterrupted engagement is for the 1 financial year ended 31 December 2023 as a public-interest entity and 6 years in total. We have fulfilled our ethical responsibilities under and we remain independent of the ICAV in accordance with, ethical requirements applicable in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority ("IAASA") as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Conclusions relating to going concern

In auditing the Financial Statements, we have concluded that the Director's use of the going concern basis of accounting in the preparation of the Financial Statements is appropriate. Our evaluation of the director's assessment of the entity's ability to continue to adopt the going concern basis of accounting included:

Our knowledge of the ICAV and the asset management industry to identify the inherent risks to the Company's business model and analysing how those risks might affect the ICAV's financial resources or ability to continue operations over the going concern period. The risks that we considered most likely to adversely affect the ICAV's available financial resources over this period related to the Investment Managers' intention to continue to manage the portfolio, the Directors' assessment of the operational resilience of the ICAV, and the valuation of financial assets including market volatility, interest rate and currency risks, and counterparty risks

We also considered less predictable but realistic second order impacts that could affect the ICAV such as the impact of current geopolitical conflicts on the portfolios of the sub-funds of the ICAV.

We considered whether the going concern disclosure in the Financial Statements gives an appropriate description of the Directors' assessment of going concern, including the identified risks and dependencies.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the Financial Statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Detecting irregularities including fraud

We identified the areas of laws and regulations that could reasonably be expected to have a material effect on the Financial Statements and risks of material misstatement due to fraud, using our understanding of the entity's industry, regulatory environment and other external factors and inquiry with the Directors. In addition, our risk assessment procedures included:

- Inquiring with the Directors and other management as to the ICAV's policies and procedures regarding compliance with laws and regulations, identifying, evaluating and accounting for litigation and claims, as well as whether they have knowledge of non-compliance or instances of litigation or claims.
- Inquiring of Directors and the Audit Committee as to the ICAV's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Inquiring of Directors and the Audit Committee regarding their assessment of the risk that the Financial Statements may be materially misstated due to irregularities, including fraud.
- Inspecting the ICAV's regulatory and legal correspondence, if any.
- Reading Board and Audit Committee meeting minutes.
- Performing planning analytical procedures to identify any usual or unexpected relationships.

We discussed identified laws and regulations, fraud risk factors and the need to remain alert among the audit team.

Firstly, the ICAV is subject to laws and regulations that directly affect the financial statements including companies and financial reporting legislation. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

Secondly, the ICAV is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the Financial Statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 and certain aspects of the ICAV legislation recognising the financial and regulated nature of the ICAV's activities.

Auditing standards limit the required audit procedures to identify non-compliance with these non-direct laws and regulations to inquiry of the Directors other management and inspection of regulatory and legal correspondence, if any. These limited procedures did not identify actual or suspected non-compliance.

We assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. As required by auditing standards, we performed procedures to address the risk of management override of controls. On this audit we do not believe there is a fraud risk related to revenue recognition.

In response to the fraud risks, we also performed procedures including:

- Identifying journal entries to test based on risk criteria and comparing the identified entries to supporting documentation.
- Assessing the disclosures in the Financial Statements.

As the ICAV is regulated, our assessment of risks involved obtaining an understanding of the legal and regulatory framework that the ICAV operates and gaining an understanding of the control environment including the entity's procedures for complying with regulatory requirements.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the Financial Statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the Financial Statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remains a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the Financial Statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In arriving at our audit opinion above, the key audit matters, in decreasing order of audit significance, were as follows:

Accuracy, valuation and ownership of financial assets/liabilities at fair value through profit or loss USD 22,495,704,646.

Refer to page note 2 of the Financial Statements (accounting policy) and note 4 (Risks associated with financial instruments)

The key audit matter

The ICAV's financial assets make up 98.9% of total assets and financial liabilities make up 37.5% of total liabilities and are considered to be the key driver of the ICAV's results.

While the nature of the ICAV's financial assets/liabilities do not require significant level of judgement because they comprise mainly of liquid, quoted investments, due to their significance in the context of the Financial Statements as a whole, the accuracy, valuation and ownership of the calculation of financial assets/liabilities at fair value through profit or loss was identified as the matter which had the greatest effect on our overall audit strategy and allocation of resources in planning and completing our audit.

For the reasons outlined above the engagement team determine this matter to be a key audit matter.

How the matter was addressed in our audit

Our audit procedures included Documenting the process in place to record transactions and value the portfolio of investments;

-With the assistance of our valuation specialists, we agreed the accuracy and valuation of 99.87% of the financial assets/liabilities portfolio to prices published by independent pricing sources and we independently revalued the remaining 0.13% of the portfolio using observable inputs; and -Obtained independent external confirmation of of 99.99% of the positions held in the investment portfolio from the depositary/ broker and reconciling them to the ICAV's records. We found material errors in ownership which were corrected. No other material misstatements were identified by our audit procedures over the accuracy, valuation and ownership of the calculation of financial assets at fair value through profit or loss.

Our application of materiality and an overview of the scope of our audit

Materiality for the Financial Statements as a whole was set at USD 111m (2022: USD 75.5m), determined with reference to a benchmark of net assets (of which it represents 0.5% (2022: 0.5%).

In applying our judgement in determining the most appropriate benchmark, the factors, which had the most significant impact were:

- the elements of the financial statements (for example, total assets, net asset value, total investment income and increase in net assets attributable to holders of redeemable participating shares); and
- the items on which attention of the users of the ICAV's financial statements tends to be focused.

In applying our judgement in determining the percentage to be applied to the benchmark, the following qualitative factors, which had the most significant impact, increasing our assessment of materiality were:

- the stability of the business environment in which it operates.

We applied ICAV materiality to assist us determine the overall audit strategy.

Performance materiality for the Financial Statements as a whole was set at USD 83.2m (2022: USD 56.6m), determined with reference to a benchmark of net assets, of which it represents 75% of materiality (2022: 75%).

In applying our judgement in determining performance materiality, the following factors were considered to have the most significant impact on our assessment of performance materiality:

- entity level control deficiencies, such as in the control environment;
- the number and severity of deficiencies in control activities, including those that may be pervasive;
- the number and/or value of detected misstatements;
- the value of uncorrected misstatements, including the cumulative current period effect of immaterial prior period uncorrected misstatements; and
- management's attitude towards correcting misstatements.

We applied the ICAV's performance materiality to assist us in determining what risks were significant risks for the ICAV.

We reported to the Audit Committee and Board of Directors any corrected or uncorrected identified misstatements exceeding USD 5.5m (2022: USD 3.75m), in addition to other identified misstatements that warranted reporting on qualitative grounds.

Our audit was undertaken to the materiality and performance materiality level specified above and was all performed by a single engagement team in Dublin, Ireland

Other information

The Directors are responsible for the other information presented in the Annual Report together with the Financial Statements. The other information comprises the information included in General Information, HSBC Global Asset Management Shariah Committee, Directors' Report, Investment Managers' Report, Annual Depositary Report to the Shareholders, Portfolio Changes (unaudited), Other Additional Disclosures (unaudited), Annual Shariah Compliance Report and Appendix - Sustainability Finance Disclosure Regulation Periodic Reports Disclosures (unaudited).

The Financial Statements and our Auditor's Report thereon do not comprise part of the other information. Our opinion on the Financial Statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our Financial Statements audit work, the information therein is materially misstated or inconsistent with the Financial Statements or our audit knowledge. Based solely on that work undertaken during the course of the audit, we have not identified material misstatements in the other information.

Opinion on other matter prescribed by the Irish Collective Asset-management Vehicles Acts 2015 to 2021

In our opinion, the information given in the Directors' Report is consistent with the Financial Statements.

Matters on which we are required to report by exception

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 requires us to report to you, if in our opinion, the disclosures of Directors' remuneration specified by law are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the Financial Statements

As explained more fully in the Statement of Directors' responsibilities set out on page 11 and 12, the Directors are responsible for: the preparation of the Financial Statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error; assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

A fuller description of our responsibilities is provided on IAASA's website at https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financialstatements/.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the shareholders of the ICAV, as a body, in accordance with the Section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAVs shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

¹Net loss on financial assets and liabilities at fair value through profit or loss is to includes interest on fair value through profit or loss (Refer to Note 16).

 $^{^2\}mbox{Financial}$ assets of transferable securities include interest receivable.

^{*2022} cash flow has been restated as per 2023.

for the year ended 31 December 2023

1. The reporting entity HSBC Global Funds ICAV (the "ICAV")

The ICAV was incorporated in Ireland as an open-ended umbrella type Irish collective asset-management vehicle with segregated liability between sub-funds to carry on business under the ICAV Act on 28 November 2017 with registration number C173463. The ICAV is registered by the Central Bank of Ireland as an ICAV pursuant to Part 2, Chapter 1 of the ICAV Act and authorised as a UCITS fund pursuant to the 2011 UCITS Regulations, and is also subject to the Central Bank UCITS Regulations.

The assets of each sub-fund will be invested separately in accordance with the investment objective and policies of each sub-fund. Moreover, any liability incurred on behalf of or attributable to any sub-fund may only be discharged solely out of the assets of that sub-fund and the assets of the other sub-funds may not be used to satisfy the liability.

The sole object of the ICAV is the collective investment in either or both of transferable securities or other liquid financial assets referred to in Regulation 68 of the 2011 UCITS Regulations, of capital raised from the public which operates on the principle of risk-spreading.

As at 31 December 2023, the ICAV has 14 sub-funds in operation (31 December 2022: 11).

The ICAV appointed HSBC Investment Funds (Luxembourg) S.A. as Management Company and HSBC Investment Funds (Luxembourg) S.A. appointed HSBC Global Asset Management (UK) Limited to act as Investment Manager for all of the sub-funds except for HSBC Global Funds ICAV – Multi-Factor EMU Equity Fund. HSBC Investment Funds (Luxembourg) S.A. appointed HSBC Global Asset Management (France) to act as Investment Manager for HSBC Global Funds ICAV – Multi-Factor EMU Equity Fund.

Each of the sub-funds which are registered with the Securities and Futures Commission (the "SFC") in Hong Kong are regulated under an equivalent jurisdiction in the form of the UCITS Regulations, therefore the SFC accept UCITS Regulations. While the SFC recognises that annual reports of recognised jurisdiction schemes will vary in content, annual reports are expected to offer investors comparable disclosure. Annual reports of recognised jurisdiction schemes will generally be reviewed by the SFC on the basis that they already comply in substance with the Hong Kong disclosure requirements.

2. Material accounting policies

(a) Basis of accounting

The ICAV has consistently applied the following accounting policies to all periods presented in these financial statements, except if mentioned otherwise. In addition, the ICAV adopted 'Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)' from 1 Jaunuary 2023. The amendments require the disclosure of 'material' rather than 'significant' accounting policies. Although the amendments did not result in any changes in accounting policies themselves, they impacted the accounting policy information disclosed (in this Note) in certain instances. Set out below are the material accounting policies.

The Financial Statements have been prepared in accordance with EU IFRS the ICAV Act and the UCITS Regulations. The Financial Statements relate to HSBC Global Funds ICAV (encompassing all sub-funds).

Interest income and interest receivable on financial assets at fair value through profit or loss has been reclassified to net loss on financial assets and liabilities at fair value through profit or loss in Statement of Comprehensive Income and financial assets at fair value through profit or loss in Statement of Financial Position and the corresponding adjustment has been made to restate the comparative figures in the relevant sub-funds. For the workings of restatement of the interest receivable please refer to Note 2 (t).

for the year ended 31 December 2023

2. Material accounting policies

(a) Basis of accounting (continued)

The comparative figures included in the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and Statement of Cash Flows relate to the balances as at and for the year ended at 31 December 2022.

(b) Basis of measurement

The Financial Statements have been prepared on a going concern basis, applying the historical cost convention, except for the non-derivative financial instruments valued at fair value through profit or loss and derivative financial instruments which have been valued at fair value through profit or loss.

Accounting standards require the Board of Directors to make an assessment of the ICAV's ability to continue as a going concern, taking into account all available information about the future, which is at least, but is not limited to, twelve months from the date the accounts are approved.

Having assessed the ICAV's core activities, the financial position, the principal risks and the other matters affecting the future performance of the ICAV included in connection with the Financial Statements, the Directors consider it appropriate to adopt the going concern basis in preparing the Financial Statements. The Directors have arrived at this opinion by considering, among other matters:

- The ICAV's investments comprise readily realisable securities which can be expected to be sold to meet funding requirements if necessary;
- The ICAV's NAV calculations have not been suspended as a result of the difficulties in fair valuing the instruments or for other reasons;
- The ICAV has no material borrowings; and
- The ICAV is in a position to meet all current and future expenses. If any of the sub-fund's expenses will exceed the Ongoing Charges Figure in relation to operating the sub-fund, the Investment Manager will cover any shortfall from its own assets.

(c) Functional and presentation currency

(i) Presentation currency of the ICAV

The ICAV does not have a functional currency as it does not operate or transact in an economic environment and is structured as an umbrella fund for the segregated sub-funds. The ICAV's presentation currency is USD.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(c) Functional and presentation currency (continued)

(ii) Functional and presentation currency of the sub-funds

The Financial Statements of the sub-funds other than of HSBC Global Funds ICAV – Cross Asset Trend Fund, HSBC Global Funds ICAV - Multi-Factor EMU Equity Fund and HSBC Global Funds ICAV - Japan Equity Index Fund are presented in USD. The Financial Statements of HSBC Global Funds ICAV – Cross Asset Trend Fund and HSBC Global Funds ICAV - Multi-Factor EMU Equity Fund are presented in EUR and HSBC Global Funds ICAV - Japan Equity Index Fund are presented in JPY. All amounts have been rounded to the nearest USD, EUR and JPY unless otherwise indicated.

Functional currency is the currency of the primary economic environment in which the sub-funds operate. If indicators of the primary economic environment are mixed, then the management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The sub-funds' investments and transactions are denominated in USD except HSBC Global Funds ICAV - Multi-Factor EMU Equity Fund, HSBC Global Funds ICAV - Japan Equity Index Fund and HSBC Global Funds ICAV - Cross Asset Trend Fund. The expenses (including management fees, custodian fees and administration fees) are denominated and paid mostly in USD except HSBC Global Funds ICAV - Multi-Factor EMU Equity Fund, HSBC Global Funds ICAV - Japan Equity Index Fund and HSBC Global Funds ICAV - Cross Asset Trend Fund. Accordingly, management has determined that the functional currency of the sub-funds is USD except HSBC Global Funds ICAV - Multi-Factor EMU Equity Fund, HSBC Global Funds ICAV - Cross Asset Trend Fund, the functional currency of which is EUR and HSBC Global Funds ICAV - Japan Equity Index Fund, the functional currency of which is JPY.

(iii) Translation and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of Financial Position date.

Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within net gain/(loss) on foreign exchange.

Foreign exchange gains and losses relating to the Financial Assets and Liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income as part of Net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(c) Functional and presentation currency (continued)

(iv) Presentational translation

For the purpose of presenting the Financial Statements of the ICAV:

- the Statement of Financial Position of the sub-funds with functional currencies other than US Dollar were translated to US Dollars at the exchange rate ruling at 31 December 2023;
 and
- the Statement of Comprehensive Income, proceeds from redeemable participating shares issued, redemptions of redeemable participating shares, equalisation and Statement of Cash Flows of the sub-funds with functional currencies other than US Dollar were translated at the US Dollar average monthly rates where those rates represent a reasonable approximation of actual rates.

The translation method resulted in a foreign currency translation amount of USD 11,053,488 (31 December 2022: USD (27,396,545)) due to the use of average rates as referred to above and the movement of closing exchange rates between 31 December 2023 and 31 December 2022. This has no impact on the net asset value per share of each of the sub-funds.

(d) Judgements and estimates

The preparation of Financial Statements in conformity with IFRS as adopted by the EU, requires the Board to make judgements, estimates and assumptions which affects the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors which are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities which are not readily apparent from others.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a regular basis. Revisions to accounting estimates are recognised in the financial year in which the estimates are revised and in any future periods affected.

Judgements

The determination of what constitutes an active market and what inputs are "observable" requires judgement by the Board when considering fair value measurement principles and fair value hierarchy disclosures. The determination of the sub-funds functional currencies also requires judgment. Information about judgements made in applying accounting policies that have effects on the amounts recognised in the Financial Statements is included in Note 2 (C i and G iv).

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a risk of resulting in an adjustment to the carrying amounts and levelling classification of assets and liabilities within the year ending 31 December 2023 and 31 December 2022 is included in Note 4 (e).

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(e) New standards, amendments and interpretations effective from 1 January 2023

| New or amended standards | Impact on Financial Statements |
|--|--|
| Insurance Contracts (Amendments to IFRS 17) | The application of the Amendment resulted in no material changes to the ICAV's Financial Statements. |
| Definition of Accounting Estimates (Amendments to IAS 8) | The application of the Amendment resulted in no material changes to the ICAV's Financial Statements. |
| Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) | The application of the Amendment resulted in no material changes to the ICAV's Financial Statements. |
| Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12 international tax reform) | The application of the Amendment resulted in no material changes to the ICAV's Financial Statements. |

(f) New standards, amendments and interpretations effective for future reporting financial periods that have not been early adopted

A number of new standards are effective for annual periods beginning after 1 January 2023 and earlier application is permitted, however the ICAV has not adopted the new or amended standards early in preparing these Financial Statements.

The following amended standards and interpretations are not expected to have a significant impact on the ICAV's Financial Statements:

- Classification of Liabilities as Current or Non-current Amendments to IAS 1 effective 1 January 2024;
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28 no effective date yet.

(g) Financial assets and liabilities at fair value through profit or loss

(i) Classification and measurement of financial assets and financial liabilities

The ICAV is an open-ended investment entity and materially all of the financial assets and liabilities of its sub-funds are required to be managed on a fair value through profit or loss basis in order to track the relevant reference indices or benchmark. This applies to both initial and subsequent recognition.

None of the ICAV's assets qualify for measurement at fair value through other comprehensive income.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(g) Financial assets and liabilities at fair value through profit or loss (continued)

(i) Classification and measurement of financial assets and financial liabilities (continued)

Assets and liabilities such as cash and cash equivalents, due to/from broker and other short-term receivables and payables are measured at amortised cost at initial recognition and subsequently. All other material assets and liabilities of the ICAV are debt securities, equity investments, investments in unlisted open-ended investment funds, and derivatives and required to be measured at FVTPL at initial recognition and subsequently.

Purchases and sales of investments are recognised on the trade date - the date on which the ICAV commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

Subsequent measurement

Financial assets at FVTPL are subsequently measured at fair value and financial assets at amortised cost are subsequently measured at amortised cost using the effective interest method.

(ii) Impairment of financial assets

The ICAV assesses on a forward-looking basis the expected credit loss ("ECL") associated with its financial assets carried at amortised cost. ECLs on assets at amortised cost are considered immaterial. Significantly all of the ICAV's financial assets measured at amortised cost are short term assets. Therefore, as the term length of these assets is less than one year, the ICAV in effect measures loss allowances based on their life-time ECLs. When estimating ECLs, the ICAV considers reasonable and supportable information that is relevant and available without undue cost or effort, such as counter-party credit ratings.

(iii) Derecognition

The ICAV derecognises a financial asset when the contractual rights to the cash flows from the asset expire or it transfers the rights to receive contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the ICAV neither transfers nor retains substantially all of the risk and rewards of ownership and does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is derecognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the Statement of Comprehensive Income. Any interest in such transferred financial assets that is created or retained by the ICAV is recognised as a separate asset or liability.

The ICAV derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(g) Financial assets and liabilities at fair value through profit or loss (continued)

(iv) Fair value measurement principles

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the ICAV has access at that date. The fair value of a liability reflects its non-performance risk.

The fair value of financial instruments where quoted in an active market is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. The ICAV utilises the last traded market price for both financial assets and financial liabilities where the bid-ask spread is narrow.

If an active quoted market price is not available on a recognised stock exchange or from a broker/dealer for non-exchange-traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the Statement of Financial Position date applicable to an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data at the Statement of Financial Position date.

(v) Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where the ICAV currently has a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously. Income and expenses are presented on a net basis for gains and losses from financial instruments at FVTPL and foreign exchange gains and losses.

(vi) Securities lending

Securities which are lent out as part of the securities lending agreement continue to be recognised as financial assets and liabilities in the balance sheet. Securities lending constitutes temporary transfer of ownership and would not have any impact on the sub-funds holdings in the Statement of Financial Position when securities are lent. The bonds are priced dirty and interest receivable related to bonds are identfied under transferable securities in the Statement of Financial Position. Further information on securities lending and the breakdown of this amount is detailed in Note 8 to the Financial Statements.

(h) Cash and cash equivalents

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value and are used by the ICAV in management of short-term commitments, other than cash collateral provided in respect of derivatives. As at 31 December 2023 and at 31 December 2022, all cash and overdraft balances are held with HSBC Bank plc. Details of overdraft facility are disclosed in Note 7.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(i) Due from/to brokers

These are measured at amortised cost using the effective interest method. The "amortised cost" of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss in the Statement of Comprehensive Income. Any gain or loss on derecognition is also recognised in profit or loss.

(i) Due from/to shareholders

Due from shareholders relates to subscriptions receivable not settled at the year end and due to shareholders relate to redemptions payable not settled at year end.

(k) Net gains/(losses) from financial instruments at fair value through profit and loss

Net gains/(losses) from financial instruments at fair value through profit and loss includes all realised gains and losses, unrealised fair value changes, foreign exchange differences and coupon related interest income from debt securities measured at FVTPL.

(I) Dividend Income

Dividend income on financial assets at FVTPL is credited to the Statement of Comprehensive Income on the date on which the relevant securities are listed as "ex-dividend". Dividend income, which is disclosed separately in the Statements of Comprehensive Income, is shown gross of any non-recoverable withholding taxes.

(m) Expenses

Expenses are recognised in the Statement of Comprehensive Income on an accrual basis and as the related services are performed.

(n) Redeemable participating shares

Redeemable participating shares in all share classes are redeemable at the Shareholder's option and are classified as financial liabilities as they fail the identical features test. The redeemable participating shares can be redeemed at any time for cash equal to a proportionate share of a particular sub-fund's net asset value. The participating share is carried at amortized cost and is measured at the present value of the redemption amount that is payable at the Statement of Financial Position date if the shareholder exercised its right to put the share back to the sub-fund.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(o) Distributions to holders of redeemable participating shares

Distributions to holders of redeemable participating shares are recorded in the Statement of Comprehensive Income as finance costs when declared (i.e. the decision has been through the final required approval stage and cannot be reversed). Further information on distributions is provided in Note 11.

(p) Income tax expense

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. As such, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a 'chargeable event'. A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares.

No Irish tax will arise on the ICAV regarding chargeable events.

A chargeable event does not include:

- (i) any transaction in relation to shares held in a recognised clearing system;
- (ii) any exchange by a Shareholder effected by way of a bargain made at arm's length by the ICAV, of shares in the ICAV for other Shares in the ICAV;
- (iii) certain transfers of shares between spouses or civil partners and former spouses or former civil partners;
- (iv) an exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another Irish investment undertaking; or
- (v) the cancellation of shares in the ICAV arising from an exchange in relation to a scheme of amalgamation.

Income, interest and capital gains (if any) received on investments made by the ICAV may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the ICAV or its Shareholders.

for the year ended 31 December 2023 (continued)

2. Material accounting policies (continued)

(q) Equalisation

Equalisation is operated in connection with the issue and redemption of shares. It represents the income element included in the price for the issue and redemption of shares. Equalisation arrangements are intended to ensure that the income per share is not affected by changes in the number of shares in issue during the financial period.

The buying/selling price of each share contains an amount called equalisation. This is equivalent to the net income less expenses accrued in the ICAV at the time of purchase/sale. For distributing sub-funds, equalisation attributable to subscriptions in the sub-funds form part of the distributions to those shareholders who subscribed to the sub-funds during the distribution period. The equalisation element of the distributions is not reported to shareholders separately from the net income distributed. The equalisation attributable to redemptions from the respective sub-funds, if any is disclosed in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

(r) Transaction costs

Transaction costs are incremental costs, which are separately identifiable and directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. Transaction costs include and commissions paid to brokers and counterparties. Transaction costs are expensed on an accrual basis and are recorded in the Statement of Comprehensive Income as part of other expenses. Transaction costs incurred during the financial period by each sub-fund are detailed in Note 3(f).

(s) Cross investment between funds

Investments by sub-funds in the units of other sub-funds within the same umbrella must be disclosed. The policies adopted by the umbrella to disclose cross-investments between sub-funds within that umbrella must be explained in the annual report.

As at 31 December 2023, HSBC Global Funds ICAV - Shariah Multi Asset Fund held shares in HSBC Global Funds ICAV - Global Sukuk UCITS ETF, which is also a sub-fund of the ICAV, valued at USD 1,055,071. There was net gain on financial assets at fair value through profit & loss of USD 49,682 due to such cross holdings.

For the purposes of determining the net assets and results of the ICAV, these cross holdings are eliminated so that the total amounts only reflect external assets and liabilities of the ICAV as a whole.

This elimination for the purpose of ascertaining the total ICAV results and net assets does not have any effect on the results and net assets of any individual Sub-Fund.

3. Fees and expenses

(a) Management fee

The ICAV has a fee structure where, in respect of each of the sub-funds, all of the fees and expenses (except for transaction costs and taxes or duty charges for portfolio re-balancing, all of which will be paid separately out of the assets of the relevant sub-funds) are paid as one single fee. This is referred to as the "Ongoing Charges Figure" or "OCF" in the Prospectus of the ICAV and is being disclosed in these Financial Statements as the "Management fee".

The Management fee is paid to the Management Company to cover fees for providing investment management, distribution, marketing and advice services in respect of all sub-funds. The Management Company is responsible for paying out of the management fee, the fees of the Investment Managers, the Distributors, the operating, administrative and services expenses and may pay part of such fee to recognised intermediaries or such other person as the Management Company may determine, at its discretion.

The management fee covers all of the following operating, administrative and services expenses (but is not an exhaustive list):

- Custody, depositary and safekeeping charges
- Sub-custodian fees and transaction charges (which will be at normal commercial rates)
- For Hedged Share Classes, fees to third parties to cover the execution of the share class currency hedging policy. An additional fee for this service will apply to Hedged Share Classes as detailed in the relevant sub-fund's Supplement
- Transfer, registrar and payment agency fees
- Administration, domiciliary and fund accounting services
- Legal expenses for advice on behalf of the ICAV
- Audit fees
- Registration fees
- Listing fees (if applicable)
- Directors' fees and expenses. See Note 3(d).
- Documentation costs preparing, printing, translating and distributing documents including, but not limited to, the Prospectus, Key Investor Information Documents and annual reports made available directly or through intermediaries to its Shareholders in markets in which the sub-funds are registered for sale in compliance with local regulations
- Costs associated with the collection, reporting and publication of data about the ICAV, its investments and Shareholders as required by laws and regulations from time to time
- Fees charged by third party vendors for publishing fund performance data
- Financial index licensing fees
- Any fees charged for sub-fund expense data analysis if specifically requested by the ICAV to be obtained from an independent third party
- Collateral management services
- · Any industry association fees for the benefit of the ICAV

The maximum management fee is 1.35% of the average NAV of a class of Shares over a specified year. An additional fee of up to 0.03% may apply to Hedged Share Classes. The management fee is accrued daily and payable monthly in arrears. The management fee of each sub-fund of the ICAV is as listed in the relevant sub-fund's Supplement and is disclosed in the Other Additional Disclosure section of these Financial Statements .

for the year ended 31 December 2023 (continued)

3. Fees and expenses (continued)

(a) Management fee (continued)

If a sub-fund's expenses exceed the management fee for a share class, the Investment Manager will cover any shortfall from its own assets.

The management fee for the financial year amounted to USD 11,601,125 (31 December 2022: USD 10,637,274) of which USD 2,176,447 (31 December 2022: USD 1,787,936) was payable at the financial year end.

(b) Investment Management fees

The Investment Managers shall be entitled to receive from the Management Company a fee in relation to each sub-fund or Class (the "Investment Management Fee"). Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears. The Investment Management fee paid by the Management Company out of the OCF for the financial year ended 31 December 2023 was USD 443,365 (31 December 2022: USD 1,247,871) of which USD Nil (31 December 2022: USD 95,572) was payable at 31 December 2023. There are no performance fees.

(c) Administrator's and Depositary's fees

The Management Company is responsible for the payment to the Administrator and Depositary out of the OCF, an annual fee, payable monthly in arrears at a rate ranging from 0.30 basis points to 1.35 basis points of the net asset value of the relevant sub-fund of the ICAV as of each valuation day. The Administrator's fees payable by the Management Company out of the OCF for the financial year ended 31 December 2023 is USD 3,423,372 (31 December 2022: USD 4,251,242) of which USD 315,567 (31 December 2022: USD 1,074,440) is payable at 31 December 2023. The Depositary's fee payable by the Management Company out of the OCF for the financial year ended 31 December 2023 is USD 908,649 of which USD 80,616 is payable at 31 December 2023. For the financial year ended 31 December 2022 the Depositary's fee payable by the Management Company out of the OCF is included in the Administrator's fees.

(d) Directors' fees and expenses

The Directors' fees which are paid out of the OCF for the financial year ended 31 December 2023 amounted to USD 129,733 (31 December 2022: USD 126,134). Directors' out of pocket expenses for the financial year 31 December 2023 was USD Nil (31 December 2022: USD 712).

(e) Auditor's fees

Fees for the statutory auditor, KPMG Ireland, in respect of the financial year 31 December 2023, relate entirely to the audit of the Financial Statements of the ICAV. Auditor's fees for the financial year end amounted to EUR 180,800 (31 December 2022: EUR 93,625) excluding VAT of which EUR 180,800 (31 December 2022: EUR 93,625) was payable as at 31 December 2023. All payments for the statutory auditor are met from the OCF charge detailed above and levied by the Management Company.

for the year ended 31 December 2023 (continued)

3. Fees and expenses (continued)

(f) Transaction cost

For the financial year ended 31 December 2023 and the financial year ended 31 December 2022, the ICAV incurred transaction costs that are identifiable as follows:

| Sub-Funds | 31 December 2023 | 31 December 2022 |
|---|---------------------|------------------|
| HSBC Global Funds ICAV – Global Aggregate Bond Index Fund | USD 5,293 | USD 5,440 |
| HSBC Global Funds ICAV – Global Equity Index Fund | USD 3,163 | USD 4,202 |
| HSBC Global Funds ICAV - Global Sustainable Government | | |
| Bond UCITS ETF | USD 3,032 | USD 996 |
| HSBC Global Funds ICAV – Japan Equity Index Fund | JPY 92,356 | JPY 1,702,405 |
| HSBC Global Funds ICAV – Multi-Factor EMU Equity Fund | EUR 199,714 | EUR 180,343 |
| HSBC Global Funds ICAV – Multi-Factor Worldwide Equity Fund | USD 1,647,843 | USD 1,702,942 |
| HSBC Global Funds ICAV – US Equity Index Fund | USD 10,057 | USD 7,969 |
| HSBC Global Funds ICAV – Shariah Multi Asset Fund | USD 763 | - |

(g) Dividend Purification

Some Shariah-compliant investments may yield small percentages of income inconsistent with Shariah Principles that will then need to be "purified". On at least an annual basis, following the approval by the Shariah Committee of the calculation of the non-permissible income in respect of the relevant Shariah sub-fund (following the principles to determine this calculation as set down by the Shariah Committee), the ICAV will donate any such non-permissible income to one or more charities selected by the Investment Manager and approved by the Shariah Committee. Non-permissible income in respect of a Shariah sub-fund will be calculated by assessing the income received by the relevant Shariah sub-fund that arose from non-compliant activities. In order to calculate the non-permissible income in respect of a Shariah sub-fund, the index provider will provide the Management Company with the dividend purification ratios, represented as a percentage of each dividend paid out by the companies in the index. The Management Company then calculates the amount to be purified based on the income received by the sub-fund on a monthly basis, and liaises with the Administrator so that such non-permissible income is accrued. Following the review by the Shariah Committee, the Management Company will instruct the Administrator to pay the total non-permissible income to the nominated charity.

For the year ended 31 December 2023, incurred dividend purification was USD 241.83 in HSBC Global Funds ICAV – Global Sukuk UCITS ETF and USD Nil in HSBC Global Funds ICAV – Shariah Multi Asset Fund. As the amounts are negligible, they will be accrued and paid for the year ended 31 December 2024.

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments

The ICAV's investment activities expose it to a variety of financial risks: market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk. The ICAV's overall risk management process focuses on the unpredictability of financial markets and seeks to mitigate potential adverse effects on the ICAV's financial performance.

Changes to the composition and/or weighting of the securities constituting the financial index which is tracked by a sub-fund will ordinarily require that sub-fund to make corresponding adjustments or rebalancing to its investments in order to seek to track the financial index. The Investment Manager will accordingly seek to rebalance the composition and/or weighting of the securities held by a sub-fund from time to time to the extent practicable and possible to conform to changes in the composition and/or weighting of securities that constitute the respective financial index. Other re-balancing measures may be taken from time to time to seek to maintain the correspondence between the performance of a subfund and the performance of the financial index.

The Management Company seeks to mitigate the financial risk in the ICAV in its daily risk management process. From year to year, the ICAV's exposure to risk will alter as market conditions change and as the components of the portfolio change and are adjusted through trading, subscriptions and redemptions. Regarding the objectives, policies and processes for managing the risk, whilst adapting to the current market conditions, the approach will remain consistent from year to year. The ICAV uses the commitment approach to calculate the sub-funds' global exposure.

The sub-funds also have Derivative Instruments ("FDIs") for efficient portfolio management of its assets and for investment purposes. Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk; the reduction of cost; or the generation of additional capital or income for the sub-funds with an appropriate level of risk, taking into account the risk profile of the sub-funds and the general provisions of the UCITS Regulations. In particular, FDIs may be used for the purpose of minimising tracking error i.e. the risk that the sub-funds return varies from the respective benchmark financial index.

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(a) Market risk

Market risk is the risk that changes in market prices such as interest rates, foreign exchange rates or equity and credit spreads will affect the sub-funds' income or the fair value of its holdings of financial instruments.

(i) Price risk

Price risk is the risk that the value of instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. It represents the potential loss the ICAV might suffer through holding market positions in the face of price movements. The securities held by the sub-funds are held at fair value with fair value changes recognised in the Statement of Comprehensive Income. All changes in market conditions will therefore directly affect net investment income for the sub-funds. The sub-funds manage this exposure to individual price movements of underlying positions by only making investments which are in line with the investment restrictions. The investment concentration types within the portfolio are disclosed for each sub-fund in the Schedule of Investments.

The table below outlines the impact on the net assets attributable to holders of redeemable shares upon 5% increase (all other variables remaining constant) in investments as at 31 December 2023:

| Out. Founds | 31 December | 31 December |

4. Risks associated with financial instruments (continued)

(a) Market risk

(ii) Currency risk

Currency risk is the risk that the fair value of a financial instrument as determined in a sub-fund's functional currency will fluctuate because of changes in foreign exchange rates. Each sub-fund may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, each sub-fund is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the ICAV's assets or liabilities. The sub-funds may seek to hedge this currency risk through FX transactions in the spot, forward, currency swaps or futures markets.

The table below outlines the net foreign currency risk exposure of the sub-funds as at 31 December 2023 and 31 December 2022.

HSBC Global Funds ICAV - China Government Local Bond UCITS ETF

| As at 31 December 2023 | Other assets/(liabilities) | Financial assets/liabilities at fair value through profit or loss* | Net Currency Exposure |
|------------------------|-------------------------------|---|-----------------------------|
| | USD | USD | USD |
| Chinese Renminbi | - | (36,548,167) | (36,548,167) |
| Chinese Yuan | 562,013 | 115,882,842 | 116,444,855 |
| Euro | 2,211 | 3,223,385 | 3,225,596 |
| Pound Sterling | 224 | 32,701,200 | 32,701,424 |
| | 564,448 | 115,259,260 | 115,823,708 |

^{*}Includes interest receivable at fair value through profit or loss.

The sub-fund has entered into a number of forward exchange contracts for currencies other than USD. The impact of the hedging has been included in the above table. At 31 December 2023, if any non-functional currencies had strengthened by 5% in relation to the respective functional currency of the sub-fund, with all other variables held constant, net assets attributable to holders of redeemable participating shares would have increased/decreased by the amounts shown below.

| | |

A 5% decrease in non-functional currencies in relation to the respective functional currency with all other variables held constant, would lead to a corresponding decrease/increase in the net assets attributable to holders of redeemable participating shares by the approximate amounts as shown in the above tables. The estimated movement is based on management's determination of a reasonably possible change in foreign exchange rates. In practice, the actual results may differ from the sensitivity analysis above and the difference could be material.

HSBC Global Funds ICAV – Global Sukuk UCITS ETF* As at 31 December 2023

| | USD |
|----------------|-------|
| Pound Sterling | 1,743 |
| | 1,743 |

A 5% decrease in non-functional currencies in relation to the respective functional currency with all other variables held constant, would lead to a corresponding decrease/increase in the net assets attributable to holders of redeemable participating shares by the approximate amounts as shown in the above tables. The estimated movement is based on management's determination of a reasonably possible change in foreign exchange rates. In practice, the actual results may differ from the sensitivity analysis above and the difference could be material.

^{*}Includes interest receivable at fair value through profit or loss.

The sub-fund has entered into a number of forward exchange contracts for currencies other than USD. The impact of the hedging has been included in the above table. At 31 December 2022, if any non-functional currencies had strengthened by 5% in relation to the respective functional currency of the sub-fund, with all other variables held constant, net assets attributable to holders of redeemable participating shares would have increased/decreased by the amounts shown below.

| | 35,071,880 |

A 5% decrease in non-functional currencies in relation to the respective functional currency with all other variables held constant, would lead to a corresponding decrease/increase in the net assets attributable to holders of redeemable participating shares by the approximate amounts as shown in the above tables. The estimated movement is based on management's determination of a reasonably possible change in foreign exchange rates. In practice, the actual results may differ from the sensitivity analysis above and the difference could be material.

The following tables detail the effect on net assets should interest rates have increased/decreased by 75 bps with all other variables remaining constant, assuming that a 75 bps increase/decrease in the base interest rate would result in a correlating 75 bps increase/decrease in the value of net interest bearing assets. In reality, an increase/decrease of 75 bps would not result in a direct correlating increase/decrease in the fair value of net interest bearing assets, as the movement in the value of the net interest bearing assets would depend on the individual asset class and/or market sentiment towards any sensitivity in the interest rate. The majority of the portfolio of the subfund is of fixed rate interest nature and therefore interest income received would not be affected by the fluctuation of interest.

4. Risks associated with financial instruments (continued)

(b) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the ICAV. Credit risk is generally higher when a non-exchange traded financial instrument is involved because the counterparty for non-exchange traded financial instruments is not backed by an exchange clearing house. Exchange clearing house benefit both parties in a transaction as they bear most of the credit risk. If two individuals deal with one another, the buyer bears the credit risk of the seller, and vice versa. When an exchange clearing house is used, the credit risk that is held against both buyer and seller is passed on to the exchange clearing house.

This exposure exists between trade date and settlement date for asset purchase and sale transactions, for securities re-used by counterparty and for the lifetime of derivative transactions. This exposure exists between trade date and settlement date for asset purchase and sale transactions, for securities re-used by counterparty and for the lifetime of derivative transactions. This exposure also exists for collateral held at counterparties. The counterparties and brokers of the sub-funds have the right to re-use assets, which may increase counterparty risk. Assets that are re-used by the counterparties are subject to the risk of the counterparty defaulting on its obligations. It is the policy of the sub-funds to transact the majority of its securities and contractual commitment activity and its derivative transactions with brokers, counterparties and banks that the Directors consider to be well established. The securities traded by the sub-funds also include counterparty risk as to the solvency of the issuer of the securities. The counterparties, brokers and bankers of the sub-funds hold cash as bankers and the sub-funds is thus in a position of general creditor to such counterparties also for such amounts.

HSBC Bank plc, the holding company of the Depositary, HSBC Continental Europe, was rated as A+ (31 December 2022: A+) by Standard and Poor's as at 31 December 2023.

The Investment Manager monitors the portfolio risk on a daily basis which includes credit ratings with any breaches or concerns being escalated and actioned.

The below table provides an analysis of the ICAV's counterparty's credit rating as reported by Standard and Poor's.

| | Credit Rating | Credit Rating |
|----------------------------------|------------------|------------------|
| Counterparty | 31 December 2023 | 31 December 2022 |

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(b) Credit risk (continued)

The ICAV will also be exposed to a credit risk in relation to the counterparties with whom it transacts or places margin or collateral in respect of transactions in financial derivative instruments and may bear the risk of counterparty default. Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. The investments in bonds or other debt securities will be subject to the credit risk of the issuers of the bonds or debt securities in which it invests. In the event that any issuer of bonds or other debt securities in which the assets of a subfund are invested defaults, becomes insolvent or experiences financial or economic difficulties, this may adversely affect the value of the relevant securities (which may be zero) and any amounts paid on such securities (which may be zero), which may in turn adversely affect the Net Asset Value of the sub-funds. The ICAV is exposed to credit risk on Cash and cash equivalents, Due from Broker, Due from Shareholders, Dividends receivable, Interest receivable from financial assets at fair value through profit or loss and other receivables as disclosed in the Statement of Financial Position and Debt securities as disclosed in Note 4 (e). The carrying amounts of financial assets represents the maximum exposure to credit risk.

Investments in debt securities

At 31 December 2023, the ICAV was invested in corporate debt securities with the following credit quality. The ratings are based on average credit rating which is an average of the vendors: S&P, Fitch, Moody's, and Sovereign Rating. The average fund and benchmark rating includes securities which are not rated (NR).

Investments in debt securities

At 31 December 2022, the ICAV was invested in corporate debt securities with the following credit quality. The ratings are based on average credit rating which is an average of the vendors: S&P, Fitch, Moody's, and Sovereign Rating. The average fund and benchmark rating does not include securities which are not rated (NR).

HSBC Global Funds ICAV – Shariah Multi Asset Fund and HSBC Global Funds ICAV - Cross Asset Trend Fund have not been included in the tables above:

Debt securities held by HSBC Global Funds ICAV – Shariah Multi Asset Fund at year end relate to two debt securities which mature in 2024 and 2028, see the schedule of investments on page 612 for further details.

Debt securities held by HSBC Global Funds ICAV - Cross Asset Trend Fund at year end relate to zero coupon bonds which are dominated in Euro which mature in 2024, see the schedule of investments on page 257 for further details.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The ICAV is exposed to daily cash redemptions of redeemable participating shares and monitors this activity to ensure that funds are available to meet the redemption requirements.

The ICAV's equity investments are considered to be readily realisable as they are all traded on regulated markets. The ICAV has therefore limited exposure to liquidity risk.

The ICAV's financial instruments also comprise investments in derivative contracts traded over-the-counter, which are not traded in an organised public market and which generally may be illiquid. As a result, the ICAV may not be able to liquidate quickly some of its investments in these instruments at an amount close to its fair value in order to meet its liquidity requirements, or to respond to specific events such as a deterioration in the credit worthiness of any particular issuer. This risk is mitigated by restricting the exposure to any particular instrument.

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(c) Liquidity risk (continued)

The table below analyses the ICAV's financial liabilities into relevant maturity groupings based on the remaining year at the Statement of Financial Position date to the contractual maturity date. Expected cashflows do not vary significantly from contractual cashflows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

The principal investment strategies that involve foreign securities, derivatives or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk. The Management Company monitors the sub-funds' liquidity position on a daily basis, focusing on both the requirements for liquidity and that suitable assets are able to meet such requirements.

^{*}Includes To Be Announced ("TBA") securities of USD 255,100,057 in respect of HSBC Global Funds ICAV – Global Aggregate Bond Index Fund.

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(e) Fair value of assets and liabilities

IFRS 13 requires disclosures of financial instruments measured at fair value to be based on a three-level fair value hierarchy that reflects the significance of the inputs in such fair value measurements. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the ICAV has the ability to access at the measurement date;

Level 2 Inputs other than unadjusted quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3 This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires judgement by the Directors.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors.

The Directors consider observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Directors' perceived risk of that instrument.

Transferable securities

Transferable securities with values based on quoted market prices in active markets are classified within Level 1. These include active listed equities and debt securities. Transferable securities that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. Transferable securities classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all. Level 3 investments in equity securities are disclosed in Note 4 (e).

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(e) Fair value of assets and liabilities (continued)

Derivative instruments

Derivative instruments can be exchange-traded or privately negotiated over-the-counter ("OTC"). Exchange-traded derivatives, such as contracts for difference, futures contracts, exchange traded option contracts and total return swaps are typically classified within level 1 or level 2 of the fair value hierarchy depending on whether they are deemed to be actively traded. OTC derivatives, such as forward foreign exchange contracts have inputs which can generally be corroborated by market data and are therefore classified within level 2.

The ICAV has not disclosed the fair values for financial instruments measured at amortised cost, due to/from broker and short-term receivables and payables because their carrying amounts are reasonable approximation of fair values.

No investments have been classified within Level 3 at any time during the year, consequently no reconciliation of Level 3 fair value measurements is required.

For the year ended 31 December 2023, all other assets and liabilities, other than investments at fair value, whose carrying amounts approximate fair value would have been considered to be classified within Level 2 of the fair value hierarchy if such classification was required.

The sub-funds may invest in Financial Derivatives Instruments for investment purposes, for hedging purposes and for efficient portfolio management purposes.

Financial assets at amortised cost

Financial assets at amortised cost includes cash and cash equivalents, due from broker, due from shareholders, interest receivable and other receivables.

Financial liabilities at amortised cost

Financial liabilities at amortised cost includes due to broker, due to shareholders, management fees payable, distributions payable and other payable.

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(e) Fair value of assets and liabilities (continued)

for the year ended 31 December 2023 (continued)

4. Risks associated with financial instruments (continued)

(e) Fair value of assets and liabilities (continued)

The ICAV recognises transfers between levels of the fair value hierarchy as at the end of the reporting year during which the change occurred.

During the year, there were transfers between levels within the ICAV, primarily these were transfers from level 1 to level 2 of USD 98.01 million (2022: USD 1,595 million) and transfers from level 2 to level 1 of USD 2,868.91 million (2022: USD 3 million). These transfers relate to equity securities and debt securities and arose to reflect the change in the observed valuation inputs and, in certain cases, the change in the level of trading activities of the securities.

Cash and cash equivalents include cash in hand and other short term deposits with original maturities of three months or less, net of bank overdrafts and are categorised as Level 2. The carrying amount of these short-term financial assets approximate fair value because of their short-term nature and the high credit quality of counterparties.

Receivable for investments sold and other receivables include the contractual amounts for settlement of trades and other obligations due to the ICAV. Payable for investments sold and other payables represent the contractual amounts and obligations due by the ICAV for settlement of trades and expenses. All receivable and payable balances are categorised as Level 2. The carrying amount of these short-term financial assets approximate fair value because of their short-term nature and the high credit quality of counterparties.

Redeemable participating shares are redeemable at the shareholder's options and are classified as financial liabilities. The ICAV issues the redeemable shares at the amount equal to the proportionate share of net assets of the ICAV at the time of the redemption, calculated on a basis consistent with that used in these Financial Statements. Accordingly, the carrying amount of net assets attributable to holders of redeemable shares approximates their fair value. The redeemable participating shares can be redeemed at any time for cash equal to a proportionate share of a particular sub-fund's net asset value. As such, Level 2 is deemed to be the most appropriate categorisation for net assets attributable to holders of redeemable shares.

5. Derivative Contracts

The nominal and fair value of derivative instruments is disclosed in the Schedule of Investments for each sub-fund.

Futures

Futures are valued at fair value based on the settlement price on the relevant valuation date. Gains and losses on futures are recorded by the ICAV based on market fluctuations and are recorded as realised or unrealised gains/(losses) dependent upon settlement terms of the contracts held. The ICAV includes bond futures, currency futures, index futures and interest rate futures.

for the year ended 31 December 2023 (continued)

5. Derivative Contracts (continued)

Forward contracts

Forward contracts are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in the OTC market. The ICAV may enter into forward foreign exchange contracts to manage the currency risk arising from the ICAV's investment or anticipated investment in investments denominated in foreign currencies. Forward contracts may be used for hedging and currency management of both local and foreign currencies.

Contracts for difference

Contracts for difference ("CFDs") are agreements between the ICAV and third parties which allow the ICAV to acquire an exposure to the price movement of specific securities without actually purchasing the securities. Upon entering into a CFD, the ICAV is required to deposit with a broker initial cash margin equal to a certain percentage of the contract amount. Variation margin payments are made or received by the ICAV depending upon the fluctuation in the value of the underlying securities. The changes in contract values are recorded as unrealised gains or losses and the ICAV recognises a realised gain or loss when the contract is closed or when the contract is re-set. CFDs are fair valued as the change in market value of the underlying security applied to the notional amount of the CFD held at the end of the year, representing the unrealised gain or loss on these CFDs. The market value of the underlying security is determined by reference to the quoted market price available on a recognised stock exchange.

All income accruing to the underlying securities in the CFDs and the financing charges associated with the CFD trading are accrued by the ICAV on an accruals basis and is recognised in the Statement of Comprehensive Income as part of the net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss.

Swaps

Swaps are contractual agreements between two parties to exchange streams of payments over time based on specified notional amounts. The total return swaps entered into by HSBC Global Funds ICAV - Cross Asset Trend Fund during the year amounted to USD 468,033.

Offsetting assets and liabilities

The ICAV holds a master netting or similar agreements with all key trading counterparties. The ICAV considers that it has a current legally enforceable right to set off the recognised amounts, however is not expected to realise the relevant assets and settle the liabilities simultaneously and therefore has not offset the relevant financial assets and liabilities under such agreements.

None of the financial assets or financial liabilities are offset in the Statement of Financial Position. The disclosures set out in the tables below include financial assets and financial liabilities that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments.

The International Swaps and Derivatives Association ("ISDA") and similar master netting arrangements do not meet the criteria for offsetting in the Statement of Financial Position. This is because they create a right of set-off of recognised amounts that is enforceable only following an event of default, insolvency or bankruptcy of the sub-fund or the counterparties. In addition, the sub-funds and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

for the year ended 31 December 2023 (continued)

5. Derivative Contracts (continued)

The following tables represent the sub-funds' financial assets and liabilities subject to offsetting, enforceable master netting and similar agreements.

HSBC Global Funds ICAV - China Government Local Bond UCITS ETF as at 31 December 2023

Calculation of Global Exposure

Global exposure is a measure designed to limit either the incremental exposure and leverage generated by the ICAV through the use of FDI (including embedded derivatives) or the market risk of the subfunds' portfolio.

In calculating global exposure, the ICAV adopts a commitment approach in managing risks. The commitment approach is applied to all positions in FDI, whether used as part of the sub-funds' general investment policy, for purposes of risk reduction or for the purpose of efficient portfolio management.

for the year ended 31 December 2023 (continued)

6. Net asset value

The following table discloses the dealing Net Asset Value, the shares in issue and Net Asset Value per Share for each Share Class of the sub-funds as at 31 December 2023, 31 December 2022 and 31 December 2021.

7. Overdraft Facility

The ICAV has entered into the following overdraft facilities with HSBC Bank plc:

| | Uncommitted overdraft | |
|--|-----------------------|-------|
| | Limit | % of |
| Sub-fund* | USD | NVAC^ |
| China Government Local Bond UCITS ETF | 5,000,000 | 10% |
| Global Aggregate Bond Index Fund | 50,000,000 | 10% |
| Global Corporate Bond UCITS ETF | 25,000,000 | 10% |
| Global Emerging Market Government Bond | | |
| Index Fund | 5,000,000 | 10% |
| Global Equity Index Fund | 1,500,000 | 10% |
| Global Government Bond UCITS ETF | 10,000,000 | 10% |
| Global Sustainable Government Bond UCITS ETF | 10,000,000 | 10% |
| Japan Equity Index Fund | 5,000,000 | 10% |
| Multi-Factor EMU Equity Fund | 10,000,000 | 0% |
| Multi-Factor Worldwide Equity Fund | 50,000,000 | 10% |
| US Equity Index Fund | 5,000,000 | 10% |

^{*}HSBC Global Funds ICAV – Cross Asset Trend Fund, HSBC Global Funds ICAV – Global Sukuk UCITS ETF and HSBC Global Funds ICAV – Shariah Multi Asset Fund have not entered into any overdraft facility.

^Net Value of Assets under Custody ("NVAC") represents 10% of the NVAC with the Depositary. To the extent that the facility is drawn down, the assets and cash balances held by the Depositary are held as collateral for the overdraft facilities.

An overdraft fee is charged on the facility at the HSBC Bank plc's base lending rate plus 2%, calculated on a per annum basis. An annual fee has been waived for the ICAV. The overdraft fee on the facility is paid out of the Management Fee. There was overdraft facility drawn of USD Nil (31 December 2022: USD 281,870) by HSBC Global Funds ICAV – China Government Local Bond UCITS ETF, USD Nil (31 December 2022: USD Nil) by HSBC Global Funds ICAV – Global Aggregate Bond Index Fund, USD Nil (31 December 2022: USD Nil) by HSBC Global Funds ICAV – Global Corporate Bond UCITS ETF, USD 2,849 (31 December 2022: USD Nil) by HSBC Global Funds ICAV – Global Equity Index Fund, USD Nil (31 December 2022: USD 1,387,707) by HSBC Global Funds ICAV – Global Government Bond UCITS ETF, USD 12,619 (31 December 2022: USD Nil) by HSBC Global Funds ICAV – Global Sukuk UCITS ETF, EUR Nil (31 December 2022: EUR 12,533) by HSBC Global Funds ICAV – Multi-Factor EMU Equity Fund and USD Nil (31 December 2022: USD Nil) by HSBC Global Funds ICAV – Multi-Factor Worldwide Equity Fund at 31 December 2023.

for the year ended 31 December 2023 (continued)

8. Securities Lending

...

The securities lending programme for the ICAV commenced on 01 June 2021.

Securities lending income for the financial year amounted to USD 5,688,418 (31 December 2022: USD 3,675,659) and is included in Other Income of Statement of Comprehensive Income.

Securities lending is used by the sub-funds to generate additional income from the securities held by the sub-fund. Further disclosures pertaining to securities lending are provided in Other Additional Disclosures.

Securities lent by a sub-fund are not derecognised from the sub-fund's Statement of Financial Position and securities lent can be sold at any time. During the year, the sub-funds listed below engaged in securities lending.

Cash Collateral and Securities Collateral for securities lending are held by HSBC Bank plc as subcustodian ("Securities Lending Agent").

There is no Cash Collateral on 31 December 2023 in any of the sub-funds and hence there is no reuse of Cash Collateral.

All of the collateral received in respect of the securities lending transactions for the sub-funds is entrusted to the Depositary for safekeeping. The proportion of collateral held in the sub-funds is segregated in full and never pooled.

In relation to Securities Financing Transactions, the ICAV did not have any transactions in repurchase agreements, buy-sell back transactions, sell-buy back transactions.

The securities lending commission is allocated to the following parties:

• 75% of the gross revenue on securities lending is allocated to the relevant sub-fund.

- 10% of the gross revenue on securities lending is allocated to the Management Company.
- 15% of the gross revenue on securities lending is allocated to the Securities Lending Agent, HSBC Bank plc.

Direct costs from securities lending include 15% of the gross revenue due to the agent lender which is USD 1,144,848 (31 December 2022: USD 735,133) and 10% of the gross revenue due to the Management Company which is USD 763,233 (31 December 2022: USD 490,088) as shown in the table below.

9. Soft Commission

Neither the ICAV nor the Investment Managers has entered into any soft commission arrangements with respect to the ICAV for the year end (31 December 2022: Nil).

for the year ended 31 December 2023 (continued)

10. Share capital and redeemable participating shares

The authorised share capital of the ICAV is 1,000,000,000,000,000 shares of no-par value which are available for issue as shares on such terms and conditions as the Directors may determine. The issued share capital of the ICAV at authorisation was €2 represented by 2 Subscriber Shares issued at an issue price of €1 per Share which were fully paid up.

Capital Management

Participating shares in the ICAV provide an investor with the right to request redemption of their shares for cash at value proportionate to the investors' shares in the ICAV's net assets and are classified as liabilities. The ICAV's objective, in managing the participating shares, is to ensure a stable base to maximise returns to investors and to manage liquidity and to manage liquidity risk arising from redemptions.

for the year ended 31 December 2023 (continued)

13. Efficient portfolio management for investment purposes

Subject to the conditions and within the limits laid down by the Central Bank of Ireland, and except as otherwise stated in the investment objective and policies of the sub-funds of the ICAV, the Management Company may employ investment techniques and instruments such as futures, options, forward foreign currency contracts and other derivatives for investment purposes or efficient portfolio management. Furthermore, new techniques and instruments may be developed which may be suitable for use by the ICAV in the future and may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank of Ireland.

Securities lending disclosures are included in Note 8.

Realised and unrealised gains and losses on exchange traded derivatives and over the counter markets are recognised in the Statement of Comprehensive Income.

Net gain/(loss) on financial assets and liabilities at fair value through profit or loss on derivative contracts for the year ended 31 December 2023 is detailed in the following table.

14. Involvement with unconsolidated structured entities

The ICAV includes cross investment from HSBC Global Funds ICAV – Shariah Multi Asset Fund into HSBC Global Funds ICAV – Global Sukuk UCITS ETF. The ICAV has concluded that the unlisted openended investment funds in which it invests, but that it does not consolidate, meets the definition of structured entities because:

- the voting rights in the ICAV are not dominant rights in deciding who controls them because the rights relate to administrative tasks only;
- the ICAV's activities are restricted by its prospectus; and
- the ICAV has narrow and well-defined objectives to provide investment opportunities to investors.

The ICAV through HSBC Global Funds ICAV – Global Aggregate Bond Index Fund, HSBC Global Funds ICAV – Global Corporate Bond UCITS ETF, HSBC Global Funds ICAV – Global Emerging Market Government Bond Fund and HSBC Global Funds ICAV – Global Government Bond UCITS ETF, sub-funds, has one investment in the shares of HSBC US Dollar Liquidity Fund which is a sub-fund of HSBC Global Liquidity Funds plc, an open-ended UCITS umbrella investment company with variable capital and segregated liability between sub-funds. HSBC US Dollar Liquidity Fund is a daily redeemable fund which provides security of capital and daily liquidity together with an investment return which is comparable to normal US Dollar denominated money market interest rates. The total net assets of HSBC Global Liquidity Funds plc as at 30 April 2023 is GBP 52.43 billion (30 April 2022: GBP 42.38 billion) and the ICAV carrying amount of financial assets at fair value through profit and loss is USD 334,005,121 (2022: USD 299,803,674). The total net asset of Ishares Physical Gold ETC as on 30 April 2023, Wisdom Tree Core Physical Gold ETC as on 31 December 2023 and HSBC ETF as on 31 December 2023 are USD 18.4 billion, GBP 4.6 billion and USD 18.3 billion respectively.

HSBC Global Funds ICAV – Shariah Multi Asset Fund also invested amounted of USD 3,043,037 in total.

| Investment Fund | No of units | Fair Value | Investment Fund | No of units | Fair Value |
|---|-------------|---------------|--|-------------|---------------|
| | | USD | | | USD |
| Ishares Physical Gold ETC | | | HSBC MSCI World Islamic ESG UC | | |
| | 10,374 | 417,139 | ETF ACC | 45,977 | 1,071,724 |
| HSBC Islamic Global Equity Ind Z ACC | | | Wisdom Tree Core | | |
| HSBC MSCI Europe Islamic ESG U ETF ACC | 33,618 | 967,201 | Physical Gold ETC HSBC MSCI Japan Islamic ESG UCITS ETF ACC | 784 | 161,441 |

| Isl ETF ACC | 14,084 | 194,247 | | | |

During the year ended 31 December 2023 and 31 December 2022, the ICAV did not provide financial support to unconsolidated structured entity and has no intention of providing financial or other support.

for the year ended 31 December 2023 (continued)

15. Operating segments

Operating segments are the components of the ICAV whose results are regularly reviewed by the ICAV's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance. Various sub-fund revenues are disclosed in the respective Statement of Comprehensive Income of the sub-funds. The Board, which is considered to be the CODM, managed the ICAV on the basis of business divisions determined with reference to market focus, geographical focus, investment funding model and the ICAV's management hierarchy. It is the opinion of the CODM that each sub-fund can be treated as a segment as the return on each sub-fund is linked to a different benchmark. Revenue generated from each sub-fund is presented in the Statement of Comprehensive Income of the relevant sub-fund.

Geographical areas

The ICAV does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each sub-fund's revenue may be considered as being attributed to the region stated in its investment objective.

Major customers

As the ICAV is an investment entity, its distinct major customers are from institutional investors the largest being circa 12% of the ICAV's net assets. The investment is allocated across fourteen distinct sub-funds which each have a separate Schedule of Investments.

Net gains (losses) from financial instruments at fair value through profit and loss includes all realised gains and losses and unrealised fair value changes and coupon income on debt securities held at fair value through profit and loss.

16. Coupon income included in net gains/(losses) from financial instruments at fair value through profit and loss

Securities Lending

The Securities Financing Transaction Regulation Disclosure

A Securities Financing Transaction is defined as per Article 3(11) of the SFTR as:

- a repurchase transaction;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

As at 31 December 2023, The below sub-funds had securities out on loan. The Depositary is HSBC Continental Europe, and the Securities Lending Agent is HSBC Bank plc. The securities issued on loan are on open basis and can be recalled at any time.

The income from Securities Lending for the ICAV for the year ended 31 December 2023 is USD 5,724,241 (31 December 2022: USD 3,675,666).

HSBC Bank plc is the appointed securities lending agent for all sub-funds.

All securities lending transactions are executed on an open maturity tenor, and there are no term loans.

As at 31 December 2023, the amount of securities on loan as a proportion of total lendable assets (calculated as total assets less cash and cash equivalents) were as follows:

| Sub-funds | Functional Currency | Securities issued on loan | Lendable assets | Securities on loan as a percentage of total lendable assets |
|--|------------------------|---------------------------------|--------------------|---|
| HSBC Global Funds ICAV - Global Aggregate Bond Index Fund HSBC Global Funds ICAV - Global | USD | 2,603,811,106 | 11,692,110,202 | 22.27% |

Securities Lending (continued)

The Securities Financing Transaction Regulation Disclosure (continued)

The following table denotes the cash collateral reinvestment returned to the ICAV during the financial year.

| | Functional | Total | Total |
|---------------------------------|-------------------|-------------------------|-------------------------|
| Sub-Funds | Currency | 31 December 2023 USD | 31 December 2022 USD |
| HSBC Global Funds ICAV - Global | | | |
| Aggregate Bond Index Fund | USD | 3,135 | 17,584 |

The below table denotes country in which the counterparties are established. The contracts are executed bilaterally always but each loan, once agreed bilaterally, is still settled and cleared on an exchange.

Counterparty Country of Establishment

Banco Santander Spain The Bank Of Nova Scotia Canada United Kingdom Barclays Bank Plc United Kingdom **Barclays Capital Securities Limited** BNP Paribas Arbitrage London London **BNP Paribas London** France BNP Paribas Prime Brokerage Intl Ltd France CIBC World Markets Inc Japan Goldman Sachs United Kingdom Healthcare Of Ontario Pension Plan Trust Fund Canada **HSBC** Bank Plc United Kingdom United Kingdom JP Morgan Secs Plc Macquarie Bank Ltd Australia Merrill Lynch International **United States** Mizuho Securities Co Ltd Japan United Kingdom Morgan Stanley & Co International Plc National Bank Financial Inc United Kingdom **Natixis** France NBC Global Finance Limited United Kingdom United Kingdom Nomura International Plc **RBC** Dominion Securities Inc Canada **RBC** Europe Limited United Kingdom Skandinaviska Enskilda Banken Sweden SMBC Nikko Securities Inc Japan **TD Securities** Canada The Bank Of Nova Scotia Canada The Hong Kong & Shanghai Banking Corporation Ltd Hong Kong, China **UBS AG** Switzerland

Management Company's Remuneration Policy

The Management Company has implemented a remuneration policy pursuant to Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards to depositary functions, remuneration policies and sanctions (the "UCITS V Directive"), which was transposed into Luxembourg law on 1 June 2016 by way of the Luxembourg law of 10 May 2016.

The remuneration policy, which has been approved by the Management Company's board of directors, includes measures to avoid conflicts of interest and seeks to promote sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profile and instrument of incorporation of the ICAV nor impair compliance with the Management Company's duty to act in the best interest of the ICAV.

The remuneration policy, which describes how remuneration and benefits are determined, is available at http://www.global.assetmanagement.hsbc.com/luxembourg, or on request from the Management Company.

Total amount of remuneration paid by the Management Company to its staff during the financial year ending 31 December 2023 is as follows:

Fixed remuneration USD 2,341,316 Variable remuneration USD USD 356,764 Number of beneficiaries 17

of which, the fixed and variable remuneration of senior management and of identified staff* of the investment advisers is:

Fixed remuneration USD 1,027,719 Variable remuneration USD 171,968 Number of beneficiaries 5

The annual review of the remuneration policy, including a review of the existing remuneration structure as well as implementation of the regulatory requirements and compliance with them, was completed during the year and no irregularities were identified. Furthermore, there were no material changes made to the remuneration policy in the past financial year.

Neither the Management Company nor the ICAV pay any remuneration to the identified staff of any delegate.

*Identified staff are defined as members of staff whose actions have a material impact on the risk profile of the ICAV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable

economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product Name: HSBC Global Funds ICAV - **Legal Entity Identifier:**

Environmental and/or social characteristics

| Did this financial product have a sustain | able investment objective? |
|---|--|
| Yes | ● No |
| It made sustainable investments with an environmental objective: _% in economic activities that qualify as environmentally sustainable under the EU Taxonomy | It promoted Environmental/ Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 3.72% of sustainable investments |
| in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy |
| | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy |
| | with a social objective |
| It made sustainable investments with a social objective: _% | It promoted E/S characteristics, but did not make any sustainable investments |

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In tracking the performance of the Bloomberg MSCI Global Treasury ESG Weighted Bond Index (the "Index"), the Fund promoted environmental and/or social characteristics by seeking to improve the MSCI ESG rating against that of the Bloomberg Global Aggregate Treasur Index (the "Parent Index").

The Fund sought to achieve the promotion of these characteristics by tracking the performance of the Index which used MSCI ESG sovereign scores to tilt country allocations above or below their market value weights in the Parent Index and excluded countries with a country score 5 and below in order to reduce exposure to countries with high exposure to and/or low management of ESG risks and to improve the exposure to countries with favorable ESG ratings.

The Index was designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti- corruption and anti- bribery matters.

The Fund did not use derivatives to attain the environmental and/or social characteristics of the Fund.

The ESG and sustainability indicator scores were calculated as per HSBC Asset Management's proprietary methodology and third party ESG data providers. Consideration of individual PAIs (indicated in the table below by their preceding number) can be identified from the Fund having an equal or lower score than the Index. The data used in the calculation of PAI values were sourced from data vendors. They can be based on company/issuer disclosures, or estimated by the data vendors in the absence of company/issuer reports. Please note that it was not always possible to guarantee the accuracy, timeliness or completeness of data provided by third-party vendors.

The performance of the sustainability indicators the Fund used to measure the attainment of the environmental or social characteristics that it promoted can be seen in the table below. The Fund's ESG score has been managed to be greater than the Index (with a higher score than the Index representing stronger ESG credentials).

How did the sustainability indicators perform?

| Indicator | Fund | Broad Market Index |
|---|--------|---------------------------|
| ESG Score | 6.64 | 5.74 |
| GHG intensity - Metric in kilo tons per unit of GDP (in mill ions of Euros) | 207.94 | 228.45 |
| # Investee countries subject to social violations | 0.00 | 0.00 |
| % Investee countries subject to social violations | 0.00% | 0.00% |

Reference Period - 31 December 2023

Reference Period - 31 December 2022

Broad Market Index - Bloomberg Global Aggregate Treasuries

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The objectives of the sustainable Investments in the fund were, amongst others:

- 1. Companies with sustainable product and/or services or quantifiable projects (e.g. CAPEX, OPEX) linked to sustainable goals or outcomes
- 2. Companies that demonstrated qualitative alignment and/or convergence with UNSDGs or sustainable themes (e.g. Circular Economy)
- 3. Companies that were transitioning with credible progress. (e.g the transition to or use of renewable energy or other low-carbon alternatives)
- 4. Sustainable Bonds as defined by bonds with specific uses of proceeds aligned to supporting sustainability goals (e.g. Green Bonds, Social Bonds)

The Fund tracked the performance of the Index

ESG sovereign scores to tilt country allocations above or below their market value weights in the Bloomberg Barclays Global Aggregate Treasuries Index

How did the sustainable investments that the financial product partially made not cause significant h rm to any environmental or social sustainable investment objective?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

The mandatory principal adverse impacts ("PAI") indicators were used in the assessment of business activities of the initial universe of securities. Revenue data, business involvement and other data sources were considered when assessing each security using minimum thresholds or blanket exclusions on activities identified in relation to these indicators.

2

(PAI 10)

The ndex was constructed using a combination of BBG and MSCI data. The MSCI proprietary data on each country provided MSCI ESG Government Rating scores and rated countries on a seven-point scale from 'AAA' (best) to 'CCC' (worst). Ratings were derived from 0-10 scores on underlying factors in three pillars: Environmental, Social, and Governance. The model contained scores on all these sub-factors to provide granular insight on a country's performance on the issues.

- 1) Environmental risks; Natural resources & Environmental externalities and vulnerability. These risk factors cover how countries effectively manage water use, land use and mineral resources (PAI 5) and impact on environmental externalities (PAI 7,8), it also includes energy resource management and conservation (PAI 1,2) Social Risk; Human Capital and Economic environment.
- 3) Governance Risk; Financial governance & political governance. The risk factors include politic rights and civil liberties, corruption control and stability and peace

Included were a set of screening factors for each country which showed the profile of a country's status with respect to various values and mission based issues and controversies, such as child or forced labour and armed conflicts, and whether the country was a party to international conventions related to endangered species, biological diversity, chemical and biological weapons (PAI 7, 14). The methodology used the ESG Government rating score (as calculated by MSCI) to apply tilt factors to increase weight to those countries with more robust ESG characteristics. No optional indicators were taken into account.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The ndex was constructed using a combination of BBG and MSCI data. The MSCI proprietary data on each country provided MSCI ESG Government Rating scores and rated countries on a seven-point scale from 'AAA' (best) to 'CCC' (worst). Ratings were derived from 0-10 scores on underlying factors in three pillars: Environmental, Social, and Governance. A number of U N G C principles were covered in the MSCI ESG Government score calculation, which included indicators such as politic rights and civil liberties, corruption control and stability and peace (PAI1 10). Further information on MSCI ESG Government Ratings is available on the Index provider's website.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Bloomberg (BBG) index was constructed using a combination of BBG and MSCI data. The MSCI proprietary data on each country provided MSCI ESG Government Rating scores and rated countries on a seven-point scale from 'AAA' (best) to 'CCC' (worst). Ratings were derived from 0-10 scores on underlying factors in three pillars: Environmental, Social, and Governance. The model contained scores on all these sub-factors to provide granular insight on a country's performance on the issues.

The risk factors included in the assessment of a country's MSCI ESG government rating score were:

- 1) Environmental risks; Natural resources & Environmental externalities and vulnerability. These risk factors cover how countries effectively managed water use, land use and mineral resources (PAI 5) and impact on environmental externalities (PAI 7,8), it also includes energy resource management and conservation (PAI 1,2)
- 2) Social Risk; Human Capital and Economic environment.
- 3) Governance Risk; Financial governance & political governance. The risk factors included politic rights and civil liberties, corruption control and stability and peace (PAI
- 10) Included are a set of screening factors for each country which shows the profile of a country's status with respect to various values- and mission-based issues and controversies, such as child or forced labour and armed conflicts, and whether the country is a party to international conventions related to endangered species, biological diversity, chemical and biological weapons (PAI 7, 14). The methodology used the ESG Government rating score (as calculated by MSCI) to apply tilt factors to increase weight to those countries with more robust ESG characteristics.

What were the top investments of this financial product?

| Large Investments | Sector | % Assets | Country |
|---|------------|----------|-----------------------------|
| Government Of Germany 2.8% 12-jun-2025 | Government | 0.90% | Germany |
| Government Of Canada 0.75% 01- oct-2024 | Government | 0.77% | Canada |
| Government Of Germany 0.25% 15-feb-2027 | Government | 0.77% | Germany |

Cash and derivatives were excluded

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31/12/2023

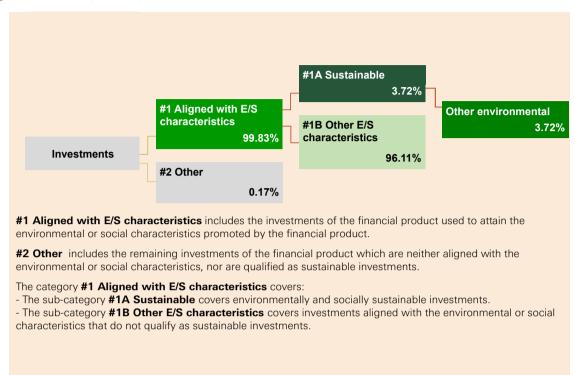

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

3.72% of the portfolio was invested in sustainable assets.

What was the asset allocation?

In which economic sectors were the investments made?

| Sector / Sub-Sector | % Assets |
|---------------------|----------|
| Government | 99.87% |
| Other | 0.10% |
| Cash & Derivatives | 0.10% |
| Financials | 0.00% |
| Total | 100.0% |

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

| | Yes: | | |
|---|------|---------------|-------------------|
| | | In fossil gas | In nuclear energy |
| ✓ | No | | _ |

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.

capital

expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a

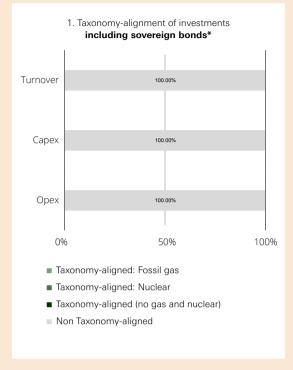

green economy.

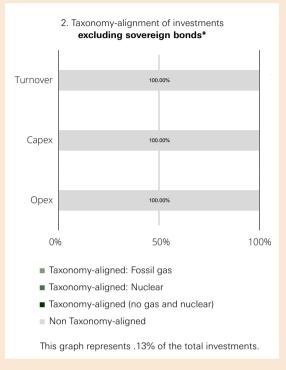

- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.
- What was the share of investments made in transitional and enabling activities?

For the reference period fund's share of investment in transitional activities was 0.00% and the share of investment in enabling activities was 0.00%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

3.72%

What was the share of socially sustainable investments?

N . The Fund does not intend to commit to a minimum share of socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Other instruments such as Eligible Collective Investment Schemes and/or financial derivative instruments such as currency forwards may have been used for hedging and efficient portfolio management in respect of which there were no minimum environmental and/or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund was passively managed and aimed to track the performance of the Index while minimising as far as possible the tracking error between the Fund's performance and that of the Index and promoting ESG characteristics within the meaning of Article 8 of SFDR. The Fund used optimisation techniques which take account of tracking error and trading costs when constructing a portfolio.

The Index measured the performance of investment grade, fixed-rate, taxable securities issued by government and government-related issuers using ESG sovereign scores to tilt country allocations above or below their market value weights in the Bloomberg Global Aggregate Treasury Index. The Index achieved this in the following way:

On a monthly basis, the Index used fixed multipliers to adjust the weight of each eligible security in the Index above or below their market value weights in the Parent Index. Security weights were then normalized using these adjusted market values.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Index measured the performance of investment grade, fixed-rate, taxable securities issued by government and government-related issuers using ESG sovereign scores to tilt country allocations above or below their market value weights in the Bloomberg Global Aggregate Treasury Index.

On a monthly basis, the Index used fixed multipliers to adjust the weight of each eligible security in the Index above or below their market value weights in the Parent Index. Security weights were then normalized using these adjusted market values.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The investment objective of the Fund was to track the performance of the Index, while minimising as far as possible the Tracking Error between the Fund's performance and that of the Index.

The Index was rebalanced on a monthly basis in order to account for the eligibility criteria.

How did this financial product perform compared with the reference benchmark?

| Indicator | und | Reference Benchmark |
|--|--------|---------------------|
| ESG Score | 6.64 | 6.80 |
| 15. GHG intensity - Metric in kilo tons per unit of GDP (in millions of Euros) | 207.94 | 202.35 |

Environmental and/or social characteristics

| Did this financial product have a sustainable investment objective? | | | | |
|--|---|--|--|--|
| Yes | ● No | | | |
| It made sustainable investments with an environmental objective: _% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | It promoted Environmental/ Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 38.23% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify | | | |
| | as environmentally sustainable under the EU Taxonomy with a social objective | | | |
| It made sustainable investments with a social objective: _% | lt promoted E/S characteristics, but did not make any sustainable investments | | | |

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund invested mainly in equities of companies incorporated in the developed markets of the European Economic and Monetary Union (the "EMU"), while promoting ESG characteristics within the meaning of Article 8 of SFDR. The ESG charateristics promoted by the Fund were as follows:

- 1. Active consideration of low carbon intensity investments and higher ESG scores Reference Performance Benchmark compared to the
- 2. Identification and analysis of a company's environmental and social characteristics including, but not limited to, physical risks of climate change and human capital management
- 3. Responsible business practices in accordance with UN Global Compact Principles
- 4. Minimum environmental standards through exclusion of business activities that are deemed harmful to the environment
- Active consideration of environmental issues through engagement and proxy voting.

6. Exclusion of controversial weapons and other Excluded Activities.

The Fund was actively managed and did not track a benchmark. The Reference Performance Benchmark was used to measure the Fund's carbon intensity and ESG scores, but it was not designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics of the Fund.

The Fund did not use derivatives to attain the environmental and/or social characteristics of the Fund.

How did the sustainability indicators perform?

| Indicator | und | Reference Benchmark |
|--|-------|---------------------|
| ESG Score | 8.33 | 7.85 |
| 3. GHG Intensity of investee companies - Tons of CO2 equivalents per million of Euros of revenue | 92.25 | 109.83 |
| 10. Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises | 0.00% | 0.00% |
| 14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons) | 0.00% | 0.00% |

The data in this SFDR Periodic Report are as at 31 December 2023

Reference Benchmark - MSCI EMU

...and compared to previous periods?

This is the first SFDR Periodic report and as such there is no comparison.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The objectives of the sustainable Investments in the und were, amongst others:

- 1. Companies with sustainable product and/or services or quantifiable projects (e.g. CAPEX, OPEX) linked to sustainable goals or outcomes
- 2. Companies that demonstrated qualitative alignment and/or convergence with UNSDGs or sustainable themes (e.g. Circular Economy)
- 3. Companies that were transitioning with credible progress. (e.g the transition to or use of renewable energy or other low-carbon alternatives)
- 4. Sustainable Bonds as defined by bonds with specific uses of proceeds aligned to supporting sustainability goals (e.g. Green Bonds, Social Bonds).

The Investment Manager used an HSBC proprietary systematic portfolio construction process to create an optimised portfolio which aimed for a lower carbon intensity and a higher ESG score calculated respectively as a weighted average of the carbon intensities and ESG scores of the Fund's investments, than the weighted average of the constituents of the Reference Performance Benchmark.

By lowering exposure to carbon intensive businesses and raising the ESG score of the investments in the Fund, when measured against the Reference Performance Benchmark, the Fund contributed to these objectives.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager reviewed all SFDR mandatory Principal Adverse Impacts Indicators to assess the relevance to the Fund. HSBC's Responsible Investment Policy set out the approach taken to identify and respond to principal a dverse sustainability impacts and how HSBC considers ESG sustainability risks as these could have adversely impacted the securities the Fund invested in. HSBC used third party screening providers to identify companies with a poor track record in managing ESG risks. Sustainability impacts, including the relevant Principal Adverse Impacts, identified by screening were a key consideration in the investment decision making process and, in turn, this also supported the advice given to clients.

The approach taken, as set out above, meant that among other things the following points were scrutinised:

- companies' commitment to lower carbon transition, adoption of sound human rights principles and employees' fair treatment, implementation of rigorous supply chain management practices aiming, among other things, at alleviating child and forced labour. HSBC also paid great attention to the robustness of corporate governance and political structures which included the level of board independence, respect of shareholders' rights, existence and implementation of rigorous anti-corruption and bribery policies as well as audit trails; and - governments' commitment to availability and management of resources (including population trends, human capital, education and health), emerging technologies, government regulations and policies (including climate change, anti-corruption and bribery), political stability and governance.

The specific Principal Adverse Impacts for this Fund are as set out above.

HSBC's Responsible Investment Policy is available on the website at: www.assetmanagement/hsbc/about-us/responsible-investing/policies.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

HSBC was committed to the application and promotion of global standards. Key areas of focus for HSBC's Responsible Investment Policy were the ten principles of the United Nations Global Compact (UNGC). These principles included nonfinancial risks such as human rights, labour, environment and anti-corruption. HSBC is also a signatory of the UN Principles of Responsible Investment. This provided the framework used in HSBC's approach to investment by identifying and managing sustainability risks. Companies in which the Fund invested were expected to comply with the UNGC and related standards.

693

Companies having clearly violated one of the ten principles of the UNGC, and therefore the OECD guidelines, were systematically excluded.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The approach taken to consider Principal Adverse Impacts meant that, among other things, HSBC scrutinised companies' commitment to lower-carbon transition, adoption of sound human rights principles and employees' fair treatment, and implementation of rigorous supply chain management practices such as those aiming to alleviate child and forced labour. HSBC also paid attention to the robustness of corporate governance and political structures which included the level of board independence, respect of shareholders' rights, existence and implementation of rigorous anti-corruption and bribery policies, as well as audit trails.

The Fund also considered the Principal Adverse Impacts that are listed below:

- Green house gas intensity of investee companies Scope 1 & Scope 2
- Violation of UNGC principles and OECD Guidelines For Multinational Enterprises
- Share of investment involved in controversial weapons

How Principal Adverse Impacts were considered are included in the Fund's year-end report and accounts.

What were the top investments of this financial product?

| Large Investments | Sector | % Assets | Country |
|-------------------------------------|------------------------|----------|-----------------------------|
| ASML Holding NV | Information Technology | 5.38% | Netherlands |
| LVMH Moet Hennessy Louis Vuitton SE | Consumer Discretionary | 4.02% | France |
| SAP SE | Information Technology | 3.49% | Germany |
| TotalEnergies SE | Energy | 3.34% | France |
| Allianz SE | Financials | 3.28% | Germany |
| Schneider Electric SE | Industrials | 3.09% | United States of America |
| Siemens Aktiengesellschaft | Industrials | 2.28% | Germany |
| STMicroelectronics NV | Information Technology | 2.05% | Singapore |
| Wolters Kluwer N.V. | Industrials | 2.03% | Netherlands |
| Sanofi | Health Care | 1.81% | United States of America |
| Assicurazioni Generali S.p.A. | Financials | 1.79% | Italy |
| Brenntag SE | Industrials | 1.68% | Germany |

Cash and derivatives were excluded

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:

31/12/2023

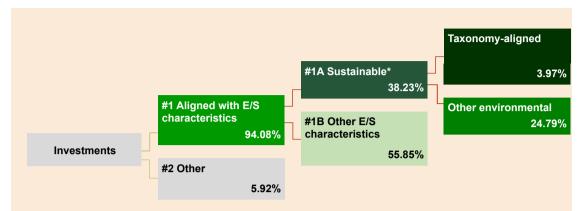

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

38.23% of the portfolio was invested in sustainable assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.
- *A Company or Issuer considered as a sustainable investment may contribute to both a social and environmental objective, which can be aligned or non-aligned with the EU Taxonomy. The figures in the above diagram take this into account, but one Company or Issuer may only be recorded once under the sustainable investments figure (#1A Sustainable).

In which economic sectors were the investments made?

| Sector Sub-Sector | % Assets | |
|--------------------------------|----------|--------|
| Consumer Discretionary | | 17.71% |
| Industrials | | 17.70% |
| Financials | | 18.14% |
| Information Technology | | 13.41% |
| Consumer Staples | | 6.71% |
| Energy | | 6.58% |
| Integrated Oil & Gas | | 5.75% |
| Oil & Gas Refining & Marketing | | 0.74% |
| Oil & Gas Equipment & Services | | 0.12% |
| Health Care | | 5.80% |
| Utilities | | 5.42% |
| Electric Utilities | | 3.75% |
| Multi-Utilities | | 1.06% |
| Materials | | 3.95% |
| Communication Services | | 2.18% |
| Real Estate | | 1.89% |
| Cash & Derivatives | | 0.51% |
| Total | | 100.0% |

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

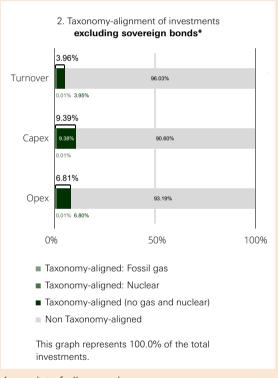

N/A - the und did not make sustainable investments aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

| Ye | es: | | |
|----|-----|---------------|-------------------|
| | | In fossil gas | In nuclear energy |
| N | 0 | | • |

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

For the reference period und's share of investment in transitional activities was 0.04% and the share of investment in enabling activities was 2.97%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

As this was the first reporting period for the und, no comparison is required.

696

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

(EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

24.79%

What was the share of socially sustainable investments?

N . The und did not invest in socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund may have also held cash and money market instruments (including bills, commercial paper and certificates of deposits) for ancillary liquidity purposes. The Sub-Fund may have also invested in the units or shares of CIS in order to achieve its investment objective. FDI may have been used for hedging and efficient portfolio management.

There was no minimum environmental and/or social safeguards in respect of these securities.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund was actively managed and the investment strategy was implemented on a continuous basis through compliance and monitoring of the binding elements as listed below.

The optimised portfolio aimed for a lower carbon intensity and a higher ESG score, calculated respectively as a weighted average of the carbon intensities and ESG scores of the Fund's investments, than the weighted average of the constituents of the Reference Performance Benchmark. The Reference Performance Benchmark was used to measure the Fund's carbon intensity and ESG scores, but it was not designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics of the Fund.

The Investment Manager used a proprietary systematic investment process to create a portfolio which focused on risk premia offered by exposure to factors such as value, quality, momentum, low risk and size.

Following identification and ranking of the investment universe based on the above factors, the Investment Manager used an HSBC proprietary systematic portfolio construction process to create an optimised portfolio.

In order to lower exposure to carbon intensive businesses and raise the Fund's ESG score, all holdings in the portfolio were assessed for their individual carbon intensity and ESG scores.

The Fund did not invest in equities and equity equivalent securities of companies with specified involvement in specific excluded activities ("Excluded Activities").

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- How does the reference benchmark differ from a broad market index?
 N/A
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?
- How did this financial product perform compared with the reference benchmark?
- How did this financial product perform compared with the broad market index?

N/A
