Interim Report for Switzerland

Registered Office:

2-4 rue Eugène Ruppert, L-2453 Luxembourg

No subscription can be accepted on the basis of financial reports alone. Subscriptions, in order to be valid, must be made on the basis of the current Prospectus supplemented by a copy of the latest available Audited Annual Report and a copy of the latest Unaudited Interim Report, if later than such Audited Annual Report.

Copies of the Prospectus, Audited Annual Report and Unaudited Interim Report may be obtained at the Registered Office of the Company (Invesco Funds), 2-4 rue Eugène Ruppert, L-2453 Luxembourg, as well as from the offices of the Invesco Management S.A. in Luxembourg. Notices of all General Meetings will be published to the extent required by law, in the Mémorial, Recueil des Sociétés et Associations ("Mémorial") and will be sent to holders of registered Shares at their address in the Register of Shareholders by post at least 8 days prior to meetings. In the event of any discrepancy between translations from English text into foreign languages, please note that the English text will prevail.

Equalisation is calculated for tax reporting purposes and is not disclosed in the Audited Annual or Interim Report.

2. Summary of Significant Accounting Policies

(a) The accompanying financial statements have been prepared in accordance with the format prescribed by Luxembourg regulations. Combined figures appearing in the Statement of Net Assets are for statistical purposes only and should not be used by investors with holdings in one or more sub-funds.

(b) Valuation of investments

Investments, including financial derivative instruments, are valued on the basis of the latest dealing price or the latest available midmarket quotation (the midpoint between the latest quoted bid and offer prices) of the securities on the relevant securities market on which the investments of the Fund are traded, quoted or dealt as at the Valuation Point on that day. Where investments of a sub-fund are both listed on a stock exchange and dealt by market makers outside the stock exchange on which the investments are listed, then the SICAV will determine the principal market for the investments in question and they are valued at the latest available price in that market. Securities which are not quoted or dealt in any stock exchange but which are dealt in on any other regulated market are valued in a manner as near as possible to that described above. If no price quotation is available for any of the securities held by a sub-fund or if the value as determined pursuant to the points above is not representative of the fair market value of the relevant securities, the value of such securities is based on the reasonably foreseeable sales price determined prudently and in good faith. Short-term money-market instruments are valued based on amortised cost method. The financial statements of sub-funds liquidated after closing are prepared on a non-going concern basis.

The financial statements have been prepared on the basis of the last Net Asset Values ("NAVs") determined in the accounting period. In accordance with the Prospectus, NAVs were calculated by reference to the latest available prices at 1.00 p.m. (Luxembourg time) on 31 August 2023 for all sub-funds of the Fund.

(c) Impact on values

By way of information, if the Fund had calculated the NAVs solely with a view to publication, the market prices used to value the investment portfolio would have been the closing prices on 31 August 2023 for the entire investment portfolio, including the American and European equities. However, these NAVs would not have been significantly different from those shown in these unaudited financial statements except for the following sub-fund:

Invesco Emerging Markets Equity Fund; an increase in the Net Asset Value of approximately 1.35% would have been observed.

(d) Cost of sales of investments

Any surplus or deficit on sales of investments is determined on the basis of average cost.

(e) Income from investments

Dividend income is accounted for on an ex-dividend basis. Income arising on fixed interest securities and deposit interest is accrued on a day-to-day basis. Amortisation/Accretion of Premium/Discount is disclosed under the Income section on the Statement of Operations and Changes in Net Assets (disclosed at year end only). Amortisation is the process of decreasing the book value of a bond purchased at a premium until the book value is equal to the par value at the time of maturity. As the book value is reduced, it is accounted for as a reduction in net investment income. Accretion is the process of writing up the book value of a bond purchased at a discount. As the book value is increased, it is accounted for as an increase in net investment income. The Amortisation/Accretion approach provides a consistent accounting treatment over the life of bond-like assets of the capital gain or loss associated with holding these assets.

(f) Foreign exchange

Transactions in currencies other than the designated currency for each sub-fund are translated at the rates of exchange ruling at the time of the transactions. The market value of the investments and other assets and liabilities in currencies other than the designated currency for each sub-fund are translated at the rates of exchange ruling at the period end.

(g) Expenses allocation

Where the Fund incurs an expense which relates to a particular sub-fund, such expense is allocated to the relevant sub-fund. In cases where an expense cannot be considered as being attributable to a particular sub-fund, such expense is allocated between sub-funds on the basis of their respective NAV.

(h) Preliminary expenses

The preliminary expenses will, if any, be borne by the Management Company.

(i) Forward foreign exchange contracts

The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contracted rate and the rate to close out the contract and is disclosed in the Statement of Net Assets (see note 8 for details). Realised gains or losses include net results on contracts which have been settled or offset on other contracts and are recorded in the Statement of Operations and Changes in Net Assets (disclosed at year end only). The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on forward foreign exchange contracts" (see note 8 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on forward foreign exchange contracts" (disclosed at year end only).

Non-Deliverable Forwards ("NDF") are short-term forward contracts on thinly traded or non-convertible foreign currencies. Those contracts are valued on the basis of forward exchange rates prevailing at the closing date and applicable to the remaining period until the expiration date. The unrealised gains or losses resulting from NDF are included in the Statement of Net Assets. The NDF are normally quoted and settled in USD. The NDF are disclosed together with other forward foreign exchange contracts in note 8.

(j) Futures contracts

A futures contract is a legal agreement to buy or sell a particular commodity or financial instrument at a predetermined price at a specified time in the future. Futures contracts are initially recognised at cost and subsequently are re-measured at market value. Market values are obtained from quoted market prices and exchange rates. All futures contracts are carried in assets when amounts are receivable by the Fund and in liabilities when amounts are payable by the Fund. Changes in market values of futures contracts are included in the Statement of Net Assets (see note 9 for details). The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on futures contracts" (see note 9 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on futures contracts" (disclosed at year end only).

(k) Credit default swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. The credit default swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Net Assets (see note 10 for details). The unrealised appreciation /depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on credit default swaps" (see note 10 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on credit default swaps" (disclosed at year end only).

2. Summary of Significant Accounting Policies (continued)

(l) Equity variance swaps

An equity variance swap is a bilateral agreement in which each party agrees to exchange cash flows based on the measured variance of a specified underlying asset. One party agrees to exchange a "fixed rate" or strike price payment for the "floating rate" or realised price variance on the underlying asset with respect to the variance notional amount. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price variance of the underlying asset and the strike price multiplied by the variance notional amount. Equity variance swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on equity variance swaps" (see note 11 for details). Realised gains/(losses) and changes in unrealised appreciation /depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on equity variance swaps" (disclosed at year end only).

(m) Volatility swaps

A volatility swap is a bilateral agreement in which each party agrees to exchange cash flows based on the measured volatility of a specified underlying asset. One party agrees to exchange a "fixed rate" or strike price payment for the "floating rate" or realised price volatility on the underlying asset with respect to the volatility notional amount. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price volatility of the underlying asset and the strike price multiplied by the volatility notional amount. Volatility swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on volatility swaps" (see note 12 for details). Realised gains/(losses) and changes in unrealised appreciation /depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on volatility swaps" (disclosed at year end only).

(n) Inflation linked swaps

An inflation linked swap is a swap used to transfer inflation risk from one party to another through an exchange of cash flows. In an inflation linked swap, one party pays a fixed rate on a notional principal amount, while the other party pays a floating rate linked to an inflation index. Inflation linked swaps are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on inflation linked swaps" (see note 13 for details). Realised gains/(losses) and changes in unrealised appreciation /depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on inflation linked swaps" (disclosed at year end only).

(o) Interest rate swaps

An interest rate swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The interest rate swaps are marked-to-market daily based upon quotations from market makers and recorded in the Statement of Net Assets (see note 14 for details). The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on interest rate swaps" (see note 14 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation /depreciation on interest rate swaps" (disclosed at year end only).

(p) Commodity swaps

A commodity swap is similar to a Fixed-Floating interest rate swap. The difference is that in an interest rate swap the floating leg is based on standard interest rates such as SOFR, SONIA, €STR etc., but in a commodity swap the floating leg is based on the price of underlying commodity index. No commodities are exchanged during the trade. Commodity swaps are marked-to-market using valuation sources/methods and the fair value is recorded on the Statement of Net Assets under "Unrealised gain/(loss) on commodity swaps" (see note 15 for details). The realised gains/(losses) and change in unrealised gains and losses are shown in the "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and the "Net change in unrealised appreciation/depreciation on commodity swaps" respectively in the Statement of Operations and Changes in Net Assets (disclosed at year end only).

(q) Total return swaps

A total return swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Fund enters into unfunded swap agreements on behalf of the particular sub-fund. Total return swaps are marked-to-market using valuation sources/methods and fair value is recorded in the Statement of Net Assets. Total return swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the total return swaps. The unrealised appreciation/depreciation is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on total return swaps" (see note 16 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on total return swaps" (disclosed at year end only).

Notes to the Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

(r) Options

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price ("strike price") to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

Purchased options – Premiums paid by the Fund for purchased options are included in the Statement of Net Assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation. If the option is allowed to expire the Fund will lose the entire premium it paid and record a realised loss for the premium amount. Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

Written options - Premiums received by the Fund for written options are included in the Statement of Net Assets. The amount of the liability is adjusted daily to reflect the current market value of the written option and the change in market value is recorded as unrealised appreciation or depreciation. Premiums received from written options that expire are treated as realised gains. The Fund records a realised gain or loss on written options based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer, the premium received by the Fund is added to the proceeds from the sale of the underlying security to the option buyer and compared to the cost of the closing transaction to determine whether there has been a realised gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost basis of the purchased security. Written uncovered call options subject the Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the strike price. Written put options subject the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium.

Outstanding options traded on a regulated market are valued based on the closing price or the last available market price of the instruments. OTC options are marked-to-market based upon daily prices obtained from third party pricing agents and verified against the value from the counterparty.

The market value is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on options/swaptions" (see note 17 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on options/swaptions" (disclosed at year end only).

(s) Swaptions

A swaption (swap option) is the option to enter into an interest rate swap or some other type of swap. In exchange for an option premium, the buyer gains the right but not the obligation to enter into a specified swap agreement with the issuer on a specified future date. There are two different kinds of swaptions: a payer swaption and a receiver swaption. In a payer swaption, the purchaser has the right, but not the obligation, to enter into a swap contract where he becomes the fixed-rate payer and the floating-rate receiver. A receiver swaption is the opposite; the purchaser has the option to enter into a swap contract where he will receive the fixed rate and pay the floating rate. The market value is disclosed in the Statement of Net Assets under "Unrealised gain/(loss) on options/swaptions" (see note 17 for details). Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations and Changes in Net Assets respectively under "Net realised gain/(loss) on investments, derivatives and foreign currencies and other" and "Net change in unrealised appreciation/depreciation on options/swaptions" (disclosed at year end only).

(t) Equity Linked

At the period end, the Invesco Global Equity Income Advantage Fund held a number of Equity Linked Notes. A principal amount is paid to a broker at the market price of an underlying equity at an agreed date in return for a fixed coupon payment or payments. At maturity the Fund will receive the principal plus (up to an agreed cap level per the agreement) or minus any movements in the value of the underlying equity.

(u) To Be Announced securities

To Be Announced ("TBA") securities are related to mortgage backed securities issued by US government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. The specific mortgage pools are announced and allocated just before the delivery date. Certain Funds may enter into TBA purchase commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalised. The Funds hold and maintain until settlement date, cash or high grade debt obligations in an amount sufficient to meet the purchase price, or the Funds may enter into offsetting contracts for the forward sale of other securities they own. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities in themselves and involve a risk of loss if the value of the security to be purchased declines prior to settlement date, which is in addition to the risk of decline in the value of the Funds' other assets. Unsettled TBA purchase commitments are valued at the current market value of the underlying securities.

(v) Margin Accounts

Margin accounts represent the variation margin held at brokers for futures contracts, credit default swaps, inflation linked swaps and interest rate swaps. Margin is only applicable to centrally cleared positions.

Notes to the Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

(w) Cross investments

Cross sub-fund investment holdings were not eliminated from the combined figures. At 31 August 2023, the total cross sub-fund investment holdings are as mentioned below:

- Invesco Asian Flexible Bond Fund amounted to USD 717,991 into Invesco Global Flexible Bond Fund.
- Invesco Belt and Road Debt Fund amounted to USD 8,339,778 into Invesco Asian Flexible Bond Fund.
- Invesco Belt and Road Debt Fund amounted to USD 2,300,154 into Invesco Global Flexible Bond Fund.
- Invesco Sustainable Global High Income Fund amounted to USD 8,885,847 into Invesco Sustainable Multi-Sector Credit Fund.

Therefore the Total Combined Net Assets at period end, if these cross investment holdings were eliminated would have amounted to USD 38,916,985,123.

(x) Capital gains tax on investment

Indian Capital Gains Tax:

The India Finance Bill, 2018 introduced a 10% tax (plus surcharge and cess) on long term capital gains from the disposal of Indian listed securities with effect from 1 April 2018. Prior to this, long term capital gains were exempt from tax in India provided securities transaction tax had been paid. Short term gains continue to be subject to tax of 15% (plus surcharge and cess).

Thailand Capital Gains Tax:

On 31 March 2022 Thailand signed and deposited its instrument of ratification of the Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting ("MLI"). The MLI entered into force from 1 July 2022, however for withholding taxes the MLI applies on or after 1 January 2023. Measures to prevent treaty abuse are supported by a new provision, the Principal Purpose Test ("PPT"), to deny tax benefits if one of the principal purposes is to obtain the tax benefits under the treaty. Therefore, Thailand should apply the PPT to cover tax treaties going forward. Due to the MLI, the Thai Revenue Department ("TRD") has contacted certain custodians/brokers to ask about how this position might work going forward and, therefore, the foreign investors are concerned as to whether the current position (rely on the registered owner) will be sustained after PPT applies to Thailand's treaties. The TRD currently has no clear position on whether, as a result of the MLI entering into force, it will change its interpretation to apply the concept of the beneficial owner of income, as opposed to merely the recipient of income (registered owner), on Thai CGT for foreign investors.

(y) Other debtors/Other creditors

The Other debtors line on the Statement of Net Assets can include prepaid sundry fees, accrued income and prepayments.

The Other creditors line on the Statement of Net Assets can include distributions payable, management fees payable, accrued expenses, accrued capital gains tax payable and accrued sundry fees.

3. Management Fees

The Directors of the Fund (the "Directors") are responsible for the investment policy, management and administration of the Fund. The Directors delegate the day-to-day investment management of the securities portfolio of the Fund to Invesco Management S.A. (the "Management Company").

In following the investment policy, the Management Company has delegated the investment management services, as appropriate, to Invesco Advisers Inc. in the United States, Invesco Asset Management Deutschland GmbH in Germany, Invesco Asset Management Limited in the United Kingdom, Invesco Canada Ltd, Invesco Hong Kong Limited, Invesco Asset Management (Japan) Limited and Invesco Asset Management Singapore Ltd. Each such investment manager may then in turn have sub-delegated the investment management services to any of the aforementioned entities.

Notes to the Financial Statements (continued)

3. Management Fees (continued)

For its services the Management Company is paid by the Fund a percentage of the NAV of each share class of each sub-fund as set out in the table below:

There are no annual management fees charged for "I" Shares.

The management fees are calculated daily based on the Net Asset Value of each sub-fund on each business day and paid monthly. The fees of the Investment Manager are paid out of the Management Company's remuneration.

At its discretion the Management Company has agreed to the capping of operational expenses and total expenses, where a fund exceeds the cap an amount will be waived, this cost will be borne by the Management Company. Waived amounts are reflected in the Total Waived Expense line in the Statement of Operations and Changes in Net Assets (disclosed at year end only). Refer to note 4 for details of capped funds.

¹ Effective 29 March 2023, Invesco Sustainable Eurozone Equity Fund was launched.

² Management fee in respect of share class for the noted sub-funds incorporates a management fee waiver implemented on 8 April 2020.

³ Effective 8 August 2023, Invesco Macro Allocation Strategy Fund re-positioned and was renamed to Invesco Balanced-Risk Allocation 12% Fund.

³ Out of this Service Agent Fee, the Management Company discharges the fees of the Administration Agent, the Domiciliary & Corporate Agent and the Registrar & Transfer Agent as well as fees of service providers. Each of these fees shall be calculated on each Business Day on the NAV of the sub-funds (at a rate which shall be agreed from time to time with the Management Company) and paid monthly.

⁴ Class T1 is 0.06% and Class T11 is 0.05%.

There is no annual service agent fee charged for "I" shares.

The Depositary will be paid a fee calculated on a monthly basis at a rate of up to a maximum of 0.0075% per annum of the NAV of each sub-fund on the last Business Day of each calendar month (or at such higher rate as the Custodian and the SICAV may at any time agree), plus VAT (if any) and will be paid monthly. In addition, the Depositary will charge each sub-fund safekeeping and servicing fees at varying rates, depending on the country in which the assets of a sub-fund are held and currently ranging from 0.001% to 0.45% of the NAV of the assets invested in such country, plus VAT (if any), together with charges at normal commercial rates in respect of investment transactions, as agreed with the SICAV from time to time. Sub-custodian fees are paid out of these safekeeping and servicing fees.

5. Tax Status

Luxembourg

The Fund is registered under Luxembourg law as a collective investment undertaking. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Fund. It is, however, subject to an annual "taxe d'abonnement" calculated at an annual rate of 0.05% of the NAV. "I", "PI", "S" and "TI" share classes are subject to a reduced annual rate of 0.01% of the NAV, such tax being payable quarterly on the basis of the NAV of the sub-funds at the end of the relevant quarter.

No subscription tax is held on underlying Luxembourg funds already submitted to "Taxe d'abonnement".

Belgium

The Fund is registered with the Belgium Financial Services and Markets Authority in accordance with Article 154 of the Law of 3 August 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax ("Belgian subscription tax") of 0.0925% on the NAV of shares distributed in Belgium via Belgian intermediaries as at 31 December of the previous year, with effect from 1 January 2014. As a precautionary measure, the Fund has filed claims with the Belgian tax authority and the Brussels Court of First Instance for the tax to be refunded.

The Court of Cassation ruled against the plaintiff on 25 March 2022. The Court of Cassation (French Speaking chamber) considers that the Brussels Court of Appeal wrongly qualified the Belgian subscription tax as a capital tax, and did not rule on whether the tax falls within the scope of the double taxation convention between Belgium and Luxembourg. The case is referred back to the Court of Appeal of Liège.

Another decision of the Court of Cassation (Dutch speaking chamber) of 21 April 2022 does not dispute that the Belgian subscription tax is a capital tax, but considers that the Belgian subscription tax does not fall within the scope of the double taxation convention between Belgium and Luxembourg. The case is referred back to the Court of Appeal of Ghent.

At this stage, it is not possible to prejudge the final outcome of the dispute or any reimbursement which may result in favour of the Fund.

Withholding Tax

Further to a number of rulings of the European Court of Justice regarding taxation withheld on overseas dividends, the Management Company has taken steps to make claims with certain European Tax Authorities for repayment of taxation suffered on foreign dividend income. Due to the uncertainty regarding the likely success of the claims, it is not possible to estimate the potential amount of overseas withholding tax that may be received and these are recorded on cash basis.

6. Reimbursement of Withholding tax claim

For the period from 1 March 2023 to 31 August 2023, there was no reimbursement of EU withholding tax reclaims for any of the sub-funds.

Notes to the Financial Statements (continued)

7. Dividends

In accordance with the distribution policy of the Fund, income is distributed by way of a dividend payment, only to holders of Distribution Shares.

The Fund at its absolute discretion has the power to issue certain classes of Shares that offer a fixed distribution. The following table lists the sub-funds and these classes of shares available at 31 August 2023:

18. Swing Pricing Policy

Securities are valued as outlined in note 2(b). However, in order to mitigate the effects of dilution, the Fund has implemented a policy of “Swing Pricing” as from 18 December 2007. The Swing Pricing mechanism may be applied against all sub-funds of the Invesco Funds.

In the best interest of Shareholders, the Directors may allow for the NAV to be adjusted, using bid or ask market quotation rather than mid, depending on the net share activity arising from subscriptions, redemptions or switching in a sub-fund for a given business day.

The sub-funds operate partial swing only. That is, the sub-funds will not swing to either a bid or ask price basis daily, but only when a pre-determined level of shareholder activity is exceeded. In such circumstances the NAV of the relevant sub-fund may be adjusted by an amount not exceeding 2.00%. High redemption level triggers a swing to a bid price basis, whereas high subscription level triggers a swing to ask price basis. The Directors have the ability to place a sub-fund on constant swing depending on the recent trends in a sub-fund.

The reconciliation on 31 August 2023 of MID to BID/ASK pricing is as follows:

19. Changes in Investments

A list, specifying for each investment the total purchases and sales which occurred during the period under review, may be obtained, upon request and free of charge, at the Registered Office and the Hong Kong Representative Office of the Fund.

20. Securities Lending

The SICAV, on behalf of each Sub-Fund (if specified in Appendix A of the Prospectus) and in furtherance of efficient portfolio management, may enter into securities lending for the purposes of efficient portfolio management in accordance with the provisions of the UCITS Regulations. The securities lending agent appointed pursuant to the Securities Lending Authorisation Deed is The Bank of New York Mellon SA/NV.

At 31 August 2023, there was securities lending on the sub-funds listed in the tables below. The tables below show the securities lending income earned. This securities lending income earned is net of the lending agent fee. Further details on the securities lending are disclosed in the Securities Financing Transactions Appendix.

As per the Securities Lending Authorisation Deed, The Bank of New York Mellon SA/NV is authorised and directed to invest and re-invest all or substantially all of the collateral received in any approved investment. All approved investments shall be for the account and risk of the lender. To the extent any loss arising out of approved investments results in a deficiency in the amount of collateral available to return to a borrower, the lender agrees to pay The Bank of New York Mellon SA/NV on demand cash an amount equal to such deficiency. As at 31 August 2023, there was no collateral re-invested.

21. Soft Commissions & Related Party Transactions

Certain subsidiaries of Invesco Ltd (the "Group") consistent with obtaining the best net result, including best execution, may enter into agreements with counterparties whereby those counterparties may make payments for investment services provided to the Group.

Investment services are used by the Group to improve or add to the services provided to its clients. Although each and every service may not be used to service each and every account managed by the Group, the Group considers that those investment services received are, in the aggregate, of significant assistance in fulfilling its investment responsibilities and are of demonstrable benefit to all clients. Only services that assist in the provision of investment services to the Group's clients will be paid for by counterparties.

Allowable investment services include services that provide assistance to the Group in its investment performance. Those services include, but are not necessarily limited to, furnishing analysis, research and advisory services including economic factors and trends, portfolio valuation and analysis, performance measurement, market prices services and the use of specialised computer software and hardware or other information facilities.

The Group will ensure adherence to its investment decision making responsibilities to its clients in accordance with the laws of the countries that have jurisdiction over its clients or business. This may vary in application with respect to the appropriateness of those investment services provided.

The Group selects counterparties to execute transactions on the basis that transactions will only be executed provided the placing of orders will not operate against the best interest of the Group's clients and that the multiple is at a level which is generally accepted market practice. The Group will endeavour to obtain best execution on all transactions for all clients.

The Group will endeavour to maintain the highest possible regulatory standards worldwide.

The Administrator, Depositary, Registrar and Transfer Agent, Corporate and Paying Agent, Domiciliary Agent and Investment Managers are considered as connected parties to the sub-funds by Invesco Management S.A. We have performed the necessary enquiries to identify potential transactions with connected parties to ensure they have been negotiated at arm's length and in the best interests of the shareholders. Any such transactions would have been entered into in the ordinary course of business and on normal conditions.

The amount paid to Independent Directors in the financial period 31 August 2023 was Nil. The Directors who are employees of the Invesco Group are not entitled to receive Director's fees.

As at 31 August 2023, the Fund has investments in other Invesco Funds. Please see the Statement of Investments for details by sub-fund.

¹Effective 29 March 2023, Invesco Sustainable Eurozone Equity Fund was launched.

²Invesco Sustainable Emerging Markets Structured Equity Fund was put into liquidation on 21 November 2022. Effective 30 June 2023, Invesco Fixed Maturity Global Debt 2024 Fund was put into liquidation and effective 8 August 2023, Invesco Emerging Markets Select Equity Fund was put into liquidation.

³Effective 8 August 2023, Invesco Macro Allocation Strategy Fund re-positioned and was renamed to Invesco Balanced-Risk Allocation 12% Fund.

For the period end 31 August 2023, the Fund did not pay broker fees/commissions on bond transactions. In accordance with bonds market practice, a "bid-offer" spread is applied on the transaction prices. According to this principle, the sale price applied by the broker is not the same as the purchase price, the difference corresponding to the remuneration of the broker.

24. Sustainable Finance Disclosure Regulation (SFDR)

Information on environmental and/or social characteristics and/or sustainable investments are available under the (unaudited) Sustainable Finance Disclosure Regulation section and its relevant annexes where applicable. This section is included in the annual audited report for the year ended 28 February only.

25. Sub-Funds in Liquidation

For the sub-funds which have been put into liquidation, the assets held on these sub-funds cannot be traded due to events beyond the control of the Investment Manager and have been fair valued.
