Report of the Management Board

Dear Investors,

BlackRock Asset Management Deutschland AG is able to look back on a very successful fiscal year. Private and institutional investors value the benefits provided by the reasonable pricing, liquidity and transparency of iShares ETFs. BlackRock conducts all its global business in exchange traded index funds (ETFs) under the iShares brand.

As at 30 September 2011 the volume of assets under management for the 64 iShares funds currently managed in Germany was EUR 25.39 billion, making BlackRock Asset Management Deutschland AG the fifth-largest retail fund company in Germany (source: BVI - *Bundesverband Investment und Asset Management e.V.*). This semi-annual report provides detailed information about the performance of our index funds.

Our ETF product range includes 163 iShares funds approved in Germany, providing investors with easy and diversified access to a large number of worldwide markets and asset classes. More than a third of these exchange-traded index funds are both issued and managed in Germany. The code (DE) in the fund name identifies them as such. In November 2010, iShares listed the world's first European high-yield ETF on the Deutsche Börse. Six additional iShares ETFs have been listed on the Deutsche Börse since February 2011. These include currency-hedged products on the Japanese and global equity markets and on the S&P 500 and ETFs on the Indian and Russian equity markets which are based on a new, transparent and fully hedged swap-based model, as well as an additional index fund on the US equity market. In addition, since June 2011, we have offered on the Deutsche Börse two further sustainability ETFs as well as iShares Barclays Capital Emerging Markets Local Govt Bond, which physically invests in government bonds from eight emerging markets in the respective local currencies.

The crowning achievement of the financial year was winning numerous national and international awards. Among other awards, iShares was awarded the Golden Bull from *€uro Finanzen* as "ETF House of the Year 2011" and won readers' choice prizes as "Best ETF Provider" and "Best ETF Bond Provider" at the portfolio ETF Awards.

ETFs have flourished since their launch ten years ago in Germany and Europe. On 11 April 2000, iShares DJ Euro STOXX 50 (now: iShares EURO STOXX 50) and iShares DJ STOXX 50 (now: iShares STOXX Europe 50) were the first exchange-traded index funds to be listed on the Deutsche Börse. This listing of the first ETFs has been instrumental in making a lasting change to the European investment landscape. ETFs have provided investors with new avenues in portfolio management, particularly through their high level of liquidity, efficiency and transparency.

As a provider from the outset, iShares retains its outstanding positioning in the European ETF market. We are continuing to invest in excellent service and products that meet the needs of our customers. We adjusted our STOXX-sector product range on 31 March 2011 by transferring our previous swap-based products to existing fully replicating products. This merger makes iShares the only ETF issuer that offers a competitive UCITS III-compliant and fully replicating STOXX sector product range. We intend to develop our market leadership further through the continuous and innovative extension of our product range. Among the strategic competitive advantages of iShares ETFs are high market liquidity, narrow bid/ask spreads and a high level of precision in index replication.

Please visit our website www.iShares.de or call us on +49 (0) 89 42729 - 5858 for further information.

We would like to thank you for your trust and we are looking forward to continuing to work together in partnership.

Special Notice for Business Investors

Adjustment of equity gains due to the ECR ruling in the case STEKO Industriemontage GmbH

In the case STEKO Industriemontage GmbH (C-377/07), the European Court of Justice (ECJ) decided that the regulation in the KStG (Capital Gains Tax Act) for the transition from the corporate tax imputation procedure to the half-income procedure in 2001 was in violation of European law. The prohibition on corporations claiming a reduction in profits connected with shareholdings in foreign companies under Section 8b Para. 3 KStG for tax purposes had been valid under Section 34 KStG since 2001, while the prohibition on the reduction in profits connected with shareholdings in domestic companies did not become valid until 2002. In the opinion of the ECJ this is in violation of the freedom of movement of capital.

The transitional regulations of the KStG applied accordingly to fund investments under the Gesetz über Kapitalanlagegesellschaften (German Capital Investment Companies Act) (Sections 40 and 40a in conjunction with Section 43 Para. 14 KAGG). This decision could be of particular significance for the purposes of taking into account reductions in profits when calculating equity gains in accordance with Section 40a KAGG (Investment Companies Act). In its judgement of 28 October 2009 (Az. I R 27/08), the German federal tax court (Bundesfinanzhof; BFH) ruled that the STEKO case would in principle have an effect on fund investments. The BMF circular of 1 February 2011, "Application of the BFH ruling of 28 October 2009 – I R 27/08 on equity gains ("STEKO case")" states that the tax authorities have established what they view as the permissible conditions under which equity gains can be adjusted on the basis of the STEKO case.

We recommend that investors holding units in operating assets consult a tax advisor regarding possible actions based on the STEKO case.
