

# Key Information Document

**Purpose:** This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

**Janus Henderson Absolute Return Fund H2 GBP** ISIN: LU0995139184

A sub-fund of Janus Henderson Fund, a Luxembourg SICAV manufactured by **Janus Henderson Investors Europe S.A.**, a subsidiary of Janus Henderson Group plc. This Fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier ("CSSF"). The Manager is authorised in Luxembourg and regulated by the CSSF, and relies on passporting rights under the UCITS Directive to manage the Fund on a cross-border basis and to market the Fund within the European Union. More information is available at [www.janushenderson.com](http://www.janushenderson.com) or by calling +352 26 19 21 24. This document is dated 14 February 2024.

## What is this product?

### Type

Janus Henderson Absolute Return Fund is a sub-fund of Janus Henderson Fund, an open-ended investment company organised under the laws of the Grand Duchy of Luxembourg. Janus Henderson Fund qualifies as an undertaking for collective investment in transferable securities (UCITS).

### Term

This investment has no maturity date. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

### Objectives

The Fund aims to achieve a positive (absolute) return, regardless of market conditions, over any 12-month period. A positive return is not guaranteed over this or any time period and, particularly over the shorter term, the Fund may experience periods of negative returns. Consequently, your capital is at risk. Performance target: To outperform the Bank of England Base Rate, after the deduction of charges, over any 3 year period. The Fund invests in shares and makes extensive use of derivatives (complex financial instruments) to take both 'long' and 'short' positions in companies the Investment Manager believes will either rise in value (long positions) or fall in value (short positions) meaning that the Fund may benefit from either scenario. The Fund will hold a significant proportion of its assets in cash and money market instruments as a result of holding derivatives and for when the Investment Manager wishes to take a defensive stance. Conversely, the Fund may also employ 'leverage' (so that the Fund can invest a greater amount than its actual value) when the Investment Manager has greater confidence in the opportunities available. Typically, at least 60% of the exposure to the long and short positions (in aggregate) will be to companies of any size, in any industry, in the UK. Companies may be incorporated or headquartered in the UK, deriving significant revenue from the UK, or listed on the London Stock

Exchange. Up to 40% of the long and short exposure may be to non-UK companies. The Fund may also invest at the Investment Manager's discretion in other Transferable Securities, derivative instruments and collective investment schemes. The Investment Manager may also use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the Bank of England Base Rate as this forms the basis of the Fund's performance target and the level above which performance fees may be charged (if applicable). For currency hedged Share Classes, the central bank rate that corresponds with the relevant Share Class currency is used as the basis of the performance comparison and for calculating performance fees. The Investment Manager has complete discretion to choose investments for the Fund and is not constrained by a benchmark. The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus. The Fund promotes environmental and/or social characteristics as defined under Article 8 of the Sustainable Finance Disclosure Regulation (SFDR). This share class accumulates income which is retained within the price of the share class. You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Fund's Prospectus. The Fund's Depository is BNP Paribas, Luxembourg Branch.

### Intended Retail Investor

Investors who understand the Fund's risks and complex investment approach, would like an absolute return from a UK-Focused investment, and intend to invest their money for at least five years. This Fund is designed to be used only as a component in a diversified investment portfolio and is not designed for investors who are unable to accept more than a minimal loss of their investment.

## What are the risks and what could I get in return?

### Risk Indicator

Lower Risk 1 2 3 4 5 6 7 Higher Risk

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the PRIIPs manufacturer to pay you.

**If the product currency differs from your home currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Details of all relevant risks can be found in the Fund's prospectus, available at [www.janushenderson.com](http://www.janushenderson.com)

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

**Recommended holding period: 5 years**

**Example Investment: GBP 10,000**

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
Stress	<b>What you might get back after costs</b>	7,880 GBP	7,730 GBP
	Average return each year	-21.15%	-5.02%
Unfavourable	<b>What you might get back after costs</b>	9,180 GBP	9,950 GBP
	Average return each year	-8.15%	-0.10%
Moderate	<b>What you might get back after costs</b>	9,790 GBP	10,580 GBP
	Average return each year	-2.07%	1.13%
Favourable	<b>What you might get back after costs</b>	10,320 GBP	11,280 GBP
	Average return each year	3.16%	2.44%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between September 2017 and September 2022.

The moderate scenario occurred for an investment between August 2015 and August 2020.

The favourable scenario occurred for an investment between December 2018 and December 2023.

## What happens if Janus Henderson Investors Europe S.A. is unable to pay out?

You may face a financial loss should the Manufacturer or Depository, BNP Paribas, Luxembourg Branch, default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	671 GBP	1,541 GBP
Annual cost impact (*)	6.7%	2.8% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.9% before costs and 1.1% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% is the maximum amount you pay when entering this investment and you could pay less. If you invest through a third-party the person selling you the product will inform you of the actual charge.	Up to 500 GBP
Exit costs	We do not charge an exit fee for this Fund, but the person selling you the product may do so.	0 GBP
<b>Ongoing costs [taken each year]</b>		
Management fees and other administrative or operating costs	1.03% is the estimated cost of managing, administering and operating the Fund.	103 GBP
Transaction costs	0.34% is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	34 GBP
<b>Incidental costs taken under specific conditions</b>		
Performance fees	This is the impact of the performance fee. From your investment we take 20% of any returns that, subject to a High Water Mark, the Fund achieves above the Bank of England Base Rate.	34 GBP

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

This Fund should be considered a medium to long term investment. This means 5 years or more. The Fund's risk may vary if you cash in at an early stage. Fees may be applicable for exiting during the term of the Fund. Please refer to the 'Composition of Costs' table for details of applicable fees. You can sell your shares in the Fund on any Dealing Day as defined in the Prospectus, by using one of the methods described in the Prospectus.

## How can I complain?

Should you wish to complain you can do so by contacting us by email or post. Email: [JHIESAComplaints@janushenderson.com](mailto:JHIESAComplaints@janushenderson.com). Post: Janus Henderson Investors Europe S.A., Attn: Complaints handling officer, 2, Rue de Bitbourg, L-1273 Luxembourg. The complaints handling policy is available on the website, [www.janushenderson.com](http://www.janushenderson.com).
