What is this product?

Type

This product is an investment fund. It is organised under Luxembourg law as a société anonyme qualifying as a société d'investissement à capital variable. It is authorised under Part I of the Luxembourg Law of 17 December 2010 and qualifies as an Undertaking for Collective Investments in Transferable Securities (UCITS).

Objectives, Process and Policies

Objective To provide long term capital growth through exposure to European companies, by direct investments in securities of such companies and through the use of derivatives.

Investment Process

Investment Approach

- Uses a bottom-up stock selection process.
- Uses the full breadth of the eligible equity investment universe through a combination of fundamental research insights and quantitative analysis
- Uses an active extension approach, buying securities considered attractive and selling short securities considered less attractive to improve potential returns without increasing the overall net exposure to the market.

Share Class Benchmark MSCI Europe Index (Total Return Net)

Benchmark uses and resemblance

- Performance comparison.
- Basis for relative VaR calculations.
- Performance fee calculation.

The Sub-Fund is actively managed. Though the majority of its holdings (excluding derivatives) are likely to be components of the benchmark, the Investment Manager has broad discretion to deviate from its securities, weightings and risk characteristics.

The degree to which the Sub-Fund may resemble the composition and risk characteristics of the benchmark will vary over time and its performance may be meaningfully different.

Main investment exposure At least 67% of assets invested, either directly or through derivatives, in equities of companies that are domiciled, or carrying out the main part of their economic activity, in a European Country.

The Sub-Fund will typically hold long positions of approximately 130%, and short positions of approximately 30% (achieved through derivatives) of net assets but may vary from these targets depending on market conditions.

At least 51% of long positions (excluding short positions) are invested in companies with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data.

The Sub-Fund invests at least 20% of long positions excluding Ancillary Liquid Assets, Deposits with Credit Institutions, money market instruments, money market funds and derivatives for EPM, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Sub-Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or norms-based screening policies. These policies set limits or full exclusions on certain industries and companies based on specific

ESG criteria and/or minimum standards of business practice based on international norms.

To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. Third party data may be subject to limitations in respect of its accuracy and / or completeness. The exclusions policy for the Sub-Fund can be found on the Management Company's Website (www.jpmanassetmanagement.lu).

The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 90% of securities purchased.

Other investment exposure Up to 20% of net assets in Ancillary Liquid Assets and up to 20% of assets in Deposits with Credit Institutions, money market instruments and money market funds for managing cash subscriptions and redemptions as well as current and exceptional payments. Up to 100% of net assets in Ancillary Liquid Assets for defensive purposes on a temporary basis, if justified by exceptionally unfavourable market conditions.

Derivatives Used for: investment purposes; efficient portfolio management; hedging. *Types:* see [Sub-Fund Derivatives Usage](#) table under [How the Sub-Funds Use Derivatives, Instruments and Techniques](#) in the Prospectus. *TRS including CFD:* 70% expected; 180% maximum. *Global exposure calculation method:* relative VaR. *Expected level of leverage from derivatives:* 100% Indicative only. Leverage may significantly exceed this level from time to time.

Techniques and Instruments *Securities lending:* 0% to 20% expected; 20% maximum.

Currencies *Sub-Fund Base Currency:* EUR. *Currencies of asset denomination:* any. *Hedging approach:* typically managed to the currency weights of the benchmark.

Redemption and Dealing Shares of the Sub-Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class normally pays an annual dividend in September based on reportable income. This Share Class intends to qualify as a reporting fund under UK tax law for offshore funds.

SFDR Classification Article 8

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and who understand the risks of the Sub-Fund, including the risk of capital loss, and:

- seek long-term capital growth through exposure to European equity markets.
- seek an equity investment with scope for additional returns;
- are looking to use it as part of an investment portfolio and not as a complete investment plan.

Term The product does not have a maturity date. The Board of Directors of the Fund may unilaterally liquidate the product under certain circumstances and the manufacturer would facilitate such a liquidation.

Practical information

Depository The fund depository is J.P. Morgan SE - Luxembourg Branch.

Legal Information JPMorgan Asset Management (Europe) S.à r.l. may be held liable solely on the basis of any statement contained in this

document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.
 JPMorgan Funds consists of separate Sub-Funds, each of which issues one or more Share Classes. This document is prepared for a specific Share Class. The Prospectus and annual and semi-annual financial reports are prepared for JPMorgan Funds.
 The Sub-Fund is part of JPMorgan Funds. Under Luxembourg law, there is segregated liability between Sub-Funds. This means that the

assets of a Sub-Fund will not be available to meet a claim of a creditor or another third party made against another Sub-Fund.

Switching Investors may switch into Shares of another Share Class (excluding a T Share Class, F Share Class or CPF Share Class) of the Sub-Fund or another Sub-Fund of JPMorgan Funds (excluding Multi-Manager Sub-Funds) subject to meeting any relevant eligibility requirements and minimum holding amounts. Further information can be found in the "Investing in the Sub-Funds" section of the Prospectus.

What are the risks and what could I get in return?

Risks

 The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. The risk of the product may be significantly higher if held for less than the recommended holding period.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks materially relevant for the product may affect its performance. Please refer to the Prospectus, available free of charge at www.jpmmorganassetmanagement.lu.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 2015 and 2020.

Moderate: this type of scenario occurred for an investment between 2016 and 2021.

Favourable: this type of scenario occurred for an investment between 2016 and 2021.

| Recommended holding period | | 5 years | |
|----------------------------|---|--------------------------|--|
| Example Investment | | £ 10,000 | |
| Scenarios | | if you exit after 1 year | if you exit after 5 years (recommended holding period) |
| Minimum return | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs Average return each year | £ 2,230 -77.7% | £ 2,240 -25.9% |

What happens if JPMorgan Asset Management (Europe) S.à.r.l. is unable to pay out?

JPMorgan Asset Management (Europe) S.à.r.l. is responsible for administration and management of the Fund, and does not hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). JPMorgan Asset Management (Europe) S.à.r.l., as the

manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- £ 10,000 is invested.

| Example Investment £ 10,000 | if you exit after 1 year | if you exit after 5 years (recommended holding period) |
|-----------------------------|--------------------------|--|
| Total Costs | £ 817 | £ 2,395 |
| Annual cost impact* | 8.2% | 3.8% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.2% before costs and 5.0% after costs.

Composition of costs

| One-off costs upon entry or exit | | Annual cost impact if you exit after 1 year |
|--|---|---|
| Entry costs | 5.00% of the amount you pay in when entering this investment. | 500 GBP |
| Exit costs | 0.50% of your investment before it is paid out to you. | 50 GBP |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.84% of the value of your investment per year. This includes a stock lending fee. This is an estimate based on actual costs over the last year. | 184 GBP |
| Transaction costs | 0.82% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 82 GBP |
| Incidental costs taken under specific conditions | | |
| Performance fees | 0.01% a year of any returns this Share Class achieves above the benchmark. Under the claw-back model a performance fee can typically be charged even if the Share Class performance is negative, so long as the benchmark has decreased more than the NAV. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. | 1 GBP |

A switching charge not exceeding 1% of the Net Asset Value of the shares in the new Share Class may be charged.

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This product is designed for longer term investments due to the potential volatility of its performance; you should be prepared to stay invested for at least 5 years. You can redeem your investment without

penalty at any time during this period however your return may be negatively impacted by the volatility of its performance. Redemptions are possible on every business day, with proceeds settled within 3 business days.
