

JPMorgan Investment Funds - Global Select Equity Fund (the "Sub-Fund")

Simplified Prospectus - December 2011

A Sub-Fund of JPMorgan Investment Funds (the "Fund"), a SICAV incorporated under the laws of the Grand Duchy of Luxembourg.

This simplified prospectus contains key information about the Sub-Fund. If you would like more information before you invest, please consult the full prospectus (the "Prospectus"). The rights and duties of the investor as well as the legal relationship with the Sub-Fund are laid down in the Prospectus.

In the event of any inconsistency or ambiguity in relation to the meaning of any word or phrase in any translation, the English version shall prevail.

Sub-Fund risk profile

- This equity Sub-Fund invests primarily in a portfolio of global equities.
- As the Sub-Fund invests in equities, investors are exposed to stock market fluctuations and the financial performance of the companies held in the Sub-Fund's portfolio.
- Therefore, investors may see the value of their investment fall as well as rise on a daily basis, and they may get back less than they originally invested.
- However, the volatility of the Sub-Fund is limited by its diversification across a large number of companies and industry groups.
- Also, the Sub-Fund's careful risk controls and high level of stock diversification aim to ensure low volatility relative to the benchmark index. Therefore, returns are not dependent on taking large risks against the Sub-Fund's benchmark.
- This Sub-Fund is denominated in USD, but will have significant exposure to other currencies.

Profile of the typical investor

This is a core equity Sub-Fund designed to give exposure to international stock markets. Because the Sub-Fund is diversified across a number of markets and is managed conservatively relative to its benchmark index, it may be suitable for investors who are looking for a core international equity investment to sit

at the heart of their portfolio, or as a stand-alone investment aimed at producing long-term capital growth. Investors in this Sub-Fund should also have a three-to-five year investment horizon.

Launch Date of the Sub-Fund 05/12/97

Reference Currency US Dollar (USD)

Total Assets USD 243.0m as at 31/12/10

Benchmarks Morgan Stanley Capital International (MSCI) World Index USD (Total Return Net)

Morgan Stanley Capital International (MSCI) World Index (Total Return Net) hedged into EUR for the EUR hedged Share Classes

Appendix Any reference to an Appendix refers to an appendix to the Prospectus.

Investment objective

To achieve a return in excess of the global equity markets by investing primarily in companies, globally.

Investment policy

At least 67% of the Sub-Fund's total assets (excluding cash and cash equivalents) will be invested in equity and equity linked securities. Issuers of these securities may be located in any country, including emerging markets. Equity exposure may be achieved through investment in shares, depository receipts, warrants and other participation rights. Subject to the foregoing, equity exposure may also be achieved, to a limited extent, through investment in convertible securities, index and participation notes and equity linked notes. Fixed and floating rate debt securities, cash and cash equivalents may be held on an ancillary basis.

The Sub-Fund may also invest in UCITS and other UCIs.

The Sub-Fund may invest in assets denominated in any currency and currency exposure in this Sub-Fund may be hedged or may be managed by reference to its benchmark.

The Sub-Fund may invest in financial derivative instruments for hedging purposes and for efficient portfolio management. Techniques and

instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.

All of the above investments will be made in accordance with the limits set out in "Appendix II - Investment Restrictions and Powers".

Share Classes

A complete list of available Share Classes can be found on the website www.jpmorganassetmanagement.lu, or may be obtained from the Registered Office of the Fund or from the Management Company in Luxembourg. The Sub-Fund may launch Share Classes that have any combination of the following features as represented by a suffix to the Share Class name:

- Share Classes may be offered in the Reference Currency of the Sub-Fund, or may be denominated in any currency;
- Share Classes may be unhedged, currency hedged, duration hedged or both currency and duration hedged;
- Share Classes may have different dividend policies, suffixed "(acc)", "(dist)", "(div)", "(inc)" or "(mth)", as detailed in the Dividend Policy section of the Prospectus.
- The following charges are payable by the Shareholder: Initial Charge, Redemption Charge and Switching Charge. All other fees are payable by the Sub-Fund. All fees are expressed as a percentage of the Net Asset Value per Share.
- A switching charge not exceeding 1% of the Net Asset Value of the Shares in the new Share Class may be charged. If the new Share Class has a higher initial charge, then the additional initial charge payable for that Share Class may be charged. The Management Company is entitled to any charges arising from switches and any rounding adjustment.
- Annual Management and Advisory Fees are fully reflected in the Net Asset Value per Share except for the X Share Class where a fee for the management of the Sub-Fund is

Historical performance

Performance for the "A (acc) - USD" Share Class is shown below. The Sub-Fund may also have other active Share Classes the performance of which is similar to the performance shown below. The performance of other Share Classes may vary due to a variety of factors including, but not limited to, their fee structure, hedging policy or reference currency. For further information on the performance of specific Share Classes, please contact your local representative, the Registered Office of the Fund or the website www.jpmmorganassetmanagement.lu.

■ JPM Global Select Equity A (acc) - USD

Past performance is not a guide to the future and investors may not get back the full amount invested.

Performance figures (source - J.P. Morgan) are rolling 12 months to 31 December and NAV to NAV with gross income reinvested.

Fees and Expenses

Share Class	Minimum Initial Subscription (USD or equivalent)	Initial Charge	Annual Management and Advisory Fee	Operating and Administration Expenses	Redemption Charge
JPM Global Select Equity A	35,000	5.00%	1.50%	0.40%	0.50%
JPM Global Select Equity B	1,000,000	Nil	0.90%	0.25%	Nil
JPM Global Select Equity C	10,000,000	Nil	0.60%	0.20%	Nil
JPM Global Select Equity D	5,000	5.00%	2.25%	0.40%	0.50%
JPM Global Select Equity I	10,000,000	Nil	0.60%	0.16% ^{Max}	Nil
JPM Global Select Equity X	On application	Nil	Nil	0.15% ^{Max}	Nil

administratively levied and collected by the Management Company or the appropriate JPMorgan Chase & Co. entity directly from the Shareholder; the fee for the X Share Class is therefore listed as "Nil" in the Fees and Expenses table as it is not levied on the Sub-Fund. The Management Company may from time to time, and at its absolute discretion, decide to reduce such rate (which might become 0.0%).

- The Sub-Fund bears all its ordinary and extraordinary operating expenses as well as its transaction fees.
- Operating and Administrative Expenses include but are not limited to custody and administration fees, and are reflected in the Net Asset Value per Share. Where this is a fixed percentage the Management Company pays any excess over the fixed percentage. Where the actual expenses are below the specified percentage, the Management Company is entitled to retain the difference. Where the Operating and Administrative Expenses are capped, the Management

Company pays any excess over the capped percentage. If the actual expenses fall below the stated percentage, the fees will be reduced by the amount of the shortfall.

- If a Performance Fee is applied, this is indicated above. Where a Performance Fee is charged, then on each valuation day (a "Valuation Day")¹, an accrual is made for the previous Valuation Day's Performance Fee. During periods of market volatility, this may cause unusual fluctuations in the Net Asset Value per Share of each Share Class that charges a Performance Fee. These fluctuations may happen where the impact of a Performance Fee causes the Net Asset Value per Share to be reduced whilst the returns from underlying assets have increased. Conversely, the impact of a negative Performance Fee can cause the Net Asset Value per Share to be increased whilst the underlying assets have decreased. Performance Fee is payable annually. Either a claw-back mechanism or high watermark mechanism will be used to ensure that, following a financial year of

underperformance, this underperformance is recovered before a Performance Fee may be charged. Full details of both the claw-back mechanism and high watermark mechanism can be found in "Appendix V - Calculation of Performance Fees".

Dividend Policy

- It is intended that "(dist)" Share Classes will meet the conditions to qualify as "reporting" for the purposes of the United Kingdom tax legislation relating to offshore funds, and will, if appropriate, pay dividends which at least meet the greater of the reportable income under that legislation or the taxable earnings from investments in accordance with the German Investment Tax Act. See sections "7. United Kingdom" and "2. Germany" in "Appendix I - Information for Investors in Certain Countries" for further details.
- It is intended that "(inc)" Share Classes pay dividends in accordance with the German Investment Tax Act and will not qualify as 'reporting' for the purposes of United

¹ A Valuation Day is any business day other than, in relation to a Sub-Fund's investments, a day on which any exchange or market on which a substantial portion of the relevant Sub-Fund's investments is traded, is closed. When dealings on any such exchange or market are restricted or suspended the Management Company may, in consideration of prevailing market conditions or other relevant factors, determine whether a business day shall be a Valuation Day. By derogation to the above, on New Year's Eve, provided that such day is not a Saturday or Sunday, the Net Asset Value per Share of each Share Class in respect of this day shall be made available at the Registered Office of the Fund although no deals will be processed on that day. A business day is a week day other than New Year's Day, Easter Monday, Christmas Day, and the day prior to and following Christmas Day.

Kingdom tax legislation relating to offshore funds. See section “2. Germany” in “Appendix I – Information for Investors in Certain Countries” for further details.

- “(div)” Share Classes will normally pay quarterly dividends but will not qualify as “reporting” for the purposes of United Kingdom tax legislation relating to offshore funds.
- “(mth)” Share Classes will normally pay dividends on a monthly basis and will not qualify as “reporting” for the purposes of United Kingdom tax legislation relating to offshore funds.
- “(acc)” Share Classes will not normally pay dividends and therefore they will not qualify as “reporting” for the purposes of United Kingdom tax legislation relating to offshore funds.
- Payment of dividends on distributing Share Classes will normally be made in March of each year, unless otherwise specified in “Appendix III – Sub-Fund Details”.

Taxation of the Fund

Under current law and practice, there are no Luxembourg income, withholding or capital gains taxes payable by the Fund. However, the Fund is liable in Luxembourg to a subscription tax (“*taxe d’abonnement*”) up to a rate of 0.05% per annum based on the Net Asset Value attributed to each Share Class at the end of the relevant quarter (0.01% in the case of Share Classes only comprising Institutional Investors as defined by Luxembourg laws and regulations such as I and X Share Classes). To the extent that the assets of the Sub-Fund are invested in investment funds which are established in Luxembourg, no such tax is payable, provided that the relevant investment funds have been subject to this tax.

Interest, dividend income and capital gains received by the Fund may be subject to non-recoverable withholding tax in the countries of origin.

Taxation of the Shareholder

The Council of the EU has, on 3 June 2003, adopted Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the “Directive”). The Directive was implemented in Luxembourg by a law of 21 June 2005 as amended (the “EUSD Law”). Under the EUSD Law, dividend and/or redemption proceeds from shares of a sub-fund paid to individuals may be subject to withholding tax or give rise to exchange of information with tax authorities. Whether the EUSD Law will be applicable in any particular case and the implications arising there from depend on various factors, such as the asset class of the relevant sub-fund, the location of the paying agent used and the tax residency of the shareholders concerned. More details of the implications of the Directive and the EUSD Law are contained in the Prospectus, and investors should also seek advice from their financial or tax adviser.

The repercussion of an investment in the Sub-Fund on the individual tax bill of an investor depends on the fiscal regulations applicable in his particular case. Consulting a local tax adviser is therefore recommended.

How to buy, sell and switch Shares

Applications for subscriptions, redemptions and switches should be sent to the local sales agents, distributors or the Management Company and should be received by 14.30 Luxembourg time on any Valuation Day. Shares purchased will normally be issued at the relevant Offer Price (the Net Asset Value per Share increased by any applicable initial charge) on that day, and Shares redeemed will be sold at the relevant Bid Price (the Net Asset Value per Share decreased by any applicable redemption charge) on that day, both of which are subject to rounding (please consult the Prospectus for further information on the calculation of prices). Switches between Sub-Funds within the Fund will normally be effected at the first Valuation Day common to both Sub-Funds after receipt of instructions, normally on a bid to Net Asset Value basis, plus the

applicable switch fee and any additional initial charge as described above.²

The Management Company may enter into agreements with certain distributors or sales agents pursuant to which they agree to act as or appoint nominees for investors subscribing for Shares through their facilities.

To mitigate the risk of error and fraud, the Management Company may have to verify, confirm or clarify Shareholder payment instructions relating to redemption applications and dividend payments.

Additional important information

Financial year end of the Fund 31 December
Structure The Fund operates separate Sub-Funds, each of which is represented by one or more Share Classes. The Sub-Funds are distinguished by their specific investment policy or any other specific features. The Prospectus comprises a description of all Sub-Funds.
