JPM China Bond Opportunities C (dist) - RMB

a Share Class of JPMorgan Funds – China Bond Opportunities Fund. The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives, Process and Policies

INVESTMENT OBJECTIVE

To achieve a return in excess of the China bond markets by investing primarily in Chinese debt securities, using derivatives where appropriate.

INVESTMENT PROCESS

Investment approach

- Uses a globally integrated research driven investment process that focuses on analysing fundamental, quantitative and technical factors across sectors and issuers.
- Combines top down decision making, which includes sector allocation, duration management and currency exposure, with bottom-up security selection.
- Uses an unconstrained approach in seeking the most attractive opportunities across all segments of the China fixed income universe including onshore CNY, offshore CNH and China USD denominated debt and taking a flexible approach to currency management.

Share Class Benchmark 50% J.P. Morgan Asia Credit Index (JACI) China (Total Return Gross) / 50% FTSE Dim Sum Bond Index (Total Return Gross)

Benchmark uses and resemblance

- Performance comparison.
- Basis for relative VaR calculations.

The Sub-Fund is actively managed without reference or constraints relative to its benchmark.

POLICIES

Main investment exposure At least 67% of assets invested in onshore CNY-denominated debt securities issued within the PRC by Chinese issuers and in CNH or USD-denominated debt securities issued outside of the PRC by Chinese issuers.

The Sub-Fund may also invest a significant portion of its assets in CNY and CNH-denominated debt securities issued by non-Chinese issuers. Such securities may include bonds, debt securities issued by governments and their agencies, financial institutions, corporations or other organisations or entities.

At least 50% of debt securities will be rated investment grade at the time of purchase. However, the Sub-Fund may temporarily hold less investment grade debt securities than this minimum threshold as a result of credit downgrades, removal of rating or default.

The Sub-Fund may have significant exposure to below investment grade and unrated debt securities.

The Sub-Fund may invest in onshore debt securities issued within the PRC through China-Hong Kong Bond Connect, PRC exchange-traded bond markets and/or the China Interbank Bond Market. The Sub-Fund will limit its investment in onshore debt securities issued within the PRC to 65% of its assets.

The Investment Manager may take active currency positions to maximise returns.

At least 51% of assets are invested in issuers with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data.

The Sub-Fund invests at least 10% of assets excluding Ancillary Liquid Assets, Deposits with Credit Institutions, money market instruments, money market funds and derivatives for EPM, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives. The Investment Manager evaluates and applies values and norms based screening to implement exclusions. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Management Company's Website (www.jpmanassetmanagement.lu). The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 75% of non-investment grade and emerging market sovereign and 90% of investment grade securities purchased.

The Sub-Fund may invest in Deposits with Credit Institutions, money market instruments and money market funds for investment purposes. The Sub-Fund may hold up to 30% of its assets in these instruments on a temporary basis for defensive purposes.

Other investment exposures Up to 10% in contingent convertible bonds. Up to 20% of net assets in Ancillary Liquid Assets for managing cash subscriptions and redemptions as well as current and exceptional payments. Up to 100% of net assets in Ancillary Liquid Assets for defensive purposes on a temporary basis, if justified by exceptionally unfavourable market conditions.

Derivatives Used for: investment purposes; hedging; efficient portfolio management. Types: see [Sub-Fund Derivatives Usage](#) table under [How the Sub-Funds Use Derivatives, Instruments and Techniques](#) in the Prospectus. TRS including CFD: none. Global exposure calculation method: relative VaR. Expected level of leverage from derivatives: 100% indicative only. Leverage may significantly exceed this level from time to time.

Currencies Sub-Fund Base Currency: USD Currencies of asset denomination: CNH, CNY and USD. Hedging approach: flexible.

Redemption and Dealing Shares of the Sub-Fund may be redeemed on demand, with dealing normally on a daily basis.

Distribution Policy This Share Class normally pays an annual dividend in September based on reportable income. This Share Class intends to qualify as a reporting fund under UK tax law for offshore funds.

Risk and Reward Profile

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

The above rating is based on the historic volatility of the simulated Net Asset Value of this Share Class over the last five years and may not be a reliable indication of the future risk profile of this Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 3 because its simulated Net Asset Value has shown low to medium fluctuations historically.
