#### Benchmark uses and resemblance

- Performance comparison.

The Sub-Fund is actively managed. Though the majority of its holdings (excluding derivatives) are likely to be components of the benchmark, the Investment Manager has broad discretion to deviate from its securities, weightings and risk characteristics.

The degree to which the Sub-Fund may resemble the composition and risk characteristics of the benchmark will vary over time and its performance may be meaningfully different.

**Main investment exposure** At least 67% of assets invested in equities of companies with positive E/S characteristics or companies that demonstrate improving E/S characteristics anywhere carrying out the main part of their economic activity, in the US.

Companies with positive E/S characteristics and companies that demonstrate improving E/S characteristics are selected through the use of proprietary research and third party data. Fundamental analysis is used to better understand sustainability risks and opportunities that may impact a company. This analysis is also an important driver behind active company engagement and stewardship when seeking to positively influence business practices to improve sustainability. Further information on JPMorgan Asset Management's stewardship and engagement with companies including the Investment Stewardship Report is available on the Management Company's Website ([www.jp Morganassetmanagement.lu](http://www.jp Morganassetmanagement.lu)).

The Sub-Fund invests at least 40% of assets excluding Ancillary Liquid Assets, Deposits with Credit Institutions, money market instruments, money market funds and derivatives for EPM, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Sub-Fund systematically includes ESG criteria in investment analysis and investment decisions on at least 90% of securities purchased (excluding cash). The Sub-Fund excludes the bottom 20% of securities from its investable universe based on its ESG criteria. The Sub-Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or norms-based screening policies. These policies set limits or full exclusions on certain industries and companies based on specific ESG criteria and/or minimum standards of business practice based on international norms.

To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. Third party data may be subject to limitations in respect of its accuracy and / or completeness. The exclusions policy for the Sub-Fund can be found on the Management Company's Website ([www.jp Morganassetmanagement.lu](http://www.jp Morganassetmanagement.lu)).
