What is this product?

Type

This product is an investment fund. It is organised under Luxembourg law as a société anonyme qualifying as a société d'investissement à capital variable. It is authorised under Part I of the Luxembourg Law of 17 December 2010 and qualifies as an Undertaking for Collective Investments in Transferable Securities (UCITS).

Objectives, Process and Policies

Objective The Sub-Fund seeks to achieve a return in the Reference Currency in line with prevailing money market rates whilst aiming to preserve capital consistent with such rates and to maintain a high degree of liquidity.

Share Class Benchmark The Sub-Fund is actively managed without reference or performance comparison to a benchmark.

Investment Policy The Sub-Fund will invest its assets in short-term GBP-denominated Debt Securities, deposits with credit institutions and Reverse Repurchase Agreements.

The Sub-Fund may have exposure to investments with zero or negative yields in adverse market conditions.

The weighted average maturity of the Sub-Fund's investments will not exceed 60 days and the initial or remaining maturity of each Debt Security will not exceed 397 days at the time of purchase.

In addition to receiving a favourable assessment of their credit quality pursuant to the Management Company's Internal Credit Procedures, Debt Securities with a long-term rating will be rated at least "A" and Debt Securities with a short-term rating will be rated at least "A-1" by Standard & Poor's or otherwise similarly rated by another independent rating agency.

The Sub-Fund may also invest in unrated Debt Securities of comparable credit quality to those specified above.

The Investment Manager seeks to evaluate whether environmental, social and governance factors could have a material positive or negative impact on the cash flows or risk profiles of many issuers in which the Sub-Fund may invest. These determinations may not be conclusive and securities of issuers which may be negatively impacted by such factors may be purchased and retained by the Sub-Fund while the Sub-Fund may divest or not invest in securities of issuers which may be positively impacted by such factors.

The Sub-Fund aims to maintain a "AAA" rating, or equivalent, assigned by at least one rating agency.

At least 51% of assets are invested in issuers with positive environmental and/or social characteristics that follow good governance practices as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data. In addition, the Sub-Fund incorporates a bespoke set of Employee Engagement and Diversity (EE&D) data inputs into the investment process which considers an issuer's gender breakdown, diversity programmes, ethnicity score and equal pay score. The inputs may evolve but will relate directly to EE&D. The Sub-Fund invests at least 51% of EE&D rated assets in issuers scoring above a pre-defined threshold in relation to EE&D inputs.

The Sub-Fund invests at least 10% of assets excluding ancillary liquid assets for EPM, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Sub-Fund excludes certain sectors, companies / issuers or practices from the investment universe based on specific values or

norms-based screening policies. These policies set limits or full exclusions on certain industries and companies based on specific ESG criteria and / or minimum standards of business practice based on international norms. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. Third party data may be subject to limitations in respect of its accuracy and / or completeness. The exclusions policy for the Sub-Fund can be found on the Management Company's Website (www.jpmorganassetmanagement.lu).
