

## J. Safra Sarasin

# **Key Investor Information**

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## JSS Sustainable Bond – Global Convertibles, share class I CHF acc hedged

## a subfund of JSS Investmentfonds II (ISIN: LU1280138733)

Management company: J. Safra Sarasin Fund Management (Luxembourg) S.A.

## **Objectives and investment policy**

- The investment objective of the JSS Sustainable Bond Global Convertibles (the "Sub-Fund") aims to maximize long term total return (the combination of income and growth of capital) by investing mainly in global convertible assets.
- The Sub-Fund invests at least two thirds of the Sub-Fund's assets directly or indirectly in a portfolio of globally diversified convertible securities, whereby the Sub-Fund will have a certain emphasis in convertible securities in Europe and in the United States of America. Issuers of these securities may be located in any country, including emerging markets.
- The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. This Sub-Fund considers environmental, social and governance aspects (""ESG"") along the investment process with the aim to reduce controversial exposures, to align the portfolio with international norms, to mitigate sustainability risks and to harness opportunities emanating from ESG trends and to get a better-informed perspective of portfolio holdings.
- The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to FTSE Global Focus Hedged Convertible Bond Index USD (the "Benchmark"). Generally, the majority of the positions within the Sub-Fund are constituents of the Benchmark. In order to exploit specific investment opportunities the Investment Manager may discretionarily select securities not included in the Benchmark. The holdings and their weightings in the Sub-Fund's portfolio will diverge from the weightings of the securities included in the Benchmark therefore the Sub-Fund's returns may deviate from the performance of the Benchmark.

- You may redeem or convert shares in the Sub-Fund on any business day.
- This share class of the Sub-Fund continually reinvests income.

## Risk and reward profile

_	Lower ri	sk		Higher risk				
	Potentia	ally lower re	ewards		Potentially higher rewards			
	1	2	3	4	5	6	7	

- The risk and reward category shown is based on historical data and can not be used as a reliable indicator of the future risk profile of the Sub-Fund.
- The Sub-Fund's classification may change over time and does not provide any guarantee.
- The lowest category is not a risk-free investment.
- This Sub-Fund was categorised in risk class 4 because, in accordance with the investment policy, the value of the investments may fluctuate moderately. Consequently, both the expected return and the potential risk of loss may be average.
- Investing in illiquid assets makes selling difficult under restricted market conditions.
- If an issuer of securities or a counterparty in the case of derivatives transactions defaults on payment, this has a negative effect on the valuation of the respective asset in the Sub-Fund.
- The use of derivatives can produce a leverage effect which can create a corresponding increase in the Sub-Fund's volatility. Counterparty risks are higher in the case of derivatives that are not traded on a regulated market.
- Counterparty risks may also increase for derivative financial instruments (derivatives) that are not traded on regulated markets.
- Transactions with parties in emerging economies may involve greater counterparty risk due to a particular economic or political situation.
- The Sub-Fund may invest a portion of its assets in instruments which are not traded on a stock exchange or similar market. It may prove difficult to find a quick buyer for these instruments, resulting in an increase in the risk of the suspension of share redemption.
- When investing in distressed securities, there is also a higher credit default risk which may arise in connection with payment default or serious financial difficulties among the respective companies.

- The Sub-Fund may invest a significant portion of its Sub-Funds in equities, bonds and fixed-income securities. The debt issuers may become insolvent, which may cause the investments to lose all or some of their value.
- Sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investments made by the Sub-Fund.
- Further information on the risks can be found in the "Investment principles" section of the prospectus and in the annex to the relevant Sub-Fund.

## Charges

The charges are used to pay the costs of running the Sub-Fund, including marketing and distribution of the shares. These charges limit the potential investment growth of the Sub-Fund.

#### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

#### Charges taken from the Sub-Fund over a year

Ongoing charges 1.21%
-----------------------

#### Charges taken from the Sub-Fund under certain specific conditions

Performance fee none

The entry and exit charges indicated here are the maximum figures. In some cases they may be lower – please ask your financial advisor about this.

Ongoing charges are based on data for the 12-month period ended 12/2023 and may vary from year to year. Ongoing charges do not include:

 Portfolio transaction charges with the exception of entry and exit charges on acquisition or sale of other funds.

More information on charges can be found in the prospectus, in the chapter entitled "Fees, Expenses and Tax Considerations".

#### Past performance

- Past performance is no indication of future performance.
- When calculating performance, any commissions or fees levied on subscription and redemption of shares are not taken into consideration.
- The Sub-Fund was launched in 2015, and this share class was launched in 2015.
- · Past performance is calculated in CHF.
- Please note that the Benchmark currency may differ from the share class currency.
- As of 01.04.2021, JSS Bond Global Convertibles has been renamed into JSS Sustainable Bond – Global Convertibles.
