## JSS Sustainable Equity - European Smaller Companies, share class P EUR dist a subfund of JSS Investmentfonds II (ISIN: LU1859216548)

Management company: J. Safra Sarasin Fund Management (Luxembourg) S.A.

### Objectives and investment policy

- JSS Sustainable Equity - European Smaller Companies (the "Fund") invests either directly (min. 51%) or indirectly in shares of smaller-sized companies which are either domiciled in Europe or, in the case of holding companies, own stakes mainly in companies domiciled in Europe.
- Smaller-sized companies are defined as all companies that with regards to free float adjusted market capitalization are in the bottom 35% of the equity universe at the time the investment is made. The Sub-Fund will invest no more than 10% of its net assets in micro caps. Micro sized stocks are defined as all companies with a market capitalization of less than EUR 300 million at the time the investment is made.
- In addition, the Fund considers environmental, social and governance aspects (ESG, or sustainability) in every step of the investment process.
- Investments are selected on a discretionary basis, i.e. there are no requirements stipulating criteria other than the ones described above.
- You may redeem or convert shares in the Fund on any business day.
- This share class of the Fund generally distributes income to investors in August (provided that the fund has generated income and the requirements of the prospectus are respected).

### Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The risk and reward category shown is based on historical data and can not be used as a reliable indicator of the future risk profile of the Fund.
- The Fund's classification may change over time and does not provide any guarantee.
- The lowest category is not a risk-free investment.
- This Fund was categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average.
- Investing in illiquid assets makes selling difficult under restricted market conditions.
- If an issuer of securities or a counterparty in the case of derivatives transactions defaults on payment, this has a negative effect on the valuation of the respective asset in the subfund.
- Investments in growth sectors or in small and medium-sized enterprises may also have relatively higher price risks.
- Further information on the risks can be found in the "Investment principles" section of the prospectus and in the annex to the relevant subfund.
