

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### Sarasin EquiSar – International Income A

an investment compartment of Sarasin Investmentfonds (ISIN: LU0375216479)  
Management Company: Sarasin Fund Management (Luxembourg) S.A.

#### Objectives and investment policy

Sarasin EquiSar – International Income (the “fund”) aims to achieve attractive investment income as well as long-term capital growth through investments in shares of companies world-wide. The investment policy focuses on investment themes that are considered to be important growth drivers for company profitability, stock price development and dividend yield. The MSCI World Index serves as a benchmark for judging the success of the investments. Investments

are selected on a discretionary basis, i.e. no criteria exist other than those mentioned above. Units of this fund may be exchanged or redeemed on any business day. This unit class of the fund distributes income to investors in October as a general rule.

#### Risk and reward profile

The risk and reward category shown is based on historical data and may not be a reliable indication of the future risk profile of the fund. It may change over time and does not constitute any form of guarantee.

The lowest category is not a risk-free investment. Given the calculation method used, investors should be aware that liquidity, default and operational risks (among others) are not covered by the risk and reward profile completely.

This fund is classed in risk category 6 because the investment policy adopted could cause a considerable variation in the value of the investment, so that both the expected return and the potential loss could be substantial.

Because it invests in shares of companies, the risk and reward profile of this fund is primarily influenced by company-specific changes and changes in the economic environment.

#### Charges

The charges paid by the investor cover the fund’s administration expenses, including the marketing and distribution of the fund units. These charges reduce the potential investment growth of the fund.

##### One-off charges taken before or after you invest<sup>1)</sup>

Entry charge	5.00%
Exit charge	1.40%

This is the maximum that might be taken out of your investment.

##### Charges taken from the fund over a year<sup>2)</sup>

Ongoing charge	1.95%
Charges taken from the fund under certain specific conditions	
Performance fee	none

Additional information on charges can be found in the prospectus, section “Fees, Expenses and Tax Considerations”.

<sup>1)</sup> These charges are maximum figures. They may be less in individual cases – please check this out with your financial advisor. Switch charges are up to 0.40% of the sale or redemption amount in favour of the fund.

<sup>2)</sup> The ongoing charges figure is based on the financial year which ended in 06 / 2011 and can vary from one year to the next.

## Past performance

Past performance is not a guide to performance in the future. When calculating performance, no commissions or costs charged on subscription or redemption of units are taken into account.

The fund was launched in 2010, the unit class was launched in 2011. The historical performance is calculated in euros.
