## What is this product?

### Type

SICAV

### Term

The Fund is established for an indefinite period (open-ended fund) and can be terminated at any time as further stipulated in the articles of association of the SICAV. The amount the investor will receive upon early termination may be less than the amount invested.

### Objectives

#### Investment Objective

The investment objective of JSS Sustainable Equity – Next-Gen Consumer (the "Sub-Fund") is primarily to achieve capital appreciation through global equity investments.

#### Investment Policy

The assets of the the Sub-Fund are mainly invested worldwide either directly (min. 67%) or indirectly in equity securities of companies whose products and services are driven by "Next-Generation" consumers. "Next-Generation" consumers are defined as those born after 1980 i.e. generations "Y", "Z" and "alpha". the Sub-Fund will focus mainly on 4 defined next generation consumption themes: "Responsible Living" - the emphasis on sustainable and conscious consumption; "Experience First" - the desire for active & out-of-home-driven consumption; "Premium Offering" – the aspiration for personalisation, innovation & quality; and "Seamless & Connected" – the transfer of consumption online. Next generations allocate a higher proportion of their spending to the above described themes when compared to older generations. The Sub-Fund invests in companies that benefit from these next generational trends and preferences, mainly in, but not limited to, the

consumer and media sectors. Concentration and exposure to specific sectors may change over time.

The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. This product considers environmental, social and governance aspects ("ESG") along the investment process with the aim to reduce controversial exposures, to align the portfolio with international norms, to mitigate sustainability risks and to harness opportunities emanating from ESG trends and to get a better-informed perspective of portfolio holdings.

The Sub-Fund is actively managed without replicating any benchmark. the Sub-Fund is managed without reference to any benchmark.

#### Share Class Policy:

This share class of the Sub-Fund generally distributes income to investors within four months after financial year-end.

#### Processing of subscription and redemption orders

You may redeem or convert shares in the Sub-Fund on any business day.

#### Intended retail Investor

The Fund is suitable for investors with a medium to long-term investment horizon who are aiming for asset growth. As a supplementary investment in the equities segment, the Sub-Fund is aimed for investors with a medium to high risk tolerance.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

**Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The product may be exposed to further risks such as operational, counterparty, political and legal risks. For further details please consult the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

# J. Safra Sarasin

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- USD 10,000.00

	If you exit after 1 year	If you exit after 8 years
<b>Total costs</b>	171 USD	2,483 USD
Annual cost impact (*)	1.7%	1.7% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.7 % before costs and 8.0 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
