

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# Kapital Plus Share Class A (EUR)

Managed by Allianz Global Investors GmbH, part of Allianz Global Investors

ISIN: DE0008476250  
WKN: 847625

## Objectives and Investment Policy

Through its bond investments, the fund seeks to generate returns in line with the European bond markets it invests in, and through its investments in shares, the fund seeks to generate long-term capital growth.

We follow an active management approach with the aim to outperform the Benchmark. We will acquire assets that are constituents of the Benchmark and we may use our discretion to invest in assets not included in the Benchmark. In selecting and weighting the fund's assets we deviate materially from the Benchmark.

The Fund pursues the Multi-Asset sustainability strategy and invests in equities and/or debt securities (e.g. green bonds, social bonds and/or sustainability bonds) of companies that pursue strategies with either environmental and/or social characteristics and/or that make sustainable investments. At the same time, we observe specific minimum exclusion criteria to the Fund's direct investments.

We invest primarily in Euro-denominated bonds that have good credit ratings and are issued by borrowers from industrialised countries. These bonds have an average duration (remaining maturity) of between zero and nine years. The proportion of bonds that are not denominated in Euro may only exceed 10% of the fund's assets if the currency risk is hedged accordingly. The

proportion of bonds that do not have good credit ratings may not exceed 5% of the fund's assets. The proportion of bonds that were not issued by borrowers from industrialised countries may not exceed 10% of the fund's assets. We also invest min. 20% and max. 40% of the fund's assets, directly or through derivatives, in shares of companies that are based in Europe (including Turkey and Russia) for the most part. The proportion of the shares of companies that are not based in Europe (including Turkey and Russia) may not exceed 5% of the fund's assets. At least 90% of the Fund's assets are invested in sustainable target funds and/or securities with environmental or social characteristics or that make sustainable investments.

Benchmark: 70% BLOOMBERG Euro Aggregate 1-10 Year Total Return + 30% MSCI Europe Total Return Net (in EUR).

You may redeem shares of the fund usually on each business day.

We usually distribute the income of the fund on a yearly basis.

Derivatives may be used to a large extent to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

## Risk and Reward Profile

← Typically lower rewards  
← Typically lower risk

Typically higher rewards →  
Typically higher risk →

This risk and reward indicator is based on past performance data. It may not be a reliable indication of the future risk profile of the fund.

The categorisation of the fund is not guaranteed and may change in the future.

Even the lowest category 1 does not mean a risk-free investment.

### Why is the fund in this category?

Funds of category 4 have shown in the past a medium volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 4 might be subject to medium price fluctuations based on the historical volatilities observed.

The following material risks are not fully captured by the risk and reward indicator:

We may invest directly or indirectly a significant portion of the fund into bonds or money markets instruments. If the issuer may fall into insolvency or may suffer economical problems the interest and/or the capital of these assets may not or may not be completely paid and/or the price of the assets may drop.

## Charges

These charges are used to pay the costs of running the fund, including the costs of marketing and selling. They reduce the potential growth of your investment.

### One-off charges deducted before or after you invest

Entry Charge	3.00%
Exit Charge	0.00%

This is the maximum charge that might be taken out of your money before it is invested or before the proceeds of your investments are paid out.

### Charges taken from the fund over a year

Ongoing Charges	1.15%
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find actual entry and exit charges from your financial adviser.

The ongoing charges shown are based on the fund's last financial year ending 31.12.2021. It may vary from year to year. It does not include transaction costs incurred when we buy or sell assets for the fund.

You will find more details about the calculation of the charges by checking the respective part of the prospectus.

## Past Performance

Past performance is not a reliable guide to future performance.

The actual grade of deviation from the Benchmark defines the extent to which the fund's performance may outperform or underperform the Benchmark's performance.

The past performance shown here takes account of all charges and costs with the exception of the entry and exit charge.

The fund was launched in 1994.

The performance of the fund is calculated in EUR.
