### Objectives and investment policy

Kathrein Global Enterprise (I) is an equity fund whose investment goal is long-term capital growth subject to higher (short-term) risks. The fund invests at least 90 % of the fund assets in equities or in equity-equivalent securities which comply with the criteria concerning listing and trading on a regulated market or a securities exchange pursuant to InvFG, and on a recognized market according to Article 2 in conjunction with Annex II of the COMMISSION IMPLEMENTING REGULATION (EU) 2016/1646 as amended, and at least 51 % of the fund assets in equities or equity-equivalent securities issued by companies which are headquartered or mainly active in North America, Europe or other developed countries. The fund may also invest in other securities, in bonds issued by countries, supranational issuers and/or companies etc., and in sight deposits and deposits at notice. The fund is actively managed without reference to a benchmark.

Derivative instruments may not be used. The fund will retain this income, which will increase the value of its units.

Except in case of a suspension due to extraordinary circumstances, unit holders may require daily redemption of units by the custodian bank at the applicable redemption price.

**Recommendation:** this fund may not be appropriate for investors who plan to withdraw their money within 10 years.

### Risk and reward profile

Its risk/reward profile relates to past results and should not be used as a reliable indication of its future risk/reward profile. A category 1 classification does not imply a risk-free investment. A risk classification may change over time. The fund has received a category 5 risk classification on the basis of past price fluctuations experienced by the fund or a similar portfolio or an applicable risk definition system.

Risks which are not included in the risk classification but are nonetheless significant for the fund:

**Credit risk:** The fund invests portions of its assets (directly or via credit derivatives) in bonds and/or money market instruments. Issuers may become insolvent (or their solvency may deteriorate). These bonds and/or money market instruments (or credit derivatives) may therefore suffer a partial or complete loss of value.

**Liquidity risk:** It may not be possible to sell a position in due time for an appropriate price. This risk may also lead to a suspension of redemption of unit certificates.

**Counterparty risk:** The fund executes transactions with various contractual partners. These contractual partners may fail to satisfy a claim held by the fund, e.g. due to insolvency.

**Operational risk, safekeeping risk:** There is a risk of losses resulting from a failure of internal processes/systems or external events (e.g. natural disasters). Safekeeping entails the risk of a loss of fund assets which may result from insolvency, breach of a duty of care or abusive conduct by the custodian or a sub-custodian.

## Charges

The fees charged will be used for the fund's management. They include the charges for the sale and marketing of the fund units. The deduction of these charges will diminish the fund's potential performance.

### One-off charges before and after an investment is executed

<b>Subscription fees</b>	<b>0,00 %</b>
<b>and redemption fees</b>	<b>0,00 %</b>

This is the maximum amount which is deducted from your investment prior to its execution/payment of your return. Please refer to the distribution office concerning the current fees. The subscription fee and the redemption fee indicated above represent the fees charged by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. The distributor may also apply to the subscriber, as is mentioned in the prospectus, entry fees (also defined intermediation fees/sale fees/start-up fee) as a percentage of the amount invested in the fund. For more information, please refer to the information provided by the distributor and - where applicable - to the additional mandatory documentation delivered to and signed by the investor in accordance with the provisions in force in the various countries where the fund units are marketed.

### Charges deducted from the fund in the course of the year

<b>Ongoing charges</b>	<b>0,90 %</b>
------------------------	---------------

The „ongoing charges“ have been calculated on the basis of the figures as of 31.12.2021 including the previous 12-month period. The „ongoing charges“ include the management fee and all fees charged in the past year. Third-party transaction costs and performance-related fees are not included in the „ongoing charges“. The „ongoing charges“ may differ from year to year. Please refer to the „Expenses“ sub-item of the current annual fund report for precise details of the cost components included in the „ongoing charges“.

## Past performance

The following graphic shows the fund's performance (tranche AT0000A24V08) in EUR.

Raiffeisen KAG calculates performance based on the published fund price, using the OeKB methodology. Individual costs – such as transaction fees, the subscription fee, the redemption fee or custody charges of the investor – and taxes are not included in the performance calculation. These would reduce the performance if they were included. Past value is not a reliable indicator of the fund's future performance. Notice for investors with a different functional currency than the fund currency: We expressly point out that returns may rise or fall due to currency fluctuations.

The fund (tranche AT0000A24V08) was launched on Dec 3, 2018.
