

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. This information is required by law to help you to understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# Belgium Plus

Sub-fund of KBC Select Immo

BE0153263034 (ISIN-code for Capitalisation shares )

managed by KBC Asset Management NV

## OBJECTIVES AND INVESTMENT POLICY

KBC Select Immo Belgium Plus aims to generate a return by investing chiefly in Belgian real estate certificates and in shares issued by companies whose activities are linked, either directly or indirectly, to the Belgian property market. In addition, investments are made in securities issued by companies whose activities are directly or indirectly linked to the European real estate market.

KBC Select Immo Belgium Plus may make limited use of derivatives\*. This means that derivatives can be used either to help achieve the investment objectives (for instance, to increase or decrease the exposure to one or more market segments in line with the investment strategy), or to neutralise the portfolio's sensitivity to market factors (by hedging an exchange rate risk, for example).

The fund is denominated in Euro.

The fund reinvests any income received in the manner set out in the prospectus (for more details, see section 'Types of shares and fees and charges' of the information for this sub-fund in the prospectus).

Orders for fund units are executed daily (for more details, see the 'Information concerning the trading of shares' section of the information for this sub-fund in the prospectus).

## RISK AND REWARD PROFILE

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This figure is based on data from the past, which is not always a reliable indication of risk and return in the future.

The risk and reward indicator is assessed regularly and can therefore go up or down.

The lowest figure does not mean that the investment is entirely free of risk. However, it does indicate that, compared with the higher figures, this product will generally provide a lower, but more predictable return. While the figure gives an indication of the return the fund might generate, it also indicates the risk involved. The higher the figure, the greater the potential return, but also the more difficult it is to predict this return. You might even sustain a loss.

The figure has been calculated from the viewpoint of an investor in euro.

### Why does this fund have a risk and reward indicator of 4?

4 indicates that this fund involves less risk than the average equity fund. Equity funds are generally highly sensitive to the markets (indicator of 6 or sometimes as high as 7). Indeed shares do not provide a guaranteed return and their value can fluctuate sharply.

Moreover, an investment in this fund involves:

- A high level of concentration risk: there is a concentration of investments in Belgian real estate certificates, shares in real estate companies and real estate funds.
- A moderate level of liquidity risk: since there will be invested in Belgian real estate certificates, shares in real estate companies and real estate funds, there is a risk that a position cannot be sold quickly at a reasonable price.

There is no capital protection.

## CHARGES

These charges are used to cover, among other things, the management costs of the fund, including marketing and distribution expenses. They reduce the investment's ability to grow. You can find additional information on the charges in the 'Types of shares and fees and charges' section in the information concerning this sub-fund in the prospectus.

### One-off charges taken before or after you invest

Entry charge	3%	This is the <i>maximum</i> that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. In some cases you will pay less. For more information on the actual entry and exit charges, please contact your financial adviser or distributor.
Exit charge	5% on sale of units within one month of purchase	
Switching from one sub-fund to another		If you would like to exchange your units in this sub-fund* for units in another sub-fund, you will be charged a fee comprising the Exit Charge for the old sub-fund and the Entry Charge for the new sub-fund (for more information, see the 'Types of shares and fees and charges' section in the information concerning this sub-fund in the prospectus).

### Charges taken from the fund over a year

Ongoing charge	1.80%	The figure for the ongoing charge is based on the charges for the year ending on 31 October 2015. This figure does not include transaction charges, except if the fund pays entry or exit charges when units in other funds are bought or sold, and may change from year to year.
----------------	-------	---

### Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

## PAST PERFORMANCE

■ Annualised

Past performance should not be seen as a good indicator of future performance.

The calculation of past performance includes all charges and fees, except taxes and entry and exit charges.

\* These performances were achieved under circumstances that no longer apply.

Start year: 1995

Currency: Euro

## PRACTICAL INFORMATION

The custodian of KBC Select Immo is KBC Bank NV.
