L&G Gold Mining UCITS ETF

Share Class USD Accumulating ETF - ISIN: IE00B3CNHG25. The Fund is a sub-fund of Legal & General UCITS ETF Plc (the "**Company**").
Managed by LGIM Managers (Europe) Limited, a member of the Legal & General group (the "**Manager**")

OBJECTIVES AND INVESTMENT POLICY

- The L&G Gold Mining UCITS ETF (the "**Fund**") is a passively managed exchange traded fund ("**ETF**") that aims to track the performance of the Global Gold Miners Index (the "**Index**"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund.
- The Fund promotes a range of environmental and social characteristics which are met by tracking the Index. Further information on how such characteristics are met by the Fund can be found in the Fund Supplement.
- Dealing.** Shares in this Share Class (the "**Shares**") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>.
- Index.** The Index is designed to provide exposure to global companies that are actively engaged in gold mining. Gold mining is deemed to include exploration drilling, geological assessment, financing, development, extraction, initial refinement, and delivery of gold ore. The constituents of the Index are exclusively companies that generate at least 50 per cent of their revenues from gold production. The Index will exclude companies which violate, or are at risk of violating, globally accepted norms and standards, as well as companies which are involved in (i) controversial weapons or (ii) products including, but not limited to, tobacco, conventional oil and gas, thermal coal and nuclear power. Such exclusions are determined by reference to the <https://www.stoxx.com/index-details?symbol=LGIMGMNR>.
- Replication.** The Fund will primarily invest directly in the securities represented in the Index in similar proportions to their weightings in the Index. The Fund may also invest in (1) companies that are not constituents of the Index that have similar risk and performance characteristics to the companies in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies in the Index and/or such other companies). Adjustments to the Fund's portfolio, including as a result of a reconstitution of the Index, will incur transaction costs.
- Dividend Policy.** This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be reinvested into the Fund.

Potentially lower rewards ← Potentially higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Fund is rated 7 due to the nature of its investments and its risks. The rating is calculated based on historical data and may not be a reliable indication of the Fund's future risk profile. The risk category may shift over time. The lowest category on the above scale does not mean "risk free".
- An investment in the Fund may expose investors to specific risks associated with the gold mining industry, including government policies and regulation, economic forces and the price of gold bullion. The price of gold bullion may fluctuate substantially over short periods of time and so the price of shares in the Fund may be more volatile than other types of investments.

- Third party service providers (such as counterparties entering into FDIs with the Fund or the Company's depository) may go bankrupt and fail to pay money due to the Fund or return property belonging to the Fund.
- If the Index provider stops calculating the Index or if the Fund's license to track the Index is terminated, the Fund may have to be closed.
- It may not always be possible to buy and sell Shares on a stock exchange or at prices closely reflecting the NAV.
- There is no capital guarantee or protection on the value of the Fund. Investors can lose all the capital invested in the Fund.
