WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Fonds Commun de Placement (FCP)

Term: The UCI's term is 99 years from 10/09/2008, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

The investment objective is to achieve, over the recommended investment horizon of 5 years, a return (net of charges) above the following simple benchmark: FTSE European Focus Convertible Hedged EUR Index. The benchmark is expressed in EUR. The index is hedged against foreign exchange risk with the EUR as its base currency. Nets dividends or coupons are reinvested.

Lazard Frères Gestion delegates the financial management of the fund to Lazard Asset Management LLC, New York. The Fund will be actively managed using a fundamental approach comprising several analysis phases: study of the economic environment to determine the Fund's main types of exposure, credit analysis of companies issuing bonds, financial analysis of companies providing equity exposure through convertible bonds, analysis of quantitative features specific to convertible bonds, and analysis of the various provisions of issue contracts. The Fund's overall exposure to interest rates and to equity markets will be actively managed. Interest rate, exchange rate and credit risk (based on securities' ratings) will be actively managed and equity securities will be selectively chosen. The Fund's modified duration will be managed within a range of 0 to 7.

Concerning fixed-income securities, the portfolio management company conducts its own credit assessment for selection purposes, both at the time of purchase and during the life of the securities. It does not rely exclusively on the ratings provided by the rating agencies and implements credit risk analysis and the necessary procedures to make purchase decisions or buy or hold decisions in the event of a downgrade.

The portfolio management company does not automatically use agency ratings but gives precedence to its own credit analysis in assessing the credit quality of said assets and in deciding on possible downgrades.

The Fund is invested as follows:

- up to a maximum of 110% of its net assets in:

- convertible bonds and similar instruments issued in Europe by companies and financial institutions. These securities will be expressed in all currencies.
- convertible bonds issued in Europe by companies and financial institutions. These securities will be expressed in all currencies.
- bonds with warrants issued in Europe by companies and financial institutions. These securities will be expressed in all currencies.
- perpetual subordinated notes (TSDI) issued in and outside Europe by companies and financial institutions. These securities will be expressed in all currencies. The Fund may invest in bonds rated investment grade by the rating agencies or equivalent based on the management company's analysis, as well as in the speculative/high yield category (rated as such by the rating agencies) or equivalent based on the management company's analysis, or in bonds not rated by a rating agency. The fund manager will not invest in contingent convertible bonds (CoCo bonds).

- up to a maximum of 10% of its net assets in:

- UCITS or AIF that meet the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier): French money market, short-term money market, bond or mixed funds;
- shares in live securities resulting from the conversion of one of the types of instrument listed above.

Investment is solely in UCIs that in turn invest less than 10% of their assets in other UCIs. All of these UCIs may be managed by the management company.

The Fund may, up to the amount of the net assets, use futures, swaps, options, credit derivatives and forward exchange contracts on regulated, organised and/or OTC markets to hedge the portfolio and/or expose it to equity, interest rate, exchange rate, credit and volatility risk. The Fund may also invest in securities incorporating derivatives.

Allocation of distributable income:

- Allocation of net income: Accumulation
- Allocation of net realised capital gains: Accumulation

Right of redemption: Orders are executed as indicated in the table below

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 5 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:

5 years

- Credit Risk
- Risks associated with derivatives

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 3 out of 7, which is a risk class between low and medium. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity LAZARD FRERES GESTION SAS to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

| Recommended holding period: 5 years Investment example: 10,000 € | | | |
|---|---|--|---------------------------|
| Scenarios | | If you exit after 1 year | If you exit after 5 years |
| <i>Minimum</i> | | <i>There is no guaranteed minimum return. You could lose all or part of your investment.</i> | |
| Pressure | <i>What you could get after deducting costs</i> | 6,250 € | 6,300 € |
| | Average annual return | -37.5% | -8.8% |
| Unfavourable | <i>What you could get after deducting costs</i> | 7,240 € | 7,550 € |
| | Average annual return | -27.6% | -5.5% |
| Intermediary | <i>What you could get after deducting costs</i> | 9,620 € | 9,520 € |

Favourable scenario: This type of scenario occurred for an investment between 30/03/2020 - 30/03/2021

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed: - that in the first year you would get back the amount you invested (annual return of 0.0%) - that for the remaining holding periods, the product evolves as indicated in the intermediate scenario - that 10,000 EUR are invested

| | If you exit after 1 year | If you exit after 5 years |
|----------------------------|--------------------------|---------------------------|
| Total costs | 604 € | 1,454 € |
| Impact of annual costs (*) | 6.1% | 2.9% every year |

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 1.9% before deduction of costs and -1.0% after that deduction.

Breakdown of costs:

| One-off costs at entry or exit | | If you exit after 1 year |
|--|--|--------------------------|
| Entry costs | 4.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs. | Up to 400 € |
| Exit costs | We do not charge exit costs. | 0 € |
| Recurring costs incurred each year | | |
| Management fees and other administrative and operating costs | 1.55% of the value of your investment per year. This estimate is based on actual costs over the past year. | 149 € |
| Transaction costs | 0.57% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell. | 55 € |
| Incidental costs incurred under specific conditions | | |
| Performance-related fees | There are no performance fees for this product. | 0 € |

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?**Recommended holding period: 5 years**

This product does not have a minimum holding period requirement. The recommended holding period (5 years) has been calculated to be consistent with the product's investment objective.

You may withdraw your investment before the end of the recommended holding period, without any charges or penalties under the conditions set out in the "Right of redemption" section. The risk profile of the product may be very different if you opt to exit before the end of the recommended holding period.
