The Central Bank of Ireland is responsible for supervising Lazard Fund Managers (Ireland) Limited in relation to this Key Information Document. Lazard Global Investment Funds Public Limited Company (the "Company") is authorised in Ireland and regulated by Central Bank of Ireland.

KID production date: 17 May 2024.

### What is this product?

**Type:** Lazard Emerging Markets Corporate Debt Fund (the "Fund") is a sub-fund of the Company, an Irish UCITS investment fund company.

**Product Term:** The Fund does not have a maturity date however the PRIIP Manufacturer can unilaterally decide to terminate the Product at the discretion of the Directors of the Company on giving thirty days written notice to shareholders.

**Objective:** The Fund aims to maximise total return from income and capital growth.

The Fund is actively managed and will invest in debt securities (e.g. bonds) with a minimum credit rating of Baa3/BBB- to B3/B- inclusive as rated by recognised rating agencies, such as Moody's and Standard & Poor respectively. The Fund will also invest in non-graded investments, such as unrated debt securities which are issued by companies, governments, government agencies, quasi sovereign bodies or supranational bodies (such as the World Bank) and which are based in or have significant business in or economic ties to emerging market countries. The Fund will invest in securities denominated in US Dollar, or currencies of developing or Emerging Market Countries. The Fund has flexibility to invest more than 30% of its value in non-investment grade securities.

The Fund may gain exposure to the asset classes above either by investing in them directly, or by using derivatives (which are financial contracts whose value is linked to the price of an underlying investment). The currency exposures of the Fund's portfolio will be substantially hedged back into US Dollars, being the base currency of the Fund.

As a result of its use of derivatives, the Fund may be 'geared' or 'leveraged' (which can lead to a proportionately much larger movement in the value of the Fund's assets). The expected level of the Fund's leverage (as measured by the gross notional value of all derivatives positions) will be 25% of the value of the Fund.

The Fund has discretion as to which investments it will hold within the limits of the Investment Objective and Policy.

The Fund's performance is measured against the performance of the J.P. Morgan Corporate Emerging Markets Bond Index Broad Diversified (the "Benchmark"), which the Investment Manager of the Fund has assessed to be the most appropriate Benchmark for measuring performance. The performance of the Fund seeks to exceed the Benchmark performance. The Fund is not constrained by the Benchmark as it has flexibility to invest in securities and asset classes not included in the Benchmark.

Income and profits, if any, attributable to your shares will not be paid out as a dividend but will be accumulated in the Fund on your behalf and reflected in an increase in the value of your holdings.

The Fund promotes environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088, the "SFDR Regulation".

The Company's depositary is State Street Custodial Services (Ireland) Limited (the "Depositary").

This document describes a share class of the Fund, which is a sub-fund of the Company. The Company is comprised of a number of sub-funds (including the Fund), each having a separate portfolio of assets. As a matter of Irish law, the assets of one sub-fund will not be available to meet the liabilities of another. However, the Company is a single legal entity that may operate, have assets held on its behalf, or be subject to claims in other jurisdictions that may not necessarily recognise such segregation. You may switch between share classes and sub-funds of the Company. See "Switching Between Share Classes and Funds" in the prospectus for the Company (the "Prospectus").

Further information about the Fund and about the Company's other sub-funds/share classes including those marketed in your Member State may be obtained from the Prospectus (available in English and German), the annual and half-yearly Report and Accounts which are prepared for the Company as a whole (available in English, German and Italian). These documents are available free of charge from Lazard Fund Managers (Ireland) Limited, 4th Floor, Lumen Building, Upper Baggot St. Dublin 4 or at [www.lazardassetmanagement.com](http://www.lazardassetmanagement.com). Latest share prices of the Fund are also available at [www.lazardassetmanagement.com](http://www.lazardassetmanagement.com).

**Intended Retail Investor:** Suitable for investors with a medium to long term investment horizon seeking an attractive level of return from an actively managed and diversified portfolio providing exposure primarily to emerging market fixed income securities

## What are the risks & what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 3 years. This product has no maturity date.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a

### Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.**

Recommended Holding Period: 3 years

Example Investment = \$ 10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
<b>Minimum</b>		There is no minimum guaranteed return. You could lose some or all of your investment.	
<b>Stress</b>	<b>What you might get back after costs</b>	<b>\$4,860</b>	<b>\$5,720</b>
	Average return each year	-51.4%	-17.0%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>\$7,930</b>	<b>\$9,190</b>

### What happens if Lazard Fund Managers (Ireland) Limited is unable to pay out?

The Fund is responsible for paying redemptions. The Fund's assets are safeguarded by the Depositary. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in the Fund are not covered under the terms of the Irish statutory investor compensation scheme.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- \$ 10,000 is invested

**Table 1: Costs over time**

	If you exit after 1 year	If you exit after 3 years
<b>Total costs</b>	<b>\$600</b>	<b>\$960</b>
<b>Annual cost impact (*)</b>	6.0% each year	2.9% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.3% before costs and 3.4% after costs.

**Table 2: Composition of costs**

<b>One-off costs</b>		<b>If you exit after 1 year</b>

### How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The selection of the recommended holding period is based on the risk-return profile of the product, its cost structure and how similar products have been used by retail investors. The selection of this recommended holding period does not necessarily mean that it is the only reasonable holding period. There are no penalties for redeeming before the end of the recommended holding period. You can buy and sell shares in the Fund on any day treated as a normal business day in Dublin, London and New York.
