WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Fonds Commun de Placement (FCP)

Term: The UCI's term is 99 years from 21/09/2007, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

The investment objective is to achieve, over the recommended investment horizon of 3 years, a return (net of charges) above the following simple benchmark: ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Index. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested.

The investment strategy involves dynamic management of credit and interest rate risk by investing primarily in risky debt issued by governments, companies and financial institutions. A minimum of 75% of the net assets must be invested in issuers located in the OECD and a maximum of 25% in issuers from other regions. The Fund's modified duration will be managed dynamically within a range of 0 and 8. The Fund may invest in investment grade bonds (as rated by the rating agencies) or an equivalent rating based on the management company's analysis, and in speculative/High Yield bonds (as rated by the rating agencies) or an equivalent rating based on the management company's analysis, or in bonds not rated by a rating agency. These bonds are issued by players whose registered office is located in an OECD member country and/or are euro-denominated instruments listed on a stock market of an OECD member country, without restrictions concerning credit quality.

The portfolio is mainly comprised of:

- up to a maximum of 100% of the net assets in bonds, debt issued by OECD member country governments and negotiable debt securities denominated in euros;
- up to a maximum of 20% of the net assets in convertible bonds;
- up to a maximum of 10% of the net assets in preference shares insofar as they may be considered deeply subordinated instruments;
- up to a maximum of 10% of the net assets in money market UCITS or AIFs, short-term money market funds or bond funds provided that less than 10% of these funds' assets are invested in other UCIs;
- up to a maximum of 5% of the net assets in ordinary shares. The latter do not relate to equity investments but rather shares arising from debt restructuring;
- up to a maximum of 10% of the net assets in euro-denominated securitisation vehicles.

As an exception to the 5%-10%-40% ratios, the management team may invest more than 35% of the UCI's net assets in securities guaranteed by an EEA Member State or the United States.

A maximum of 100% of the portfolio's net assets may be invested in securities with embedded derivatives.

The Fund may use interest rate futures, currency future, interest rate swaps, currency swaps, interest rate options, currency forwards and credit derivatives (with CDS limited to a maximum of 40% of the assets), traded on regulated, organised and/or OTC markets to hedge and/or expose the portfolio, up to the amount of the net assets, to credit, currency and interest rate risk.

Allocation of distributable income:

- Allocation of net income: Accumulation
- Allocation of net realised capital gains: Accumulation

Right of redemption: Orders are executed as indicated in the table below

Business day	Day on which NAV is set (d)	The business day following the valuation day (D+1)	Two business days following the valuation day (D+2)
Daily order reception and Daily centralisation of redemption orders before 12:00 p.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Targeted retail investors: This product may be suitable for retail investors with an intermediate level of knowledge of financial markets and products who seek bonds and other euro-denominated debt securities exposure and who accept the risk of losing part of the invested capital.

The UCI may not be offered or sold in the United States. For further information, please refer to section "11. Eligible subscribers and typical investor profile" in the prospectus.

Recommendation: This UCI may not be suitable for investors planning to withdraw their investment within 3 years

Name of custodian: CACEIS BANK

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 3 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:

3 years

- Credit Risk
- Liquidity risk
- Risks associated with derivatives

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 3 out of 7, which is a risk class between low and medium. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity LAZARD FRERES GESTION SAS to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted.

The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

Recommended holding period: 3 years Investment example: 10000 €

Favourable scenario: This type of scenario occurred for an investment between 29/03/2020 - 29/03/2021

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed: - that in the first year you would get back the amount you invested (annual return of 0.0%) - that for the remaining holding periods, the product evolves as indicated in the intermediate scenario - that 10000 EUR are invested

	If you exit after 1 year	If you exit after 3 years
Total costs	550 €	910 €
Impact of annual costs (*)	5.6%	3.0% every year

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 5.2% before deduction of costs and 2.2% after that deduction.

Breakdown of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	4.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs.	Up to 400 €
