The Central Bank of Ireland is responsible for supervising Lazard Fund Managers (Ireland) Limited in relation to this Key Information Document.

Lazard Global Active Funds Public Limited Company (the "Company") is authorised in Ireland and regulated by Central Bank of Ireland.

KID production date: 17 May 2024.

What is this product?

Type: Lazard US Equity Concentrated Fund (the "Fund") is a sub-fund of the Company, an Irish UCITS investment fund company.

Product Term: The Fund does not have a maturity date however the PRIIP Manufacturer can unilaterally decide to terminate the Product at the discretion of the Directors of the Company on giving thirty days written notice to shareholders.

Objective: The Fund aims to achieve mid- to long- term capital growth.

The Fund is actively managed and will pursue its objective by investing primarily in equities (i.e. shares) and equity-related investments (i.e. shares including common and preferred stock, options and warrants) of companies domiciled, incorporated or listed in the US or which, in the Investment Manager's opinion, derive significant sources of profit from or have close economic links with the US.

The Investment Manager will seek to identify and invest in those companies which it considers to be the most financially productive, or those which exhibit improving financial productivity. Stock selection is not driven by considerations regarding sectoral or industry weightings within the portfolio, although these factors are taken into account to ensure the portfolio is sufficiently diversified. The Fund's exposure to such companies is intended to be concentrated across approximately 15 to 35 companies. While the Fund will typically invest in or seek exposure to companies which have a market capitalisation greater than US\$350 million at the time of purchase, the Investment Manager retains the flexibility to invest in companies from across the market capitalisation spectrum.

The Fund may invest in listed REITs (i.e. real estate investment trusts) and closed-ended funds where such investments are consistent with the Fund's investment policy.

The Fund may invest up to 20% of its value in emerging markets.

The Fund may use derivatives (which are financial contracts whose value is linked to the price of an underlying investment) for the purposes of efficient portfolio management.

The Fund has discretion as to which investments it will hold within the limits of the Investment Objective and Policy.

The Fund's performance is measured against the performance of the S&P 500 Net Total Return Index (the "Benchmark"), which the Investment Manager has assessed to be the most appropriate Benchmark for measuring performance. The performance of the Fund seeks to exceed the Benchmark performance. The Fund is not constrained by the Benchmark as it has flexibility to invest in securities and asset classes not included in the Benchmark.

Income and profits, if any, attributable to your shares will not be paid out as a dividend but will be accumulated in the Fund on your behalf and reflected in an increase in the value of your holdings.

The Fund promotes environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088, the "SFDR Regulation".

The Company's depository is State Street Custodial Services (Ireland) Limited (the "Depository").

This document describes a share class of the Fund, which is a sub-fund of the Company. The Company is comprised of a number of sub-funds (including the Fund), each having a separate portfolio of assets. As a matter of Irish law, the assets of one sub-fund will not be available to meet the liabilities of another. However, the Company is a single legal entity that may operate, have assets held on its behalf, or be subject to claims in other jurisdictions that may not necessarily recognise such segregation. You may switch between share classes and sub-funds of the Company. See "Switching Between Share Classes and Funds" in the prospectus for the Company (the "Prospectus").

Further information about the Fund and about the Company's other sub-funds/share classes including those marketed in your Member State may be obtained from the Prospectus (available in English and German), the annual and half-yearly Report and Accounts which are prepared for the Company as a whole (available in English, German and Italian). These documents are available free of charge from Lazard Fund Managers (Ireland) Limited, 4th Floor, Lumen Building, Upper Baggot St. Dublin 4 or at www.lazardassetmanagement.com. Latest share prices of the Fund are also available at www.lazardassetmanagement.com.

Intended Retail Investor: Suitable for investors over the medium to long term seeking to achieve capital appreciation, principally (though not exclusively) through investment in listed equity securities and equity – related instruments providing US market exposure and who are willing to tolerate the high levels of volatility often associated with the equity markets

What are the risks & what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. This product has no maturity date.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 years

Example Investment = \$ 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs	\$750	\$850
	Average return each year	-92.5%	-39.0%
Unfavourable	What you might get back after costs	\$7,390	\$8,360
	Average return each year	-26.1%	-3.5%
Moderate	What you might get back after costs	\$10,200	\$14,820
	Average return each year	2.0%	8.2%
Favourable	What you might get back after costs	\$13,780	\$18,860
	Average return each year	37.8%	13.5%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: December 2021 and December 2023

Moderate Scenario: August 2014 and August 2019

Favourable Scenario: October 2016 and October 2021

What happens if Lazard Fund Managers (Ireland) Limited is unable to pay out?

The Fund is responsible for paying redemptions. The Fund's assets are safeguarded by the Depositary. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in the Fund are not covered under the terms of the Irish statutory investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- \$ 10,000 is invested

medium-high level, and poor market conditions will likely impact the capacity of the product to pay you.

Be aware of currency risk. In some circumstances you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the PRIIP not included in the summary risk indicator include active management risk. A full list of risk factors is available in the Prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Table 1: Costs over time

	If you exit after 1 year	If you exit after 5 years
Total costs	\$900	\$3,020
Annual cost impact (*)	9.0% each year	4.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.3% before costs and 8.2% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
Entry costs	This is the maximum that might be taken out of your money before it is invested and is typically charged only in exceptional circumstances.	5.0%
Exit costs	This is the maximum that might be taken out of your money before proceeds of your investment are paid out and is typically charged only in exceptional circumstances.	2.0%
Ongoing costs taken each year		
Management fees and other administrative or operating costs	This is an estimate based on actual costs over the last year.	2.1%
Transaction costs	The figure shown is a percentage of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0.2%
Incidental costs		
Performance Fees	There is no performance fee for this product.	0.0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The selection of the recommended holding period is based on the risk-return profile of the product, its cost structure, how similar products have been used by retail investors and on the typical duration of an economic cycle. The selection of this recommended holding period does not necessarily mean that it is the only reasonable holding period. There are no penalties for redeeming before the end of the recommended holding period. You can buy and sell shares in the Fund on any day on which the stock exchanges in London and New York are open for business.

How can I complain?

Shareholders may file a complaint in relation to the Fund with the PRIIP Manufacturer in the official language or one of the official languages of their member state of the European Union. Shareholders may address written complaints to: The Designated Person for Regulatory Compliance, Lazard Fund Managers (Ireland) Limited, 6th Floor, 2 Grand Canal Square, Dublin 2, Ireland.

Shareholders may file their complaints with the PRIIP Manufacturer and obtain information regarding the complaints handling procedures free of charge and on request.

Shareholders have the right to refer any complaint to the Central Bank and the Financial Services Ombudsman. The contact details of the Financial Services Ombudsman are: Address: 3rd Floor, Lincoln House, Lincoln Place, Dublin 2, D02 VH29 Telephone: 1890 88 20 90 Email: enquiries@financialombudsman.ie

Other relevant information

Past performance information is available at www.lazardassetmanagement.com. Previous performance scenario calculations are published on a monthly basis at the same link.

The Fund is subject to the tax legislation of Ireland. This may have an impact on your personal tax position.
