You are advised to read it to help you make an informed decision about whether to invest.

### Lazard US Equity Concentrated Fund C Acc USD

Lazard US Equity Concentrated Fund is a sub-fund of Lazard Global Active Funds Public Limited Company (the "UCITS")

ISIN: IE00BYQDN348

This Fund is managed by Lazard Fund Managers (Ireland) Limited, part of the Lazard Group

### Objectives and Investment Policy

Lazard US Equity Concentrated Fund (the "Fund") aims to achieve mid- to long-term capital growth.

The Fund will pursue its objective by investing primarily in equities (i.e. shares) and equity-related investments of companies domiciled, incorporated or listed in the US or which, in the Investment Manager's opinion, derive significant sources of profit from or have close economic links with the US.

The Investment Manager will seek to identify and invest in those companies which it considers to be the most financially productive, or those which exhibit improving financial productivity. Stock selection is not driven by considerations regarding sectoral or industry weightings within the portfolio, although these factors are taken into account to ensure the portfolio is sufficiently diversified. The Fund's exposure to such companies is intended to be concentrated across approximately 15 to 35 companies. While the Fund will typically invest in or seek exposure to companies which have a market capitalisation greater than US\$350 million at the time of purchase, the Investment Manager retains the flexibility to invest in companies from across the market capitalisation spectrum.

The Fund may also invest up to 10% in aggregate of its value in units or shares of other investment funds (including exchange traded funds).

The Fund may invest in listed REITS (i.e. real estate investment trusts) and closed-ended funds where such investments are consistent with the Fund's investment policy.

Up to 20% of the Fund's net assets may be held in cash and in investments that are deemed to be equivalent to cash. This percentage may be exceeded where deemed appropriate by the Investment Manager in light of market conditions and the best interests of Shareholders.

The Fund may use derivatives (which are financial contracts whose value is linked to the price of an underlying investment), for the purposes of efficient portfolio management.

You can buy or sell shares in the Fund on any day on which the stock exchanges in London and New York are open for business.

The Fund has discretion as to which investments it will hold within the limits of the Investment Objective and Policy.

Income and profits, if any, attributable to your shares will not be paid out as a dividend, but will be accumulated in the Fund on your behalf and reflected in an increase in the value of your holdings.

The Fund's performance is measured against the performance of the S&P 500 Net Total Return Index (the "Benchmark"). However, the Fund has flexibility to invest in securities and asset classes not included in the Benchmark.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within the short term.

### Risk and Reward Profile

The risk and reward categories above are calculated using historic data and may not be a reliable indicator of the Fund's future risk profile. The risk and reward category may shift over time and is not a target or guarantee. The lowest category (i.e. category 1) does not mean "risk free".

The risk rating of this share class is calculated on the basis of historic volatility – i.e. how much the value of the underlying assets of the Fund has fluctuated over the last 5 years. As this share class does not have 5 years' performance data available, we have simulated the volatility, using a suitable proxy, based on historic data.

This share class has been placed in the risk category stated above, because based on the simulated historic data, the underlying assets within the Fund have shown moderately high volatility.

Please note, there are other risks that may not be reflected in the risk and reward categories above. Some of these risks are summarised below.

- There is no capital guarantee or protection of the value of the Fund. The value of your investment and the income from it can go down as well as up and you may not get back the amount you originally invested.
  - In view of the concentrated nature of the Fund's portfolio of investments, the level of risk is expected to be higher than for broader based portfolios and the value may be more volatile.
  - The Fund may invest in units or shares of other investment funds. Such other funds may themselves be subject to their own fees and expenses.
  - The Investment Manager may invest in securities believed to be undervalued or with potential for growth. The securities may not achieve such value or growth for extended periods of time or may never realise such perceived value or growth.
  - The returns from your investment may be affected by changes in the exchange rate between the Fund's base currency, and the currency of the Fund's investments, your share class and your home currency.
- See "Risk Factors" in the UCITS' Prospectus and Fund Supplement for more information about risks.

## Charges

The charges you pay are used to pay the costs of running the Fund, including marketing and distributing costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	<b>3.00%</b>
Exit charge	<b>2.00%</b>
This is the maximum that might be taken out of your money before it is invested and before proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charges	<b>0.87%</b>
Charges taken from the Fund under certain specific conditions	
Performance fee	<b>N/A</b>

The entry and exit charges shown are maximum figures. In some cases you may pay less. You can find out the actual charges from your financial advisor.

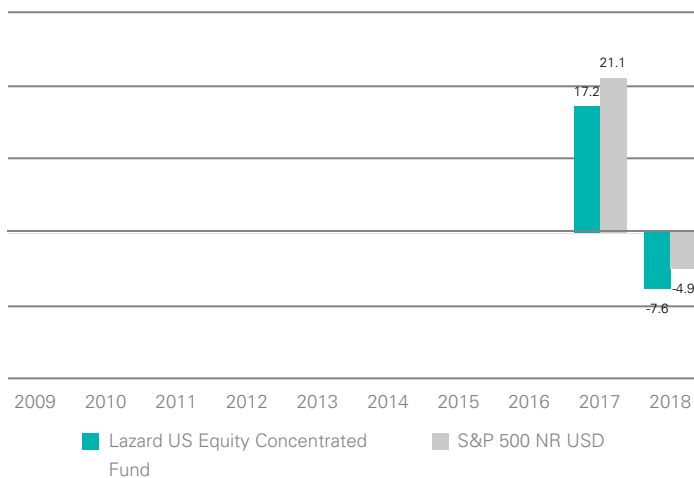

The ongoing charges figure is based on expenses for the year ending 31 December 2018 and does not include any performance fee or portfolio transaction costs incurred where we buy or sell assets for the Fund. Ongoing charges may vary from year to year.

In the case of a large purchase or sale of shares in the Fund an amount for "Duties and Charges" as defined in the UCITS' Prospectus may be applied where the Directors believe it is in the best interests of the other shareholders.

The Directors may, in their absolute discretion, charge a switching fee of up to 1% of the Net Asset Value of the shares to be switched.

Please see "Fees and Expenses" in the UCITS' Prospectus, Fund Supplement and Appendix I Share Class Details of the Fund Supplement.

## Past Performance

### The Fund was established on: 23/12/2015

The share class seed date was: 01/12/2016

Past performance is calculated in USD.

Past performance is not a reliable guide to future performance.

The past performance shown in the chart takes account of all charges except the Fund's entry charge.

Where no past performance is shown there was insufficient data available in that year to provide performance.
