How long should I hold it and can I take money out early?

Recommended holding period: 10 years

The fund has no minimum holding period, but it is designed for medium to long-term investment. You should therefore be prepared to remain invested for at least 10 years. However, you can redeem your investment on any Austrian banking day (except for Good Friday and New Year's Eve), subject to the above-mentioned exit costs and without any penalty. The recommended holding period is chosen to keep the probability of nominal losses for investors (unit holders) during this investment horizon as low as possible. However, losses cannot be excluded.
