What is this product?

Type:

This product is a UCITS fund which is structured as an umbrella investment company with segregated liability authorized by the Central Bank of Ireland.

Term:

The Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time upon two weeks' notice to shareholders.

Objectives: The Fund's investment objective is to seek a high current income and the opportunity for capital appreciation to produce a high total return.

The Fund invests principally in high yield debt securities (which are below investment grade and also referred to as “junk bonds”) of corporate and government issuers located anywhere in the world which may be denominated in any currency. Such securities may include, but are not limited to, bonds, notes, debentures, mortgage-backed, mortgage-related, other asset-backed securities, collateralised debt obligations and securities convertible at the option of the Fund into equity.

The Fund may invest in excess 20% of its net asset value (“NAV”) in emerging market debt securities and up to 10% of NAV in third party floating or adjustable rate senior loans.

The Fund employs a relative value-oriented investment process that emphasizes securities believed to be undervalued with attractive risk/reward profiles.

The Fund may invest in financial derivative instruments (“FDIs”) to seek to enhance returns, to attempt to hedge some of its investment or currency risk, to manage portfolio duration, or as a substitute for holding the underlying reference asset on which the FDI is based.

Any income less expenses realised will only be distributed to investors in distributing classes and will be accumulated in the net asset value per share for accumulation classes.

The Fund is actively managed. It uses the ICE BofA Global High Yield Index EUR Hedged for performance comparison purposes.

Investors can redeem shares each day (except Saturdays, Sundays, and normal bank holidays) on which banks in Dublin and New York are open for regular business.

For full investment objective and policy details, please refer to the “Investment Objective” and “Investment Policies” sections of the Fund's supplement to the Prospectus of the Company (the “Prospectus”). Unless otherwise expressly defined herein, defined terms have the same meaning assigned in the Prospectus.

This share class is an accumulating share class and the Directors intend to accumulate and to reinvest all earnings, dividends and other distributions.

Intended Retail Investor:

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years. The Fund is intended for investors: (i) with knowledge and/or experience of these types of products; (ii) that have obtained appropriate investment advice; and (iii) that have the ability to bear losses up to the amount they have invested in the Fund.

The Fund's assets are held through its depositary, which is Brown Brothers Harriman Trustee Services (Ireland) Limited (the “Depositary”).

The Fund is a sub-fund of the Company, an open-ended investment company with segregated liability between sub-funds. This means that the assets of the Fund cannot be used to pay the liabilities of other sub-funds of the Company.

Shares in the Fund may be switched for the shares of another share class of the Fund or another sub-fund of the Company, subject to certain conditions and meeting the requirements for investment in such other share classes or sub-funds. See the section titled “Conversion of Shares” of the Prospectus for more information.
