

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

M&G (Lux) Climate Solutions Fund

a sub-fund of M&G (Lux) Investment Funds 1

EUR Class L – Accumulation shares ISIN no. LU2226640048

Managed by M&G Luxembourg S.A.

Objective and investment policy

The fund aims to:

- Invest in companies that deliver solutions to the challenge of climate change; and
- Provide a combination of capital growth and income to deliver a return that is higher than the global stock market over any five-year period.

Core investment: At least 80% of the fund is invested in the shares of companies, across any sector and of any size, from any developed market. The fund is concentrated and usually holds shares in fewer than 40 companies.

All companies are assessed on their investment credentials and ability to deliver solutions to the climate change challenge, based on M&G's proprietary impact assessment methodology. To assist this assessment companies deemed to conflict with the fund's aim are excluded, such as those involved in the extraction of thermal coal, oil and gas, and fracking. Also excluded are companies deemed to be in breach of the UN Global Compact principles and/or involved in industries such as tobacco, controversial weapons and nuclear power.

Other investments: The fund may invest up to 20% in the shares of emerging market companies. The fund may also invest in other funds (including funds managed by M&G) and cash or assets that can be turned into cash quickly.

Derivatives: The fund may use derivatives to reduce the risks and costs of managing the fund.

Strategy in brief: The fund invests over the long term in companies delivering solutions to the climate change challenge alongside a financial return. Sustainability and impact considerations are fundamental in the stock selection process. The fund embraces the UN Sustainable Development Goals framework and invests in companies focused on areas including clean energy, green technology and the promotion of a circular economy.

Benchmark: MSCI World Net Return Index

The benchmark is a comparator against which the fund's performance can be measured. The index has been chosen as the fund's benchmark as it best reflects the scope of the fund's financial objective. The benchmark is used solely to measure the fund's performance and does not constrain the fund's portfolio construction.

The fund is actively managed. The fund manager has complete freedom in choosing which investments to buy, hold and sell in the fund. The fund's holdings may deviate significantly from the benchmark's constituents.

For unhedged and currency hedged share classes, the benchmark is shown in the share class currency.

The following information can be found on the M&G website:

- a [glossary](#) providing an explanation of some terms used in this document
- The [ESG Criteria](#) including the fund's exclusions approach.
- an annual report to assess the fund's non-financial objective, when available.
- the Prospectus including the fund's objective and investment policy.

Other information

You can buy and sell shares in the fund on any business day. Instructions received before 13:00 Luxembourg time will be dealt at that day's price.

Any income from the fund will be rolled up into the value of your investment.

In addition to the charges set out in the charges section, the fund will incur portfolio transaction costs which are paid from the assets of the fund. These can be higher when investing outside Europe.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

▪ The above risk and reward indicator is based on simulated historical data and may not be a reliable indication of the future risk profile of this share class. This Share Class is categorised in risk class 6 because its simulated Net Asset Value has shown high rises and falls in value historically.

- The risk number shown is not guaranteed and may change over time.
- The lowest risk number does not mean risk free.

The main risks that could affect performance are set out below:

- The value and income from the fund's assets will go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the fund will achieve its objective and you may get back less than you originally invested.
- The fund holds a small number of investments, and therefore a fall in the value of a single investment may have a greater impact than if it held a larger number of investments.
- The fund can be exposed to different currencies. Movements in currency exchange rates may adversely affect the value of your investment.
- Investing in emerging markets involves a greater risk of loss due to greater political, tax, economic, foreign exchange, liquidity and regulatory risks, among other factors. There may be difficulties in buying, selling, safekeeping or valuing investments in such countries.
- In exceptional circumstances where assets cannot be fairly valued, or have to be sold at a large discount to raise cash, we may temporarily suspend the fund in the best interest of all investors.
- The fund could lose money if a counterparty with which it does business becomes unwilling or unable to repay money owed to the fund.
- Operational risks arising from errors in transactions, valuation, accounting, and financial reporting, among other things, may also affect the value of your investments.
- ESG information from third-party data providers may be incomplete, inaccurate or unavailable. There is a risk that the investment manager may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the portfolio of the fund.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at www.mandg.ch/literature

Charges

The charges shown in the table are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	1,25%
Exit charge	0,00%
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	0,71%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures and, in some cases, you may pay less. You can find out the exact charges which apply to your investment by contacting your financial adviser or distributor or, if you have invested directly with us, you can contact us using the details given in the practical information section.

The ongoing charge is based on expenses for the period/year ending 30 September 2021. This figure may change from year to year. It excludes portfolio transaction costs.

For more information on charges, please see the relevant sections of the Prospectus at www.mandg.ch/literature

Past performance

- Past performance is not a guide to future performance.
- The fund launched on 12 November 2020 and the EUR share class launched on 12 November 2020.
- Performance is calculated using EUR Accumulation shares.
- Benchmark performance has been calculated in EUR.

Practical information

The depositary is State Street Bank International GmbH, Luxembourg Branch.

The representative and paying agent of the fund in Switzerland is Société Générale, Paris, Zurich Branch, Talacker 50, P.O. Box 5070, CH-8021 Zürich.
