What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of Magallanes Value Investors UCITS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The Sub-Fund's objective is to deliver high performance in both absolute and relative term over the long term horizon. There can be no assurance that the investment objective will be achieved.

To achieve this, the Sub-Fund will mainly invest in a select portfolio of Transferable Securities (including equity related securities such as ADRs (American Depositary Receipt) and GDRs (Global Depositary Receipt)) of companies which are domiciled in Spain or in Portugal.

Except for the geographical focus, the choice of investments will neither be limited by an economic sector nor in terms of currencies in which investments will be denominated. However, depending on financial market conditions, a particular focus can be placed in a single country and/or in a single currency and/or in a single economic sector.

On an ancillary basis, the Sub-Fund may invest in any other type of Eligible Investments, such as debt securities including Money Market Instruments with an investment grade rating (i.e. with a rating of not less than BBB- by Standard & Poor's Corporation or its equivalent by Moody's. In case of two different ratings, the higher credit rating will apply), UCITS, other eligible UCIs and Liquid Assets (such as cash and deposits).

The Sub-Fund's investments in units or shares of UCIs (UCITS and/or other eligible UCIs) will not exceed 10% of the net assets of the Sub-Fund.

If the Investment Manager considers this to be in the best interest of the Shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also hold Liquid Assets as among others cash deposits, money market funds (within the 10% limit above-mentioned) and Money Market Instruments for up to 100% of its net assets.

Derivatives For hedging purposes, the Sub-Fund may use financial derivative instruments within the limits and descriptions set out in the prospectus. The use of derivative instrument may increase leverage, imply additional costs and risks.

Benchmark The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is the IBEX 35 INDEX (80%) & PSI 20 INDEX (20%). It is mentioned only for performance comparison purposes. The Sub-Fund does not track the index and can deviate significantly or entirely from the benchmark index.

ESG information The Sub-Fund promotes certain environmental and social characteristics within the meaning of article 8 of SFDR, although no reference benchmark has been designated for the purpose of attaining the ESG (Environmental, Social, Governance) characteristics.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

This Class is reserved to institutional investors and other investors having entered into a discretionary mandate or fee based advisory mandate with financial intermediaries which, may not accept and keep trail commissions. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 7 years.

OTHER INFORMATION

Depositary Pictet & Cie (Europe) S.A. (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The Net Asset Value for the Class is calculated on each bank business day in Luxembourg (the "Calculation Day") based on the pricing of the preceding bank business day (the "Valuation Day"). The cut-off time to submit subscriptions and/or redemptions orders is 3 p.m. Luxembourg time 1 business day preceding the Valuation Day.

Switching Any shareholder may request the conversion of all or part of his shares in one sub-fund into shares of another sub-fund, on the basis of the respective Net Asset Values as calculated on the Valuation Day of the sub-funds concerned. The cost connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about the switching between sub-funds, please refer to the prospectus.

Additional Information More detailed information on this Sub-Fund, such as the prospectus, other classes, the key information, the latest Net Asset Value, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the central administrator, the distributors, the Management Company or online at www.fundsquare.net.

What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 7 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 12 years. Markets could develop very differently in the future.

Recommended holding period (RHP):		7 years		
Example investment		EUR 10,000		
		If you exit after 1 year	If you exit after 7 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 4,920	EUR 1,360	
	Average return each year	-50.8%	-24.8%	
Unfavourable scenario	What you might get back after costs	EUR 5,740	EUR 7,890	This type of scenario occurred for an investment in the proxy then the product between October 2013 and October 2020.
	Average return each year	-42.6%	-3.3%	
Moderate scenario	What you might get back after costs	EUR 10,080	EUR 11,690	This type of scenario occurred for an investment in the proxy then the product between September 2014 and September 2021.
	Average return each year	0.8%	2.3%	
Favourable scenario	What you might get back after costs	EUR 15,460	EUR 18,000	This type of scenario occurred for an investment in the proxy then the product between May 2012 and May 2019.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 7 years
Total costs	EUR 172	EUR 1,448
Annual cost impact (*)	1.7%	1.7%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.0% before costs and 2.3% after costs.
