## What is this product?

### TYPE OF PRODUCT

The product is a sub-fund of Manager Select, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Sub-Fund is established for an unlimited duration. However if the net assets of the sub-fund is at any time below EUR 5 million or the equivalent thereof in the currency of the relevant sub-fund, or if a change in the economic or political situation relating to the sub-fund would justify such liquidation or if it is required by the interests of the shareholders of the sub-fund, the board of directors may decide to liquidate the sub-fund and redeem all outstanding shares.

### OBJECTIVES

#### Objectives and investment policy

The Sub-Fund's investment objective is to seek to maximise total return, following an investment grade fixed income strategy, consistent with the preservation of capital and prudent investment management, while focusing on ESG principles.

There is no guarantee that the Sub-Fund will achieve its investment objective.

The Sub-Fund will be exposed at least at two thirds of its net assets to investment grade debt securities of any type (including among others corporate and (quasi-)sovereign bonds, Money Market Instruments, asset-backed securities and mortgage-backed securities, and convertible bonds).

In order to achieve its objective, the Sub-Fund will mainly invest:

- directly in the securities mentioned in the previous paragraph ; and/or
- in UCITS and/or other UCIs (in the below-mentioned 10% limit) having as main objective to invest in or have an exposure to the securities mentioned in the previous paragraph ; and/or
- in any Transferable Securities (such as structured products) linked (or offering an exposure) to the performance of the securities mentioned in the previous paragraph.

The Sub-Fund may invest in any country (including in emerging countries), in any economic sector and in any currency. However, depending on market conditions, the investments or exposure may be focused on one country and/or one economic sector and/or one currency.

The Sub-Fund will however respect the following limits:

- The Sub-Fund will not invest more than 10% of its net assets in UCITS and/or other UCIs;
- Investments in China may be performed on the China Interbank Bond Market ("CIBM") or on any acceptable securities trading and clearing linked programs or access instruments which may be available to the Sub-Fund in the future. These investments will not exceed 10% of the Sub-Fund's net assets;
- The Sub-Fund may invest up to 20% of its net assets in non-investment grade debt securities including contingent convertible (Cocos) bonds.
- The Sub-Fund may invest directly in asset-backed securities and in debt securitisations (such as but not exclusively ABS and MBS).
- For avoidance of any doubt, the Sub-Fund will not invest directly in bonds which, at the time of their acquisition, qualify as distressed and defaulted securities. In the event of downgrading or default in the credit ratings of a security or an issuer, the Sub-Fund may, at the discretion of the Investment Manager, and in the best interests of the Sub-Fund's shareholders, continue to hold those debt securities which have been downgraded, provided that in any case the Sub-Fund's maximum exposure to distressed or defaulted securities will be limited to a maximum of 10% of its net assets.

The Sub-Fund may invest in structured products, with or without embedded derivatives, whose returns are linked to, among others, an index (including indices on volatility), currencies, interest rates, equities, bonds, commodities.

The Sub-Fund's assets are held with Pictet & Cie (Europe) S.A. and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

## What are the risks and what could I get in return?

### Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

## What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:
