## What is this product?

### TYPE OF PRODUCT

The product is a sub-fund of Manavest, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

### OBJECTIVES

#### Objectives and investment policy

The Sub-Fund's objective is to provide capital growth and to enable investors to benefit from growth in the European equity market.

The Sub-Fund will mainly invest in equity and equity related securities (such as rights, depositary receipts) issued by companies that are headquartered in Europe, or have a majority of their assets or other interests in Europe, or conduct the majority of their activity in Europe or from Europe.

For the purpose of the Sub-Fund's investments, Europe means any European country from a geographical point of view (including Russia); in order to avoid any doubt, this also includes emerging countries.

Despite the focus on Europe, the choice of investments will not be driven by or limited to a specific sector or currency. Nonetheless, depending on circumstances, the Sub-Fund may, at times, have a particular focus on a specific European country (including an emerging country) and/or sector and/or currency.

The Sub-Fund may invest up to 49% of its net assets in any other type of eligible assets, such as equities other than those above-mentioned, debt securities and investment funds / undertakings for collective investment (UCIs).

With respect to debt securities investments, the investment manager intends to invest in debt securities with a credit rating "investment grade". The Sub-Fund will not invest in distressed debt securities or defaulted debt securities.

However, the Sub-Fund's investments in units or shares of UCIs will not exceed 10% of its net assets.

**Derivatives** For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over-the-counter. Nevertheless, in normal market conditions, the Investment Manager intends to use futures offering an exposure to equities and currency derivatives.

**Benchmark** The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is STOXX Europe Mid 200 Net TR. It is mentioned only for information purposes and the Sub-Fund does not track the index. The Sub-Fund can deviate significantly from the benchmark index.

**ESG information** The Sub-Fund's promotes certain environmental and social characteristics within the meaning of article 8 of SFDR but does not have a sustainable investment objective. The companies in which the Sub-Fund invests will follow good governance practices.

**Dividend Policy** This Class is cumulative. Dividend distributions are not planned.

**Share Class Currency** The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

### INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

### OTHER INFORMATION

**Depository** Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depository").

**Asset segregation** The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

**Dealing** The NAV for the Class is calculated on each business day in Luxembourg. The cut-off time to submit subscriptions and/or redemptions orders is 12 noon Luxembourg time two business days preceding the relevant calculation day.

**Switching** Shareholders may apply for any share of any sub-fund or class to be converted into shares of another sub-fund or class, provided that the conditions for accessing the target class, are fulfilled, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For details about how to switch between sub-funds or classes, please refer to the prospectus, section which details the switch between sub-funds or classes, which is available at [www.fundsquare.net](http://www.fundsquare.net).

**Additional Information** More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at [www.fundsquare.net](http://www.fundsquare.net).

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

## What are the risks and what could I get in return?

### Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years EUR 10,000		
		If you exit after 1 year	If you exit after 5 years	
<b>Scenarios</b>				
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 5,550	EUR 1,000	
	Average return each year	-44.5%	-37.0%	
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 7,030	EUR 7,930	This type of scenario occurred for an investment in the product between July 2021 and December 2023.
	Average return each year	-29.7%	-4.5%	
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 10,780	EUR 15,070	This type of scenario occurred for an investment in the product between February 2015 and February 2020.
	Average return each year	7.8%	8.5%	
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 14,830	EUR 18,760	This type of scenario occurred for an investment in the product between December 2014 and December 2019.
	Average return each year	48.3%	13.4%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	EUR 245	EUR 1,777
<b>Annual cost impact (*)</b>	2.4%	2.4%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.9% before costs and 8.5% after costs.

#### Composition of costs
