What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Manavest, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may decide to close this product under certain circumstances.

OBJECTIVES

Objectives and investment policy

The Sub-Fund is an actively managed investment vehicle for investors:

- Who wish to invest in fixed-income securities, issued by private companies.
- Seeking the promotion of environmental and/or social characteristics subject to good governance practices: Article 8.
- Who are risk tolerant.

This Sub-Fund invests mainly in a diversified portfolio of bonds and other debt securities (including convertible bonds) issued by private companies across any sector.

The Sub-Fund may invest in any country, including emerging countries.

The Sub-Fund will invest at least 50% of its net assets in debt securities having a minimum rating of BBB- (as defined by the Standard & Poor's rating agency) or an equivalent rating from other recognized rating agencies, or of equivalent quality according to the manager's analysis. If the credit ratings differ among several rating sources, the lowest rating will be taken into account.

On an ancillary basis, the Sub-Fund may also invest in government bonds, generally those issued by OECD member countries when required by market conditions, money market instruments, and deposits at sight. Investments in convertible bonds will not exceed 20% of the Sub-Fund's net assets. The Sub-Fund will not invest in contingent convertible bonds.

In addition, the Sub-Fund may invest up to 10% of its net assets in UCITS and other UCIs.

The Sub-Fund may use EPM Techniques or TRS within the limits described in the prospectus.

Derivatives For hedging and for investment purposes, within the limits set out in the main body of the prospectus, the Sub-Fund may use all types of financial derivative instruments traded on a Regulated Market and/or OTC, provided that they are contracted with leading financial institutions which are specialized in this type of transaction and are subject to regulatory supervision.

Benchmark The Sub-Fund is actively managed. The benchmark index of the Sub-Fund is Bloomberg Global Aggregate Corporate Index (LGCPTREH) (the Index). The Index is referenced for information purposes and the Index is not considered to be a benchmark of the Sub-Fund's performance. The Sub-Fund does not track the Index and can deviate significantly from such Index.

ESG information Promotion of environmental and/or social characteristics subject to good governance practices: Article 8. The investment process integrates ESG factors based on proprietary and third-party research to evaluate investment risks and opportunities. The Sub-fund intends to invest at least 30% of its net assets in Sustainable Investments.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depository Pictet & Cie (Europe) S.A. (the "Depository").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The Net Asset Value for the Class is calculated on each business day in Luxembourg. The cut-off time to submit subscriptions and/or redemptions orders is 12 noon Luxembourg time two business days preceding the relevant calculation day.

Switching Shareholders may apply for any share of any sub-fund or class to be converted into shares of another sub-fund or class, provided that the conditions for accessing the target class, are fulfilled, on the basis of their respective Net Asset Value calculated on the valuation day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For details about how to switch between sub-funds or classes, please refer to the prospectus, section which details the switch between sub-funds or classes, which is available at www.fundsquare.net.

Additional Information More detailed information on the Sub-Fund, such as the prospectus, other classes, the key information, the latest Net Asset Value, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the central administrator, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years EUR 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 7,420 -25.8%	EUR 6,230 -9.0%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 7,880 -21.2%	EUR 8,040 -4.3%	This type of scenario occurred for an investment in the product between July 2021 and December 2022.
Moderate scenario	What you might get back after costs Average return each year	EUR 10,140 1.4%	EUR 10,900 1.7%	This type of scenario occurred for an investment in the product between November 2014 and November 2019.
Favourable scenario	What you might get back after costs Average return each year	EUR 10,970 9.7%	EUR 11,760 3.3%	This type of scenario occurred for an investment in the product between January 2013 and January 2018.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 156	EUR 819
Annual cost impact (*)	1.6%	1.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.2% before costs and 1.7% after costs.
