Mirabaud Equities – High Alpha Pan Europe

Important information

This simplified prospectus contains the main information regarding Mirabaud Equities – High Alpha Pan Europe (the “Sub-Fund”).

The rights and obligations of investors, as well as their contractual relationship with Mirabaud Equities (the “Company”), are set out in the full prospectus in force (the “Full Prospectus”). The Full Prospectus, as well as the periodic financial statements, may be obtained from the Company free of charge.

Investment objective

The Sub-Fund is aimed at investors wishing to participate in the growth of listed European equities.

Investment strategy

The "High Alpha Pan Europe" sub-fund will invest at least two thirds of its total assets in European equities or other equity-type transferable securities, in other words securities of issuers that have their registered offices or carry out the majority of their business in Europe, with the aim of maximising the value of its assets in the medium to long term.

Furthermore, the sub-fund may invest a maximum of one third of its total assets in: (i) warrants; (ii) subscription rights; (iii) structured products including, inter alia, bonds, certificates and any other transferable securities whose returns are linked to the performance of an index (such as, in particular, a volatility index, transferable securities index, interest rate index, currency index or an index relating to a basket of transferable securities); (iv) units and/or shares of UCITS and/or other UCIs referred to under 3.1 (d) or other types of undertakings for collective investment referred to under 3.2 (a), up to a maximum of 10% of its net assets (where such other types of undertakings for

collective investment are regulated and may expose the sub-fund to “alternative” asset classes); and (v) financial derivative instruments whose underlying instruments consist of commodity and/or precious metals indices, up to a maximum of 10% of the net assets of the sub-fund per index, provided that the total value of commitments entered into in relation to financial derivative instruments whose underlying instruments consist of commodity and/or precious metals indices and in which the sub-fund invests more than 5% of its net assets does not exceed 40% of its total net assets.

The sub-fund may also invest up to 100% of its net assets in money market instruments and in units and/or shares of UCITS and/or other UCIs investing in money market instruments or in cash if the asset manager believes that this is in the best interest of shareholders; however, such investments may only be made on a temporary basis and in response to exceptional circumstances.

Subject to the limits laid down in the investment restrictions, the sub-fund may use financial derivative instruments and techniques for hedging purposes and in order to improve the performance of the sub-fund.

In particular, the sub-fund may use call and put options and/or forward contracts on transferable securities, interest rates, currencies and indices (volatility indices in particular) and other financial instruments such as swap agreements traded over-the-counter or on regulated markets (e.g. CFDs or TRSs).

Warrants entail higher risks due to their volatility, which can have an impact on the net asset value per share of the sub-fund.

Risk profile of the Sub-Fund

The risk profile of the Sub-Fund is similar to that of a portfolio invested in a diversified manner in listed shares of European issuers. The fund therefore has average volatility equivalent to the benchmark index.

Investors should refer to the Full Prospectus for further information on the risks involved in investing in the Sub-Fund. In addition, as the investments of the Sub-Fund are subject to the fluctuations of the markets, the return to investors may be lower than the amount of their original investment.

Reference currency	The currency of the Sub-Fund is the euro.												
Performance of the Sub-Fund	As the Sub-Fund has not been in existence for more than a year, no annual performance data can be provided as at the date of this simplified prospectus.

"Distributions" of the Full Prospectus.

Taxation of the Sub-Fund

The Sub-Fund is not subject to any Luxembourg tax on income or capital gains.

The Company, however, is subject in Luxembourg to an annual tax of 0.05% of its net assets. This tax does not apply to the portion of the assets of the Sub-Fund that are invested in Luxembourg undertakings for collective investment. This tax is reduced to 0.01% for Sub-Funds, or certain categories of shares, in which all the shares are held solely by institutional investors within the meaning of Article 129 of the Luxembourg law of 20 December 2002 ("Institutional investors").

Some income of the portfolio of the Sub-Fund in the form of dividends and interest may be subject to withholding tax at source at a variable rate in the country of source.

The taxation of certain shareholders, particularly pursuant to the provisions of the Council Directive 2003/48/CE in respect of the taxation on savings in the form of interest payments, is described in the Full Prospectus.

Calculation and publication of the Net Asset Value

The net asset value of the Sub-Fund is calculated on each Luxembourg banking day (Valuation Date) based on the latest known prices, and will be published at the registered offices of the Company on each Valuation Date.

Subscriptions/Redemptions

Subscription requests that are received by the transfer agent or the Company by 16:00 hours (Luxembourg time) the day before a Valuation Date, and accepted, will be processed on that Valuation Date. The subscription price for each share is payable within 3 banking days from the relevant Valuation Date. Shares will be allocated on the first working day following receipt of the subscription price.

Redemption requests should be addressed, by any means acceptable to the Company, to the transfer agent or the Company. To be processed on a particular Valuation Date, redemption requests must be received by 16:00 hours (Luxembourg time) the day before such Valuation Date. Payment of the price of the redeemed shares will be made within

3 banking days from the relevant Valuation Date.

Launch date 1 December 2007
