What is this product?

Type

The Sub-Fund is part of the Fund, a public liability company (société anonyme) incorporated under the laws of the Grand Duchy of Luxembourg as an investment company with variable share capital. The Fund is subject to part II of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifies as an alternative investment fund ("AIF").

Term

The Sub-Fund has no maturity date. The PRIIP manufacturer is entitled to terminate the Sub-Fund unilaterally under the circumstances provided for in the constitutive documents of the Fund. A liquidation of the Fund will cause the automatic termination of the Sub-Fund.

Objectives

The Sub-Fund invests in Luxembourg or foreign, regulated or unregulated, Hedge Funds having different investment strategies which may be organised in different form (the "Underlying Funds") focusing on investing with a long and short format in equities worldwide. These Underlying Funds apply long/short, market-neutral, event-driven and long or short equity strategies, designed to take advantage of rises and declines of equity prices.

In pursuing this strategy, Underlying Funds generally buy securities considered to be undervalued and sell short overvalued securities.

In addition to equities, some Underlying Funds may invest in other types of securities which have a risk-return profile similar to equities. In connection with this strategy, the managers may leverage their investments or make use of derivative instruments. The Sub-Fund may also make direct investments up to 20% of its net assets in notes or shares or any other type of securities.

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Sustainability

This product is not a financial product subject to Article 8 or Article 9 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial sector (the "SFDR"). The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Benchmark

A proxy benchmark has been identified for performance comparison: HFRX EQUITY HEDGE CHF.

Additional information

You can find information about the SICAV, its sub-funds and the available share classes online at www.loim.com. This includes information on how to buy or sell shares or switch between the SICAV's various sub-funds. The Prospectus, annual and semi-annual reports for the SICAV and the details of the up-to-date remuneration policy of Lombard Odier Funds (Europe) S.A. can be obtained free of charge from the website www.loim.com and from the SICAV's registered office, at 291, route d'Arlon, L-1150 Luxembourg.

The net asset value per share is calculated monthly and is available at www.loim.com and at the registered office of the SICAV.

The value of the underlying shares in the Sub-Fund is determined by the value of the securities in which the Sub-Fund is directly invested.

Distribution policy: Income accumulated.

Dealing frequency: You may redeem shares in this Sub-Fund on demand on a monthly basis.

The depositary is CACEIS Bank, Luxembourg Branch.

Intended retail investor

The Sub-Fund is intended for eligible investors who have sufficient experience or have obtained professional advice to assess the risk of investing, have a long-term investment horizon and have sufficient resources to be able to bear any losses (which may equal to the total amount invested) that may result from an investment in the Sub-Fund.

What are the risks and what could I get in return?

RISK AND REWARD PROFILE

⚠ The summary risk indicator assumes you keep the product for 5 years. Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

The following risks may be materially relevant but may not always be adequately captured by the summary risk indicator and may cause additional loss: Operational risk and risks related to asset safekeeping, Active management risk and Financial, economic, regulatory and political risks.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. Markets could develop very differently in the future. The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. These types of scenario occurred for an investment between 31.12.2013 and 31.12.2023. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years

Example investment CHF 10 000

Scenarios		If you cash in after 1 year	If you cash in after 5 years (recommended)

What happens if Lombard Odier Funds (Europe) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the insolvency of the manufacturer. You may however face a financial loss should the Depositary default on its obligations. Such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- the product performs as shown in the moderate scenario
- CHF 10 000 is invested

Investment CHF 10 000	If you cash in after 1 year	If you cash in after 5 years (recommended)
Total costs	CHF 255	CHF 1 257
Annual cost impact*	2.55%	2.55%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.86% before costs and -0.69% after costs. Part of the costs can be paid to the distributor who distributes the product for the services they provide. They will inform you of the amount.

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and what the different cost categories mean.

COMPOSITION OF COSTS
