## What is this product?

<b>Type:</b>	The Product is a sub-fund of Muzinich Funds, an open-ended umbrella unit trust with segregated liability between sub-funds authorized by the Central Bank as an Undertaking for Collective Investment in Transferable Securities (UCITS).
<b>Term:</b>	The Product has no fixed maturity date and therefore has an unlimited duration, subject to earlier termination by a shareholder vote. Units in the Product ("Units") may be redeemed prior to termination, subject to as set out in the Prospectus.
<b>Objectives:</b>	<p>The Fund seeks to protect capital and generate attractive returns which exceed those available from similar duration Benchmark Government Bonds.</p> <p>The Muzinich ShortDurationHighYield Fund invests primarily in high yield (sub investment grade) corporate bonds, with short maturities or short duration-to-worst. Duration-to-worst denotes how sensitive a bond is to changes in the general interest rate environment with shorter durations denoting less sensitivity. It is calculated assuming a bond will be repaid at the date most advantageous to the issuer even if that occurs before the bond's stated maturity date. These bonds, which are mainly priced in US Dollars, are issued primarily by North American companies.</p> <p>In order to control risk, the portfolio is well-diversified across more than 100 bond issuers and 20 industries. The Investment Manager may use derivatives to hedge investments in the Fund's securities and their related assets, markets and currencies. Derivatives are financial instruments whose value is linked to the price of an underlying asset.</p> <p>The Fund is actively managed and run on an entirely discretionary basis.</p> <p>The Fund is not managed in reference to any benchmark.</p> <p>The net income will be reinvested in the Fund on behalf of investors.</p> <p>The Manager endeavours to reduce currency risk this unit class could face from assets held in currencies different from the unit class currency. For this purpose, the Manager may utilize derivatives such as currency forward contracts which lock in a future price for buying or selling currency.</p> <p>You can buy and sell units in the Fund on any business day in London and New York (a "Dealing Day"). Purchase and sale orders must be received by the Administrator no later than 4.00PM Irish time on the relevant Dealing Day.</p>
<b>Intended Retail Investor:</b>	The Product is intended for investors (retail, professional and eligible counterparties) who (1) understand the associated risks, (2) seek higher returns than those available in investment grade credits over a 3-5 year period, (3) intend to stay invested for 4 years or longer and (4) have at least basic knowledge of relevant financial instruments.
