

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Natural Capital Transition Global Equity Fund, Class I, Accumulation shares, EUR, a sub-fund of Aviva Investors (ISIN: LU2366405582). The Fund is managed by Aviva Investors Luxembourg S.A.

OBJECTIVES AND INVESTMENT POLICY

Objective: To increase the value of the Shareholder's investment over the long term (5 years or more) and to have a positive impact on the transition towards a nature positive economy, by investing in global equities of companies which are deemed to be providing solutions to protect or restore the Earth's natural capital or to reduce human impact on nature, or are transitioning their business models towards a nature positive economy.

Investment Policy: The Fund invests at least 90% of total net assets (excluding cash and cash equivalents) in equities and equity-related securities of companies from anywhere in the world (including emerging markets), which meet the Investment Manager's eligibility criteria as described below (the "Core investment"). These companies are providing solutions to protect or restore the Earth's natural capital or to reduce human impact on nature, or transitioning their businesses towards a nature positive economy. Recognising that the UN Sustainable Development Goals ("SDGs") are interlinked and targeting specific goals will also likely have a positive impact on others, the Sub-Fund is primarily targeting; SDG 15: Life on land, SDG 14: Life below water, SDG 12: Responsible consumption and production and SDG 13: Climate action. In this core investment the Sub-Fund has two investment sleeves:

- a Solutions sleeve, which allocates to stocks of companies whose goods and services provide solutions to protect or restore the Earth's natural capital or to reduce the human impact on nature;
- a Transition sleeve, which allocates to stocks of companies that are supporting the transition towards a nature positive economy by reducing their negative impact, and, in doing so, better managing their environmental risks and opportunities

The Fund's equity (and equity related) investments can include ADRs, GDRs, options on equities, exchange-traded warrants, convertible securities and participation certificates among others. The Sub-Fund does not buy equity warrants but may hold any it receives in connection with equities it owns. The Sub-Fund may invest in China A-Shares through Shanghai Hong Kong Stock Connect and through Shenzhen Hong Kong Stock Connect.

Derivatives and Techniques: The Fund may use derivatives for hedging and for efficient portfolio management. Derivative usage will either form part of the Core Investment, and therefore apply look through to the eligibility criteria, or form part of the Fund's other holdings which are not subject to the eligibility criteria.

Securities lending: Expected level: 10% of total net assets; maximum: 20%. Underlying securities in scope: equities.

Strategy: The Fund is actively managed. The Investment Manager believes that the risks and opportunities associated with the consequences of natural capital erosion and the necessary measures to reduce biodiversity loss, regenerate the planet and transform the economy into one that is nature positive are currently mispriced. Therefore, companies which are better managing their impact on nature present an opportunity to benefit from increases in value over the long term.

Companies will be identified as eligible for core investment if they satisfy the "Solutions" or "Transitions" criteria and are not excluded from the core investment universe.

10% of the value of the Fund is permitted to be invested in companies that do not meet the level 2 and 3 exclusions criteria detailed in the prospectus, where

there is a strong sustainability rationale to include such firms in the Sub-Fund.

Sustainability Disclosures: Environmental, Social & Governance factors (ESG) and Sustainability Risk indicators are integrated into the investment process and are a key determinant based on which Companies are selected. This Fund promotes environmental or social characteristics. The investment manager integrates qualitative and quantitative data on adverse sustainability impacts into its investment process. In Addition, all investments that are selected as part of the Investment Manager's ESG analysis must follow good governance practices, and not be excluded by the Investment managers ESG Baseline Exclusions Policy. Additional information regarding Taxonomy Regulation compliance is available under the section "Taxonomy Regulation Disclosures". Further information regarding how the Investment Manager integrates ESG into its investment approach, its proprietary ESG model and how it engages with companies is available under the "Responsible Investment" section of the Prospectus and on the website www.avivainvestors.com.

Benchmark (performance comparison): The Sub-Fund's performance is compared against the MSCI All Countries World Index (the "Benchmark" or the "Index").

The Fund does not base its investment process upon the Index and may also hold equities that do not form part of it.

The Sub-Fund is expected to have an average yearly tracking error of between 2% and 6% when compared to the Index. In certain conditions the Fund may be outside of this range.

To allow assessment of the Fund's sustainability credentials, the Investment Manager will report on impact of the Fund including key indicators relevant to the Sub-Fund's strategy.

You can buy and sell shares on demand on any full bank business day in Luxembourg.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This is an accumulation share class and any income from the Fund will remain in the Fund and is reflected in the share price.

For full investment objectives and policy details please refer to the Prospectus.

RISK AND REWARD PROFILE

Lower risk

Higher risk

Typically lower rewards

Typically higher rewards

This indicator is based on historical data, calculated using European Union rules, and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean that the investment is 'risk free'.

The value of investments and the income from them will change over time.

The Fund price may fall as well as rise and as a result you may not get back the original amount you invested.

The Fund has been allocated a risk number based on the historic volatility of its share price or where insufficient information is available appropriate asset classes.

Currency risk: Changes in currency exchange rates could reduce investment gains or increase investment losses. Exchange rates can change rapidly, significantly and unpredictably.

Equities Risk: Equities can lose value rapidly, can remain at low prices indefinitely, and generally involve higher risks — especially market risk — than bonds or money market instruments. Bankruptcy or other financial restructuring can cause the issuer's equities to lose most or all of their value.

Market risk: Prices of many securities (including bonds, equities and derivatives) change continuously, and can at times fall rapidly and unpredictably.

Counterparty risk: The Fund could lose money if an entity with which it does

business becomes unwilling or is unable to meet its obligations to the Fund.

Derivatives risk: Derivatives are instruments that can be complex and highly volatile, have some degree of unpredictability (especially in unusual market conditions), and can create losses significantly greater than the cost of the derivative itself.

Illiquid securities risk: Certain assets held in the Fund could, by nature, be hard to value or to sell at a desired time or at a price considered to be fair (especially in large quantities), and as a result their prices could be very volatile.

Stock Connect risk: The Fund may be investing in China A-Shares via the

Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks.

Sustainability risk: The level of sustainability risk to which the Fund is exposed, and therefore the value of its investments, may fluctuate depending on the investment opportunities identified by the Investment Manager.

Full information on the risks applicable to the Fund is detailed in the Prospectus.

CHARGES

One-off charges taken before or after you invest*

Entry charge	5.00%
Exit charge	None

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds or share classes in Aviva Investors) you might pay less – you can find the actual entry and exit charges from your financial adviser/distributor.

Charges taken from the Fund over a year

Ongoing charges	0.48%
-----------------	-------

The ongoing charges figure is based on last year's expenses for the year ending December 2021. The figure for ongoing charges excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

A switching charge of up to 1% may be applied when switching to other funds or share classes in Aviva Investors.

*This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

For more information about charges, including a full explanation of any performance fee (if applicable) please see the charges sections of the Fund's Prospectus.

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

PAST PERFORMANCE

The Share Class was launched on 30 November 2021.
