WHAT IS THIS PRODUCT?

TYPE

ODDO BHF Actions Japon is a UCITS under Directive 2009/65/EC, taking the form of a *Fonds Commun de Placement*.

The management company may liquidate the product if the assets fall below the regulatory minimum, or at its discretion in accordance with the legal requirements.

TERM

The Fund was created on 30 May 2000 for a term of 99 years.

OBJECTIVES

The Fund’s objective is to outperform the MSCI Japan NET TR EUR index over a recommended investment period of five years or more.

The investment strategy consists in exposing the Fund’s assets to the Japanese equity market by investing in mid- and large-cap stocks.

The Fund is managed actively through a purely quantitative approach. This approach involves the use of proprietary quantitative models and machine learning tools. Machine learning models are algorithms that identify patterns in data by learning independently.

The Fund’s investment universe is made up of companies included in the MSCI Japan TR EUR index.

The Fund invests at least 90% of its net assets in the shares of listed Japanese companies with a market capitalisation of at least JPY 100 billion.

Between 0% and 10% of the Fund’s net assets may be invested in money market products (transferable debt securities, money market instruments) for the purpose of cash management. These securities shall be denominated in euro and issued by EU governments and public corporations, with a rating of at least BBB- from Standard & Poor’s or equivalent, or using the Management Company’s internal rating.

INTENDED RETAIL INVESTOR

The Fund is intended for investors seeking exposure to the Japanese equity market through investment in futures markets (index futures) over a period of more than five years, who are willing to accept the risks arising from such exposure. US Persons may not invest in this product.

More detailed information on the Fund, such as the prospectus (in French and English) and the annual and semi-annual reports (in the languages of the distribution countries) is available at am.oddo-bhf.com or may be obtained free of charge at any time from ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 PARIS. Information about the other unit classes, including the most recent net asset values, is available at am.oddo-bhf.com.

The Fund’s custodian is ODDO BHF SCA

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other materially relevant risks not taken into account in the indicator:

Other risks not taken into account in the risk indicator may be materially relevant. They include: counterparty risk and risk linked to financial techniques.

As this product does not offer protection from market hazards, you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years
Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€2,090	€1,840
	Average return each year	-79.1%	-28.7%
Unfavourable	What you might get back after costs	€7,320	€9,170
	Average return each year	-26.8%	-1.7%
Medium	What you might get back after costs	€10,250	€12,960
	Average return each year	2.5%	5.3%
Favourable	What you might get back after costs	€14,850	€17,410
	Average return each year	48.5%	11.7%

The unfavourable scenario occurred for an investment between: 03/2015 and 03/2020.

The medium scenario occurred for an investment between: 11/2018 and 11/2023.

The favourable scenario occurred for an investment between: 06/2016 and 06/2021.

WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- €10,000 is invested

Investment: €10,000

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	€487	€1,000
Annual cost impact*	4.9%	1.8%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 7.2% before costs and 5.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	Entry costs represent the maximum amount that may be paid at the time of subscription. 4.00% is the most you will pay; it may be that you pay less. The person selling you the product will inform you of the actual costs.	Up to €400
Exit costs	Exit costs are not charged.	Up to €0
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	These represent the unavoidable costs of running the product and any payments, including remuneration, to parties connected to the product and providing services. 0.64% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€61
Transaction costs	0.27% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€26
Incidental costs taken under specific conditions		
Performance-related fees	Impact of performance-related fees. 10% of the Fund's outperformance relative to its benchmark index, the MSCI Japan NET TR EUR, once past underperformance over the previous five years has been offset, and provided the absolute return is positive.	€0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Minimum recommended holding period: over 5 years

This recommended holding period is a minimum that takes into account the features of the selected product. It may be longer, depending on your financial position and investment choices.

You can redeem some or all of your investment at any time. Exiting before the end of the recommended holding period may affect the performance that can be expected from your investment. You can find details of any charges and penalties applied when divesting under: "What are the costs?"

Subscription and redemption requests are centralised by the custodian every Paris stock exchange trading day until 17:45 (Paris time, CET/CEST) and executed on the basis of the net asset value of the following trading day.
