

ODDO BHF BEST THEMATICS

French Common Fund (FCP)
12, boulevard de la Madeleine 75009 Paris

PROSPECTUS

ODDO BHF BEST THEMATICS

PROSPECTUS

GENERAL CHARACTERISTICS

LEGAL STRUCTURE:

Name ODDO BHF BEST THEMATICS (hereinafter the “Fund”).

Legal form and Member State in which the Fund was established French Common Fund (FCP).

Inception date and intended lifetime This Fund was approved by the *Autorité des marchés financiers* (the French Financial Markets Authority, hereinafter the “AMF”) on 30 August 2000. It was created on 22 September 2000 for a period of 99 years.

Fund overview:

Unit classes	ISIN code	Appropriation of distributable income	Base currency	Minimum initial investment	Minimum subsequent investment	Target investors
CR-EUR	FR0000446692	Accumulation	Euro	1 thousandth of a unit	1 thousandth of a unit	All subscribers, and particularly natural persons.
GC-EUR	FR0011605591	Accumulation	Euro	EUR 100	1 thousandth of a unit	Units are reserved for (i) insurance companies approved by ODDO BHF Asset Management SAS, to represent unit-linked products subscribed as part of “advisory management” contracts in their range and for (ii) ODDO BHF SCA clients also having signed an advisory agreement with an ODDO BHF SCA financial investment advisory partner.
CN-EUR	FR0013279932	Accumulation	Euro	1 thousandth of a unit	1 thousandth of a unit	CN units are only available following a decision by the Management Company and yield no right to collect fees. CN units are reserved for (i) investors subscribing through an intermediary providing independent investment advice in accordance with Directive 2014/65/EU (MiFID II); (ii) investors subscribing through a financial intermediary on the basis of a commission agreement concluded between the investor and the intermediary stating that the intermediary is remunerated exclusively by the investor; (iii) companies providing portfolio management services to third parties in accordance with MiFID II; (iv) UCIs managed by ODDO BHF Group companies; and (v) ODDO BHF SCA, providing investment advisory services on the basis of a written commission agreement concluded with the investor.

CI-EUR	FR0014001TY2	Accumulation	Euro	EUR 250,000*	1 thousandth of a unit	Units only accessible to eligible counterparties and professional investors per se according to Directive 2014/65/EU (or "MiFID II").
--------	--------------	--------------	------	--------------	------------------------	---

*With the exception of the Management Company, companies in the Management Company's group and funds and mandates managed by the Management Company or companies in the Management Company's group, from which no minimum subscription is required.

DIRECTORY:

Management Company ODDO BHF Asset Management SAS, a *société par actions simplifiée* (simplified joint stock company) (hereinafter the "**Management Company**") Portfolio Management Company approved by the AMF (number GP 99011) 12, Bd de la Madeleine - 75009 Paris.

Custodian, Depository, Establishment in charge of liabilities management delegated by the Management Company ODDO BHF SCA, a *société en commandite par actions* (general partnership limited by shares) (hereinafter the "**Custodian**") Bank approved by the French Prudential Control and Resolution Authority 12, Bd de la Madeleine - 75009 Paris.

ODDO BHF SCA acts as custodian for the Fund.

The Custodian carries out the following duties, as defined in the applicable regulations: holding the portfolio assets in safekeeping, overseeing the Management Company's decisions and monitoring the Fund's cash flow.

By virtue of delegation by the Management Company, the Custodian is also responsible for the management of Fund liabilities, which includes centralising subscription and redemption orders for Fund units, as well as keeping an account of Fund units issued.

In certain countries, the Custodian delegates its safekeeping activities. A description of the safekeeping activities delegated, the list of delegates and sub-delegates of ODDO BHF SCA and information on the conflicts of interest liable to result from such delegation are available on the ODDO BHF Asset Management SAS website: <http://am.oddo-bhf.com> Investors may also request up-to-date information on this from ODDO BHF Asset Management SAS.

As an entity, the Custodian is independent of the Management Company.

Accounting delegated to EUROPEAN FUND ADMINISTRATION FRANCE SAS (EFA FRANCE) 17, rue de la Banque - 75002 Paris

The role of EFA is to calculate the net asset value of the Fund and provide other services listed in the agreement. Any conflicts of interest arising as a result of this delegation will be handled in accordance with the policy for managing conflicts of interest, available on the Management Company's website: <http://am.oddo-bhf.com>

Statutory auditor DELOITTE & ASSOCIES (hereinafter the "**Statutory Auditor**") 6 place de la Pyramide 92908 Paris-La Défense Cedex

Promoter	<p>ODDO BHF Asset Management SAS, a <i>société par actions simplifiée</i> (simplified joint stock company) Portfolio Management Company approved by the AMF (number GP 99011) 12, Bd de la Madeleine – 75009 Paris</p> <p>The list of promoters is not exhaustive mainly due to the fact that the Fund is listed on Euroclear. Thus, some promoters may not be mandated by or known to the Management Company.</p>
Assignees	None
Advisers	<p>ODDO (Schweiz) AG, a <i>société anonyme</i> (public limited company) Schulhausstrasse 6 – 8002 Zürich, Switzerland</p>
Agent for receiving subscription and redemption orders as delegated by the Management Company	<p>ODDO BHF SCA, a <i>société en commandite par actions</i> (general partnership limited by shares) Bank approved by the French Prudential Control Authority 12, Bd de la Madeleine - 75009 Paris</p>

OPERATING AND MANAGEMENT PROCEDURES

I. GENERAL CHARACTERISTICS OF THE UNITS:

Rights attached to the units	<p>The rights of the Fund's co-owners are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.</p> <p>The distributable income consists of: 1° The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year. 2° The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts. The categories of income referenced in points 1° and 2° respectively may be distributed, in full or in part, independently of each other.</p>
Inclusion in a register	The Management Company delegates the management of liabilities to the Custodian.
Voting rights	<p>No voting rights are attributed to the ownership of units. Decisions concerning the Fund are taken by the Management Company.</p> <p>The voting rights attached to the securities held by the Fund are exercised by the Management Company, which has the sole power to take decisions, pursuant to regulations in force. The Management Company's voting policy may be consulted at its registered office or online at http://am.oddo-bhf.com in accordance with article 314-100 of the AMF General Regulation. Unitholders can obtain a report of voting activities from the Management Company.</p>
Form of units	<p>Listed on Euroclear France.</p> <p>Units are issued in bearer form. They cannot be issued in or converted into registered form.</p>
Fractions of units	Subscriptions and redemptions in thousandths of units.
Financial year-end	The last trading day of March in Paris.
Tax regime	<p>This Fund may be used for unit-linked life insurance policies.</p> <p>As of 1 July 2014, the Fund shall be governed by the provisions of appendix II, point II. B. of the Agreement (IGA) signed on 14 November 2013 between the government of the French Republic and the government of the United States of America so as to improve compliance with tax obligations at an international level and implement the act governing compliance with these obligations for foreign accounts (FATCA).</p>

This prospectus does not purport to set out the tax implications for investors of subscribing, redeeming, holding or selling the Fund's units. These implications will vary, depending on the laws and practices that apply in the country of residence, domicile or incorporation of the unitholders and on their personal situations.

Abroad, in the countries where the Fund invests, capital gains on the sale of securities and income from foreign sources received by the Fund may be subject to tax, generally in the form of withholding tax. The amount of withholding tax due may be reduced or waived when the governments in question have signed tax treaties.

Depending on your tax status, your country of residence or the jurisdiction from which you invest in the Fund, any capital gains and income resulting from the holding of units of the Fund may be subject to taxation. We advise you to consult a tax advisor in relation to the potential consequences of purchasing, holding, selling or redeeming units of the Fund according to the laws of your country of tax residence, ordinary residence or domicile.

Neither the Management Company nor the Promoters shall accept any responsibility whatsoever for the tax consequences that may arise for investors following a decision to purchase, hold, sell or redeem units of the Fund.

Redemption of unit followed by a subscription:

As the Fund is made up of several unit classes, a conversion from one class of units by means of a redemption followed by a subscription of another class of units constitutes, for tax purposes, a sale in return for payment of a consideration likely to generate a taxable gain.

II. SPECIFIC PROVISIONS:

ISIN codes	CR-EUR units: FR0000446692 GC-EUR units: FR0011605591 CN-EUR units: FR0013279932 CI-EUR units: FR0014001TY2
Classification	"International equities".
Fund of funds	Up to 100% of the net assets.
Investment objective	The Fund's investment objective is to outperform its benchmark, the MSCI ACWI (All Country World Index) over a minimum investment horizon of five years by investing in the units or shares of funds having direct or indirect exposure to investment themes that hold strong growth potential."
Benchmark index	<p>The benchmark is the MSCI ACWI (All Country World Index) dividends reinvested, converted into euro. The administrator of this benchmark is MSCI Limited.</p> <p>This index measures the stock market performance of developed and emerging countries. It is based on the floating market capitalisations of companies from 45 countries: 23 developed and 22 emerging. It is calculated in dollar and converted into euro.</p> <p>The above index is a broad market index that do not necessarily consider in their composition or calculation methodology the ESG characteristics promoted by the Fund. For a description of the method used to calculate the index, see www.msci.com.</p> <p>The latter is registered in the register of administrators and benchmarks maintained by the ESMA. In accordance with Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016, the Management Company has a procedure for monitoring the benchmarks used, setting out the actions to be taken in the event that a benchmark materially changes or ceases to be provided.</p> <p>Investors are advised that the benchmark index does not constitute a limitation on the Fund's investment universe. It allows the investor to assess the Fund's risk profile. The Fund's performance may differ substantially from that of its benchmark index.</p>
Investment strategy	The fund manager applies active, discretionary, opportunistic management aimed at achieving the Fund's investment objective by using different investment funds and by diversifying investments and/or strong convictions.

The Fund is exposed to themes such as new technology, disruptive business models, environmental transition, ageing populations, new spending habits, and the booming middle class in emerging countries. This

list is non-exhaustive; other themes may be identified by the management team. These themes concern all regions and sectors.

There are two stages to the investment process:

1 - analysis of the global macroeconomic environment, changes in the markets and expected changes in the markets, to determine the different themes holding strong growth potential and the allocation between these themes;

2 - application of a flexible, dynamic asset allocation strategy. The investment policy will be centred around responsiveness to changes in the markets and themes identified by the management team.

The management team carries out a non-financial analysis taking ESG (environmental, social and governance) criteria into account in its investment decisions but they are not the dominant factor, so the investment decisions taken may not be consistent with ESG criteria.

The management team has subscribed to ESG research from the data provider MSCI: the "MSCI ESG Fund Ratings" score reflects an assessment of funds' exposure to risks and opportunities relative to ESG criteria, measuring the ESG characteristics of the funds' underlying assets, and sits on a scale from CCC (lowest score) to AAA (best score). At least 50% of the Fund's net assets are given an ESG score.

The Fund's maximum exposure to all instruments (equity, debt securities, investment funds and derivatives) may not exceed 110% of the Fund's net assets, given that the maximum exposure is the sum of the net exposures to each market (equity, rates, monetary, credit) to which the Fund is exposed (sum of the buying positions and the hedging positions). Exposure of between 100% and 110% to facilitate management in the event of subscriptions/redemptions. This will be temporary.

The Fund portfolio will be allocated as below.

The Fund is a financial product that promotes environmental and social factors as defined in Article 8 (1) of Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"), the ESG (Environmental and/or Social and/or Governance) policy of which is presented below. However, the Fund does not have sustainable investment as its objective as defined by Article (9) of the SFDR. As such, the Fund is subject to sustainability risk as defined below.

The European Union Taxonomy (Regulation (EU) 2020/852) (hereafter the "Taxonomy") aims to identify economic activities that are considered environmentally sustainable.

The Taxonomy identifies these activities according to their contribution to six broad environmental objectives:

- climate change mitigation;
- climate change adaptation;
- sustainable use and protection of water and marine resources;
- transition to a circular economy (waste, prevention and recycling);
- pollution prevention and control;
- protection and restoration of biodiversity and ecosystems.

To be considered sustainable, an economic activity must demonstrate that it makes a substantial contribution to the achievement of one or more of the six objectives, while not harming any of the other objectives (the so-called DNSH principle, "Do No Significant Harm").

For an activity to be considered aligned with the Taxonomy, it must also respect human and social rights guaranteed under international law (the minimum social safeguards).

The following information is only an estimate, made on the basis of data obtained from third-party suppliers. In anticipation of the data that will be provided by companies under the taxonomy in the future, the Management Company estimates to invest up to 10 % of the fund/ sub-fund in activities aligned with the Taxonomy in terms of:

- climate change mitigation, or
- climate change adaptation.

The percentage could already be exceeded by the fund/sub-fund if the Management Company or data providers underestimate the turnover or capital expenditure generated by the portfolio companies, which are related to ESG products or measures. The Management Company expects that the percentage of these investments increases as data availability increases and the methodology of Taxonomy evolves.

The "do no significant harm" principle applies only to those investments underlying the financial product that

take into account the EU criteria for environmentally sustainable economic activities.

The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Composition of assets

The Fund's portfolio includes the any of following asset classes:

1. Assets excluding embedded derivatives:

• **UCI shares or units**

1. UCITS exposed to equities: 75% to 100% of the net assets.

The Fund's portfolio will be invested in small, mid and large cap equity funds without any predetermined sector allocation or geographic breakdown. The manager may therefore invest in small and mid caps without any restrictions other than that of total equity market exposure.

The aim of the Fund is to offer diversification through different geographic regions, while being opportunistic in its choices. However, given the level of risk, exposure to emerging markets will be limited to 35% of the net assets.

2. UCITS with exposure to debt securities, money market instruments and bonds: 0% to 25% of the net assets.

Within the holding range shown above, the Fund will invest in fixed income UCITS in the form of:

- Euro Zone and/or international money market UCITS (predominantly invested in short-term euro-denominated securities),
- UCITS invested in Euro Zone and/or international government or corporate investment grade, high yield or unrated bonds of all maturities. The Management Company does not use the ratings issued by ratings agencies automatically or in isolation, as it also applies its own internal analysis. In the event of a downgrade, the Management Company will take the interests of unitholders, market conditions and its own analysis of these fixed income products into account when respecting rating limits.

Equity risk exposure may be as much as 100% of the Fund's net assets. Investments in fixed income or bond instruments will only be made in situations where the Management Company's global investment strategy and management team consider that equity markets will be bearish for a relatively lengthy period of time.

The Fund may invest up to 100% in units or shares of French or foreign UCITS that may not invest more than 10% of their assets in units or shares of other UCITS, AIFs or investment funds.

These funds can be managed by ODDO BHF Asset Management SAS, ODDO BHF Asset Management GmbH and/or ODDO BHF Asset Management Lux. They can represent up to 100% of the Fund's net assets. These funds will be compatible with the Fund's investment strategy.

• **Equities:** None.

• **Debt securities, money market instruments and bonds:** Up to 10% of the net assets.

The Fund may invest up to 10% of assets in fixed, variable or revisable rate securities (linked to bond market or money market rates) in order to optimise cash management.

The transferable debt securities and money market instruments will be securities issued by governments, public entities or private corporations, denominated in euro and rated A-1 or A-2 (short-term rating by Standard and Poor's, Moody's, Fitch or a rating deemed equivalent by the Management Company).

The Management Company does not use the ratings issued by ratings agencies automatically or in isolation, as it also applies its own internal analysis.

In the event of a downgrade, the Management Company will take the interests of unitholders, market conditions and its own analysis of these fixed income products into account when respecting rating limits.

2. Financial futures and options:

The manager may invest in all futures or options traded on regulated, organised or over-the-counter markets, in France and/or other countries for the purpose of hedging and/or exposing the portfolio to interest rate, credit, equity and currency risk.

The Fund may use the following instruments:

- equity/currency/interest rate futures (for hedging and/or exposure);
- equity/currency/interest rate options (for hedging and/or exposure);
- equity/interest rate swaps (for hedging and/or exposure) or currency swaps (for hedging);
- forward exchange contracts (for hedging and/or exposure);
- index credit default swaps (for hedging) will be limited to 10% of net assets.

The use of derivatives is limited to 100% of the portfolio.

The Fund will not use Total Return Swaps.

3. Securities with embedded derivatives:

In order to achieve its investment objective, the Fund may also invest in financial instruments with embedded derivatives. This is done in order to hedge and/or increase the portfolio's interest rate and/or equity risk exposure, and to hedge the portfolio's credit risk exposure.

More specifically, credit derivative instruments will be EMTN, subscription certificates, warrants and structured bonds.

These transactions as a whole are carried out within a maximum limit of a 100% commitment in relation to the Fund's net assets.

4. Deposits:

The Fund may use deposits to generate a return on cash holdings, up to the limit of 20% of its net assets. Used as part of day-to-day management of the Fund's cash assets, these will contribute to achieving the investment objective based on their level of return.

5. Cash borrowing:

The Fund may borrow the equivalent of up to 10% of its net assets in cash in order to cover a temporary delay between incoming and outgoing funds relating to purchases and sales of securities issued on the market, or to cover large redemptions.

6. Temporary purchases and sales of securities:

None

7. Collateral management:

Within the scope of OTC financial derivatives transactions, the Fund may receive or issue financial assets as guarantees.

The purpose of receiving financial guarantees is to reduce the Fund's exposure to counterparty default risk. They will mainly consist of cash.

Transactions potentially requiring the use of financial guarantees shall be carried out with a European Union or United Kingdom credit institution that may belong to the ODDO BHF group.

Any financial guarantees (collateral) received shall also, in accordance with regulations, comply with the following:

- liquidity, valuation (at least daily and assets which do not offer high volatility unless adequate discounts can be obtained), issuer creditworthiness, correlation (independence vis-à-vis the counterparty) and diversification (with a maximum exposure to a given issuer of 20% of net assets) criteria;
- risks connected with collateral management, such as operational risks and legal risks must be identified, managed and reduced using the risk management process;
- it shall be held by the Custodian of the Fund or any third party subject to prudential supervision and which has no connection with the provider of the financial guarantees,
- financial guarantees received must be available for full execution by the Fund at any time without consulting the counterparty or the counterparty's consent;
- financial guarantees received as cash shall only be placed as deposits with eligible institutions or invested in top-tier government bonds, or invested in short-term money market UCIs;

- the financial guarantees shall not be reused.

Risk profile

Your money will mainly be invested in financial instruments selected by the Management Company. These instruments are subject to the market's movements and fluctuations.

The risks identified by the Management Company and presented below are not exhaustive. Investors are responsible for assessing the risk of any investments they make, with the assistance of a financial investment adviser where applicable, and for ensuring that the investment envisaged is suited to their financial situation and ability to assume financial risks.

In accordance with the provisions of Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), the management team takes sustainability risks into account by integrating ESG (Environmental and/or Social and/or Governance) criteria into its investment decision-making process, as set out in the "Investment Strategy" section. This process also makes it possible to assess the management team's ability to manage the adverse sustainability impacts of their business activities. The Management Company will announce how this product takes into account adverse sustainability impacts by 30 December 2022 at the latest. The Management Company also takes ESG criteria into account through its own ESG exclusion policy. The Management Company is a signatory to the United Nations Principles for Responsible Investment (PRI) and the CDP (formerly known as the Carbon Disclosure Project). Finally, the Management Company exercises the voting rights when shares are held by the Fund. Information relating to the Management Company's policies is available from am.oddo-bhf.com.

Please refer to the Key Investor Information Document for information on the risk category to which this Fund belongs.

Risk of capital loss:

The Fund is not protected or guaranteed; investors may not get back their initial investment in full.

Risk associated with discretionary management:

This risk is linked to the investment style, which is based on expectations regarding the performance of the various markets. There is a risk that the Fund may not be invested in the best-performing markets or securities at all times. The Fund's performance therefore depends on the manager's ability to anticipate movements in the markets or in individual securities. This risk may result in a fall in the net asset value and/or a capital loss for the investor.

Equity risk:

The Fund is invested indirectly in one or more equity markets that may experience significant fluctuations. The Fund's net asset value could fall during periods in which the equity market is falling.

Risk associated with holding small and medium capitalisations:

The Fund may be exposed to small and medium capitalisations. Price fluctuations, both upward and downward, are more acute and more abrupt than for large capitalisations and may therefore result in sharp variations in the Fund's net asset value. Furthermore, the low volumes traded on these markets may result in liquidity risk. This type of investment may affect the Fund's valuation and the prices at which the Fund may be obliged to liquidate its positions, particularly in the case of large redemptions, and may even make it impossible for the Fund to sell its holdings, as a result of which the Fund's net asset value may fall.

Emerging markets risk:

This risk is linked to the operating and monitoring conditions on emerging markets to which the Fund is exposed, which may deviate from the standards that exist on the large international markets and may be affected by various disruptions (such as changes in taxation or political stability, or a temporary lack of liquidity on these securities). These disruptions may trigger settlement/delivery problems likely to have an impact on the prices at which the Fund may be obliged to liquidate its positions, resulting in a sharp fall in the Fund's net asset value.

Interest rate risk:

This corresponds to the risk linked to a rise in bond market interest rates, which causes bond prices and therefore the net asset value of the Fund to fall.

Credit risk:

This is the risk of a potential downgrading of an issuer's credit rating, or in an extreme case its default, which would have a negative impact on the price of the debt securities issued and therefore on the net asset value of

the Fund. This could result in a capital loss. Credit risk varies according to expectations, bond maturities and the level of confidence in each issuer. This may restrict the liquidity of the securities of a particular issuer and have a negative impact on the net asset value of the Fund, especially if the Fund liquidates its positions in a market where transaction volumes are low.

Risk associated with high-yield bonds:

The Fund must be viewed as partly speculative and as intended in particular for investors aware of the risks inherent in investments in securities with a low rating, or none at all, and restricted liquidity. The use of high yield securities may therefore expose the Fund to the risk of a sharper decline in its net asset value.

Liquidity risk of underlying assets:

Weak liquidity on a market makes it sensitive to significant movements in purchases/sales. This increases the volatility of the Fund, the assets of which are listed or traded on this market, and may impact the valuation of these assets and, where applicable, the prices at which the Fund may be obliged to liquidate its positions. The lack of liquidity is particularly associated with certain geographic (emerging countries) and sector (small and mid caps) characteristics and with certain classes of securities in which the Fund may invest, such as high yield bonds. In such cases, the net asset value of the Fund may therefore fall sharply.

Counterparty risk:

This is the risk of a counterparty's collapse, causing it to default on payment. The Fund may be exposed to the counterparty risk caused by the use of forward financial instruments contracted over-the-counter with credit institutions. The Fund is therefore exposed to the risk that one of these credit institutions may not be able to honour its commitments in connection with such instruments.

Currency risk:

This risk is linked to portfolios invested fully or partially in securities denominated in currencies other than the Fund's reference currency and corresponds to the variation in the exchange rate between these currencies and the Fund's reference currency. As such, the value a security may be affected by a change in the value of its reference currency against the euro, even though its value in its base currency may not change, thereby causing the net asset value of the Fund to fall.

Sustainability risk :

Refers to an environmental, social or governance event or condition that, if it occurs, could have a real or potential negative impact on the value of the investments made by this Fund, notably: 1) a fall in income; 2) higher costs; 3) damages or a depreciation in asset value; 4) higher capital cost; and 5) fines or regulatory risks. Due to the nature of sustainability risks and specific subjects such as climate change, the probability of these sustainability risks having an impact on financial products' returns is likely to increase in the longer term.

Environmental:

- sector risks associated with the company's environmental footprint;
- physical and transition risks related to climate change;
- the materiality of environmental controversies; and the management of related conflicts of interest;
- the company's dependence on natural capital;
- risks associated with the company's activities, products and services that may have an impact on the environment.

Social:

- sectoral health and safety risks
- environmental and social risks in the supply chain;
- social climate management and human capital development;
- management of quality and consumer safety risks;
- the management and materiality of social/societal controversies;
- management of innovation capacities and intangible assets;

Governance:

- quality and transparency of financial and non-financial communication;
- sectoral risks associated with corruption and cybersecurity;
- the quality of corporate supervisory bodies
- the quality and sustainability of the corporate governance framework;
- management of conflicts of interest related to corporate governance;
- regulatory risks;
- the integration and management of sustainability in the company's strategy.

On an ancillary basis:

Risk associated with convertible bonds:

Convertible bonds represent a halfway house between bonds and shares, with the particularity of introducing an element of equity risk into a fixed income instrument that already features interest rate and credit risk. Since equity markets are more volatile than fixed income markets, holding these instruments results in an increase in portfolio risk. The value of convertible bonds depends on several factors: the level of interest rates, changes in the price of the underlying equities, changes in the price of the derivative embedded in the convertible bond. These various factors may result in a fall in the Fund's net asset value.

Risks linked to the use of overexposure:

In relation to the use of instruments such as financial futures and options, in particular, exposure to individual asset classes may not exceed 110% of the net assets, or a leverage of 1.1. The risk therein relates to a fall in the net asset value of the Fund if market developments are adverse. In the event of unfavourable changes in the strategies used, the net asset value may fall more significantly than the markets to which the Fund is exposed. This leverage has the effect of amplifying expected gains, but also heightens the risk of losses.

Guarantee or protection

None (neither the capital nor the performance are guaranteed).

INVESTORS AND UNITS

Target investors

The units have not been, and shall not be, registered under the 1933 US Securities Act (hereinafter "**the Act of 1933**"), or under any law applicable in a US State, and the units may not be directly or indirectly assigned, offered or sold in the United States of America (including its territories and possessions) for the benefit of any US persons (hereinafter "**US Persons**"), as defined by US "Regulation S" under the Act of 1933 adopted by the Securities and Exchange Commission or SEC, except if (i) the units are registered or (ii) an exemption is applicable (with the prior consent of the Fund Management Company's CEO). The Fund is not, and shall not, be registered under the US Investment Company Act of 1940. Any resale or assigning of units in the United States of America or to a "US Person" may constitute a violation of US law and require the prior written consent of the Fund Management Company's CEO. Persons wishing to purchase or subscribe units shall be required to certify in writing that they are not "US Persons".

All unitholders must immediately inform the Fund if they become a "US Person". Any unitholder that becomes a US Person shall no longer be authorised to purchase new units and may be requested to dispose of their units at any time for the benefit of persons who do not have "US Person" status.

The term "US Person" has the same meaning in the Prospectus as the definition given in SEC Regulation S (Part 230 - 17 CFR 230.903). This definition of a "US Person" is available at <http://www.sec.gov/about/laws/secrulesregs.htm>.

In accordance with the provisions of the Foreign Account Tax Compliance Act ("FATCA"), applicable as of 1 July 2014, if the Fund directly or indirectly invests in US assets, the income from these investments may be subject to 30% withholding tax. To avoid the payment of this 30% withholding tax, France and the United States have concluded an intergovernmental agreement whereby non-US financial institutions ("foreign financial institutions") undertake to set up a procedure to identify direct or indirect investors with US taxpayer status and transmit certain information about these investors to the French tax authorities, which will communicate it to the US tax authorities ("Internal Revenue Service").

In its capacity as a foreign financial institution, the Fund undertakes to comply with FATCA and to take any measures required by the aforementioned intergovernmental agreement.

Except for these restrictions, the Fund is open to all investors, while bearing the following in mind:

CR-EUR units are primarily aimed at retail investors.

GC-EUR units are reserved for (i) insurance companies approved by ODDO BHF Asset Management SAS, to represent unit-linked products subscribed as part of "advisory management" contracts in their range and for (ii) ODDO BHF SCA clients also having signed an advisory agreement with an ODDO BHF SCA financial investment advisory partner.

CN units are only available following a decision by the Management Company and yield no right to collect fees. Units reserved for (i) investors subscribing through an intermediary providing independent investment advice in accordance with MiFID II; (ii) investors subscribing through a financial intermediary on the basis of a commission agreement concluded between the investor

and the intermediary stating that the intermediary is remunerated exclusively by the investor; (iii) companies providing portfolio management services to third parties in accordance with MiFID II; (iv) UCIs managed by ODDO BHF Group companies; and (v) ODDO BHF SCA, providing investment advisory services on the basis of a written commission agreement concluded with the investor.

CI-EUR units only accessible to eligible counterparties and professional investors per se according to Directive 2014/65/EU.

Typical investor profile

This Fund is intended for investors seeking capital growth and willing to accept significant equity risk over a minimum term of five years.

The amount that is appropriate to invest in this Fund depends on your personal wealth. To determine this amount, investors should consider their personal wealth/assets, their current financial needs and those in five years and longer as well as their willingness to accept risks or their preference for a more prudent investment. It is also highly recommended that investors sufficiently diversify their investments so as not to be exposed solely to the risks of this Fund.

Recommended investment horizon

At least five years

Allocation of distributable income (income and capital gains)

Distributable income	Accumulation units: CR-EUR, GC-EUR, CI-EUR and CN-EUR units
Net income allocation	Accumulation
Allocation of net realised capital gains or losses	Accumulation

Distribution schedule

None

Base currency

CR-EUR, GC-EUR, CI-EUR and CN-EUR units: Euro (€)

Form of units

CR-EUR, GC-EUR, CI-EUR and CN-EUR units: Bearer

Fractions of units

CR-EUR, GC-EUR, CI-EUR and CN-EUR units: 1 thousandth of a unit

Subscription and redemption procedures

Terms and conditions of subscriptions and redemptions

Subscription and redemption requests are centralised by the Custodian every net asset value calculation day until 17:45 (Paris time, CET/CEST) and executed on the basis of the net asset value of the following trading day. The resulting settlements shall be carried out on the second trading day following the NAV date. Any order received by the Custodian after this time will be executed at the following net asset value.

Orders are executed as set out in the table below:

D - 1 business day	D: net asset value calculation day	D + 1 business day	D + 2 business days
Centralization until 5:45 p.m. (CET/CEST) of subscription and redemption orders	Execution of the order no later than on D	Publication of the net asset value	Payment of subscriptions and redemptions

Initial value of the unit

CR-EUR units: EUR 15
GC-EUR units: EUR 100
CN-EUR units: EUR 100
CI-EUR units: EUR 100,000

Minimum initial investment

CR-EUR units: 1 thousandth of a unit

GC-EUR units: EUR 100

CN-EUR units: 1 thousandth of a unit

CI-EUR UNITS : EUR 250,000*

*With the exception of the Management Company, companies in the Management Company's group and funds and mandates managed by the Management Company or companies in the Management Company's group, from which no minimum subscription is required.

Minimum subsequent investment	CR-EUR units: 1 thousandth of a unit GC-EUR units: 1 thousandth of a unit CN-EUR units: 1 thousandth of a unit CI-EUR units: 1 thousandth of a unit
Centralisation of subscription and redemption requests	ODDO BHF SCA 12, Bd de la Madeleine – 75009 Paris

The Fund's promoters must send subscription and/or redemption orders to the Centralising Agent no later than the centralisation cut-off time. Any order received by the Centralising Agent after this time will be executed at the following net asset value.

Promoters may apply their own cut-off time, which may be earlier than the cut-off time mentioned above, in order to take into account the time required to transmit orders to the centralising agent. It is the investor's responsibility to obtain information on the time at which his order has been received by the promoter for processing.

Date and frequency of calculation of net asset value	The net asset value is calculated daily, according to the Euronext Paris calendar, with the exception of public holidays on the French Stock Exchange.
---	--

Place and methods of publication or communication of net asset value	This information can be obtained on a daily basis from the Management Company (ODDO BHF Asset Management SAS) and the Custodian (ODDO BHF SCA) at 12, Boulevard de la Madeleine, 75009 Paris, and from the website http://am.oddo-bhf.com .
---	--

Notification of portfolio structure	The Management Company may, upon request, notify professional investors subject to the obligations resulting from Directive 2009/138/EC (the Solvency II Directive) of the structure of the Fund's portfolio at the earliest 48 hours from the last publication of the net asset value. The information provided shall be treated with the utmost confidentiality and shall only be used for the calculation of prudential requirements. This information cannot, under any circumstances, be used for illegal activities such as market timing or late trading by unitholders in possession of such information.

INFORMATION ON FEES, COMMISSIONS, EXPENSES AND TAXATION

Subscription and redemption fees:

Subscription fees increase the subscription price paid by the investor, while redemption fees decrease the redemption price. The fees charged by the Fund serve to offset the costs incurred by the Fund to invest and disinvest investors' monies. Fees not paid to the Fund are paid to the Management Company, the promoter, etc.

Fees payable by the investor on subscriptions and redemptions	Basis	Rate CR-EUR, CI-EUR, GC-EUR and CN-EUR units
Subscription fee not payable to the Fund	NAV per unit x number of units	Up to 4% of the net assets
Subscription fee payable to the Fund	NAV per unit x number of units	None
Redemption fee not payable to the Fund	NAV per unit x number of units	None
Redemption fee payable to the Fund	NAV per unit x number of units	None

Management and administration fees:

Fees charged to the Fund	Basis	Rate CR-EUR, GC-EUR, CI-EUR and CN-EUR units
Financial and administrative fees not payable to the Management Company (statutory auditor, custodian, distributors, lawyers, etc.)	Net assets	CR-EUR units: Up to 2% of the net assets, inclusive of tax.
		CN-EUR units: Up to 1.20% of the net assets.
		GC-EUR and CI-EUR units:

		Up to 1% of the net assets, inclusive of tax
Maximum indirect fees <ul style="list-style-type: none"> • subscription fees • indirect management fees 	Subscription amount Net assets	Maximum 1%, inclusive of tax Maximum 2% inclusive of tax
Performance fee*	Net assets	CR-EUR, CN-EUR et GC-EUR units: up to 20% of the Fund's outperformance relative to the benchmark index, MSCI ACWI (All Country World Index), once past underperformance over the previous five years has been fully offset and provided that the Fund's absolute return is positive. (*) CI-EUR units: up to 20% of the Fund's outperformance relative to the benchmark index, MSCI ACWI (All Country World Index), once past underperformance over the previous five years has been fully offset. (*)
Transaction fees charged by stakeholders: - Management company: 100%	Payable on each transaction	Bonds: Maximum 0.03% inclusive of tax with a minimum of EUR 7.50 exclusive of tax Equities: Maximum 0.60% inclusive of tax with a minimum of EUR 7.50 exclusive of tax for French equities and EUR 50 exclusive of tax for foreign equities Money market instruments and derivatives: None

* The performance fees will be charged in favour of the Management Company as follows:

- The performance fee is based on a comparison between the performance of the Fund and the benchmark index, and includes a method for clawing back past underperformance.
- The Fund's performance is determined on the basis of its book value after taking into account fixed management fees and before deduction of the performance fee.
- Outperformance is calculated on the basis of the "indexed asset" method, which is used to simulate a fictitious asset experiencing the same subscription and redemption conditions as the Fund, while enjoying the same performance as the benchmark index. This indexed asset is then compared with the Fund's assets. The difference between the two is the Fund's outperformance relative to the benchmark index.
- Whenever the NAV is calculated, provided that the Fund's performance exceeds that of the benchmark index, a performance fee provision is booked. In the event that the Fund underperforms its benchmark index between two net asset values, any previously accumulated provision shall be reduced accordingly. The amounts deducted from the provision cannot exceed the amount previously accumulated. The performance fee is calculated and provisioned separately for each Fund unit.
- The benchmark index will be calculated in the unit currency, regardless of the currency in which the relevant unit is denominated, except in the case of units hedged against currency risk, for which the benchmark index will be calculated in the Fund's reference currency.
- The performance fee is measured over a calculation period that corresponds to the Fund's financial year (the "Calculation Period"). Each Calculation Period starts on the last business day of the Fund's financial year, and ends on the last business day of the next financial year. For units launched during a Calculation Period, the first Calculation Period will last at least 12 months and end on the last business day of the next financial year. The total performance fee is payable to the Management Company annually after the Calculation Period has ended.
- In the event of redemptions, if a performance fee provision has been booked, then the proportion of the provision attributable to these redemptions is crystallised and definitively allocated to the Management Company.
- The horizon over which performance is measured is a rolling period of up to five years ("Performance Reference Period"). The clawback mechanism may be partially reset at the end of this period. This means that after five years of cumulative underperformance over the Performance Reference Period, underperformance may be partially reset on a rolling annual basis, wiping out the first year of underperformance during the Performance Reference Period concerned. In relation to the Performance Reference Period concerned, underperformance in the first year may be offset by outperformance in the following years of the Performance Reference Period.
- Over a given Performance Reference Period, any past underperformance must be clawed back before performance fees become payable again.
- Where a performance fee is crystallised at the end of a Calculation Period (except when due to redemptions), a new Performance Reference Period begins.
- For CR-EUR, CN-EUR and GC-EUR units, no performance fee is payable if the absolute return of the unit class is negative. The absolute return is defined as the difference between the current net asset value and the last net asset value calculated at the end of the previous Calculation Period (Reference NAV).

•Holders of CI-EUR units should note that, provided the Fund outperforms, performance fees may be paid to the Management Company even if the absolute return is negative.

Example of the operation of the performance fees applied to CI-EUR units :

Year	UCI Net Asset Value (base 100 at the beginning of year 1)	Annual Performance UCI	Annual performance of the benchmark	Annual Relative Performance	Under Performance to be offset in the following year	Payment of a Performance Fee	Comment
1	105.00	5.0%	-1.0%	6.0%	0.0%	YES	Annual outperformance
2	91.30	-13.1%	-5.1%	-8.0%	-8.0%	NO	Annual underperformance
3	94.09	3.1%	1.1%	2.0%	-6.0%	NO	The underperformance of year 2 is only partially compensated in year 3
4	89.09	-5.3%	-6.3%	1.0%	-5.0%	NO	The underperformance of year 2 is only partially compensated in year 4
5	100.88	13.2%	11.2%	2.0%	-3.0%	NO	The underperformance of year 2 is only partially compensated in year 5
6	102.91	2.0%	1.0%	1.0%	0.0%	NO	The underperformance of year 2 is only partially compensated in year 6. However, the residual underperformance (-2%) is erased for year 7 (end of the five-year period).
7	99.83	-3.0%	-1.0%	-2.0%	-2.0%	NO	Annual outperformance
8	96.83	-3.0%	-8.0%	5.0%	0.0%	YES	The underperformance of year 7 is fully compensated in year 8

Example of the operation of the performance fees applied to CR-EUR, CN-EUR and GC-EUR units :

Year	UCI Net Asset Value (base 100 at the beginning of year 1)	Annual Performance UCI	Annual performance of the benchmark	Annual Relative Performance	Under Performance to be offset in the following year	Payment of a Performance Fee	Comment
1	105.00	5.0%	-1.0%	6.0%	0.0%	YES	Annual outperformance AND positive absolute performance over the year
2	91.30	-13.1%	-5.1%	-8.0%	-8.0%	NO	Sous-performance annuelle
3	94.09	3.1%	1.1%	2.0%	-6.0%	NO	The underperformance of year 2 is only partially compensated in year 3
4	89.09	-5.3%	-6.3%	1.0%	-5.0%	NO	The underperformance of year 2 is only partially compensated in year 4
5	100.88	13.2%	11.2%	2.0%	-3.0%	NO	The underperformance of year 2 is only partially compensated in year 5
6	102.91	2.0%	1.0%	1.0%	0.0%	NO	The underperformance of year 2 is only partially compensated in year 6

							However, the residual underperformance (-2%) is erased for year 7 (end of the 5-year period)
7	99.83	-3.0%	-1.0%	-2.0%	-2.0%	NO	Annual underperformance
8	96.83	-3.0%	-8.0%	5.0%	0.0%	NO	The underperformance of year 7 is fully compensated in year 8 but the annual absolute performance is negative: no performance fee is paid.

A detailed description of the method used to calculate the performance fee may be obtained from the Management Company.

Procedure for the selection of intermediaries:

Intermediaries and counterparties are selected by management staff using a competitive tendering procedure from a predefined list. This list is drawn up using precise selection criteria laid down in the market intermediary selection policy which may be consulted on the Management Company's website.

Investment research funding :

The Management Company decided to bear the fees related to investment research in debt securities. For this purpose, the Management Company exclusively resorts to its own funds.

COMMERCIAL INFORMATION

Subscription and redemption

Subscription and redemption procedures are presented in the section "Subscription and redemption procedures".

Information relating to the Fund is provided by:

Company: ODDO BHF Asset Management SAS
Address: 12, Bd de la Madeleine 75009 Paris.
Email: information_oam@oddo-bhf.com

The AMF website www.amf-france.org provides additional information on the list of regulatory documents and all provisions relating to investor protection.

Information on environmental, social and governance (ESG) criteria:

Additional information on the application of ESG criteria by the Management Company shall be available in the Fund's annual report and on the Management Company's website: <http://am.oddo-bhf.com>

Publication date of the prospectus April 1st, 2022

INVESTMENT RULES

The regulatory ratios applicable to the UCITS: The legal investment rules applicable to the Fund are those that govern UCITS investing more than 10% of their assets in other UCIs, as well as those applicable to the AMF's "International Equities" classification.

GLOBAL RISK

The Fund's overall risk is calculated using the commitment method.

ASSET VALUATION AND ACCOUNTING RULES

Asset valuation rules:

The calculation of the net asset value per unit is subject to the following valuation rules:

- Financial instruments and transferable securities traded on regulated markets are valued at their market price using the following principles:
- The valuation is based on the last official market price.

The market price used depends on the market on which the instrument is listed:

European markets:	Last market price on the net asset value calculation day
Asian markets:	Last market price on the net asset value calculation day
North and South American markets:	Last market price on the net asset value calculation day

The prices used are those obtained from financial information providers and available on the following day at 09:00 (Paris time): Fininfo or Bloomberg. In the event that no price is available for a security, the last known price is used.

Negotiable debt securities and similar securities that are not the subject of significant transactions are valued using an actuarial method, with the rate used being compounded :

- A risk-free rate obtained by linear interpolation of the OIS curve discounted on a daily basis ;
- A credit spread obtained at issue and kept constant throughout the life of the security.

However, negotiable debt securities with a residual maturity of less than or equal to three months will be valued using the straight-line method.

- Financial contracts (futures, options or swap transactions concluded on over-the-counter markets) are valued at their market value or at a value estimated according to the terms and conditions determined by the Management Company. The method for valuing off-balance sheet commitments consists in valuing futures contracts at their market price and in converting options into the equivalent value of the underlying.
- Financial guarantees: for the purposes of optimal counterparty risk management while also factoring in operational constraints, the management company applies a daily margin call system, per fund and per counterparty, with an activation threshold set at a maximum of EUR 100,000, based on an evaluation of the mark-to-market price.

Deposits are recorded based on their nominal value plus the interest calculated daily.

The prices used for the valuation of futures or options are consistent with those of the underlying securities. They may vary depending on where they are listed:

European markets:	Settlement price on the NAV calculation day if different from last price
Asian markets:	Last market price on the NAV calculation day if different from last price
North and South American markets:	Last market price on the NAV calculation day if different from last price

In the event that no price is available for a future or option contract, the last known price is used.

- Other instruments: fund units or shares are valued at their last known net asset value.
- Financial instruments whose prices have not been determined on the valuation day or whose prices have been adjusted are valued under the Management Company's responsibility at their foreseeable sale prices. These valuations and their justification are communicated to the statutory auditor at the time of the audit.

Accounting methods:

Income accounting:

The interest on bonds and debt securities is calculated using the accrued interest method.

Transaction cost accounting:

Transactions are recorded excluding fees.

ODDO BHF Best Thematics

REMUNERATION

The management body of the Management Company is responsible for drawing up, approving and monitoring the remuneration policy. It must ensure that the remuneration policy encourages employees to take risks in line with the risks taken by the funds managed by the Management Company, the investors having placed their assets in these funds and the Management Company itself. Each year, the Management Company shall identify those persons who may be qualified as risk takers in accordance with the regulations in force. The list of employees thus identified as risk takers shall then be submitted to the Remuneration Committee and passed on to the relevant management body. With regard to the variable remuneration component, the Management Company has set a significant threshold triggering payment of a deferred variable remuneration amount. In this way, an employee designated as being a risk taker and entitled to significant variable remuneration will receive a portion of this variable remuneration on a deferred basis. This deferred remuneration shall consist of 40% of the entire variable remuneration amount, from the first euro.

In order to satisfy the obligation to pay 50% of the variable remuneration in instruments form or indexation portfolio's form, the Management Company will pay 50% of the variable remuneration defined for the ending year in February of the following year, based on the statement made to employees in December. As for the remaining 50%, 10% of the variable remuneration defined will be payed in July after these assets have been invested in the indexation portfolio, for the period from beginning of January to end of June (see below), the remaining 40% of the variable remuneration remains concerned by the deferred payment for a period of 3 years as part of the indexing tool.

Provisions relating to the deferred part of variable remuneration shall be calculated using a tool created by the Management Company. This tool consists of a basket of funds that represent each of the Management Company's management strategies, and each fund is weighted in proportion to the assets under management of the Management Company within each of its strategies.

Detailed information on the remuneration policy is available on the Management Company's website (<https://am.oddo-bhf.com>). Investors may also request a hard copy of this information from the Management Company.

REGULATIONS

ODDO BHF BEST THEMATICS

TITLE 1 - ASSETS AND UNITS

Article 1 - Co-ownership units

The co-owners' rights are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.

The term of the Fund is 99 years starting from its inception date, except in the event of early dissolution or extension as set forth in the present regulations.

Unit classes:

The characteristics of the various classes of units and their eligibility requirements are described in the Fund's Prospectus.

The different classes of shares may:

- apply different dividend policies (distribution or accumulation);
- be denominated in different currencies;
- be charged different management fees;
- bear different subscription and redemption fees;
- have a different nominal value;
- be automatically hedged against risk, in part or in full, as defined in the prospectus. This hedge is created using financial instruments that reduce to a minimum the impact of the hedging transactions on the Fund's other unit classes;
- be reserved for one or several distribution networks.

Following the decision of the Management Company's CEO, units may be sub-divided into thousandths, referred to as fractions of units.

The provisions of the regulations governing the issue and redemption of units shall apply to fractions of units, whose value shall always be proportionate to that of the units they represent. Unless otherwise provided, all other provisions of the regulations relating to units shall apply to fractions of units without any need to make a specific provision to that end.

Lastly, the Management Company's CEO may decide, at its own discretion, to sub-divide the units by issuing new units, which shall be allocated to unitholders in exchange for their existing units.

Article 2 - Minimum assets

Units may not be redeemed if the Fund's assets fall below EUR 300,000; if the assets remain below this amount for a period of 30 days, the Management Company shall make the necessary provisions to liquidate the Fund in question, or to carry out one of the operations mentioned in article 411-16 of the AMF General Regulation (transfer of the Fund).

Article 3 – Issue and redemption of units

Units are issued at any time following receipt of subscription requests from unitholders, on the basis of their net asset value plus a subscription fee, where applicable.

Units are issued in bearer form.

Subscriptions and redemptions are executed under the conditions and according to the procedures defined in the Fund's Prospectus. Units of the Fund may be listed on a stock exchange in accordance with the regulations in force.

Subscriptions must be fully paid up on the day the net asset value is calculated. They may be made in cash and/or by a contribution in kind in the form of transferable securities. The Management Company is entitled to refuse any securities offered and, for that purpose, must

communicate its decision within seven days of the date on which the securities were tendered. If they are accepted, the securities contributed in kind are valued according to the rules laid down in article 4 and the subscription is based on the first net asset value following acceptance of the relevant securities.

Redemptions are made exclusively in cash, except in the event of liquidation of the Fund when unitholders have agreed to be reimbursed in kind. Redemptions are settled by the Custodian within a maximum of five days from the valuation day of the units.

However, if in exceptional circumstances the redemption requires the prior sale of assets held in the Fund, this deadline may be extended to a maximum of 30 days.

With the exception of a succession or an inter vivos gift, the sale or transfer of units between unitholders, or between unitholders and third parties, is treated as a redemption followed by a subscription; if this involves a third party, the sale or transfer amount must, where applicable, be supplemented by the beneficiary in order to at least reach the minimum subscription amount stipulated by the Fund's Prospectus.

In application of article L.214-8-7 of the French Monetary and Financial Code the redemption of units by the Fund as well as the issue of new units may be suspended on a temporary basis by the Management Company in exceptional circumstances and if this is deemed necessary to protect the interests of unitholders.

If the net assets of the Fund have fallen below the minimum threshold set by the regulations, no redemptions can be carried out.

A minimum subscription amount may be applied according to the procedures set out in the Prospectus.

In application of the third paragraph of article L.214-8-7 of the French Monetary and Financial Code, the Fund may stop issuing units in objective situations leading to the closure of subscriptions, such as a maximum number of units or shares issued, a maximum amount of assets reached or the expiry of a fixed subscription period. These objective situations are described in the Fund's prospectus.

The Management Company may prevent:

- the holding of units by any individual or legal entity not entitled to hold Fund units under the terms of the "target investors" section (hereinafter "Non-Eligible Persons"), and/or
- the registering in the Fund's unitholder register or the Transfer Agent's register of any "Non-Eligible Intermediaries", in accordance with the stipulations of the Agreement (IGA) signed on 14 November 2013 between the government of the French Republic and the government of the United States of America so as to improve compliance with tax obligations on an international level and implement the act governing compliance with these obligations for foreign accounts (FATCA).

Within this context, the Management Company may:

- refuse to issue any units if it appears that such an issuance would or could result in said units being held by a "Non-Eligible Person" or registered in the Fund's unitholder register or the Transfer Agent's register;
- request that all information which it deems necessary in order to determine whether or not the beneficial owner of the units in question is a "Non-Eligible Person" be provided at any time from any intermediary whose name appears in the Registers of unitholders, accompanied by a solemn declaration;
- if it appears that the beneficial owner of the units is a "Non-Eligible Person" and is registered in the Fund's Registers of unitholders, immediately proceed with the compulsory redemption of the units held by the Non-Eligible Person. The compulsory redemption shall be carried out using the last known net asset value, increased if applicable by the applicable charges, fees and commissions, which shall be borne by the unitholders concerned by the redemption.

Article 4 - Calculation of the net asset value

The net asset value of the units is calculated in accordance with the valuation rules specified in the Fund's Prospectus.

Contributions in kind may comprise only stocks, securities, or contracts admissible as assets of UCITS; they are valued according to valuation rules governing the calculation of the net asset value.

TITLE 2 - OPERATION OF THE FUND

Article 5 - The Management Company

The Fund is managed by the Management Company in accordance with the Fund's investment objectives.

The Management Company shall act in all circumstances on behalf of the unitholders and has the exclusive right to exercise the voting rights attached to the securities held in the Fund.

Article 5a - Operating rules

The instruments and deposits which are eligible to form part of the Fund's assets as well as the investment rules are described in the Fund's Prospectus.

Article 5b - Admission to trading on a regulated market and/or a Multilateral Trading Facility

Units may be admitted to trading on a regulated market and/or a multilateral trading facility in accordance with the regulations in force. In the event that the Fund whose units are admitted to trading on a regulated market has an index-based investment objective, the Fund must have implemented a mechanism for ensuring that the price of its units does not significantly deviate from its net asset value.

Article 6 - The custodian

The Custodian carries out the duties incumbent upon it under the legal and regulatory provisions in force as well as those to which it has contractually agreed with the Portfolio Management Company. In particular, it must ensure that decisions taken by the Portfolio Management Company are lawful. Where applicable, it must take all protective measures that it deems necessary. In the event of a dispute with the Portfolio Management Company, it shall inform the *Autorité des marchés financiers*.

Article 7 - The statutory auditor

A statutory auditor is appointed by the governing body of the portfolio management company for a term of six financial years, subject to the approval of the *Autorité des marchés financiers*.

The statutory auditor certifies the accuracy and consistency of the financial statements.

The statutory auditor may be re-appointed.

The statutory auditor is obliged to notify the *Autorité des marchés financiers* promptly if, in the course of its duties, it becomes aware of any fact or decision concerning the undertaking for collective investment in transferable securities which is liable to:

1. Constitute a breach of the legal and regulatory provisions governing this undertaking and is likely to have significant consequences for its financial position, income or assets;
2. Impair its continued operation or the conditions thereof;
3. Lead to the expression of reservations or a refusal to certify the financial statements.

Assets will be valued and exchange ratios will be determined for the purpose of any conversion, merger or split under the statutory auditor's supervision.

The statutory auditor shall assess all contributions in kind under its responsibility.

The statutory auditor shall check the composition of the assets and other information before any publication.

The statutory auditor's fees are determined by mutual agreement between the auditor and the Board of Directors of the Management Company on the basis of an agenda indicating all duties deemed necessary.

The statutory auditor certifies the financial statements serving as the basis for the payment of interim dividends.

Article 8 - The financial statements and the management report

At the end of each financial year, the Management Company prepares the financial statements and a report on the management of the Fund during the last financial year.

The Management Company shall prepare an inventory of the assets at least twice yearly and under the supervision of the custodian.

The Management Company shall make these documents available to unitholders within four months of the financial year-end and shall notify them of the amount of income attributable to them: these documents shall be sent by post if expressly requested by the unitholders, or made available to them by the Management Company.

TITLE 3 - APPROPRIATION OF DISTRIBUTABLE INCOME

Article 9 – Appropriation of distributable income:

The net income for the financial year is equal to the amount of interest, arrears, dividends, premiums and prizes, and directors' fees as well as all income generated by the securities held in the portfolio of the Fund, plus income generated by temporary cash holdings, less management fees and borrowing costs.

The distributable income consists of

1° The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

2° The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts (for financial years beginning after 1 January 2013)

The Management Company decides on the allocation of distributable income.

For each unit class, where applicable, the Fund may adopt one of the following methods:

- Pure accumulation: distributable income shall be fully accumulated, with the exception of those amounts which are subject to compulsory distribution by law;
- Pure distribution: income shall be partially or fully distributed, rounded off to the nearest figure; the Fund may pay interim dividends;
- For funds that wish to choose whether to accumulate and/or distribute income. Each year, the Management Company decides on dividend policy and on whether to pay an interim dividend.

The Management Company decides on the allocation of net income according to the distribution of income provided for in the prospectus and may pay interim dividends where applicable.

TITLE 4 – MERGER – SPLIT – DISSOLUTION – LIQUIDATION

Article 10 – Merger – Split

The Management Company may either merge all or part of the Fund's assets with another fund under its management, or split the Fund into two or more common funds under its management.

Such mergers or splits may only be carried out one month after unitholders have been notified. They give rise to the issue of a new certificate indicating the number of units held by each unitholder.

Article 11 – Dissolution – Extension

If the assets of the Fund remain below the amount set in article 2 above for thirty days, the Management Company shall inform the *Autorité des marchés financiers* and shall dissolve the Fund, except in the event of a merger with another fund.

The Management Company may dissolve the Fund before term. It shall inform the unitholders of its decision, after which no further subscription or redemption requests shall be accepted.

The Management Company shall also dissolve the Fund if a request is made for the redemption of all of the units, if the custodian's appointment is terminated and no other custodian has been appointed, or upon expiry of the Fund's term, unless such term is extended.

The Management Company shall inform the AMF by post of the dissolution date and procedure. It shall send the statutory auditor's report to the AMF.

The Management Company may decide to extend the Fund's term, subject to the agreement of the custodian. Its decision must be taken at least 3 months prior to the expiry of the Fund's term and must be communicated to the unitholders and the *Autorité des marchés financiers*.

Article 12 - Liquidation

In the event of dissolution, the Custodian or the Management Company shall be responsible for carrying out the liquidation. To this end, they shall be granted the broadest powers to realise assets, pay off any creditors and allocate the available balance among the unitholders in the form of cash or securities.

The statutory auditor and the custodian shall continue to carry out their duties until the end of the liquidation proceedings.

TITLE 5 – DISPUTES

Article 13 – Competent courts – Jurisdiction

Any disputes relating to the Fund that arise during the Fund's lifetime or during its liquidation, either among the unitholders or between the unitholders and the Management Company or the custodian, shall be subject to the jurisdiction of the competent courts.
