Date of production of the Key Information Document: 24/07/2024

WHAT IS THIS PRODUCT?

TYPE

ODDO BHF China Domestic Leaders is a UCITS under Directive 2009/65/EC, taking the form of a *Fonds Commun de Placement*.

The management company may liquidate the product if the assets fall below the regulatory minimum, or at its discretion in accordance with the legal requirements.

TERM

ODDO BHF China Domestic Leaders was created on 19 November 1993 for a term of 99 years.

OBJECTIVES

The Management Company has delegated the financial management of the Fund to Fullgoal Asset Management (HK) Limited. The Fund’s benchmark is the MSCI China A Index “net return” in USD converted into EUR, with net dividends reinvested.

The Fund’s investment objective is to outperform the MSCI China A Index in USD (net dividends reinvested) over the recommended investment horizon of five years, after deduction of management fees, while also taking ESG criteria into account. The investment strategy aims to maximise long-term capital growth by investing at least 70% of net assets in equities included in the MSCI China A Index by applying the following selection process:

Stage 1: the initial investment universe is based on the MSCI China All Shares Index, to which a filter is applied to take ESG criteria into account, such as climate risk management, human capital (management team diversity, employee health and safety, etc.) and corporate governance. This ESG filter results in the exclusion of at least 20% of companies in the initial investment universe with the lowest scores, by applying a best-in-class approach based on sector exclusions and an ESG rating provided by MSCI ESG. The ESG analysis is based exclusively on data from the external data provider MSCI.

Stage 2: selection of securities based on a scoring system for each company, on the basis of a quantitative review supplemented by qualitative criteria;

Stage 3: forecasting based on an analysis of (i) economic and liquidity conditions on the basis of macroeconomic indicators and (ii) valuations of the various sectors in relation to the “A shares” market and other global equity markets, as well as historical levels;

Stage 4: selection of high-growth companies with reasonable valuations based on a bottom-up fundamental analysis and risk assessment;

Stage 5: quantitative risk assessment to ensure that the Fund’s risk/return ratio is optimal based on the Investment Manager’s analysis, and that it is in keeping with the various risk control constraints.

The Fund is managed actively with reference to its benchmark. The Fund’s composition may deviate significantly from that of the benchmark index. The Fund will not systematically hedge against currency risk and up to 105% of its net assets may be exposed to this risk.

Between 70% and 100% of the Funds assets will be permanently invested in equities on the MSCI China A Index, which includes mid- and large-cap stocks listed on the Shanghai and Shenzhen stock exchanges, and accessible on Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect. The Fund may invest up to 30% of its net assets in equity securities issued by companies registered or listed in China, that primarily operate from China, have significant business in China, or that generate substantial revenues in China, or whose subsidiaries, affiliates or associates generate substantial revenues in China (“H Shares”, “Red Chips”, “P Chips”, “ADRs” and “GDRs”). The Fund will invest in company shares with a capitalisation of over CNY 5 billion when first added to the portfolio.

The Fund may invest in financial futures or options traded on regulated or organised markets or over-the-counter in France and other countries, subject to the limit of 100% of the net assets. The Fund may use futures or options to hedge or increase the portfolio’s exposure to equities, business sectors or market indices, in order to achieve the specified investment objective. It may also use forward currency contracts or currency swaps (used to hedge the currency risk linked to holding assets denominated in foreign currency). The Fund may use deposits to generate a return on cash holdings, up to the limit of 20% of its net assets. The Fund’s maximum exposure to all instruments (equities, funds and derivatives) is limited to 105% of net assets, it being understood that the maximum exposure is the sum of the net exposures to each of the markets to which the Fund is exposed (the sum of long and hedging positions).

The Management Company may make use of a gate provision to cap redemptions. For more details on this provision, please refer to the “Gate provision for capping redemptions” section of the prospectus.

Subscription and redemption requests are centralised by the custodian every Paris stock exchange trading day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of the following trading day.

CR-EUR units accumulate their income, as decided by the management company on a yearly basis.

INTENDED RETAIL INVESTOR

The Fund is intended for investors seeking exposure to international – predominantly Chinese – equity markets over a period of five years, who are willing to accept the risks arising from such exposure. US Persons may not invest in this product.

More detailed information on the Fund, such as the prospectus and the annual and semi-annual reports in French is available at am.oddo-bhf.com or may be obtained free of charge at any time from ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 PARIS or from the centralising agent in the distribution country. The Fund’s NAV is available on the Management Company’s website. Other unit classes are available for this Fund.

The Fund’s custodian is Société Générale

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Currency risk: you will be paid in a different currency; your actual gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator:

Other materially relevant risks not taken into account in the indicator:

Other risks not taken into account in the risk indicator may be materially relevant. They include:

- liquidity risk
- counterparty risk

As this product does not offer protection from market hazards, you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years
Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€2,680	€2,060
	Average return each year	-73.2%	-27.1%
Unfavourable	What you might get back after costs	€6,010	€5,680
	Average return each year	-39.9%	-10.7%
Medium	What you might get back after costs	€9,630	€10,220
	Average return each year	-3.7%	0.4%
Favourable	What you might get back after costs	€13,480	€14,230
	Average return each year	34.8%	7.3%

The unfavourable scenario occurred for an investment between: June 2021 and May 2024.

The medium scenario occurred for an investment between: 07/2017 and 07/2022.

The favourable scenario occurred for an investment between: 04/2016 and 04/2021.

WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- €10,000 is invested

Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Total costs		€613	€1,586
Annual cost impact*		6.2%	3.1%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 3.5% before costs and 0.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	We do not charge any entry costs for this product.	Up to €400
Exit costs	We do not charge any exit costs for this product, but the person who sells you the product might.	Up to €0
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	These represent the unavoidable costs of running the product and any payments, including remuneration, to parties connected to the product and providing services. 1.50% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€144
Transaction costs	0.72% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€69
Incidental costs taken under specific conditions		
Performance-related fees	Impact of performance-related fees. 15% of the Fund's outperformance relative to the benchmark index (MSCI China A Index (EUR, Net Return)), once past underperformance over the previous five years has been offset and provided that the Fund's absolute return is positive.	€0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Minimum recommended holding period: over 5 years

This recommended holding period is a minimum that takes into account the features of the selected product. It may be longer, depending on your financial position and investment choices.

You can redeem some or all of your investment at any time. Exiting before the end of the recommended holding period may affect the performance that can be expected from your investment. You can find details of any charges and penalties applied when divesting under: "What are the costs?"

Subscription and redemption requests are centralised by the custodian every Paris stock exchange trading day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of the following trading day.

HOW CAN I COMPLAIN?

If you would like more information or wish to make a complaint, please contact ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 Paris, France. You can also submit a complaint by email to: service_client@oddo-bhf.com The complaints policy is available on the website: am.oddo-bhf.com.

In the event of disputes, you may appeal to the AMF Ombudsman.

OTHER RELEVANT INFORMATION

The Fund is classified as an Article 8 fund under Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR). Information on sustainable finance is available on the Management Company's website: am.oddo-bhf.com.

Where the Fund is used as a unit-linked vehicle for a life insurance or endowment policy, additional information about this policy, such as the policy's costs, which are not included in the costs shown in this document, the person to contact in the event of a complaint, and what will happen in the event of the insurance company's insolvency, are presented in the policy's Key Information Document, which your insurer or broker or any other insurance intermediary is legally required to provide.

More detailed information on the Fund, such as the prospectus and the annual and semi-annual reports in French is available at am.oddo-bhf.com or may be obtained free of charge at any time from ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 PARIS or from the centralising agent in the distribution country. The Fund's NAV is available on the Management Company's website. Other unit classes are available for this Fund.

Past performance over the last ten years or, as the case may be, the last five years if the Fund has completed at least five full calendar years, is published on the following website: am.oddo-bhf.com.
