WHAT IS THIS PRODUCT?

TYPE

ODDO BHF Euro Credit Short Duration is a UCITS under Directive 2009/65/EC, taking the form of a SICAV.

The Board of Directors may propose the liquidation of the SICAV at an Extraordinary General Meeting if the assets fall below the regulatory minimum. It may also do so on a discretionary basis, after the Autorité des Marchés Financiers has approved the liquidation and shareholders have been informed.

TERM

ODDO BHF Euro Credit Short Duration was created on 1 June 2011 for an indefinite term.

OBJECTIVES

The Sub-fund seeks to generate high returns and capital growth. For this, at least two-thirds of the actively managed portfolio in which it invests shall be allocated to officially listed negotiable debt securities issued by public or private companies and denominated in euro. There will be no regional restriction, and it will concentrate on lower quality issues (rated below investment grade).

At least two-thirds of the portfolio is comprised of fixed or variable rate debt securities issued by public or private companies from all sectors, with no regional restriction. At least two-thirds of these securities are denominated in euro. Bonds rated at least B3 or B- by an internationally recognised ratings agency such as Moody’s or S&P (or deemed equivalent by the Management Company, or using the Management Company’s internal rating) will form the core of the investment. The Management Company does not use the ratings issued by ratings agencies exclusively or automatically, as it also applies its own internal analysis. If the rating of a security is downgraded, the Management Company will take the interests of the shareholders, the market conditions and its own analysis of the relevant fixed income securities into account when respecting rating limits. The Sub-fund will invest at least 20% of its assets in high yield bonds rated no higher than BB+ or Ba1 and up to 10% of its assets in unrated bonds. If the rating of the security is downgraded to below B3 or B-, it will be sold within six months under normal market conditions in accordance with the best interests of the shareholders. The Sub-fund is not bound by the maximum maturity of its securities portfolio.

Nevertheless, it will invest at least two-thirds of its assets in fixed income securities with a residual maturity of no more than four years.

The Sub-fund is actively managed but is not managed in reference to a benchmark index.

The Sub-fund may make use of derivatives in order to hedge currency risk, or to hedge or increase exposure to interest rate or credit risk (for the purpose of efficient portfolio management). In particular, the Sub-fund may, at the sole discretion of the Management Company, buy and sell credit default swaps (on indices). The Sub-fund may invest up to 10% of its assets in units or shares of European UCITS, in AIFs from France or other EU member states, as well as in foreign investment funds. These funds may be managed by an ODDO BHF group entity.

The management team takes into account environmental, social and governance (ESG) criteria in its investment decisions but they are not the dominant factor. The investment decisions taken may therefore not be consistent with ESG criteria.

Subscription, conversion and redemption requests are centralised by the transfer agent (CACEIS Bank, Luxembourg Branch) every net asset value valuation day until 12:00 (Luxembourg time, CET/CEST) and executed on the basis of the net asset value of that day.

Fees linked to the purchase and sale of securities (also referred to as “transaction costs”) are payable by the sub-fund. They are added to the fees outlined in this document and reduce the Sub-fund’s returns.

DI-EUR shares distribute their income, as decided by the board of directors on a yearly basis.

INTENDED RETAIL INVESTOR

The Sub-fund is intended for investors with a medium-to-long-term (3-to-5-year) investment horizon and wishing to invest in an actively managed portfolio largely comprised of fixed or variable rate negotiable debt securities issued by corporations and denominated in euro. US Persons may not invest in this product. More detailed information on the Sub-fund, such as the prospectus (in French, English and German) and the annual and semi-annual reports translated into the languages of the Sub-fund’s distribution countries, is available at am.oddo-bhf.com or may be obtained free of charge at any time from the registered office of the SICAV, located at 5 allée Scheffer, L-2520 Luxembourg, Grand Duchy of Luxembourg or from the centralising agent in the distribution country. Detailed information on the remuneration policy is available on the management company’s website (am.oddo-bhf.com). Investors may also request a hard copy of this information from the management company. The agreement entered into pursuant to Article 79 of the Law of 2010, as described in more detail in Appendix 1, Section I of the Prospectus, may be consulted by Sub-fund investors on request.

The Sub-fund’s custodian is CACEIS Bank, Luxembourg Branch

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. three years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely impact our capacity to pay you Currency risk: you will be paid in a different currency; your actual gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator:

Other materially relevant risks not taken into account in the indicator:

Other risks not taken into account in the risk indicator may be materially relevant. They include:

Liquidity risk, the impact of financial techniques and counterparty risk

As this product does not offer protection from market hazards, you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 3 years
Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€6,880	€7,780
	Average return each year	-31.2%	-8.0%
Unfavourable	What you might get back after costs	€9,150	€9,280
	Average return each year	-8.5%	-2.5%

The favourable scenario occurred for an investment between: 03/2020 and 03/2023.

WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- €10,000 is invested

Investment: €10,000

Scenarios	If you exit after 1 year	If you exit after 3 years
Total costs	€269	€416
Annual cost impact*	2.7%	1.4%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.8% before costs and 0.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	Entry costs represent the maximum amount that may be paid at the time of subscription. 2.00% is the most you will pay; it may be that you pay less. The person selling you the product will inform you of the actual costs.	Up to €200
Exit costs	Exit costs are not charged.	Up to €0
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	These represent the unavoidable costs of running the product and any payments, including remuneration, to parties connected to the product and providing services. 0.58% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€57
Transaction costs	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€12
Incidental costs taken under specific conditions		
Performance-related fees	Impact of performance-related fees. There is no performance-related fee for this share.	€0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Minimum recommended holding period: over 3 years

This recommended holding period is a minimum that takes into account the features of the selected product. It may be longer, depending on your financial position and investment choices.

You can redeem some or all of your investment at any time. Exiting before the end of the recommended holding period may affect the performance that can be expected from your investment. You can find details of any charges and penalties applied when divesting under: "What are the costs?"

Subscription, conversion and redemption requests are centralised by the transfer agent (CACEIS Bank, Luxembourg Branch) every net asset value valuation day until 12:00 (Luxembourg time, CET/CEST) and executed on the basis of the net asset value of that day.
