

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

OSSIAM US MINIMUM VARIANCE ESG NR UCITS ETF (the “Fund”) (1A (USD) ISIN IE00BHNGHW42) a sub-fund of OSSIAM IRL ICAV (the “ICAV”)

Management Company: Ossiam, part of the Natixis group of companies

Objectives and Investment Policy

Investment objective:

The investment objective of OSSIAM US MINIMUM VARIANCE ESG NR UCITS ETF is to replicate, before the Fund’s fees and expenses, the performance of the US ESG Minimum Variance Index NR (the “Index”). The Fund is passively-managed.

The Index is a total return index (net dividends reinvested) expressed in USD, calculated and published by Solactive AG (the “Index Provider”).

The Index reflects the performance of a dynamic selection of stocks which satisfy ESG (Environment, Social and Governance) criteria among the most liquid stocks from the Solactive US Large Cap Index (the “Base Index”). The Base Index tracks the performance of about 500 leading large capitalization companies in major industries in the United States of America. An ESG (Environment, Social, and Governance) filter is applied to selected stocks from the Base Index using ESG data. This ESG best-in-class filter selects for each industrial sub-sector the 70% best ESG rated stocks and discards stocks based on ESG exclusion criteria defined in the Index Methodology (e.g., severe controversies, involvement in controversial weapon business). Constituents of the Index will be selected on a monthly basis and weighted according to an optimization procedure. As such, sector and company exposures in the Index will differ from those of the Base Index.

For a detailed description of the Index, see section “Description of the Index” in the supplement of the Fund.

Investment policy:

In order to achieve its investment objective, the Fund will primarily invest, through physical replication, in all or part of the equity securities comprised in the Index and in substantially the same weights as in the Index.

The Fund shall be permanently invested for a minimum of 60% in equities or rights issued by companies having their registered office in OECD countries.

The Fund may not invest in financial derivative instruments.

The Reference Currency of the Fund is the US Dollar.

The 1A (USD) shares are listed for trading on one or more stock exchanges and investors may buy or sell shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day in Ireland or, through a fund platform. Please contact your broker for additional information.

The 1A (USD) Share Class is an accumulating share class therefore income derived from the Fund is reinvested.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

Please refer to the supplement of the Fund (the “Supplement”) for additional details about the objective and investment policy.

The Index is calculated and published by Solactive AG. The financial instrument is not sponsored, promoted, sold or supported in any other manner by Solactive AG.

Risk and Reward Profile

The Share Class is ranked 6 on the synthetic risk and reward indicator scale, which is based on historical data. Due to its exposure to equity markets, the Share Class may experience significant volatility, as expressed by its rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Share Class. The lowest category does not mean “risk free”.

Special Risk Considerations

Index Risk: The value of the Sub-Fund’s Shares is linked to the Index, the value of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that the underlying methodology of the Index will indeed result in a return above any comparable investment strategy or that they will recover their initial investment.

Market Risk: The value of the Fund’s Shares is linked to equities, the value of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that the strategy of the Sub-Fund will indeed result in a return above any comparable investment strategy or that they will recover their initial investment.

Geographic concentration risk: Funds that concentrate investments in certain geographic regions may suffer losses, particularly when the economies of those regions experience difficulties or when investing in those regions become less attractive. Moreover, the markets in which the funds invest may be significantly affected by adverse political, economic or regulatory developments.

ESG Investments Risk: The focus on securities of issuers which maintain sustainable characteristics may affect the Fund’s investment performance and may result in a return that at times compares unfavourably to similar funds without such focus or with the broad market, including the Investment Universe. Sustainable characteristics used in the Fund’s investment policy may result in foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their sustainable characteristics when it might be disadvantaged to do so.

Please refer to the Supplement and to Ossiam IRL ICAV prospectus (the “Prospectus”) for additional details about the risks.

Charges for this Share Class

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges by Share Class – 1A (USD)

One-Off charges taken before or after you invest

Entry Charge	Maximum Sales Charge 3.00%
	Maximum Duties and Charges for Subscriptions 1.00%
Exit Charge	Maximum Redemption Charge 3.00%
	Maximum Duties and Charges for Redemptions 1.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Share Class over a year

Ongoing Charges: 0.65% p.a.

Charges taken from the Share Class under certain specific conditions

Performance Fee: None

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses for the year ending December 2020. This figure may vary from year to year. It excludes the portfolio transaction costs, except in the case of an entry/exit charge paid by the ICAV when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to sections “Purchase and Sale Information” and “Fees and Expenses” of the Prospectus and section “Key Information” of the Supplement, which are available at www.ossiam.com.

Past Performance

Past performance is not a reliable indicator of future performance.
