What is this product?

Type

The Polar Capital Asian Stars Fund (the "Fund") is an investment fund. The Fund is a sub-fund of Polar Capital Funds Plc, an open ended investment company, incorporated with limited liability in Ireland.

Term

This product does not have a maturity date.

Objectives

The objective is to achieve long term capital growth by investing in a broad range of shares from companies domiciled in developed and developing (emerging market) Asian countries, or from companies which generate a significant amount of their business from these countries.

Intended Retail Investor

This product is intended for all investors (including those with a basic level of investment knowledge) who are seeking a return on their investment and who can accept the risk of losing some or all of their original investment. The product should be considered a long-term investment, defined as five years or more. This product is suitable for investors seeking an investment with sustainable characteristics.

This is an Undertaking for the Collective Investment in Transferable Securities (UCITS) product.

Depository Northern Trust Fiduciary Services (Ireland) Limited, Georges Court, 54-62 Townsend Street, Dublin, Ireland D02 R156. The share price is listed on the Euronext

Dublin, this can be found at www.euronext.com/en. Further information and corporate documentation including the latest and historic Annual and Interim Reports, can be obtained from the website: www.polarcapital.co.uk

Investment Policy

The Fund seeks to achieve its objective by investing in a broad range of shares from companies domiciled in developed and developing (emerging market) Asian countries, or from companies which generate a significant amount of their business from these countries. The Fund may also invest up to 30% in shares issued by companies in Japan or outside of Asia (such as Australia and New Zealand). The Fund may use financial derivatives (complex instruments based upon the value of underlying assets) to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way. The Fund is actively managed and uses the MSCI AC Asia ex Japan Total Return Index (USD) benchmark for performance comparison purposes and to calculate the performance fee. The currency of the Fund is US Dollar and the currency of this share class is US Dollar.

There is no intention to pay dividends in respect of the Accumulation Share Classes.

Sustainable Finance Disclosure Regulation

This Fund promotes environmental and/or social characteristics and is classified as an Article 8 fund under the EU's Sustainable Finance Disclosure Regulation ("SFDR"). For more information please see the Fund's prospectus or by visiting www.polarcapital.co.uk.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the PRIIPs manufacturer to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

If the product currency differs from your investment currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Due to effects of unusual market conditions, other risks could be triggered. Please see below for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Emerging Markets Risk – this Fund invests in countries which may face more political, economic or structural challenges than developed countries. Investments in such countries may not be as well regulated, may be more difficult to buy and sell and have a higher potential for gains or losses.

Investment Risk – the Fund invests in company shares globally, and share prices can rise or fall due to a number of factors affecting global stock markets.

Derivative Risk – certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterparty to the derivative contract cannot meet its contractual obligations.

Currency Risk – the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between June 2021 and April 2023.

The moderate scenario occurred for an investment in the benchmark between April 2014 and April 2019.

The favourable scenario occurred for an investment in the benchmark between February 2016 and February 2021.

Recommended holding period: 5 years

Example Investment: USD 10,000.

		If you exit after 1 year	If you exit after 5 years
Stress	What you might get back after costs	2,290 USD	2,140 USD
	Average return each year	-77.06 %	-26.52 %
Unfavourable	What you might get back after costs	5,780 USD	6,660 USD
	Average return each year	-42.24 %	-7.80 %
Moderate	What you might get back after costs	10,180 USD	13,400 USD
	Average return each year	1.78 %	6.03 %
Favourable	What you might get back after costs	16,600 USD	25,550 USD
	Average return each year	66.00 %	20.63 %

What happens if Polar Capital LLP is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme.

The depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	746 USD	2,525 USD
Annual cost impact (*)	7.5%	3.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.8% before costs and 6.0% after costs.

Figures may not sum due to rounding

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The product reserves the right to charge an entry fee of up to 5% of the subscription price. As of the date of this document, we do not charge an entry fee.	Up to 500 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	The costs that we take each year for managing your investment.	139 USD
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	37 USD
Incidental costs taken under specific conditions		
Performance fees	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	69 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Please refer to the Fund's Prospectus for information on redeeming your investment.

How can I complain?

If you have a complaint about the product, this document or the conduct of the manufacturer, please contact Polar Capital's investor relations team via email: Investor-Relations@polarcapital.co.uk. Alternatively, you can also write to Polar Capital, 16 Palace Street, London SW1E 5JD, United Kingdom.

Other relevant information
