Objectives and investment policy

Objectives

The objective of the Fund is to achieve long term capital growth, by investing worldwide in the shares of financial sector companies.

Investment policy

The Fund invests in financial companies (to include banks, life and non-life insurance and reinsurance companies, asset management and brokerage companies), and companies related to the financial sector worldwide (to include property and real estate companies, companies which provide support services to the financial sector and companies that own financial sector related assets).

The Fund may invest in financial derivative instruments for hedging, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way.

You may sell your shares on days which banks are normally open for business in Dublin and London.

Risk and reward profile

Why is this fund in category 7?

The Fund is in category 7 as it invests globally in financial-related equities (shares). The indicator above reflects the price movements (volatility) of shares within the Fund.

In addition to the risk captured by the indicator, the overall fund value may be considerably affected by:

Investment Risk - the Fund invests in equities globally, and share prices can rise or fall due to a number of factors affecting global stock markets.

Emerging Markets Risk - emerging market countries face more political, economic or structural challenges than developed countries. Investments in such countries may offer higher potential for gains or losses, and markets may be less liquid.

Derivative Risk - certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterparty to the derivative contract cannot meet its contractual obligations.

Currency Risk - the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments.

What do these numbers mean?

The risk indicator was calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The numerical scale is complex, for example, 2 is not twice as risky as 1.

Charges

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	None

This is the maximum that might be taken of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.26%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	10.00% a year of any returns the Fund achieves above the benchmark for these fees, the MSCI World Financial Index. No performance fee was charged during 2012.
-----------------	--

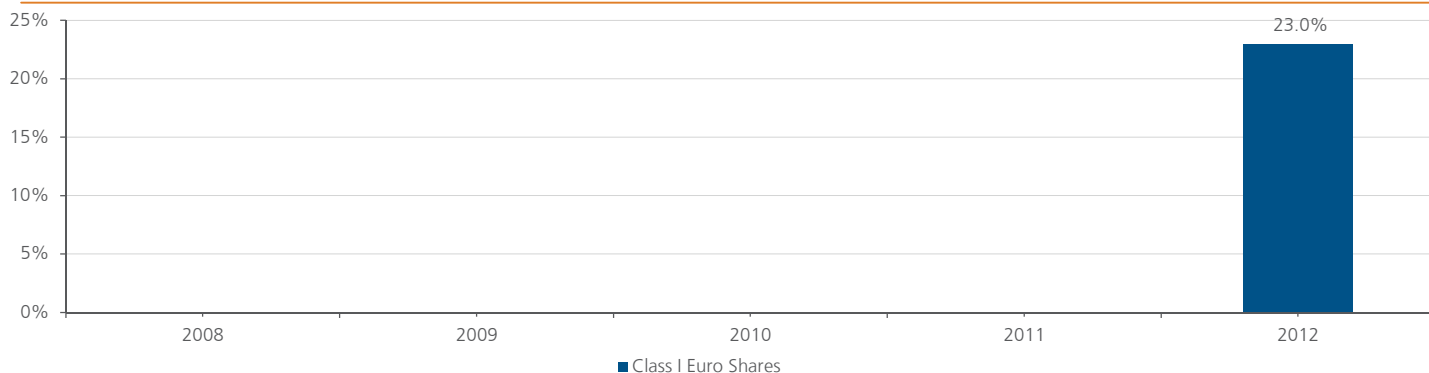

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser or distributor.

The **ongoing charges** figure is an estimate based on the expected total charges as the figures based on last year's expenses are no longer representative.

You can find out more details about the charges by looking at the "**Fees and Expenses**" section of the Fund's prospectus, which is available at www.polarcapital.co.uk.

Past performance

Past performance is not a reliable indicator of future performance.

The past performance shown does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the Charges section.

The performance of this class is calculated in Euro.

The Fund launched on 3 May 2011. This class started to issue shares on 3 May 2011.
