What is this product?**Type**

The Global Convertible Fund (the "Fund") is an investment fund. The Fund is a sub-fund of Polar Capital Funds plc (the "Company"), an umbrella type open-ended investment company with variable capital and segregated liability between funds, incorporated with limited liability under the laws of Ireland. This is an Undertaking for the Collective Investment in Transferable Securities (UCITS) product.

Objectives

The objective of the Fund is to achieve both income and long term capital appreciation by investing in a globally diversified portfolio of convertible bonds and equivalents.

Investment Policy

The Fund has a global focus and may invest in both developed and under-developed economies. All investments in convertible bonds are in securities listed on recognised stock exchanges. A convertible bond can be converted into a predetermined amount of the company's equity at certain times during its life, usually at the discretion of the bondholder. The Fund typically invests in convertible bonds rated B- or above by a recognised credit rating service, or in convertible bonds which have a comparable rating as determined by the Fund's manager. The Fund may, at any one time, be significantly invested in financial derivatives (complex instruments based upon the value of underlying assets). The Fund may take synthetic long positions to achieve leverage (multiplying gains or losses). The Fund may also take synthetic short positions to protect investors' capital when required. Financial derivatives may also be used to manage the Fund's currency risks, or as an alternative to investing directly in securities where it is more cost-effective. The Fund is actively managed and uses the Refinitiv Global Focus Convertible Bond Index (EUR) benchmark for performance comparison purposes and to calculate the performance fee. The currency of the Fund is US Dollar and the currency of this share class is Euro (EUR).

There is no intention to pay dividends in respect of the

Accumulation Share Classes.
