What is this product?**Type**

The Healthcare Blue Chip Fund (the "Fund") is an investment fund. The Fund is a sub-fund of Polar Capital Funds plc (the "Company"), an umbrella type open-ended investment company with variable capital and segregated liability between funds, incorporated with limited liability under the laws of Ireland. This is an Undertaking for the Collective Investment in Transferable Securities (UCITS) product.

Objectives

The objective of the Fund is to achieve long term capital appreciation by investing in a globally diversified portfolio of healthcare companies.

Investment Policy

The Fund mainly invests in large companies (market capitalisation greater than US \$5 billion) based on fundamental research and proprietary analysis. The Fund may invest in financial derivatives (complex instruments based upon the value of underlying assets) for hedging, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way. The Fund is actively managed and uses the MSCI AC World Daily Total Return Net Health Care Index (GBP) benchmark as a performance target and to calculate the performance fee. The currency of the Fund is US Dollar and the currency of this share class is British Pounds (GBP).

There is no intention to pay dividends in respect of the Accumulation Share Classes.

Sustainable Finance Disclosure Regulation

This Fund promotes environmental and/or social characteristics and is classified as an Article 8 fund under the EU's Sustainable

Finance Disclosure Regulation ("SFDR"). For more information please see the Fund's prospectus or by visiting www.polarcapital.co.uk.

Intended Retail Investor

This product is intended for all investors (including those with a basic level of investment knowledge) who are seeking a return on their investment and who can accept the risk of losing some or all of their original investment. The product should be considered a medium to long-term investment, defined as three years or more. This product is suitable for investors seeking an investment with sustainable characteristics.

Term

This product does not have a maturity date.

What are the risks and what could I get in return?

Risk Indicator

Lower Risk

Higher Risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the PRIIPs manufacturer to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

If the product currency differs from your investment currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Due to effects of unusual market conditions, other risks could be triggered. Please see below for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Additional risks not included in the Risk Indicator above include: Concentration Risk, Investment Risk, Derivatives Risk, Currency Risk. Please refer to the Fund's Prospectus for all risks associated with investing in the Fund. The Fund is subject to tax laws and regulations of Ireland. Depending on your home country of residence, this might have an impact on your investment. Please speak to your financial adviser for further information.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. In particular, the figures quoted for the favourable performance, while based on actual performance, relate to performance during a period of exceptional circumstances that are not likely to be repeated. Markets could develop very differently in the future and past performance is not a guarantee or a reliable guide to future performance. The value of your investment may go down as well as up, and may vary.

Recommended holding period: 5 years Example Investment: GBP 10,000.		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	1,990 GBP	1,710 GBP
	Average return each year	-80.14 %	-29.77 %
Unfavourable	What you might get back after costs	8,880 GBP	9,420 GBP
	Average return each year	-11.23 %	-1.19 %
Moderate	What you might get back after costs	10,570 GBP	15,900 GBP
	Average return each year	5.71 %	9.71 %
Favourable	What you might get back after costs	12,850 GBP	19,820 GBP
	Average return each year	28.51 %	14.67 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between July 2022 and September 2023.

The moderate scenario occurred for an investment between June 2018 and June 2023.

The favourable scenario occurred for an investment in the benchmark between September 2013 and September 2018.

What happens if Polar Capital LLP is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. If Polar Capital LLP defaults, investors in the Fund would not face financial losses. The depositary is responsible for keeping the Fund's assets safe and separate from other funds. In the event of bankruptcy or insolvency of the depositary, investors may experience delays in transfers, subscriptions or redemptions and there is a risk of default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	638 GBP	2,022 GBP
Annual cost impact (*)	6.4%	2.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.4% before costs and 9.7% after costs.

Figures may not sum due to rounding
