The Fund is subject to part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment in transferable securities ("UCITS").

#### Term

The Sub-Fund has no maturity date. The PRIIP manufacturer is entitled to terminate the Sub-Fund unilaterally under the circumstances provided for in the constitutive documents of the Fund. A liquidation of the Fund will cause the automatic termination of the Sub-Fund.

#### Objectives

The Sub-Fund is actively managed. The Sub-Fund is not managed in reference to a benchmark. The Sub-Fund investment objective is to seek attractive long-term returns through an investment portfolio comprised of long and short positions in equity securities. The Sub-Fund invests in equity and equity related securities issued by companies worldwide (including Emerging Markets), as well as in Cash and Cash Equivalents. The Investment Manager will invest at least 60% of the Sub-Fund's long and short equity positions (in aggregate) in companies that have their registered office in the United Kingdom or that do not have their registered office in the United Kingdom but either (i) carry out a predominant proportion of their business activity in the United Kingdom, or (ii) are holding companies which predominantly own companies with registered offices in the United Kingdom, or (iii) are listed on the London Stock Exchange. The Investment Manager may use a wide range of financial derivative instruments, such as options, futures (including, but not limited to, equity indices and currencies), CFD and swaps in order to increase or reduce its exposure to specific markets, sectors, issuers, commodities and currencies. In certain circumstances, the net exposure of the Sub-Fund to financial markets may be negative. In particular, long equity positions may be held through a combination of direct investment and/or derivative instruments, and short positions will be held through derivative positions. The Sub-Fund may invest up to 10% of its net assets in UCIs.

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
