What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Protea Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the board of directors may also propose to dissolve a sub-fund at a general meeting of that sub-fund.

OBJECTIVES

Objectives and investment policy

The Sub-Fund's objective is to provide capital growth by offering mainly an exposure to the following asset classes: debt securities of any type (including money market instruments), equities and equity related securities (such as subscription rights, closed-ended REITs, global depositary receipts).

The Sub-Fund will mainly invest directly in the securities/asset classes above-mentioned, and/or in Undertakings for Collective Investment ("UCIs") having as main objective to invest or grant an exposure to the abovementioned securities/asset classes.

The proportion of assets devoted to each asset class varies over time. However, without being a constraint, the investment manager intends to have an exposure of maximum of 65% of the Sub-Fund's net assets to the equity asset class; and between 20% and 65% of the Sub-Fund's net assets to the debt securities asset class.

The choice of investments will neither be limited by geographical area (including emerging markets up to 20%), economic sector, currencies in which investments will be denominated, nor in terms of credit rating of the debt securities.

On an ancillary basis, the Sub-Fund may invest in other UCIs than those above-mentioned and structured products.

It is understood that:

- The Sub-Fund can at any time invest more than 50% of its net assets in UCIs; this may result in duplication of certain costs. The management fees of the target UCIs will be limited to a maximum of 5.00% (performance and advisory fees are included in the "investment management fees");
- The Sub-Fund can be exposed to investment grade and non-investment grade debt securities, without any particular restriction;
- The Sub-Fund may invest directly up to 10% of its net assets in Contingent Convertible Bonds.

Derivatives For hedging and for investment purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or OTC.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

ESG information The Sub-Fund promotes among other characteristics, environmental or social characteristics or a combination thereof, within the meaning of article 8 of SFDR but does not have a sustainable investment objective. The investee companies in which the Sub-Fund invests will follow good governance practices based on such policies which are further detailed in the prospectus.

The Investment Manager uses a variety of sustainability indicators to attain the promotion of the environmental and social characteristics. For more details about the ESG methodology and restrictions, please refer to the prospectus.

Dividend Policy This Class distributes income. Dividend distributions are planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved to investors that are under a discretionary management or advisory mandate with the investment manager. Shareholders who are invested in a Fund managed or advised by the Investment Manager will be considered as being under a mandate with the Investment Manager. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital, for receiving regular income and who wish to hold their investment over 7 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for this Class is calculated on each Business Day, on the basis of the pricing of the preceding business day ("the Valuation Day"). For any subscription or redemption request received by the Fund, prior to 1 p.m. Luxembourg time, on the Valuation Day, the NAV calculated based on the pricing of the Valuation Day will be applicable.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class or sub-fund are fulfilled with respect to this sub-fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 7 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 12 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment	7 years EUR 10,000		
	If you exit after 1 year	If you exit after 7 years	
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs Average return each year	EUR 8,200 -18.0%	EUR 4,580 -10.6%
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8,760 -12.4%	EUR 9,610 -0.6%
Moderate scenario	What you might get back after costs Average return each year	EUR 10,390 3.9%	EUR 12,740 3.5%
Favourable scenario	What you might get back after costs Average return each year	EUR 12,050 20.5%	EUR 14,270 5.2%

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 7 years
Total costs	EUR 121	EUR 1,082
Annual cost impact (*)	1.2%	1.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.7% before costs and 3.5% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class.	EUR 0
Exit costs	We do not charge an exit fee for this Class.	EUR 0
