This PRIIP is authorised in Luxembourg.

FundPartner Solutions (Europe) S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is accurate as at 19th February 2024.

What is this product?

TYPE OF PRODUCT

The product is a sub-fund of PWM Funds, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However if the net assets of the sub-fund are at any time below EUR 5 million or the equivalent thereof in the currency of the relevant sub-fund, or if a change in the economic or political situation relating to the sub-fund would justify such liquidation or if it is required by the interests of the shareholders of the sub-fund, the board of directors may decide to liquidate the sub-fund and redeem all outstanding shares.

ORIECTIVES

Objectives and investment policy

The objective of the Sub-Fund is to enable investors to benefit from the general investment expertise of the Pictet Group by offering the possibility to invest directly or indirectly in a global balanced portfolio.

The Sub-Fund will mainly offer exposure to the following two asset classes:

- equities and equity related securities (such as depositary receipts (ADRs (American Depositary Receipt), GDRs (Global Depositary Receipt)), closed-ended Real Estate Investment Trusts (REITS)); and/or
- all types of debt securities (including non-investment grade securities up to 40%), including Money Market Instruments.

The Sub-Fund will mainly invest:

- directly in the securities/asset classes mentioned in the previous paragraph;
- in undertakings for collective investment (UCIs), having as main objective to invest or grant an exposure to the above-mentioned securities/asset classes; and/or
- in any transferable securities (such as structured products) offering an exposure to the above-mentioned securities/asset classes.

The allocation between asset classes is not limited and will vary depending on market conditions and Investment Manager's choices. However, without being a hard limit, the Compartment should be exposed to a maximum of 75% of its net assets to either the equity asset class or debt securities asset class.

The choice of investments will neither be limited by geographical area (including emerging markets), economic sector, currencies in which investments will be denominated, nor in terms of credit rating of the debt securities. However, depending on financial market conditions, a particular focus can be placed in a single country (or some countries) and/or in a single currency and/or in a single economic sector.

Investment in closed-ended collective real estate investments, such as closed-ended REITs, closed ended real estate investment funds and closed-ended real estate investment companies can represent a maximum of 75% of the net assets.

If the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also, hold, up to 100% of its net assets, in cash and cash equivalents (deposits, money market UCIs and money market instruments).

Derivatives For hedging or any other purposes, the Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over-the-counter.

Benchmark The Sub-Fund is actively managed. The Sub-Fund has no benchmark index and is not managed in reference to a benchmark index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the NAV calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved for institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 4 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing You can buy or sell the equities from the administrative agent every Monday (the "Valuation Day"), or on the previous working day if that day is not a working day. Equities may be bought or sold provided the order is placed with the administrative agent before 16:00 on the Valuation Day.

Switching Shareholders may apply for any shares of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class or sub-fund are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

Lower risk Higher risk

The risk indicator assumes you keep the product for 4 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Please refer to the prospectus for more information on the specific risks relevant to this product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		4 years EUR 10,000						
		If you exit after 1 year	If you exit after 4 years					
Scenarios								
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.							
Stress scenario	What you might get back after costs	EUR 7,760	EUR 3,920					
	Average return each year	-22.4%	-20.9%					
Unfavourable scenario	What you might get back after costs	EUR 8,220	EUR 8,930	This type of scenario occurred for an investment in the product between December 2021 and December 2023.				
	Average return each year	-17.8%	-2.8%	December 2021 and December 2023.				
Moderate scenario	What you might get back after costs	EUR 9,840	EUR 10,700	This type of scenario occurred for an investment in the product between June 2019 and June 2023.				
	Average return each year	-1.6%	1.7%	Julie 2013 dila Julie 2023.				
Favourable scenario	What you might get back after costs	EUR 12,030	EUR 12,160	This type of scenario occurred for an investment in the product between August 2017 and August 2021.				
	Average return each year	20.3%	5.0%					

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depositary, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depositary's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depositary will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10.000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 4 years
Total costs	EUR 906	EUR 2,472
Annual cost impact (*)	9.1%	5.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.1% before costs and 1.7% after costs.

Composition of costs

One-off costs upon entry or exit						
Entry costs	We do not charge an entry fee for this Class. The person selling you this product may charge up to 5.00%.					
Exit costs	We do not charge an exit fee for this Class.	EUR 0				
Ongoing costs taken each year						
Management fees and other administrative or operating costs	1.85% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 185				
Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 21				
Incidental costs taken under specific conditions						
Performance fees	Paid quarterly to the Manager and equal to 20.00% of the positive surplus of the performance of the NAV per unit compared to the reference NAV. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.					

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 4 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

You can buy or sell the equities from the administrative agent every Monday (the "Valuation Day"), or on the previous working day if that day is not a working day. Equities may be bought or sold provided the order is placed with the administrative agent before 16:00 on the Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:

FundPartner Solutions (Europe) S.A., 15 Avenue J.F. Kennedy, L-1855 Luxembourg
