What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Quaero Capital Funds (Lux), an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However if, for any reason, the net assets of the Sub-Fund or of any Class or Sub-Class fall below the equivalent of EUR 5,000,000, or if a change in the economic or political environment of the Sub-Fund, Class or Sub-Class may have material adverse consequences on the Sub-Fund, Class or Sub-Class' investments, or if an economic rationalisation so requires, the board may decide on a compulsory redemption of all Shares outstanding in the Sub-Fund, Class or Sub-Class on the basis of the Net Asset Value per Share (after taking account of current realisation prices of the investments as well as realisation expenses), calculated as of the day the decision becomes effective.

OBJECTIVES

Objectives and investment policy

The objective of the Sub-Fund is to maximise long term capital growth by investing primarily in a portfolio of micro and small capitalisation European companies. The Sub-Fund will aim to exploit valuation inefficiencies in the market using a strong "value" style approach.

The Sub-Fund will invest at least 75% of its net assets (excluding cash and cash equivalents) in equities and equity-related securities (such as depositary receipts and closed-end real estate investment trusts (REITs)) of companies quoted on European stock exchanges.

The Sub-Fund will aim to exploit valuation inefficiencies in the market using a strong "value" style approach and investing in companies which, at the time of purchase, are micro-capitalisation companies or, to a limited extent, in larger stocks and substantially undervalued situations where the risk/reward profile provides interesting opportunities.

On an ancillary basis, in normal market conditions and for treasury purposes, the Sub-Fund can invest in money market instruments, money market undertakings for collective investment (UCIs) and in deposits. The Sub-Fund is also authorised to invest up to 10% of its net asset in investment grade debt securities.

However, the Sub-Fund will not invest more than 10% of its net assets in UCIs.

In addition, the Sub-Fund can hold cash for the time necessary to proceed to re-investments, up to 20% of its net assets.

Derivatives The Sub-Fund is authorised to invest in financial derivative instruments, for hedging and for investment purposes.

Benchmark The Sub-Fund is actively managed. The Sub-Fund uses the index EMIX Smaller European Companies Net Return EUR for performance comparison. The Sub-Fund does not track the index and can deviate significantly or entirely from the index.

ESG Information The Sub-Fund integrates environmental and social characteristics and is categorized as a SFDR Article 8 Product.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is EUR.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTOR

The product is reserved to institutional investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for the Class is calculated on the 10th, 20th and the last calendar day of each month ("the Valuation Day"). The cut-off time to submit subscription orders is 4 p.m., one business days before the relevant Valuation Day. The cut-off time to submit redemption orders is 4 p.m., fifteen business days before the relevant Valuation Day.

Switching Shareholders may apply for any share of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period (RHP): Example investment		5 years EUR 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 7,290 -27.1%	EUR 6,130 -9.3%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8,110 -18.9%	EUR 9,020 -2.0%	This type of scenario occurred for an investment in the product between December 2021 and July 2024.
Moderate scenario	What you might get back after costs Average return each year	EUR 10,510 5.1%	EUR 13,340 5.9%	This type of scenario occurred for an investment in the product between May 2019 and May 2024.
Favourable scenario	What you might get back after costs Average return each year	EUR 16,390 63.9%	EUR 18,770 13.4%	This type of scenario occurred for an investment in the product between June 2016 and June 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 223	EUR 1,464
Annual cost impact (*)	2.2%	2.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.1% before costs and 5.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class.	EUR 0
Exit costs	We do not charge an exit fee for this Class. The person selling you this product may charge up to 0.50%.	Up to EUR 50
