This PRIIP is authorised in Luxembourg.

FundPartner Solutions (Europe) S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is accurate as at 19th February 2024.

What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Quaero Capital Funds (Lux), an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However if, for any reason, the net assets of the Sub-Fund or of any Class or Sub-Class fall below the equivalent of EUR 5,000,000, or if a change in the economic or political environment of the Sub-Fund, Class or Sub-Class may have material adverse consequences on the Sub-Fund, Class or Sub-Class' investments, or if an economic rationalisation so requires, the board may decide on a compulsory redemption of all Shares outstanding in the Sub-Fund, Class or Sub-Class on the basis of the Net Asset Value per Share (after taking account of current realisation prices of the investments as well as realisation expenses), calculated as of the day the decision becomes effective.

OBJECTIVES

Objectives and investment policy

The investment objective of the Sub-Fund is to achieve superior absolute returns as well as superior risk-adjusted returns.

The Sub-Fund will mainly invest in equities and equity-related securities (such as depositary receipts and closed-end real estate investment trusts (REITs)).

On an ancillary basis, in normal market conditions and for treasury purposes, the Sub-Fund can invest in money market instruments, money market undertakings for collective investment (UCIs) and in deposits.

However, the Sub-Fund will invest:

- up to 10% of its net assets in sovereign, supranational and corporate bond with a rating of not less than BB by Standard & Poor's, or its equivalent by Moody's or another rating agency. Investments in bonds are only anticipated to be made in circumstances when equity markets are not performing and in the best interests of the Sub-Fund.
- up to 10% of its net assets in UCIs,
- up to 25% of its net assets in emerging markets.

In addition, the Sub-Fund can hold cash for treasury purposes and for the time necessary to proceed to re-investments, up to 20% of its net assets.

The equity asset class exposure should represent between 30% and 125% of the Sub-Fund's net assets.

However, under exceptional market circumstances, the Sub-Fund's exposure to equities may fall below 30% and the Sub-Fund's exposure to cash may exceed 20% and the exposure to money market instruments, money market UCIs, term deposits may exceed 25%.

Derivatives The Sub-Fund is authorised to invest in financial derivative instruments for hedging and for investment purposes.

Benchmark The Sub-Fund is actively managed. The Sub-Fund uses the index MSCI World Hedged Net Total Return USD for performance comparison only. The Sub-Fund does not track the index and can deviate significantly or entirely from the index.

Dividend Policy This Class is cumulative. Dividend distributions are not planned.

Share Class Currency The currency of the Class is CHF.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined using the Net Asset Value (the "NAV") calculated by FundPartner Solutions (Europe) S.A. (the "Administrative Agent"). This return depends mainly on the market value fluctuations of the underlying investments.

INTENDED RETAIL INVESTORS

The product is reserved to financial intermediaries, family offices and retail investors. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

OTHER INFORMATION

Depositary Bank Pictet & Cie (Europe) AG, succursale de Luxembourg (the "Depositary").

Asset segregation The assets and liabilities of each sub-fund are segregated by law, which means that the performance of the assets in other sub-funds does not influence the performance of your investment.

Dealing The NAV for the Class is calculated on each business day ("the Valuation Day"). The cut-off time to submit subscription orders is 4 p.m., one business day before the relevant Valuation Day. The cut-off time to submit redemption orders is 4 p.m., one business day before the relevant Valuation Day.

Switching Shareholders may apply for any share of any sub-funds to be converted into shares of another sub-fund, provided that the conditions for accessing the target class are fulfilled with respect to the Sub-Fund, on the basis of their respective NAV calculated on the Valuation Day following receipt of the conversion request. The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For more details about how to switch between sub-funds, please refer to the prospectus, section which details the switch between sub-funds.

Additional Information More detailed information on the Fund, such as the prospectus, other classes, the key information, the latest NAV, the articles of incorporation as well as the latest annual and semi-annual report, can be obtained free of charge, in English, from the Administrative Agent, the distributors, the Management Company or online at www.fundsquare.net.

This key information document describes the Class of one sub-fund of the Fund. For more information about other sub-funds, please refer to the prospectus and periodic reports that are prepared for the entire Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific risks relevant to this product not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Recommended holding period (RHP): Example investment		5 years CHF 10,000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	CHF 6,410	CHF 1,910	
	Average return each year	-35.9%	-28.2%	
Unfavourable scenario	What you might get back after costs	CHF 6,410	CHF 7,590	This type of scenario occurred for an investment in the product between October 2021 and December 2023.
	Average return each year	-35.9%	-5.4%	
Moderate scenario	What you might get back after costs	CHF 10,550	CHF 11,040	This type of scenario occurred for an investment in the product between March 2014 and March 2019.
	Average return each year	5.5%	2.0%	
Favourable scenario	What you might get back after costs	CHF 15,630	CHF 16,360	This type of scenario occurred for an investment in the product between June 2016 and June 2021.
	Average return each year	56.3%	10.3%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

The Management Company is not making any payment to you in relation to the Sub-Fund and you would still be paid in case of a default from the Management Company.

The Sub-Fund's assets are held with a separate company, the Depository, so the Sub-Fund's ability to pay out would not be affected by the insolvency of the Management Company. However, in the event of the Depository's insolvency, or its delegates, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund. The Depository will also be liable to the Sub-Fund or its investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations).

If the Sub-Fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.

There is no compensation or guarantee scheme protecting you from a default of the Depository.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested

Investment of CHF 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	CHF 293	CHF 1,678
Annual cost impact (*)	2.9%	2.9%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9% before costs and 2.0% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this Class.	CHF 0
Exit costs	We do not charge an exit fee for this Class. The person selling you this product may charge up to 0.50%.	Up to CHF 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.21% of the value of your investment per year. This is an estimate based on actual costs over the last year.	CHF 221
Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 21
Incidental costs taken under specific conditions		
Performance fees	Paid annually to the investment manager and equivalent to 10.00% of the performance of the NAV per share exceeding the high water mark as defined in the prospectus. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	CHF 51

Conversions between sub-funds are subject to a commission of maximum 1.00% of the NAV of the shares to be converted.

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP was chosen to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The NAV for the Class is calculated on each business day ("the Valuation Day"). The cut-off time to submit subscription orders is 4 p.m., one business day before the relevant Valuation Day. The cut-off time to submit redemption orders is 4 p.m., one business day before the relevant Valuation Day.

How can I complain?

In the event a natural or legal person wishes to file a complaint with the Fund in order to recognize a right or to redress a harm, the complainant should address a written request that contains description of the issue and the details at the origin of the complaint, either by email or by post, in an official language of their home country to the following address:
