The fund is actively managed without reference to a benchmark.

Legal notice

The software used performs calculations on the basis of more than the two decimal places displayed. Minor discrepancies cannot be ruled out due to further calculations using published results.

The value of a unit is calculated by dividing the entire value of the investment fund inclusive of its income by the number of units. The total value of the investment fund is calculated on the basis of the current market prices of the securities, money market instruments and subscription rights in the fund plus the value of the fund's financial investments, cash holdings, credit balances, receivables and other rights net of its payables. That value will be calculated by the custodian bank.

The net assets are calculated in accordance with the following principles:

- a) The value of assets quoted or traded on a stock exchange or other regulated market shall be determined, in principle, on the basis of the most recently available price.
- b) Where an asset is not quoted or traded on a stock market or another regulated market or where the price for an asset quoted or traded on a stock market or another regulated market does not appropriately reflect its actual market value, the prices provided by reliable data providers or, alternatively, market prices for equivalent securities or other recognized market valuation methods shall be used.

Dear unitholder,

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. is pleased to present its annual fund report for Raiffeisen MegaTrends ESG Equities for the financial year from Apr 1, 2023 to Mar 31, 2024. The accounting is based on the price calculation as of Mar 29, 2024.

The performance is calculated assuming wholesale reinvestment of distributed/paid-out amounts at their net asset value on the distribution/payment date.

The Depotbank calculates the unit value separately for each unit certificate class. Discrepancies may arise in the annual performance figures for individual unit certificate classes.

The performance is calculated by Raiffeisen KAG on the basis of published fund prices, using the method developed by OeKB (Österreichische Kontrollbank AG). Individual costs such as transaction fees, the subscription fee, the redemption fee, the custody charges of the investor and taxes are not included in the performance calculation. If included, these would lead to a lower performance. Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. Based on the illustration, you can assess how the fund was managed in the past.

Realized closing price

| Realized fund result (excl. income adjustment) | | -5,583,580.22 |
|--|----------------|---------------|
| Realized closing price (excl. income adjustment) | -3,191,760.89 | |
| Losses realized from securities | -24,358,664.25 | |
| Profits realized from securities | 21,130,547.86 | |
| Distribution-equivalent | 36,355.50 | |

B. Unrealized closing price

| Change in unrealized closing price | 86,908,393.60 | |
|------------------------------------|---------------|---------------|
| Change in dividends receivable | -412,330.90 | |
| | | 86.496.062.70 |

C. Income adjustment

| Income adjustment for income during financial year | 20,420.60 |
|--|---------------|
| | 20,420.60 |
| Overall fund result | 80,932,903.08 |

The result for the past financial year includes explicitly reported transaction costs (incl. external transaction-related costs, see item 15a "Transaction costs" in section II of the prospectus) in the amount of 550,924.03 EUR.

Capital market report

The year 2023 ended on a positive note for most capital market investors thanks to a fulminant finish on the equity and bond markets in the final quarter. Many stock markets posted double-digit percentage gains for the year, but for a long time it did not look that way. It was only towards the end of the year that the markets eventually favoured more positive interest rate and economic scenarios in view of the incoming data. The negative outlier among the major stock markets over the past twelve months was China, where share prices fell sharply. The Chinese equity markets also weighed on the major international equity indices of the emerging markets and masked the fact that most emerging equity markets actually had a good year. In the first quarter of the new year, equities continued to rise for the most part, and the Chinese stock markets also started to recover. Several major indices in the USA, Europe and Asia climbed to new record highs.

Recessions, further interest rate hikes or the first interest rate cuts were repeatedly priced in and out during 2023, causing considerable price fluctuations not only in equities but also in bonds. Rising inflation rates and sharp interest rate hikes by many central banks caused bond yields to rise and bond prices to drop in almost all market segments for most of 2023. However, the interest rate hike cycles are over in most countries and some central banks are already lowering key interest rates again. In anticipation of rapid and substantial interest rate cuts in the USA and Europe, too, bond prices rose sharply in virtually all market segments towards the end of 2023. For most bond investors, 2023 was therefore a good year overall. The riskier market segments (high-yield bonds, emerging market bonds) showed the best performance. In recent weeks, however, the expectations for interest rate cuts in the USA were significantly scaled back again, at least for the current year. Fluctuations in the bond markets remain elevated.

Commodities came repeatedly under pressure in 2023. Prices for oil and gas, but also for many industrial metals, fell sharply. Only precious metals recorded slight gains thanks to rising gold prices. The gold price continued its rise in the new year and oil prices also gained ground. Among the major currencies, the Japanese yen and the Chinese yuan stood out in 2023 with significant weakness. While the Chinese currency has stabilized so far this year, the yen continued its decline. There has been relatively little movement between the euro and the US dollar over the past 12 months.

The distortions caused by the pandemic and lockdowns have been almost fully overcome. However, global economic relations and production chains are once again being shaken by escalating geopolitical confrontations and renewed conflicts in regions that are important transit points for trade routes. This is likely to result in lasting and serious upheavals in supply chains and global economic structures and could significantly change the competitive positions of entire industries and regions. This is compounded by the long-term challenges posed by climate change, demographics, and high levels of public debt in many countries. The financial market environment remains challenging and is likely to harbour major price fluctuations in almost all asset classes for the foreseeable future.

Fund investment policy report

Raiffeisen MegaTrends ESG Equities recorded a performance of over 14% in the reporting period. Although markets trended slightly weaker in the first six months, a rally began on stock markets worldwide in early November 2023 that continued through the end of the observation period. This upward trend was driven mainly by the technology sector, and in turn by the strong performance of the Magnificent Seven stocks, including Nvidia, Microsoft, Apple and Alphabet. The markets were also helped by the strong economic environment; neither the USA nor Europe slipped into a recession as was expected by some market observers, and consumers also remained in a buying mood which boosted corporate profits.

Within Raiffeisen MegaTrends ESG, "technological change" was the most successful trend, followed by "demographic change", where pharmaceuticals such as Novo Nordisk and Eli Lilly were among the strongest stocks since both companies have promising weight loss products on the market. Only the third trend, "climate change", did not meet expectations, with the subsector "renewable energy" especially causing widespread disappointment. Wind and solar energy stocks as well as hydrogen stocks were quite successful on the stock markets in previous years. In this reporting period however, setbacks occurred in the real economy (fewer orders) and on the stock market, which were also felt in the fund's performance.

The most successful stocks in the reporting period were therefore technology stocks such as Cyberark, AMD, Spotify and Intel, and pharmaceuticals such as Novo Nordisk. Stocks such as Meyer Burger (solar), Alibaba, Valeo and Orsted (wind power) dampened the overall performance.

Transparency of the attainment of the environmental and social characteristics

(Article 8 in conjunction with Article 11 of Regulation [EU] 2019/2088 / Disclosure Regulation)

For information about the attainment of the environmental and social characteristics, please refer to the annex "Environmental and/or Social Characteristics" to this annual report.

Makeup of fund assets in EUR

Any discrepancies in terms of the market value or the share of the fund assets result from rounding-off.

UCITS refers to units in an undertaking for collective investment in transferable securities

financial year Apr 1, 2023 - Mar 31, 2024

Raiffeisen MegaTrends ESG Equities

Information on securities lending transactions and repurchase agreements

Pursuant to the fund regulations, the fund does not enter into any repurchase agreements. Accordingly, the information concerning repurchase agreements which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

During the reporting period, no securities lending transactions were performed on behalf of the fund. Accordingly, the information concerning securities lending transactions which is stipulated in § 8 of the Austrian Securities Lending and Repurchase Agreement Ordinance and Art. 13 of Regulation (EU) No. 2015/2365 is not required.

Total return swaps and similar derivative instruments

A total return swap is a credit derivative instrument. Income and fluctuations in the value of the underlying financial instrument (underlying instrument or reference asset) are exchanged for fixed interest payments.

The fund did not enter into total return swaps or similar derivative instruments in the period under review.

Calculation method for overall risk

Calculation method for overall risk

Simplified approach

Remuneration paid to the employees of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. in EUR (financial year 2023 of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.)

| Total number of employees | 280 |
|--|---------------|
| Number of risk-bearers | 99 |
| Fixed remuneration | 27,084,610.23 |
| Variable remuneration (bonuses) | 2,658,223.10 |
| Total remuneration for employees | 29,742,833.33 |
| of which remuneration for managing directors | 1,332,891.89 |
| of which remuneration for managers (risk-bearers) | 2,231,761.41 |
| of which remuneration for other risk-bearers | 10,578,665.07 |
| of which remuneration for employees in positions of control | 230,294.55 |
| of which remuneration for employees in the same income bracket as managing directors and | |
| risk-bearers due to their overall remuneration | 0.00 |
| Total remuneration for risk-bearers | 14,373,612.92 |

The remuneration guidelines ("remuneration guidelines") issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. serve as a binding framework for fulfillment of the remuneration policy and practice requirements stipulated in §§ 17 (a) to (c) of the Austrian Investment Fund Act (InvFG), § 11 of the Austrian Alternative Investment Fund Managers Act (AIFMG) and Enclosure 2 to § 11 AIFMG. Fixed and variable remuneration components are determined on the basis of these remuneration guidelines.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has established a systematic, structured, differentiating and incentivizing compensation system which reflects the company's values as well as clear and consistent outline conditions. Its employees' compensation comprises fixed salary components as well as variable salary components for some positions. This remuneration – in particular, the variable salary component (where applicable) – reflects an objective organizational structure ("job grades").

Compensation is determined on the basis of regular market comparisons and in accordance with local remuneration practice. The goal is to encourage employees' long-term loyalty to the company while also promoting their performance and their development within the framework of a management or specialist career path. At Raiffeisen Kapitalanlage-Gesellschaft m.b.H., an employee's basic salary (fixed remuneration) is non-discretionary remuneration which does not vary in accordance with the performance of the company (earnings before interest and tax) or of the specific employee (individual target achievement). It primarily reflects relevant professional experience and organizational responsibility, as outlined in the employee's job description as part of his terms of employment. The employee's fixed salary is determined on the basis of his market value, his individual qualifications and the position which he holds at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. Raiffeisen Kapitalanlage-Gesellschaft m.b.H. uses all of the standard remuneration management instruments (e.g. domestic and foreign remuneration studies, salary bands, position grading).

The employee's variable salary reflects the achievement of company and performance targets which are specified and reviewed within the scope of a performance management process. Employees' targets are specified on the basis of the company's strategic targets, the targets of their organizational unit or department and their function. Target agreements are concluded and the employee's level of target achievement (= performance) is determined through annual performance appraisals ("MBO system"). The target structure at Raiffeisen Kapitalanlage-Gesellschaft m.b.H. differentiates between qualitative targets – which include individual targets or division and department targets – and quantitative targets, e.g. performance and income targets, and also quantifiable project targets. Every manager is also assigned management targets. Quantitative one-year or multiple-year targets also apply within the scope of the company's core activities of sales and fund management.

- Since the performance period 2015, in accordance with the regulatory requirements a portion of the variable remuneration for risk-bearers is paid out in the form of units in an investment fund managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. In addition, as required by law portions of the variable remuneration of risk-bearers are deferred and paid out over a period of several years.
- The supervisory board of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. resolves the general remuneration policy principles specified by the remuneration committee, reviews them at least once a year and is responsible for their implementation and for monitoring of this issue. The supervisory board most recently fulfilled this duty on Dec 01, 2023. It has not identified any need for changes or any irregularities in relation to the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- In addition, at least once per year a central and independent internal review determines whether the company's remuneration policy has been implemented in accordance with the applicable remuneration regulations and procedures. The internal auditing division of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. published its most recent report on Nov 06, 2023. This report has not resulted in any material findings concerning the remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.
- The remuneration policy of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has not been subject to any significant changes in the reporting period.

Remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. support the business strategy and the long-term goals, interests and values of the company and of the investment funds managed by Raiffeisen Kapital-anlage-Gesellschaft m.b.H.
- The remuneration principles of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. include measures to avoid conflicts of interest.
- The remuneration principles and policies of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. are consistent with and promote sound and effective risk-taking practices and avoid incentives for any inappropriate risk-taking propensity which exceed the level of risk tolerated by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. or the investment funds under its management.
- The total amount of variable remuneration will not limit the capacity of Raiffeisen Kapitalanlage-Gesellschaft m.b.H. to strengthen its capital base.
- Variable remuneration is not paid by means of instruments or methods which facilitate circumvention of applicable legal requirements.
- Employees in positions of control are rewarded irrespective of the business unit which they supervise, they have an
 appropriate level of authority and their remuneration is determined on the basis of the fulfillment of their
 organizational targets in connection with their functions, irrespective of the results of the business activities under
 their supervision.

- Guaranteed variable remuneration is not consistent with sound risk management or the "pay-for-performance" principle and should not be included in future remuneration plans. Guaranteed variable remuneration is the exception:, This is only provided in connection with new hirings and only where Raiffeisen Kapitalanlage-Gesellschaft m.b.H. has a sound and strong capital base. It is limited to the first year of employment.
- Any payments relating to the premature termination of a contract must reflect the performance realized over the relevant period of time and must not reward failures or misconduct.

Raiffeisen Kapitalanlage-Gesellschaft m.b.H. complies with the code of conduct for the Austrian investment fund industry 2012.

Vienna, 25 July 2024

Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

Audit opinion

Report on the annual fund report

Audit opinion

We have audited the annual fund report issued by Raiffeisen Kapitalanlage-Gesellschaft m.b.H., Vienna, for its fund Raiffeisen MegaTrends ESG Equities, consisting of the portfolio of investments as of March 31, 2024, the income statement for the financial year ending as of this date and the other disclosures required under Annex I Schedule B of the 2011 Austrian Investment Fund Act (Investmentfondsgesetz, InvFG).

In our view, the annual fund report complies with applicable statutory requirements and provides a true and fair view of the net assets and financial position as of March 31, 2024 as well as the earnings position for the fund for the financial year ending as of this date, in compliance with Austrian commercial law, the provisions of InvFG 2011.

Basis for the audit opinion

We performed our audit in accordance with § 49 (5) InvFG 2011 in accordance with Austrian principles of orderly auditing. These principles require application of the International Standards on Auditing (ISA). Our responsibilities on the basis of these requirements and standards are outlined in further detail in the "Responsibilities of the auditor for the audit of the annual fund report" section of our audit certificate. We are independent from the company, in compliance with Austrian commercial law and professional standards, and we have fulfilled our other professional duties in accordance with these requirements. In our view, we have obtained sufficient and suitable audit documentation as a basis for our audit opinion. In our view, the documentation we have obtained up to the date of this audit certificate forms a sufficient and suitable basis for our audit opinion of the same date.

Other information

The company's legal representatives are responsible for the other information provided. This other information comprises all of the information included in the annual fund report, with the exception of the portfolio of investments, the income statement, the other disclosures required under Annex I Schedule B InvFG 2011 and the audit certificate.

Our audit opinion for the annual fund report does not cover this other information, and we do not provide any sort of assurance in this regard.

In connection with our audit of the annual fund report, we have the responsibility to read such other information and, in doing so, assess whether this other information contains material inconsistencies with the annual fund report or with the knowledge obtained in our audit, or whether such information appears to be otherwise misrepresented.

If, on the basis of the work we have carried out in regard of the other information obtained prior to the date of the audit certificate, we conclude that a material misstatement of such other information exists, we are obliged to report the matter. We have nothing to report in this respect.

Responsibilities of the company's legal representatives and the supervisory board for the annual fund report

The company's legal representatives are responsible for the preparation of the annual fund report and for ensuring that it provides a true and fair view of the fund's net assets, financial and earnings position in compliance with Austrian commercial law and the provisions of InvFG 2011. The company's legal representatives are also responsible for the internal controls which they deem necessary in order to enable the preparation of an annual fund report which is free from material misrepresentations caused by fraudulent acts or errors.

The supervisory board is responsible for monitoring the company's accounting process in relation to the funds under its management.

Responsibilities of the auditor for the audit of the annual fund report

Our goals are to establish sufficient certainty as to whether the annual fund report as a whole is free from material misrepresentations caused by fraudulent acts or errors and to issue an audit certificate which includes our audit opinion. Sufficient certainty means a high level of certainty, but not a guarantee, that an orderly audit performed in accordance with the recognized Austrian principles, which require application of the ISA, will always uncover any material misrepresentation. Misrepresentations may result from malicious acts or on the basis of errors and will be deemed material where they may be reasonably expected, either individually or collectively, to influence the economic decisions made by users on the basis of this annual fund report.

As part of an audit complying with the recognized Austrian principles of orderly auditing, which require application of the ISA, we exercise due discretion throughout our audit and maintain a critical distance.

In addition, the following applies:

- We identify and assess the risks of material misrepresentations caused by fraudulent acts or errors in the annual fund report, plan audit activities in response to these risks, implement these activities and obtain audit documentation which is sufficient and suitable in order to serve as a basis for our audit opinion. The risk of material misrepresentations resulting from malicious acts not being uncovered is greater than the risk resulting from errors, since malicious acts may include collusive collaboration, falsifications, deliberate incompleteness, misleading representations or the suspension of internal controls.
- We obtain a picture of the internal control system which is relevant for the audit so as to plan audit activities which are adequate in the given circumstances, but not with the objective of providing an audit opinion regarding the effectiveness of the company's internal control system.
- We evaluate the adequacy of the accounting methods applied by the company's legal representatives as well as the reasonableness of the legal representatives' estimates in the accounting as well as the related disclosures.
- We evaluate the overall picture, the structure and the contents of the annual fund report including the disclosures and whether the annual fund report provides a true and fair view of the underlying business transactions and events.

We discuss matters with the supervisory board including the planned scope of the audit and its schedule as well as significant audit findings, including any significant shortcomings in the internal control system that we identify in the course of our audit.

Auditor in charge

The auditor in charge of the audit is Mr. Wilhelm Kovsca.

Tax treatment

Once the new reporting framework comes into effect (from Jun 6, 2016), Österreichische Kontrollbank (OeKB) will prepare the details of the tax arrangements for the fund and publish them on my.oekb.at. The tax documents are available for downloading for all funds. The tax documents are also available on our website www.rcm.at. Please visit my.oekb.at for detailed information on offsettable and reimbursable foreign taxes.

Fund regulations

Fund regulations pursuant to the 2011 Austrian Investment Fund Act

The Austrian Financial Market Authority (FMA) has approved the fund regulations for the investment fund Raiffeisen MegaTrends ESG Equities, a jointly owned fund pursuant to the 2011 Austrian Investment Fund Act, as amended (InvFG).

The investment fund is an undertaking for collective investment in transferable securities (UCITS) and is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. (hereinafter: the "management company") which is headquartered in Vienna.

Article 1 Fund units

The fund units are embodied in unit certificates with the character of financial instruments which are issued to bearer.

The unit certificates shall be represented by global certificates for each unit class. Actual securities are not issued.

Article 2 Custodian bank (depositary)

Raiffeisen Bank International AG, Vienna, is the investment fund's custodian bank (depositary).

The custodian bank (depositary), the regional Raiffeisen banks and other paying agents referred to in the prospectus are the paying agents for unit certificates.

Article 3 Investment instruments and principles

The following assets pursuant to InvFG may be selected for the investment fund.

Raiffeisen MegaTrends ESG Equities is an equity fund whose investment goal is long-term capital growth subject to higher risks. At the individual stock level (i.e., not including units in investment funds, derivative instruments and sight deposits or deposits at notice), it exclusively invests in securities and/or money market instruments whose issuers are classified as sustainable on the basis of so-called ESG (environmental, social, governance) criteria. At least 51 % of the fund assets are invested in the form of directly purchased individual securities in equities and equity-equivalent securities. The areas of technology, climate change, mobility, water and demographic change are taken into consideration during investment. The fund will not invest in companies in the arms industry or in companies which violate labor and human rights. The fund may also invest in other securities, in bonds and money market instruments issued by countries, supranational issuers and/or companies etc., in units in investment funds and in sight deposits and deposits at notice. The fund is internationally oriented.

The following investment instruments are purchased for the fund assets, while complying with the investment focus outlined above.

Where appropriate, the fund may purchase units in investment funds whose investment restrictions differ in terms of the investment focus outlined above and the restrictions specified below with regard to investment instruments. This will not affect the fund's compliance with the above investment focus at all times.

Securities

The fund may purchase securities (including securities with embedded derivative instruments) as permitted by law.

Money market instruments

Money market instruments may comprise up to 49 % of the fund assets.

Securities and money market instruments

Not fully paid-in securities or money market instruments and subscription rights for such instruments or other not fully paid-in financial instruments may only be purchased for up to 10 % of the fund assets.

Securities and money market instruments may be purchased if they comply with the criteria concerning listing and trading on a regulated market or a securities exchange pursuant to InvFG.

Securities and money market instruments which do not fulfill the criteria laid down in the above paragraph may be purchased for up to 10 % of the fund assets in total.

Units in investment funds

Units in investment funds (UCITS, UCI) may each amount to up to 10 % of the fund assets – and up to 10 % of the fund assets in total – insofar as these UCITS or UCI do not for their part invest more than 10 % of their fund assets in units in other investment funds.

Derivative instruments

Derivative instruments may be used as part of the fund's investment strategy for up to 20 % of the fund assets and for hedging purposes.

Investment fund's risk measurement method

The investment fund applies the following risk measurement method:

Commitment approach

The commitment figure is calculated pursuant to the 3rd chapter of the 4th Austrian Derivatives Risk Calculation and Reporting Ordinance (*Derivate-Risikoberechnungs- und Meldeverordnung*, DeRiMV), as amended.

The overall risk for derivative instruments which are not held for hedging purposes is limited to 20 % of the overall net value of the fund assets.

Sight deposits or deposits at notice

Sight deposits and deposits at notice with terms not exceeding 12 months may amount to up to 49 % of the fund assets. No minimum bank balance is required.

Within the scope of restructuring of the fund portfolio and/or a justified assumption of impending losses for securities, the investment fund may hold a lower proportion of securities and a higher proportion of sight deposits or deposits at notice with terms not exceeding 12 months.

Short-term loans

The management company may take up short-term loans of up to 10 % of the fund assets for account of the investment fund.

Repos

Not applicable.

Securities lending

Securities lending transactions may comprise up to 30 % of the fund assets.

Investment instruments may only be acquired uniformly for the entire investment fund, not for an individual unit class or for a group of unit classes.

However, this does not apply for currency hedge transactions. These transactions may only be entered into in relation to a single unit class. Expenses and income resulting from a currency hedge transaction shall exclusively be allocated to the relevant unit class.

Article 4 Issuance and redemption modalities

The unit value shall be calculated in EUR or the currency of the unit class.

The value of the units will be calculated on each banking day in Austria.

Issuance and subscription fee

Units will be issued on any banking day in Austria.

The issue price is based on the value of a unit. No subscription fee will be charged.

Unit issuance shall not in principle be subject to limitation; however, the management company reserves the right temporarily or entirely to discontinue its issuance of unit certificates.

Redemption and redemption fee

Units will be redeemed on any banking day in Austria.

The redemption price is based on the value of a unit. No redemption fee will be charged.

At the request of a unitholder, its unit shall be redeemed out of the investment fund at the applicable redemption price, against surrender of the unit certificate.

Article 5 Accounting year

The investment fund's accounting year runs from April 1 to March 31.

Article 6 Unit classes and appropriation of income

Income-distributing unit certificates, income-retaining unit certificates with payment of capital gains tax and income-retaining unit certificates without payment of capital gains tax may be issued for the investment fund.

Various classes of unit certificates may be issued for this investment fund. The management company may decide to establish unit classes or to issue units in a given unit class.

Appropriation of income for income-distributing unit certificates (income distribution)

Once costs have been covered, the income received during the past accounting year (interest and dividends) may be distributed at the discretion of the management company. Distribution may be waived subject to due consideration of the unitholders' interests. The distribution of income from the sale of assets of the investment fund including subscription rights shall likewise be at the discretion of the management company. A distribution from the fund assets and interim distributions are also permissible. The fund assets may not through distributions fall below the minimum volume for a termination which is stipulated by law.

From June 15 of the following accounting year the amounts are to be distributed to the holders of income-distributing unit certificates. Any remaining balances shall be carried forward to a new account.

In any case, from June 15 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distribution-equivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Appropriation of income in case of income-retaining unit certificates with payment of capital gains tax (income retention)

Income during the accounting year net of costs shall not be distributed. In case of income-retaining unit certificates, from June 15 an amount calculated pursuant to InvFG shall be paid out, to be used where applicable to meet any capital gains tax commitments on the distributionequivalent return on those unit certificates, unless the management company ensures through appropriate proof from the custodians that as of the payment date the unit certificates are only held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for an exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

Appropriation of income in case of income-retaining unit certificates without payment of capital gains tax (full income retention)

Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made. June 15 of the following accounting year shall be the key date pursuant to InvFG in case of failure to pay capital gains tax on the annual income. The management company shall ensure through appropriate proof from the custodians that at the time of payout the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption as per § 94 of the Austrian Income Tax Act or for a capital gains tax exemption.

If these preconditions have not been met as of the payment date, the amount calculated pursuant to InvFG shall be paid out by the custodian bank in the form of credit.

Appropriation of income in case of income-retaining unit certificates without payment of capital gains tax (full income retention – foreign tranche)

Income-retaining unit certificates without payment of capital gains tax shall only be sold outside Austria. Income during the accounting year net of costs shall not be distributed. No payment pursuant to InvFG will be made. The management company shall ensure through appropriate proof that as of the payment date the unit certificates may only be held by unitholders who are either not subject to Austrian income or corporate income tax or who fulfill the requirements for exemption pursuant to § 94 of the Austrian Income Tax Act or for a capital gains tax exemption. This can be validly proved by the cumulative submission of statements from both the custodian bank and the management company that they are not aware of a sale to other persons.

Article 7 Management fee, reimbursement of expenses, liquidation fee

The management company shall receive for its management activity an annual remuneration of up to 1.50 % of the fund assets that is calculated, recorded and deducted monthly on the basis of the respective fund assets for each calendar day.

The management company is entitled to reimbursement of all expenses associated with its management of the fund.

The management company shall be entitled to introduce a graduated management fee.

The costs arising at the introduction of new unit classes for existing asset portfolios shall be deducted from the unit prices of the new unit classes.

In case of the liquidation of the investment fund, the liquidator shall receive remuneration amounting to 0.5 % of the fund assets.

Please refer to the prospectus for further information on this investment fund.

Appendix

List of stock exchanges with official trading and organized markets

1. Stock exchanges with official trading and organized markets in the member states of the EEA, as well as stock exchanges in European countries which are not EEA members that are considered to be equal to regulated markets

Each Member State is required to maintain an updated register of regulated markets authorized by it. This register is to be made available to the other member states and to the Commission.

According to this provision, the Commission is obliged to publish once a year a register of the regulated markets of which it has received notice.

Due to decreasing restrictions and to trading segment specialization, the register of "regulated markets" is undergoing great changes. In addition to the annual publication of a register in the official gazette of the European Union, the Commission will therefore provide an updated version on its official internet site.

1.1. The current register of regulated markets is available at:

https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_upreg1

1.2. The following stock exchanges are to be included in the register of regulated markets:

| 1.2.1. | Luxembourg | Euro MTF Luxembourg |
|--------|-------------|---|
| 1.2.2. | Switzerland | SIX Swiss Exchange AG, BX Swiss AG ² |

1.3. Recognized markets in the EEA pursuant to § 67 (2) item 2 InvFG:

Markets in the EEA classified as recognized markets by the relevant supervisory authorities.

NOTICE

As soon as the United Kingdom of Great Britain and Northern Ireland (UK) loses its status as an EEA member state upon its departure from the EU, the stock exchanges / regulated markets located there will consequently also lose their status as EEA stock exchanges / regulated markets. In this regard, we would like to point out the following stock exchanges and regulated markets located in the UK:

Cboe Europe Equities Regulated Market – Integrated Book Segment, London Metal Exchange, Cboe Europe Equities Regulated Market – Reference Price Book Segment, Cboe Europe Equities Regulated Market – Off-Book Segment, London Stock Exchange Regulated Market (derivatives), NEX Exchange Main Board (non-equity), London Stock Exchange Regulated Market, NEX Exchange Main Board (equity), Euronext London Regulated Market, ICE FUTURES EUROPE, ICE FUTURES EUROPE - AGRICULTURAL PRODUCTS DIVISION, ICE FUTURES EUROPE - FINANCIAL PRODUCTS DIVISION, ICE FUTURES EUROPE - EQUITY PRODUCTS DIVISION and Gibraltar Stock Exchange

In these fund regulations, they shall explicitly be regarded as selected stock markets or recognized regulated markets of a third country within the meaning of the 2011 Austrian Investment Fund Act and the UCITS Directive.

2. Stock exchanges in European states which are not members of the EEA

| 2.1. | Bosnia & Herzegovina: | Sarajevo, Banja Luka |
|------|-----------------------|---|
| 2.2. | Montenegro: | Podgorica |
| 2.3. | Russia: | Moscow Exchange |
| 2.4. | Serbia: | Belgrade |
| 2.5. | Turkey: | Istanbul (for Stock Market, "National Market" only) |

3. Stock exchanges in non-European states

| 3.1. | Australia: | Sydney, Hobart, Melbourne, Perth |
|------|------------|--|
| 3.2. | Argentina: | Buenos Aires |
| 3.3. | Brazil: | Rio de Janeiro, Sao Paulo |
| 3.4. | Chile: | Santiago |
| 3.5. | China: | Shanghai Stock Exchange, Shenzhen Stock Exchange |
| 3.5. | China: | Shanghai Stock Exchange, Shenzhen Stock Exchange |

¹To open the register, in the left-hand column under "Entity type", select "Regulated market" and click "Search" (click "Show table columns" and "Update" as necessary). The link may be modified by the European Securities and Markets Authority (ESMA).

² Due to the expiry of equivalence for Swiss stock exchanges, SIX Swiss Exchange AG and BX Swiss AG are now included under Section 2 "Stock exchanges in European states which are not members of the EEA" until further notice.

Product name:

Raiffeisen MegaTrends ESG Equities

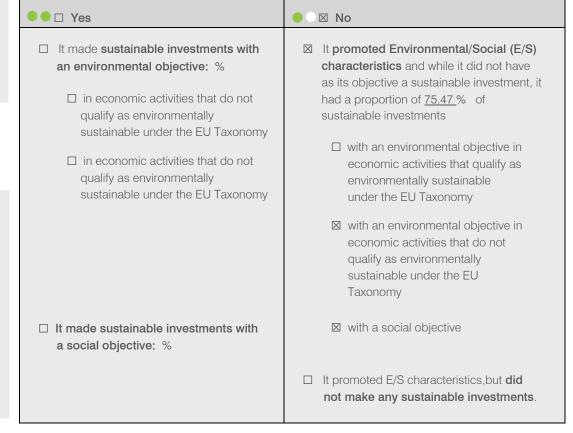

Legal entity identifier: 529900WQ21XZ52DAAC20

The product (the fund) is managed by Raiffeisen Kapitalanlage-Gesellschaft m.b.H. as management company. Fund Manager: Raiffeisen Kapitalanlage-Gesellschaft m.b.H.

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that theinvestment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulationdoes not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund took into account environmental and social criteria for investment, in particular climate change, natural capital & biodiversity, pollution and waste, environmental improvement opportunities (such as green technologies and renewable energy), human resources, product liability & safety, stakeholder relations and social improvement opportunities (such as access to healthcare). Corporate governance as well as entrepreneurial behaviour & business ethics (overall "good governance") were in any case prerequisites for an investment.

There was no limitation to specific environmental or social characteristics. No reference benchmark was designated for the achievement of the promoted environmental or social characteristics.

How did the sustainability indicators perform?

The Raiffeisen ESG indicator is used by the management company as an internal sustainability indicator. The management company continually analyses companies and sovereigns based on internal and external research sources. The results of this sustainability

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Enviromental and/or social characteristics

Did this financial product have a sustainable investment objective?

research are combined with a comprehensive ESG evaluation, including an ESG risk assessment, to create the so-called Raiffeisen ESG indicator. The Raiffeisen ESG indicator is measured on a scale from 0 to 100. The assessment also takes into account the relevant sector.

At the end of the accounting year the Raiffeisen ESG indicator was: 69.93

...and compared to previous periods?
 As of 31.03.2023: Raiffeisen ESG indicator 70.8
 As of 31.3.2022: Raiffeisen ESG indicator 66.6

qualify as a sustainable investment.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?
The objectives of the sustainable investments covered improvements in the areas of climate change, natural capital and biodiversity, pollution and waste, environmental improvement vectors (such as green technologies and renewable energy), human resources, product liability and safety, relationships with interest groups, and social improvement vectors (such as access to health care) compared with the traditional market. Good corporate governance, including business practices and business ethics, was a prerequisite for an investment in any case.

The sustainability of an economic activity was assessed on the basis of the internal Raiffeisen ESG corporate indicator. It combined a wide range of data points relating to environmental, social, and governance (ESG) factors. In addition to sustainability opportunities and risks, the contribution that the business activity made to sustainable objectives along the entire value chain was examined and transformed into qualitative and quantitative ratings. An important part of this was the sustainable influence of the respective products and/or services (economic activity).

At the end of the accounting year, the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective? To avoid significant adverse impacts on an environmental or social sustainable investment objective, securities that violate negative criteria as defined by the management company for this purpose and relating to environmental and social objectives (such as the extraction and use of coal, labour rights violations, human rights violations, and corruption) did not

How were the indicators for adverse impacts on sustainability factors taken into account?

See the information under "How did this financial product consider principal adverse impacts on sustainability factors?".

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The positive and negative criteria contained in the investment strategy covered all aspects of the OECD Guidelines for Multinational Enterprises (such as avoidance of environmental destruction, corruption, and human rights violations as well as

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

adherence to the core ILO labour standards). The fund management continuously monitored various channels of information such as the media and research agencies to determine whether investments are affected by serious controversies. In addition, the fund assets were assessed for potential violations of the OECD Guidelines for Multinational Enterprises by means of a screening tool from a recognised ESG research provider. A company that did not comply with the OECD Guidelines for Multinational Enterprises was not eligible for investment. A violation was assumed to exist if a company was involved in one or more controversial incidents in which there were credible allegations that the company or its management had caused substantial damage of a significant scope in violation of global standards.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Unioncriteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The consideration of the principal adverse impacts of investment decisions on sustainability factors occured through negative criteria, through the integration of ESG research into the investment process (ESG scores), and in security selection (positive criteria). The use of positive criteria included the absolute and relative assessment of companies regarding stakeholder-related data, e.g. relating to employees, society, suppliers, business ethics, and the environment. In addition, the instrument of shareholder engagement was used with companies in the form of corporate dialogue and especially the exercise of voting rights so as to reduce adverse sustainability impacts. These shareholder engagement activities were conducted irrespective of any concrete investment in the respective company and are not documented at the fund level at the moment. The table shows the topics from which sustainability scores for adverse impacts were considered in particular, as well as the main methods that were applied.

| Companies | | Negative criteria | Positive criteria |
|-----------------------|---|-------------------|-------------------|
| | Greenhouse gas emissions | \checkmark | \checkmark |
| | Activities with adverse impacts on areas with protected biodiversity | \checkmark | \checkmark |
| | Water (pollution, consumption) | | \checkmark |

What was the proportion of sustainability-related investments?

Sustainability-related investments refer to all investments that contribute to the achievement of the environmental and/or social characteristics within the scope of the investment strategy.

What was the asset allocation?

The values given below refer to the end of the accounting year. Shares in investment funds are not calculated through for the purpose of the asset allocation calculation displayed below. #1, #1A and #2 refer to the total fund.

At the end of the reporting period 99.65% of total fund assets were aligned with environmental or social characteristics according to the investment strategy (#1, see also information under " To what extent were the environmental and/or social characteristics promoted by this financial product met? "). 0.35 % of total fund assets were other investments (#2, see also information under "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?").

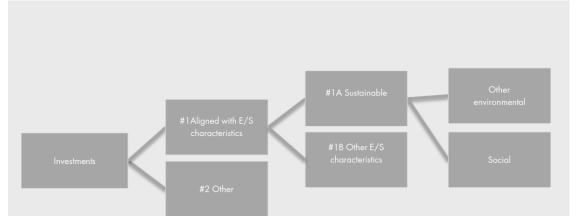

75.47 % of total fund assets were sustainable investments with environmental or social objectives aligned with Art. 2 (17) of Regulation (EU) 2019/2088 (Sustainable Finance Disclosure Regulation) (#1A, see also information under "What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?" and " What was the share of socially sustainable investments?").

Asset allocation describes the share of investments in specific assets.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: financial year Apr 1, 2023 -

Mar 31, 2024

#1 Aligned with E/Scharacteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/Scharacteristics covers:

The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investment.

In which economic sectors were the investments made?

| Investment structure | Proportion Fund in % |
|----------------------------|----------------------|
| Information Technology | 25,56 |
| Industrials | 18,65 |
| Consumer Discretionary | 16,72 |
| Health Care | 14,85 |
| Telecommunication Services | 7,70 |
| Materials | 7,61 |
| Sonstige / Others | 8,90 |
| Gesamt / Total | 100,00 |

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or lowcarbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enableother activities to make a substantial contribution to an environmental objective.

performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

At the end of the accounting year, the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy ³?

□ Yes:

³Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The

□ In fossil gas □ No.

□ In nuclear energy

Not applicable.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

| Taxonomy alignment of investments including sovereign bonds* | | | Taxonomy alignment of investments excluding sovereign bonds * | | | | |

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

At the end of the accounting year, the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

How did the percentage of investments that were aligned with the EU Taxonomycompare with previous reference periods?

Within previous reference periods the level of investments in economic activities that are environmentally sustainable within the meaning of the EU Taxonomy Regulation did not exceed a de minimis level.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The sustainability of an economic activity is assessed on the basis of the Raiffeisen ESG indicator. As this is comprised of environmental and social objectives, it is not sensible to differentiate between the individual shares for environmental and social investments. At the end of the accounting period, the actual share of investments that pursued environmental and social objectives was 75,47% of the fund assets.

What was the share of socially sustainable investments?

The sustainability of an economic activity is assessed on the basis of the Raiffeisen ESG indicator. As this is comprised of environmental and social objectives, it is not sensible to differentiate between the individual shares for environmental and social investments. At the end of the accounting period, the actual share of investments that pursued environmental and social objectives was 75.47 % of the fund assets.

full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflects the "greenness" of investee companies today.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies

(P)

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments that were not aligned with environmental or social characteristics were sight deposits. Sight deposits were not subject to the sustainability criteria of the investment strategy and were primarily used for liquidity management. Accruals and deferrals were included in the position "other".

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The attainment of the environmental and/or social characteristics promoted by the fund was continuously monitored against defined limits as part of the internal limit system.

The development of the sustainability indicator was checked at the end of the reporting period and disclosed in the fund's annual report. As part of the internal limit system, the MSCI ESG score was continuously monitored and checked against defined limits with regard to the application of environmental and/or social characteristics. The defined negative criteria were checked on a daily basis as part of the internal limit system, except otherwise specified.

With regard to ESG (environmental, social, and governance) factors, the investment strategy contained mandatory negative criteria, a comprehensive sustainability-related analysis, and the construction of a portfolio taking the ESG score and ESG momentum into account. During this process, especially high importance was placed on the quality of the company and the business model. A high degree of sustainability and fundamental strength were the key aspects for an investment. Only units of investment funds that consider sustainability criteria or have sustainable investment as their objective (Art. 8 and Art. 9 of the Disclosure Regulation / Regulation (EU) 2019/2088) were purchased.

More detailed information on the implementation of the engagement policy can be found in the annual engagement report on the website of the management company in the section "Our Topics/Sustainability" within the paragraph "Policies & Reports".
