Name of Competent Authority:	Commission de Surveillance du Secteur Financier (CSSF)
PRIIP is authorised in:	Luxembourg
Date of production of the KID:	01/11/2023

What is this product?

Type

The fund qualifies as a UCITS governed by Luxembourg law.

Term

This product does not have any minimum investment period, but the product is meant for medium to long-term investing and the minimum recommended investment period is 5 years. The minimum recommended investment period is based on the risk/return profile of the fund. If you dispose of the fund before the minimum recommended investment period, there will be a greater risk for the value fluctuation of the fund.

Objectives

The fund aims to provide long-term total returns principally through capital appreciation by investing in equity securities of quality companies located in or with significant business interests in China, which offer superior growth. These securities are listed in onshore China as well as in other jurisdictions where Chinese companies are listed, including Hong Kong, the U.S., the U.K. and Germany.

The fund is actively managed in reference to the MSCI China Total Return Net Index (USD) for performance comparison and risk management. The fund will invest in equity securities of companies located in or with significant business interests in China. Investment in China is permitted in A-Shares (through Stock Connect and the Qualified Foreign Institutional Investor Program), B-Shares, H-Shares (listed on the Hong Kong market) and American Depositary Receipts. A-shares listed on the STAR Board Market are not expected to represent more than 5% of the fund's net assets, although this may be higher. The investment process of the fund is primarily based on fundamental research, although the Investment Manager will also consider quantitative and technical factors. The Investment Manager will assess the economic outlook for China and relevant markets, including expected growth, market valuations and economic trends. Stock selection decisions are ultimately based on an understanding of the company, its business and its outlook.

The fund may use derivatives (such as options, futures, forwards and swaps) to achieve the investment objective and to reduce risk or manage the fund more efficiently.

For full details of the investment objective and policy of the fund, please refer to the prospectus.

The share class of this fund does not pay any dividends. Any income the fund makes will be reinvested to grow your investment.

You can buy and sell shares on any day in which banks in Luxembourg are open for normal banking business, subject to the terms in the prospectus.

Intended retail investor

This fund is most suitable for investors who consider investment funds as a convenient way of investing. Investors should have experience with investing and be prepared to accept the risks associated with higher growth investments in order to maximize potential returns. Investors in this fund should be willing to tolerate moderate to high fluctuations in the value of their investment.

What are the risks and what could I get in return?

Risk indicator

Lower Risk

Higher Risk

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level and poor market conditions are very unlikely to impact our capacity to pay you. Due to effects of unusual market conditions, other risks could be triggered, such as: counterparty risk and liquidity risk. Please refer to the prospectus for more detail. This product does not include any protection from future market performance so you could lose some or all of your investment.

The risk indicator assumes you keep the product for 5 years.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or a suitable benchmark supplemented over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years			
Investment amount 10,000 \$			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose all of your investment.		
Stress Scenario	What you might get back after costs	2,190 \$	1,410 \$
	Average return each year	-78.10 %	-32.42 %
Unfavourable Scenario	What you might get back after costs	5,470 \$	5,880 \$
	Average return each year	-45.30 %	-10.08 %
Moderate Scenario	What you might get back after costs	10,640 \$	14,810 \$
	Average return each year	6.40 %	8.17 %
Favourable Scenario	What you might get back after costs	16,230 \$	28,460 \$
	Average return each year	62.30 %	23.27 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavorable scenario occurred during the period 06/2021 - 09/2023, the moderate scenario occurred 05/2014 - 05/2019 and the favorable scenario occurred 02/2016 - 02/2021.

What happens if RBC Global Asset Management Inc is unable to pay out?

The investor may not face a financial loss due to the default of RBC Global Asset Management Inc.

The assets of the fund are held in safekeeping by its depositary, RBC Investor Services Bank S.A. (the Depositary). In the event of the insolvency of RBC Global Asset Management Inc, the funds assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the fund. The Depositary will also be liable to the fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary). Investors in the fund are not covered by any compensation scheme and could, in the worst case, lose their entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 \$ is invested

	If you exit after 1 year	If you exit after 5 years
Total Costs	216 \$	1,670 \$
Annual Cost Impact (*)	2.2 %	2.3 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.51 % before costs and 8.17 % after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry Costs	We do not charge an entry fee for this product.	0 \$
Exit Costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 \$
Ongoing costs		
Management fees and other administrative or operating costs	0.95 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	95 \$
Transaction costs	1.209 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	121 \$
Incidental costs taken under specific conditions		
Performance fees and carried interest	There is no performance fee for this product.	0 \$

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This fund does not have any minimum investment period, but the fund is meant for medium to long-term investing and the minimum recommended investment period is 5 years. The minimum recommended investment period is based on the risk/return profile of the fund. You can sell shares in the fund every day which is a business day in Luxembourg without any exit charges. However, if you sell before the minimum recommended investment period, there will be a greater risk for the value fluctuation of the fund.
